UNDERGRADUATE BULLETIN

Mission and Vision

The University of Akron, a publicly assisted metropolitan institution, strives to develop enlightened members of society. It offers comprehensive programs of instruction from associate through doctoral levels; pursues a vigorous agenda of research in the arts, sciences, and professions; and provides service to the community. The university pursues excellence in undergraduate education and distinction in selected areas of graduate instruction, inquiry, and creative activity.

Commitments and vision:

The University of Akron maintains a commitment to:

- Provide learning opportunities for the full spectrum of students;
- Create and discover knowledge through basic and applied research and creative activity;
- Create a learning environment with emphasis on a full collegiate experience for each student, leading to opportunities for cognitive, social, and personal development;
- Provide a forum for the examination of ideas and concepts and the generation of scholarly dialogue within the established principles of academic freedom;
- Encourage opportunities for interdisciplinary study and research;
- Strive for continued improvement of the teaching and learning environment;
- Prepare career oriented people for professional leadership roles in regional, national, and international organizations and institutions; and

Offer appropriate educational and professional services to its various constituencies within available resources and established continuing education and outreach philosophies.

The University of Akron maintains a vision of:

- Being a leading public urban research university with an unsurpassed commitment to community engagement with a great American legacy city, Akron;
- Being an opportunity university for all types of learners;
- Being known as a willing and constructive partner of business, government and the non-profit sector;
- Being an institution of innovation willing to invest in unique approaches that increase opportunity for students and reduce costs;
- Being a diverse and inclusive university. We will sponsor an array of superb academic programs relevant to the future;
- Making and keeping promises to our students, ourselves and this community.

Equal Education and Employment Institution

The University of Akron is an equal education and employment institution. Pursuant to Ohio Administrative Code Section 3359-38-01(A) (2), it is the policy of this institution that there shall be no unlawful discrimination against any individual in employment or in its programs or activities at the University of Akron because of race, color, religion, sex, sexual orientation, gender identity or expression, age, national or ethnic origin, disability, status as a parent during pregnancy and immediately after the birth of a child, status as a parent of a young child, status as a foster parent, military status, genetic information, or status as a veteran. The University of Akron prohibits sexual harassment of any form in all aspects of employment and in its programs and activities and prohibits discrimination on the basis of sexual or ethnic orientation in employment and admissions.

This nondiscrimination policy applies to all students, faculty, staff, employees and applicants for employment and applicants for admission to the university and its programs and activities. All judgments about admissions, education and personnel evaluations at the University of Akron will be based on merit, qualifications and performance and not on attributes unrelated to academic or job performance.

Complaints of possible sex and other forms of discrimination should be referred to:

EEO/AA Office

Tami Zupkow Hannon, Director, EEO/AA
Akron, OH 44325-4709
Phone: (330) 972-7300
<http://www.uakron.edu/hr/eeoaa/>

Title IX

To ensure compliance with Title IX and other federal and state civil rights laws, the University has a designated University Title IX Coordinator. The coordinator is charged with monitoring compliance with Title IX and ensuring that reports of sex discrimination, sexual harassment and sexual violence are investigated and addressed by the University.

Any student, faculty or staff member with questions or concerns about the applicable University policies or who believes that he or she has been the victim of sex discrimination, sexual harassment or sexual violence is encouraged to contact The University of Akron's Title IX Coordinator.

Services and support for branch campuses are integrated. Students attending classes at branch campuses including The Wayne College and the Medina County University Center are provided the same support and resources as all University of Akron students and are welcome to seek services at whichever location is most convenient.

Title IX team

Interim Title IX Coordinator
Mike Strong, Associate Vice President and Dean of Students
Student Union, Room 152
330-972-6048
mstrong@uakron.edu

Deputy Title IX Coordinator for Students
Dr. Bryan Robinson, Assistant Dean of Students
Student Union, Room 152
330-972-6048
brobinson@uakron.edu

Deputy Title IX Coordinator for Regional Campuses
Gordon Holly, Assistant Dean of Student Success
Wayne Campus, Boyer HPE Building, Room E242
330-972-8900
gholly@uakron.edu

Deputy Title IX Coordinator for Athletics
Jacklin Wallgren, Senior Associate Athletic Director Instructional Services
InfoCision Stadium 269
330-972-5512
jwallgren@uakron.edu

Deputy Title IX Coordinator for Employees

Emily Lenke, Director Employee and Labor Relations
Administrative Services Building, Room 125E
330-972-6195
emf22@uakron.edu

Deputy Title IX Coordinator for Law School
Andrew Costigan, Assistant Dean of Student Affairs
McDowell Law Center 106
330-972-5170
acc142@uakron.edu

Misconduct can be reported to the university by filing online (<https://www.uakron.edu/title-ix/report/>), or by calling UA's Title IX professionals who are trained to help. You do not need to disclose any personal information.

The University of Akron does not discriminate on the basis of sex as is prohibited by Title IX as well as by the University of Akron Gender Based Misconduct and Title IX Policy and Protocol as well as the University of Akron Anti-Discrimination and Harassment Policy. The prohibition on discrimination extends to admissions and employment. Information about these policies can be found here (<https://www.uakron.edu/title-ix/>).

Disclaimer

While every effort is made to provide accurate and up-to-date information, the University reserves the right to change, without notice, statements in the Bulletin series which include, but are not limited to rules, policies, procedures, fees, curricula, courses, programs, activities, services, schedules, course availability, or other matters. For example, programs may be modified due to limited resources or facilities, unavailability of faculty, insufficient enrollment, or other such reasons as the University deems necessary.

Please note that editions of this Undergraduate Bulletin prior to 1994-95 were titled the "General Bulletin."

The *Undergraduate Bulletin* is published once each year by the Office of Academic Affairs (<https://www.uakron.edu/provost/>), Buchtel Hall 102.

Colleges and Programs

The University of Akron offers comprehensive programs of instruction leading to the associate (two-year), bachelor's (four-year), master's (graduate), and doctoral (graduate or professional) degrees.

Buchtel College of Arts and Sciences

- Departments and Programs (p. 13)
- About the College (p. 11)
- College Website (<https://www.uakron.edu/bcas/>)

Buchtel College of Arts and Sciences is the largest and oldest degree-granting college at The University of Akron. In addition to providing a world-class education in an array of associate's, bachelor's, master's and doctoral degree programs, Buchtel College provides the majority of general education courses for the University. E.J. Thomas Performing Arts Hall (<https://www.uakron.edu/ej/>), the region's flagship performance venue, is home to many arts performances for the college.

Qualified students seeking hands-on career exploration experiences can enroll in internships and co-op opportunities. All students are encouraged to pursue experiential learning through curricular and co-curricular experiences on campus, in research settings, and in the community.

Students wishing to enrich their majors by completing a certificate, a minor or a double major are encouraged to do so. Interdisciplinary studies are readily available to Arts and Sciences students through the Biomedical Science major, the Humanities Division major, the Social Sciences Division majors and the Bachelor of Arts in Multidisciplinary Studies program.

The College has five administrative divisions:

- The Arts Division includes:
 - Mary Schiller Myers School of Art
 - School of Dance, Theatre, and Arts Administration
 - School of Music
- The Education Division includes:
 - LeBron James Family Foundation School of Education
- The Humanities Division includes:
 - English
 - Modern Languages
 - Philosophy
- (<https://www.uakron.edu/philosophy/>)The Natural Sciences Division includes:
 - Biology
 - Chemistry
 - Geosciences
 - Physics
 - Mathematics
 - Statistics
- The Social Sciences Division includes:
 - Anthropology
 - School of Communication
 - Criminal Justice Studies
 - History
 - Political Science
 - Psychology
 - Public Administration and Urban Studies (graduate only)
 - Sociology

College of Business

- Departments and Programs (p. 352)
- About the College (p. 350)
- College Website (<https://www.uakron.edu/cba/>)

The College of Business is a professional college of the University that is dedicated to teaching, business research and public service. The College is accredited by AACSB International - The Association to Advance the Collegiate Schools of Business and offers accredited baccalaureate and master's degree programs during the day and evening.

The College of Business is home to:

- George W. Daverio School of Accountancy
- Economics
- Finance
- Management
- Marketing

College of Engineering and Polymer Science

- Departments (p. 432)
- Programs (p. 433)
- About the College (p. 431)
- College Website (<https://www.uakron.edu/ceps/>)

The College of Engineering and Polymer Science (CEPS) provides educational opportunities at both the undergraduate and graduate levels for students who wish to pursue careers in engineering, engineering technology, computing, and polymer science.

College of Health and Human Sciences

- Departments and Programs (p. 557)
- About the College (p. 557)
- College Website (<https://www.uakron.edu/health/>)

Students in nursing, dietetics, audiology, speech-language pathology, social work and other fields learn side by side so that as professionals, it will be natural to treat patients collaboratively.

Students benefit from close college ties with such health systems as the Cleveland Clinic Foundation, Summa Health System, Akron Children's Hospital, the Northeast Ohio Medical University and the Austin BioInnovation Institute in Akron. Students engage in state-of-the-art simulation experiences, gain clinical experience and spend ample time learning collaboratively with fellow students and seasoned professionals in many disciplines.

Williams Honors College

- About the College (p. 647)
- College Website (<https://www.uakron.edu/honors/>)

The Williams Honors College supports high achieving and highly motivated students with challenging curriculum options, honors classes, academic scholarships, priority in registration, an opportunity to live in the Honors Residence Hall Complex, and enhanced computer and study facilities. Williams Honors College students who complete the requirements of their academic majors and of the Williams Honors College with cumulative grade-point averages of at least 3.40 are recognized at graduation as Williams Honors Scholars.

Graduate School

www.uakron.edu/gradsch/ (<http://www.uakron.edu/gradsch/>)

The Graduate School offers advanced study to students who wish further education beyond the baccalaureate degree with programs leading to the master's degree as well as the doctoral degree. A separate publication detailing admission procedures and individual study requirements for graduate work is available from the Graduate School.

Graduate School

The University of Akron
Polsky Building, Room 469
Akron, OH 44325-2101

School of Law

www.uakron.edu/law/ (<http://www.uakron.edu/law/>)

The School of Law provides legal education through day and evening classes and full and part-time programs leading to the Juris Doctor degree. JD candidates typically begin studies in the fall semester, but they may begin in January. They may obtain Certificates in Litigation, Constitutional Law, Intellectual Property, and Health Law. JD candidates may also pursue the following joint degrees with other colleges: JD/MBA, JD/MTax, or JD/MSA in Financial Forensics (with the College of Business Administration), JD/MPA (Master of Public Administration, with the Department of Public Administration and Urban Studies), JD/MAP (Master of Applied Politics, with the Bliss Institute). The School of Law also offers an advanced degree, the LL.M. in Intellectual Property. JD students may enroll in the Joint JD/LL.M. Program, in which they can earn both degrees in three years. Otherwise, an applicant for the LL.M. program must have a JD degree from an American law school or an equivalent degree from a foreign law school. An applicant to the JD program must take the Law School Admission Test and have a baccalaureate degree from an accredited college or university for JD admission. No particular course of undergraduate study is required for admission. Also, an applicant with a foreign law degree may apply for an accelerated program to receive the JD in two years. The School of Law has recently added a Masters in the Studies of Law. An applicant to the MSL program is not required to take the Law School Admission Test. A separate publication detailing admission requirements and the procedure for applying may be obtained by calling (330)972-7331, or (800) 4-AKRON-U, or by e-mail: lawadmissions@uakron.edu.

Buchtel College of Arts and Sciences

College Requirements

Admission

The Buchtel College of Arts and Sciences admits current University students who are not already in the college if they have satisfied the following criteria:

- Completed a minimum of 30 semester credit hours
- Completed at least 6 credits of English Composition for the general education requirement
- Completed at least 3 credits of mathematics or statistics applicable to the general education requirement
- Have a minimum grade-point average of 2.00 in all work attempted in the major field, including transfer work until 30 UA credits are earned (excluding Political Science which requires 2.2)
- Have a minimum grade-point average of 2.00 in all University work, including transfer work until 30 UA credits are earned (excluding Political Science, English, and Sociology which require 2.2; excluding The LeBron James Family Foundation School of Education which requires 2.5; and excluding Communication which requires 2.1)
- Music students must test into at least Theory I Placement and audition into at least 100 Applied Instruction; Dance students must successfully audition
- Received approval of the Dean of the College

Transfer Students

Students transferring into the Buchtel College of Arts and Sciences from universities other than The University of Akron must satisfy the same Buchtel College of Arts and Sciences admission requirements as University of Akron students.

A student transferring to the School of Art from another institution must submit a portfolio of work for approval before admission. A student

transferring from another college or institution into the music program must complete a placement examination and perform an audition. A student transferring from another college or institution into the Dance program must perform an audition.

Other Admission

Students accepted into the Williams Honors College as arts and sciences majors are automatically admitted into the Buchtel College of Arts and Sciences. Incoming freshmen with appropriate credentials may receive direct admission to the Buchtel College of Arts and Sciences upon application.

Baccalaureate Degrees

Requirements for the bachelor's degree include:

- Completion of the General Education (<https://www.uakron.edu/general-education/>) requirement
- Completion of requirements in a major field of study in the college. A major consists of a specified number of credits in addition to the required General Education and, in the case of most Bachelor of Arts and Bachelor of Science degrees, foreign language courses/proficiency. The exact requirements for each major are found in the respective curriculum guide
- All degrees require a minimum of 40 credits of:
 - 300/400-level courses in the student's major department, except workshops
 - 300/400-level courses outside the student's major department, except workshops
 - Courses outside the major department as specified and approved by the student's major advisor and the department chair or school director (permission should be obtained prior to enrollment), except workshops
 - For programs with restrictive external accreditation requirements, 200 level courses within the major may be identified as constituting advanced work by the student's advisor and department chair or school director (permission should be obtained prior to enrollment)
- Demonstration of ability to use English and, in the case of most Bachelor of Arts and Bachelor of Science degrees, another language:
 - For English, this ability will be shown by the completion of the General Education sequence for English Composition
 - For the other language, this ability will be shown by completion of the second year (202 at UA) of a foreign language at the University level. A student may place at any point in the language sequence so this is **not** a credit hour requirement but rather a course completion requirement for an Intermediate II course. Students who place above the 202 level must take one course to demonstrate proficiency. Demonstration of equivalent competence gained through non-academic "life experience" may be allowed through a test approved by the Department of Modern Languages contingent upon the availability of an appropriate test. The Department of Modern Languages does not offer credit by examination. Native speakers of a language other than English may be exempted from the foreign language requirement upon providing evidence of competence in the four basic language skills (speaking, reading, writing and listening comprehension) at a level equivalent to or higher than successful completion of the second year of instruction in the language at the University level. No credit is granted for exemption from the foreign language requirement. Sign Language is acceptable toward the foreign language requirement. You must complete the five courses listed

below (totaling 14 credits) in the sign language sequence to satisfy the requirement:

Code	Title	Hours
SLPA:222	Survey of Deaf Culture in America	2
SLPA:201 & SLPA:202	American Sign Language III and American Sign Language IV	6
SLPA:101 & SLPA:102	American Sign Language I and American Sign Language II	6

- Students in the Schools of Art and Music may apply not more than two credits of physical education activities to their degree; students in the School of Communication and in Theatre programs may apply not more than two credits of physical education activities, eight credits of applied music or four credits of music organizations to their degree; students in Dance programs may apply not more than two credits of physical education activities and 12 credits of dance organizations to their degree
- Attaining a minimum grade-point average of 2.00 for all courses in the major Department/School at The University of Akron, unless otherwise required by the major Department/School
- Fulfilling the University requirements for a baccalaureate degree

Any student who wishes to receive a second baccalaureate degree must complete 30 credits of coursework in addition to the credits necessary for the first degree; 15 of the 30 credits must be in 300/400-level courses or other approved courses.

Degrees Awarded

- *Arts Division*: Bachelor of Arts, Bachelor of Fine Arts (Ceramics, Dance, Graphic Design, Jewelry & Metalsmithing, Photography, Painting/Drawing, Printmaking, Sculpture), Bachelor of Music
- *Education Division*: Bachelor of Arts, Bachelor of Science
- *Humanities Division*: Bachelor of Arts
- *Natural Sciences Division*: Bachelor of Arts, Bachelor of Science
- *Social Sciences Division*: Bachelor of Arts, Bachelor of Science, Associate of Applied Science in Criminal Justice Technology
- *Interdisciplinary Studies*: Bachelor of Arts, Bachelor of Science, Bachelor of Arts in Multidisciplinary Studies

Interdisciplinary, Divisional and Partner Programs

Bachelor of Arts in Multidisciplinary Studies

This degree meets the needs of students who have a multidisciplinary academic goal. It expands opportunities for non-traditional students to complete their degrees at The University of Akron by allowing them to combine courses in a structured manner from various colleges to design a program suited to their needs.

Divisional Majors

Biomedical Science

This divisional major provides for a broad background in science suited to students who intend to pursue careers or further education in a health science area. It is an appropriate major for those preparing for admission to professional programs in medicine, dentistry or veterinary science or for those desiring a Liberal Arts degree with a general emphasis in science. Additional coursework may be necessary for those planning graduate studies in a particular science discipline.

Humanities

This divisional major is appropriate for those desiring a Liberal Arts degree with a general emphasis in the humanities. The humanities division consists of the Departments of English, Modern Languages and Philosophy. These disciplines and the disciplines of anthropology, classical studies, history and the creative and dramatic arts (art, music, theatre arts) are included in a prescribed manner in this divisional degree.

Social Sciences

This divisional major is appropriate for those desiring a Liberal Arts degree with a general emphasis in the social sciences. The social sciences divisional degree tracks consist of coursework from the Departments of Economics, Political Science, Psychology, and Sociology. Students may select one of two specialized tracks:

- **Social Sciences – PPE Track:** The Social Sciences division PPE track consists of courses from the departments of Philosophy, Political Science and Economics.
- **Social Sciences – PSP Track:** The Social Sciences division PSP track (Understanding Ourselves and Others) consists of courses from the departments of Philosophy, Sociology, and Psychology.

Early Assurance Pathway Program

The Early Assurance Pathway program is a partnership wherein current UA students apply for provisional admission to NEOMED in their sophomore year of college. Each year NEOMED will admit up to 35 UA students into the program.

Phase 1 is the undergraduate portion of the partnership. UA students may pursue any of UA's degree programs; however, it is recommended that students pursue the Bachelor of Science in Biomedical Science under the Biology department. This coursework meets the NEOMED admission requirements and focuses chiefly on studies in the humanities, social studies, and all basic premedical sciences to prepare students for the medical school curriculum. After students apply to NEOMED in their sophomore year and are provisionally admitted to the Early Assurance Pathway program, they complete their UA degree requirements, maintain the required grade point averages, achieve the required scores on the Medical College Admission Test (MCAT), and meet all other standards of readiness for medical education during their junior and senior years before being promoted directly to NEOMED for Phase 2 of the program.

Phase 2 consists of a four-year medical school course of study, at the NEOMED campus and at selected clinical campuses, leading to the M.D. degree.

Early Acceptance Program (EAP)

The Early Acceptance Program (EAP) is a four-year undergraduate program of study at The University of Akron leading to Lake Erie College of Osteopathic Medicine (LECOM) with a reserved seat in their College of Osteopathic Medicine, School of Dental Medicine, or School of Pharmacy.

Each year LECOM can admit up to five UA students into their College of Osteopathic Medicine, School of Dental Medicine, or School of Pharmacy. Students can apply in their senior year of high school or before the start of their third year at The University of Akron. Phase 1 is the undergraduate curriculum at UA. UA students may pursue any of UA's degree programs, but it is recommended that students pursue the Bachelor of Science in Biomedical Science under the Biology department. Phase 2 is the is medical, dental, or pharmacy school at LECOM.

More information about the program can be found on the Pre-Health Partnerships information page (<https://www.uakron.edu/bcas/prehealth/partnerships/>).

- Interdisciplinary Anthropology, Minor (p. 19)

ANTH: Anthropology

ANTH:101 Human Cultures (3 Credits)

This course examines what culture is, how human cultures vary and how they change. We then explore opportunities/conflicts presented by contemporary human cultural issues. (Formerly 3230:150)

Ohio Transfer 36: Yes

Gen Ed: - Social Science; - Global Diversity

ANTH:105 Human Evolution (4 Credits)

Study of biological evolution of Homo Sapiens, including primate comparisons and cultural development. One-hour laboratory using interactive computer programs, casts and Anthropology's cultural collection. (Formerly 3230:151)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

ANTH:110 Introduction to Archaeology (3 Credits)

Introduction to the study of ancient cultures based on material remains.

Course covers basic archaeological concepts and tools, types of data and interpretation. (Formerly 3240:100)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

ANTH:251 Human Diversity (3 Credits)

This course examines human diversity in global perspective by considering how and why human beings vary physically and ways categories of difference are culturally constructed. (Formerly 3230:251)

Gen Ed: - Social Science; - Global Diversity

ANTH:300 Historical Archaeology (3 Credits)

This course explores recent developments in historical archaeology and how material culture can be used to study race, class, gender, and ethnic identities. (Formerly 3240:300)

ANTH:309 Medicine & the Humanities (3 Credits)

Medical history, literature, and ethics from the perspective of the Humanities, with readings from original sources and literary works on medical subjects. (Formerly 3230:309)

ANTH:310 Human Paleontology: The Australopithecines (3 Credits)

Prerequisite: ANTH 105. A study of the fossil record of the earliest hominids of the Miocene and Pliocene epochs. (Formerly 3230:310)

ANTH:311 Human Paleontology: Genus Homo (3 Credits)

Prerequisite: ANTH 105. The origins of the Genus Homo and the evolution of anatomically modern Homo sapiens. (Formerly 3230:311)

ANTH:313 Archaeology of Greece (3 Credits)

The ruins and monuments of Greece; history reconstructed by examination of the material remains. No foreign language necessary. (Formerly 3240:313)

Anthropology

What is Anthropology?

Anthropology is

- the study of human societies and cultures and their development
- the study of human biological and physiological characteristics and their evolution

ANTH:314 Archaeology of Rome (3 Credits)

The ruins and monuments of Rome; history reconstructed by examination of the material remains. No foreign language necessary. (Formerly 3240:314)

ANTH:315 Human Variation and Health (3 Credits)

Human Variation and Health explores the global genetic and phenotypic diversity of modern humans. This course focuses on how natural selection has shaped global human diversity, how biocultural evolution has impacted humans, and how genetics and diseases are related. (Formerly 3230:315)

ANTH:320 The Anthropology of Food (3 Credits)

Utilizing anthropological approaches and theories, this course explores the social relations and cultural beliefs associated with food cross-culturally. (Formerly 3230:420)

Gen Ed: - Complex Issues Facing Society

ANTH:340 Archaeology of Ohio (3 Credits)

Provides a detailed overview of Ohio's prehistoric cultures and the early historic period focusing on cultural evolution and environmental relationships. (Formerly 3240:420)

ANTH:345 Egyptology (3 Credits)

Introduction to ancient Egyptian civilization, with emphasis on sites and artifacts representative of socio-political and ideological transformations from the Prehistoric through Ptolemaic Periods. (Formerly 3240:345)

ANTH:357 Magic, Myth, & Religion (3 Credits)

Analysis of the origins, roles, and functions of myth, magic and religion in a broad range of societies, with emphasis on the non-Western, pre-industrial societies. (Formerly 3230:357)

ANTH:358 Indians of North America (3 Credits)

Ethnographic survey of native cultures of North America, with emphasis on variations in ecological adaptations, social organization and modern American Indians in anthropological perspective. Lecture. (Formerly 3230:358)

Gen Ed: - Domestic Diversity

ANTH:360 Ancient Near Eastern Archaeology (3 Credits)

General survey of the archaeological material culture and written history of the ancient Near East. Covers principal human achievements from the Paleolithic to Alexander's conquest. (Formerly 3240:360)

ANTH:365 Ancient Metallurgy (3 Credits)

Metallurgy was a transformative technology for ancient societies. This class covers archaeological evidence for the early use of metals and their alloys. We will also discuss: (1) the structural and physical properties of metals; (2) the analytical techniques used to assess metals in materials science; (3) current archaeological explanations for how people used metal to fashion artifacts; and (4) the impact of metallurgy on different ancient cultures. This course is a mixed lecture, seminar, and laboratory course. (Formerly 3240:365)

ANTH:368 Neolithic Revolution (3 Credits)

Examination of the archaeological, zooarchaeological, paleobotanical, bioarchaeological, and genetic evidence for the earliest human manipulation and domestication of plants and animals. Evaluation of theoretical models for the origins of agriculture and the long-term implications of its adoption for human societies. (Formerly 3240:368)

ANTH:370 Globalization and Culture (3 Credits)

Prerequisite: [ANTH 101 or SOCIO 100]. A critical examination of socio-cultural processes of globalization that serve to complicate conventional notions of culture. Emphasizes how globalization affects a range of local places. (Formerly 3230:370)

Gen Ed: - Complex Issues Facing Society

ANTH:381 History of Physical Anthropology (3 Credits)

Prerequisite: ANTH 105. History of evolutionary theory pertaining to the biological origins of humans covering pre-Darwinian thought to the most recent fossil discoveries. (Formerly 3230:401)

ANTH:382 Evolution and Human Behavior (3 Credits)

Prerequisite: ANTH 105. Critical examination of the theory of natural selection and its usefulness for understanding the origins and evolution of early hominid and modern human social behavior. (Formerly 3230:410)

ANTH:400 Introduction to Anthropological Data (3 Credits)

Prerequisite: ANTH 101, ANTH 105 and ANTH 110. This course focuses on the characteristics of anthropological evidence through hands-on activities and examination of the uses of data in published works. (Formerly 3230:398)

ANTH:404 Primates: Behavior, Morphology and Evolution (3 Credits)

Prerequisite: ANTH 105. Extant primate diversity, behavior, morphology and primate paleontology. (Formerly 3230:304)

ANTH:405 Anthropological Theory (3 Credits)

Prerequisites: ANTH 101 and ANTH 105. Advanced seminar addressing the history of anthropological theory and current theoretical debates within the discipline. (Formerly 3230:359)

ANTH:407 Archaeological Theory (3 Credits)

Prerequisite: ANTH 110. Advanced seminar covering history of scientific archaeological exploration, major theoretical paradigms and current trends in archaeology. Required for Certificate in Field Archaeology. (Formerly 3240:400)

ANTH:410 Archaeogeophysical Survey (3 Credits)

Prerequisite: [ANTH 110 or GEOL 101 or GEOL 310]. Advanced instruction in principles of subsurface geophysical survey techniques in archaeology. Emphasizes magnetic gradiometry and electrical resistivity techniques. Includes both laboratory and fieldwork. (Formerly 3240:410)

ANTH:416 Anthropology of Sex and Gender (3 Credits)

Prerequisites: ANTH 101 or SOCIO 100. This course explores cross-cultural variation regarding sex, gender and sexuality. It examines the ways that cultures create, maintain and reproduce gender concepts and gender relations. (Formerly 3230:416)

Gen Ed: - Global Diversity

ANTH:425 Human Osteology (3 Credits)

Prerequisite: ANTH 105. An intensive study of bone, bone growth, and the human skeleton; ageing and sexing techniques; application of demographic techniques to paleoanthropological populations. (Formerly 3230:340)

ANTH:430 Seminar: Human Origins (3 Credits)

Prerequisite: ANTH 105. Advanced seminar addressing current discoveries and theoretical issues in human paleontology. Content varies by semester. (Formerly 3230:400)

ANTH:440 Archaeological Laboratory Methods (3 Credits)

Prerequisite: ANTH 110. Laboratory processing and study of lithic, ceramic, paleofaunal, paleobotanical, metallic, archaeological materials. Emphasis varies with instructor expertise. Involves instrumental or statistical analysis. (Formerly 3240:440)

ANTH:450 Archaeological Field School (1-6 Credits)

Prerequisite: ANTH 110 or permission. A field-based course teaching based archaeological techniques, mapping, excavation of prehistoric and historic sites, survey and documentation. (May be repeated for a maximum of 6 credits.) (Formerly 3240:450)

ANTH:455 Archaeological Field Experience (1-6 Credits)

Prerequisite: ANTH 110 or permission of instructor. This course provides students opportunities to participate in archaeological fieldwork in collaboration with academic, community, law enforcement, industry, and non-profit partners. (Formerly 3240:455)

ANTH:457 Medical Anthropology (3 Credits)

Prerequisite: ANTH 101 or permission of instructor. Analyzes various aspects of Western and non-Western medical systems from an anthropological perspective. Compares traditional medical systems around the world. (Formerly 3230:457)

Gen Ed: - Complex Issues Facing Society

ANTH:460 Field Methods in Cultural Anthropology (4 Credits)

Prerequisite: ANTH 101 or permission of instructor. Community-based research and service-learning course in which students design and undertake a project. Addresses ethics, data collection, management and analysis in collaboration with community partners. (Formerly 3230:460)

Gen Ed: - Complex Issues Facing Society

ANTH:472 Special Topics: Anthropology (3 Credits)

(May be repeated) Prerequisite: ANTH 101. Selected topics in anthropology. May include field schools, independent or faculty-led research, laboratory training or advanced course work not regularly offered by department. (Formerly 3230:472)

ANTH:490 Anthropological Research (1-3 Credits)

(May be repeated) Individual study of problem areas of specific interest to an individual student under guidance of a faculty member. (Formerly 3230:397)

ANTH:497 Senior Honors Project in Anthropology (3 Credits)

The topic and scope of this individually chosen project is directed by an Anthropology faculty member in conjunction with Honors College preceptors under the guidelines of the Honors College. (Formerly 3230:497)

Anthropology, BAA

Bachelor of Arts in Anthropology (323000BAT)

- Archaeological Concentration
- Biological Concentration
- Cultural Concentration

The primary teaching mission of the Department of Anthropology is to graduate students who are well equipped as critical thinkers, readers, and writers to participate in the globalizing world. Specifically, we seek to provide a rigorous and robust education in the holistic study of human diversity. Anthropology studies all that encompasses being human: how we evolve, how we adapt, and how we live.

The primary research mission of the Department of Anthropology is to support faculty as they conduct active research, and contribute to scholarly exchange and knowledge development in their respective subfields (archaeology, cultural anthropology, and biological anthropology). The department recognizes the synergetic relationship between academic research and teaching. This recognition is realized in our commitment to experiential learning and undergraduate research. New students are introduced to the methods of cross-cultural comparison and experiment with a wide array of tools to identify and analyze patterns of cultural and biological variation and their causes.

Advanced students learn to design and undertake original field-based research in the departmental subfields.

The following information has official approval of the **Department of Anthropology** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the Department of Anthropology their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	College of Arts & Sciences Requirements	14
	Anthropology Core	16
	Additional Anthropology Courses	21
	Additional Credits for Graduation*	33
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Recommended General Education Courses

Code	Title	Hours
	Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.	
	Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.	
Academic Foundations		12

Mathematics, Statistics and Logic: 3 credit hours

Speaking: 3 credit hours

Writing: 6 credit hours

Breadth of Knowledge	22
<i>Arts/Humanities: 9 credit hours</i>	
CLAS:289	Mythology of Ancient Greece
CLAS:230	Sports & Society in Ancient Greece and Rome
<i>Natural Sciences: 7 credit hours</i>	
<i>Social Sciences: 6 credit hours</i>	
Diversity	
Domestic Diversity	
Global Diversity	
Integrated and Applied Learning	2
<i>Select one class from one of the following subcategories:</i>	
Complex Issues Facing Society	
Capstone	
<i>Review the General Education Requirements page for detailed course listings.</i>	
Total Hours	36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements in Arts & Sciences include the demonstration of ability to use another language by completion of the second year of a foreign language.		
<i>2 Year Language Proficiency</i>		14
101 Beginning I		
102 Beginning II		
201 Intermediate I		
202 Intermediate II		
SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	
Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:		
Upper-level (300/400) courses both in and outside of the student's major;		
or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops		

Anthropology Core

Code	Title	Hours
ANTH:101	Human Cultures	3
ANTH:105	Human Evolution	4
ANTH:110	Introduction to Archaeology	3
ANTH:400	Introduction to Anthropological Data	3
or SOCIO:301	Social Research Design	
ANTH:405	Anthropological Theory ¹	3
or ANTH:407	Archaeological Theory	
Total Hours		16

Additional Anthropology Courses

Code	Title	Hours
Complete 21 credits:		
ANTH 3xx		
ANTH 4xx		

ANTH:405	Anthropological Theory ¹
or ANTH:407 Archaeological Theory	
GEOG:405	Geographic Information Systems ²
or ENGL:371 Introduction to Linguistics	
<i>The following courses do not satisfy this requirement:</i>	
SOCIO:301	Social Research Design
ANTH:400	Introduction to Anthropological Data
Total Hours	21

¹ Students may take both ANTH:405 Anthropological Theory and ANTH:407 Archaeological Theory, in which case one counts as core and the other counts as an elective

² Students may substitute one, but not both, of the following courses as Electives: GEOG:405 Geographic Information Systems or ENGL:371 Introduction to Linguistics

Students must complete an additional 21 credits of ANTH courses at the 300-400 level. Students may take both ANTH:405 Anthropological Theory and ANTH:407 Archaeological Theory, in which case one counts as Core and the other counts as an Elective. Neither SOCIO:301 Social Research Design nor ANTH:400 Introduction to Anthropological Data may be counted as an Elective. Students may substitute one, but not both, of the following courses as Electives: GEOG:405 Geographic Information Systems or ENGL:371 Introduction to Linguistics. Students may earn no more than nine credits of Special Topics classes, which may include Unclasses, with the approval of the Anthropology faculty.

Recommended Sequence

1st Year		Hours
Fall Semester		
MODL:101	Beginning Modern Language I	4
MATH:135	Mathematics for Everyday Life	3
COMM:105	Introduction to Public Speaking	3

HIST:319	Medieval Europe, 500-1200	3
Hours		15
Total Hours		121

Field Archaeology, Certificate

Certificate in Field Archaeology (324001C)

The Certificate in Field Archaeology (CFA) is designed for students interested in field archaeology as a career choice. Cultural resource management (CRM or "contract archaeology") is the fastest-growing area of archaeology in the United States due to legislation which requires an archaeological assessment of the impact of Federally-funded activities on prehistoric and historic cultural remains. This legislation has greatly increased the demand nationally for trained field archaeologists. The Certificate curriculum trains students to work in CRM by promoting a grounded understanding of archaeological principles and training in essential field methods and cutting-edge technology.

[The Certificate in Field Archaeology \(CFA\) is a stand-alone certificate. Students are not required to enroll in a degree program.](#)

Art

The Mary Schiller Myers School of Art

The mission of the Mary Schiller Myers School of Art at The University of Akron is to provide high-quality education in the fine arts, art history, design, and art education. We provide excellence in teaching, research, and community service, contributing to the visual culture of the region and beyond.

Points of Distinction

- Dynamic:** Vibrant Art + Design School focused on interdisciplinary undergraduate education.
- Engaged:** Myers faculty have international reputations as artists, designers and scholars.
- Community:** Myers art and design students build camaraderie in an open, accepting environment with the support and encouragement of their fellow students, faculty and staff.

- Urban:** The University of Akron celebrates its close ties to the lively arts scene in the city of Akron, where the arts and culture represent a \$1.4 billion industry.
- Experiential Learning:** Myers students work with stellar visiting artists and benefit from extensive domestic and international travel.
- Value:** Generous scholarships and grants provide a private school experience at the cost of a public education.

Admissions

We are an open enrollment school, welcoming all students. New students to The University of Akron do not need to submit any additional materials or portfolio to join Myers School of Art.

The Myers School of Art offers students the close-knit experience of a small art school while also providing the benefits of being part of a larger university campus and structure.

Foundation Program

"Foundation" is defined as the basis or fundamental principle on which something is founded.

The courses of the Foundation Program at the Myers School of Art are the basis upon which a career as an artist or graphic designer is built. The content covered in this series of classes will serve as a resource for students to draw on as they move into upper-level classes and then into their professional careers. This groundwork is established to enable students and faculty to focus intently on the interaction between media and content as applied to specific upper-level fine and applied arts disciplines.

The many concepts, media, and concerns covered are basic but should never be considered simple. They are in many ways the most complex topics with which art students struggle. The concepts that students investigate in these classes are the language and grammar that are the conventions of visual literacy. As the elements of our common language, these are concepts students must know fluently. As the convention of our discipline, their history must be understood and their application to contemporary art considered.

We recommend that all students pursuing a Bachelor of Fine Arts (BFA) or a Bachelor of Arts (BA) in Art Studio or Art Education take the following 3 studio courses their first semester in the program:

ART:131 Foundation Drawing I
 ART:144 Foundation 2D Design
 ART:145 Foundation 3D Design

All majors (BFA and BA) are required to pass the co-requisites ART:250 Foundation Lecture / ART:252 Foundation Studio which include evaluation and further investigation of the topics covered in the Foundation Curriculum. These two courses should be taken the semester following completion of ART 131, ART 144 and ART 145. Students are given a total of 3 opportunities to successfully pass the Foundation Forum.

Additionally, BFA candidates are required to complete a Junior Review (reviews Sophomore/Junior-level work) and a Senior Exhibition (Senior-level work).

- Art Education, BA (p. 27)
- Art Studio with Minor, BA (p. 30)
- Ceramics, BFA (p. 32)

- Ceramics, Minor (p. 36)
- Drawing, Minor (p. 36)
- Emerging Technologies, Minor (p. 37)
- Graphic Design, BFA (p. 38)
- History Emphasis, Minor (p. 40)
- Illustration, Minor (p. 41)
- Jewelry & Metalsmithing, BFA (p. 42)
- Metalsmithing, Minor (p. 44)
- Painting & Drawing, BFA (p. 44)
- Painting, Minor (p. 46)
- Photography For Non-Art Majors, Minor (p. 47)
- Photography, BFA (p. 47)
- Photography, Minor (p. 49)
- Printmaking, BFA (p. 49)
- Printmaking, Minor (p. 51)
- Professional Photography, Minor (p. 52)
- Sculpture, BFA (p. 52)
- Sculpture, Minor (p. 54)

ART: Art - Myers School of

ART:100 Arts Orientation (0 Credits)

Corequisite: with first ART course. Orientation to the information and strategies necessary to aid new art students in their understanding of the field of art. (Formerly 7100:103)

ART:101 Survey of Global Art 1: Prehistory to 1250 CE (3 Credits)

Prerequisite: ENGL 110 or ENGL 111. Introductory survey of world art from prehistory to c.1250 C.E. (Formerly 7100:100)

Ohio Transfer 36: Yes

Gen Ed: - Arts; - Global Diversity

ART:102 History of Global Art 2: 1250 CE - 1850 CE (3 Credits)

Prerequisite: ART 101. A survey of developments in art and culture across the globe from the Gothic period to the mid-nineteenth century (1250-1850 CE). (Formerly 7100:101)

Ohio Transfer 36: Yes

Gen Ed: - Arts

ART:103 History of Global Art 3: 1850 CE - Today (3 Credits)

Prerequisite: ART 102 or permission of instructor. The third component in a 3-part series of introductory art history courses, this class covers the modern era, from Realism, Impressionism, and the Pre-Raphaelites through the present moment. (Formerly 7100:102)

ART:104 Visual Arts Application in the Elementary Classroom (3 Credits)

Exploration of methods, materials, processes and visual techniques relating two- and three-dimensional art experiences for the teacher of elementary children. No credit as an elective course for art majors. (Formerly 7100:104)

ART:105 Introduction to Art Education (3 Credits)

An introduction to becoming Artist as Teacher in traditional school based and non-traditional community based settings. 10 hours field experience required. (Formerly 7100:105)

ART:110 Introduction to New Media (3 Credits)

Students learn state of the art knowledge and activities of New Media. This course will be in addition or cross-listed with the NMED 100 course. (Formerly 7100:110)

ART:111 Emerging Technologies (3 Credits)

This course provides a hands on introductory exploration of several technologies currently being used by the creative areas of Art and Design. (Formerly 7100:111)

ART:131 Foundation Drawing I (3 Credits)

Corequisite: ART 100. Introduction to drawing materials and techniques with an emphasis on observation, representation, and formal principles of composition and design. (Formerly 7100:131)

ART:132 Introduction to Design (3 Credits)

An introductory graphic design course focusing on teaching the principles and elements of design through theory and practice. (Formerly 7100:132)

ART:144 Foundation 2D Design (3 Credits)

Fundamental information about the theory and practice of visual design as applied to surfaces, including composition, color and pictorial illusions with lecture and studio experience. (Formerly 7100:144)

ART:145 Foundation 3D Design (3 Credits)

Introduction to meaning of "design" and act of designing in real space. Study of naturally occurring form, structure and process. (Formerly 7100:145)

ART:184 Typography I (3 Credits)

Prerequisite: ART 132. Studio experience in concept development and processes, tools and materials of graphic designers. Elementary design problems in graphic design. (Formerly 7100:184)

ART:189 Production I (3 Credits)

An introduction to graphic design industry standard software and hardware. Students learn proper development procedures for creating production-ready, professional digital files. (Formerly 7100:189)

ART:210 Visual Arts Awareness (3 Credits)

Prerequisite: ENGL 110 or ENGL 111. Lecture course providing appreciation and understanding of arts of various types/periods with emphasis on topics and influences on societies, rather than historical sequence (Formerly 7100:210)

Ohio Transfer 36: Yes

Gen Ed: - Arts

ART:213 Introduction to Printmaking (3 Credits)

Prerequisite: ART 131 or ART 144. A fast-paced introduction to traditional and contemporary high-tech/low-tech printmaking processes including relief, intaglio, lithography, and screenprint as well as digital printmaking. (Formerly 7100:213)

ART:214 Relief/Screenprint (3 Credits)

Prerequisite: ART 213. An introduction to the history, process, and contemporary practice of relief printing and screenprinting. (Formerly 7100:214)

ART:216 Intaglio/Lithography (3 Credits)

Prerequisite: ART 213. An introduction to the history, process, and contemporary practice of intaglio and lithographic printing. (Formerly 7100:216)

ART:222 Introduction to Sculpture (3 Credits)

Prerequisite: ART 145. Exploration of aesthetic factors influencing sculptural statements. Development of proficiency in the use of tools, materials and techniques. (Formerly 7100:222)

ART:223 Sculpture: Stone (3 Credits)

Prerequisite: ART 222. Beginning level lecture and studio course using both traditional hand tools for the creation of stone sculpture. History of the use of stone, evolution of stone working technology and contemporary artists working with stone. (Formerly 7100:223)

ART:233 Introduction to Life Drawing (3 Credits)

Prerequisite: ART 131. Perceptual problems in drawing from the life model. Study of skeletal, muscular, mechanical nature of human figure and application of this knowledge to the resolution of aesthetic problems. (Formerly 7100:233)

ART:234 Anatomy for Artists (3 Credits)

Prerequisite: ART 233. Studio/lecture experience in drawing and sculpture with an emphasis on human skeletal, muscular, and surface structure. (Formerly 7100:234)

ART:243 Introduction to Painting (3 Credits)

Prerequisite: ART 131. Study of aesthetic and technical problems involved in painting. Emphasis on painting from observation, and understanding of color in painting. (Formerly 7100:243)

ART:244 Color Concepts (3 Credits)

Prerequisites: ART 131 and ART 144. Lecture and studio experience giving information concerning perception of color, additive color phenomena of light, subtractive color phenomena of pigments and dyes, color notation systems and psychological effects of color. (Formerly 7100:244)

ART:246 Introduction to Water-based Media (3 Credits)

Prerequisites: ART 131 and ART 144. Experimentation with water-based media such as tempera, acrylic, and gouache. (Formerly 7100:246)

ART:250 Foundation Lecture (1 Credit)

Prerequisites: ART 131, ART 144, and ART 145. Corequisite: ART 252. Lecture is designed to broaden students' knowledge by including investigations into materials and technologies to synthesize an understanding in the visual arts. (Formerly 7100:250)

ART:251 Watercolor (3 Credits)

Prerequisites: ART 131 and ART 144. Students will investigate traditional and contemporary watercolor techniques and mixed media while addressing issues of composition and conceptual concerns. (Formerly 7100:251)

ART:252 Foundation Studio (2 Credits)

Prerequisites: ART 131, ART 144, and ART 145. Corequisite: ART 250. Studio course addresses theory and application of 2D and 3D skills to the production of artworks in preparation of the foundation forum: lecture and review. Studio course houses the Foundation Review, which all students are required to participate in for advancement to upper level coursework. (Formerly 7100:252)

ART:254 Introduction to Ceramics (3 Credits)

Prerequisites: ART 131 and ART 144. Studio/lecture course exploring potentials of hand-building techniques in both sculptural and functional forms. Clay processing, glaze application and practical kiln firing. (Formerly 7100:254)

ART:266 Introduction to Metalsmithing (3 Credits)

Prerequisite: ART 144 and ART 145. Studio experience in which student is introduced to properties of metals, processes of silversmithing and design and production of jewelry. (Formerly 7100:266)

ART:273 Introduction to Digital Photography (3 Credits)

Prerequisites: ART 131 and ART 144; or permission. An introductory digital photography course covering technical, aesthetic and conceptual issues. Digital camera with manual exposure controls required. No credit for photography majors. (Formerly 7100:273)

ART:274 Photography I for Non-Art Majors (3 Credits)

Film-based black and white photography including camera control, film processing, and darkroom printing. 35mm camera with full manual control required. No credit toward art major. (Formerly 7100:274)

ART:275 Introduction to Photography (3 Credits)

Prerequisites: ART 131 and ART 144. Film-based black and white photography including camera control, film processing and darkroom printing. 35mm film camera with full manual control required. (Formerly 7100:275)

ART:276 Introduction to Commercial Photography (3 Credits)

Prerequisite: ART 273, ART 274, or ART 275. Students are introduced to studio and location lighting techniques and related software applications while working through a series of photographic projects. (Formerly 7100:276)

ART:280 Digital Media (3 Credits)

Prerequisite: ART 189. An exploration of contemporary digital image capture, manipulation, output and distribution, emphasizing digital image concepts, aesthetics and production. (Formerly 7100:280)

ART:281 Web and Devices I (3 Credits)

Prerequisite: ART 189. This course introduces the process of planning, designing and producing industry standard websites. Emphasis on front-end development and the creative aspect of web design. (May be repeated for a total of six credits.) (Formerly 7100:281)

ART:283 Drawing Techniques (3 Credits)

Prerequisites: ART 131 and ART 189. Includes advanced drawing and presentation techniques commonly used in graphic design. Various presentation and design problems will be encountered stressing use of selected drawing methods and processes. (Formerly 7100:283)

ART:288 Typography II (3 Credits)

Prerequisite: ART 184. Introduction to typographic design to communicate. Study of letterforms, history, comping skills, layout design and digital technology. (Formerly 7100:288)

ART:300 Art Since 1945 (3 Credits)

Prerequisite: [ART 102 and ART 103] or permission of instructor. Consideration of significant developments in visual art forms since World War II in architecture, sculpture, printing, photography, metal, textile, ceramics, printmaking and graphic design. (Formerly 7100:300)

ART:301 Medieval Art (3 Credits)

Prerequisite: ART 102 or permission of instructor. Painting, mosaics, architecture, sculpture, and luxury arts of medieval Europe from 4th through 14th centuries. (Formerly 7100:301)

ART:302 Art in Europe During the 17th-18th Centuries (3 Credits)

Prerequisite: ART 102 or permission of instructor. Analysis of major European examples of architecture, landscape design, painting, prints and sculpture from beginning of the 17th century until approximately 1850. (Formerly 7100:302)

ART:303 Italian Renaissance Art (3 Credits)

Prerequisite: ART 102 or permission of instructor. Study of architecture, painting and sculpture of Italy during 13th through 16th centuries. (Formerly 7100:303)

ART:306 Renaissance Art in Northern Europe (3 Credits)

Prerequisite: ART 102 or permission of instructor. Painting, architecture, and sculpture of northern Europe from 14th through 16th centuries. (Formerly 7100:306)

ART:307 History of Graphic Design (3 Credits)

Prerequisite: ART 102 or permission of instructor. A lecture course analyzing the development of graphic design as an art form from Neolithic sources to the present. (Formerly 7100:307)

ART:309 Greek Art (3 Credits)

The course presents art and architecture of ancient Greeks, and focuses on major monuments, myths, rituals, socio-political constructs, and methodological issues associated with Greek art. (Formerly 7100:309)

ART:310 Motion Design (3 Credits)

Prerequisites: ART 280 and ART 288, or permission. Study of the history of moving images, principles of animation and motion graphics. Design in a non-linear environment, emphasis on narrative, video, type and image. (Formerly 7100:310)

ART:311 UI/UX Design (3 Credits)

Prerequisites: ART 280 and ART 288, or permission. Introduction to user interface and user experience design. Emphasis is on the design principles, type and image for screen design and the user experience. (Formerly 7100:311)

ART:312 Roman Art & Architecture (3 Credits)

Study of Roman art and architecture from the sixth century B.C.E. through the fourth century C.E. (Formerly 7100:312)

ART:313 Survey of Asian Art (3 Credits)

This course introduces the student to the historical, cultural, political, and religious aspects of civilization that influenced the aesthetics of Asian art. (Formerly 7100:313)

ART:315 Ceramics for Non-Art Majors (3 Credits)

Hand-building, glazing and kiln loading. Link skills to personal experience, ceramic history and contemporary art and craft issues. No credit toward a major in art. (Formerly 7100:253)

ART:316 Biodesign (3 Credits)

Prerequisite: Sophomore or greater standing or instructor permission. Biodesign combines an introduction into biomimicry/biomimetic design with a studio design exercise, using nature as a model for creating innovative solutions. (Formerly 7100:316)

ART:317 Print Matrix (3 Credits)

Prerequisites: ART 214 and ART 216. Intermediate printmaking class requiring the application of printmaking to the production of imagery for specific printmaking applications - Book Arts, Hybrid Prints, Serial Imagery, etc. (Formerly 7100:317)

ART:318 Portrait Lighting (3 Credits)

Prerequisite: ART 276. Studio and location lighting techniques for commercial and fine art portraiture. (Formerly 7100:318)

ART:319 Printmaking Review (0 Credits)

Prerequisite: ART 317. A committee of full-time faculty review portfolio of studio work completed in all printmaking courses. (Formerly 7100:319)

ART:320 Product Photography (3 Credits)

Prerequisite: ART 276. Professional skills are further developed via studio and tabletop photography assignments based on current trends in illustration and advertising photography. (Formerly 7100:320)

ART:322 Sculpture II (3 Credits)

Prerequisite: ART 222 or permission from instructor. Continuation of 222. Addresses more advanced techniques. May include fabrication, casting, carving, or assemblage. (May be repeated for a total of nine credits) (Formerly 7100:322)

ART:323 Lost Wax Casting (3 Credits)

Prerequisites: ART 222 or ART 266. Bronze and aluminum casting using the lost wax process. Students learn foundry techniques and apply them to individual artistic statements. (May be repeated for a total of six credits.) (Formerly 7100:323)

ART:324 Installation Art (3 Credits)

Prerequisite: ART 222. Lecture and studio course introducing the student to the medium of installation art, a major emphasis in the contemporary art scene. The history and evolution of installation art and its use by contemporary artists. (Formerly 7100:224)

ART:330 New Media II (3 Credits)

Prerequisite or Corequisite: ART 110 or ART 100. Students practice various New Media technologies. No prior art experience is required. This course will be in addition or cross-listed with the NMED 300 course (Formerly 7100:330)

ART:335 Intermediate Life Drawing (3 Credits)

Prerequisites: ART 233. Continued development of the content established in Life Drawing with additional emphasis on draped models, drawing materials and aesthetics. (May be repeated for a total of nine credits.) (Formerly 7100:335)

ART:346 Intermediate Water-Based Media (3 Credits)

Prerequisite: ART 246. Development of personal concepts and imagery through investigation of historical and contemporary styles, techniques, and issues. (May be repeated for six credits.) (Formerly 7100:346)

ART:348 Intermediate Painting (3 Credits)

Prerequisite: ART 243. Development of personal concepts and imagery through investigation of historical and contemporary styles and issues. (May be repeated for a total of six credits, but limited to a maximum of three credits in a given medium) (Formerly 7100:348)

ART:350 Painting/Drawing Portfolio Review (0 Credits)

Prerequisite: Two courses in ART 348 Intermediate Painting. A committee of full-time faculty review portfolio of student work completed in prerequisite courses. (Formerly 7100:350)

ART:351 Intermediate Drawing (3 Credits)

Prerequisite: ART 131. Investigation of a variety of strategies in contemporary drawing practices to strengthen observation, design, technique, and conceptual skills. Project based learning involving research, sketching, compositional design and development of a series of related work. (Formerly 7100:231)

ART:353 Intermediate Ceramics (3 Credits)

Prerequisite: ART:254 or ART:315. This course is focused on developing new skills in design and production of ceramics art. It builds on techniques from Introduction to Ceramics while introducing new concepts and skills such as: kiln firing, decorative techniques, and new methods of prototyping in plaster and other transition materials. (Formerly 7100:353)

ART:356 History of Craft (3 Credits)

This course is designed to illuminate selected aspects of the history of the making of things as these apply to current practice in the crafts. (Formerly 7100:356)

ART:365 Intermediate Jewelry (3 Credits)

Prerequisite: ART 266. This class builds on acquired in Introduction to Metalsmithing. Emphasis will be placed on fine jewelry techniques including working with silver. (Formerly 7100:267)

ART:366 Metalsmithing II (3 Credits)

Prerequisite: ART 266. Continuation of experiences presented in 266 with further development of skills and expansion of technical knowledge. (May be repeated for a total of six credits) (Formerly 7100:366)

ART:368 Color in Metals (3 Credits)

Prerequisite: ART 266. Introduction to a variety of techniques to achieve and/or combine color in metals. Techniques such as anodizing aluminum, enameling and the application of color resins and plastics will be explored. (Formerly 7100:268)

ART:369 Production for Jewelry (3 Credits)

Prerequisite: ART 266. This class will investigate ways of producing artwork and jewelry in multiples and limited production runs. Attention will also be given to packaging, display, and marketing the work. (Formerly 7100:369)

ART:370 History of Photography (3 Credits)

Prerequisite: ART 103. A lecture course studying the history of photography from its invention to contemporary issues. (Formerly 7100:370)

ART:374 Photography II for Non-Art Majors (3 Credits)

Prerequisite: ART 274. Projects designed to expand the student's awareness of technical conceptual and aesthetic issues in photographic images. 35mm film camera with full manual control required. (Formerly 7100:374)

ART:375 Photography II (3 Credits)

Prerequisite: ART 275. Projects designed to expand student's awareness of technical, conceptual and aesthetic issues in photographic images. 35mm film camera with full manual control required. (Formerly 7100:375)

ART:377 Medium and Large Format Photography (3 Credits)

Prerequisite: ART 374 or ART 375. A technical course using medium and large format film cameras, which are furnished for the course's duration. Topics include camera movements, advanced exposure and development techniques. (Formerly 7100:377)

ART:378 Alternative Photographic Processes (3 Credits)

Prerequisites: ART 374 or ART 375. Exploration in alternative photographic processes using hand-coated Cyanotype, Van Dyke Brown and Platinum emulsions, with digitally created large-format negatives. (Formerly 7100:378)

ART:380 Illustration (3 Credits)

Prerequisite: ART 283 or permission of instructor. Application of painting and drawing skills and aesthetic sensitivity to specific commercial illustration and editorial art assignments. (May be repeated for a total of nine credits.) (Formerly 7100:380)

ART:381 Digital Imaging II (3 Credits)

Prerequisite: ART 280. Advanced digital imaging development and manipulation with an emphasis on preparation and use of digital images in print, multimedia and web applications. (Formerly 7100:381)

ART:382 Graphic Design Junior Review (1 Credit)

Prerequisites: ART 250, ART 252, and ART 288. Corequisites: ART 384 and ART 387. Junior level review by graphic design faculty. Students present a portfolio of work from specified courses that exemplify creative and technical competencies. (Formerly 7100:382)

ART:384 Professional Design Practices (2 Credits)

Prerequisite: ART 288. Corequisites: ART 382 and ART 387. Comprehensive overview of standard business practices specific to the graphic design field. Prepares students to work as interns in professional creative environments. (Formerly 7100:384)

ART:385 3D Modeling, Printing and Prototyping (3 Credits)

Prerequisite: ART 189. Computer imaging course with an emphasis in three-dimensional modeling and preparation of files for output to various 3D devices for production or screen. (May repeated for a total of nine credits) (Formerly 7100:385)

ART:387 Typography III (3 Credits)

Prerequisite: ART 288. Corequisites: ART 382 and ART 384. Incorporation of typography, photography, and concept development into advertising and design composition. Emphasis is given to integration of type and image, typography structure and refinement. (Formerly 7100:387)

ART:401 Special Topics: History of Art (1-3 Credits)

(May be repeated for credit when a different subject or level of investigation is indicated) Prerequisites: ART 102 or permission of instructor. Lecture course in which subject is specified each time course is offered. Focuses upon an art movement, time period, the production of a single artist or a specific art medium. (Formerly 7100:401)

ART:402 Museology (3 Credits)

Lecture course dealing with museum science, including museum history, staff structures, art handling, storage, and presentation and exhibit preparation. (Formerly 7100:402)

ART:403 Art and Critical Theory (3 Credits)

Prerequisites: ART 103 or permission of the instructor. This course, designed for both studio and art history majors, surveys the major theoretical currents in contemporary criticism and art history. (Formerly 7100:403)

ART:405 History of Art Symposium (1-3 Credits)

Prerequisite: One Art History course beyond ART 102 or permission of instructor. Lecture, individual research and evaluation, group discussion related to a specific time period or to an artistic problem. (May be repeated for credit when a different subject is indicated) (Formerly 7100:405)

ART:407 Methods of Art History (3 Credits)

Prerequisite: ART 102 or permission of the instructor. This course explores the history of the discipline and the permutations it has undergone since its establishment in the early years of the nineteenth century. (Formerly 7100:407)

ART:409 Time-Based Media (3 Credits)

Prerequisite: ART 280. Through the development of increasingly complex projects, students explore the conceptual and aesthetic considerations of creating motion media based presentations. (May be repeated for a total of six credits.) (Formerly 7100:409)

ART:410 Methods of Teaching Elementary Art (3 Credits)

Prerequisite: ART 105. Corequisite: ART 428. A field based course presenting the necessary skills and knowledge to successfully implement, plan, instruct, and assess a diverse art-based curriculum for the elementary classroom. (Formerly 7100:410)

ART:411 Methods of Teaching Secondary Art (3 Credits)

Prerequisite: ART 105. Corequisite: ART 429. A field based course presenting the necessary skills and knowledge to successfully implement, plan, instruct, and assess a diverse art-based curriculum for the secondary classroom. (Formerly 7100:411)

ART:412 Student Teaching Colloquium (3 Credits)

Prerequisites: Admission to the Art Education major, senior status, successful completion of field experience, and permission of instructor. Corequisite: EDSE 495. A lecture course providing support and guidance to develop the skills and knowledge necessary for a successful completion of the Education Teacher Performance Assessment, a 16 week classroom clinical experience, capstone project, and licensure in the field of Art Education. Students will gain practical experience in building a resume, applying for teaching positions, obtaining licensure, developing a portfolio and practicing pedagogical techniques in their classrooms. This course fulfills the General Education-Integrated and Applied Learning requirement. (Formerly 7100:412)

Gen Ed: - Capstone

ART:418 Multiples and Multiplicity (3 Credits)

Prerequisites: Student must have Junior standing and have completed at least one ART 300 level course in their major. Advanced printmaking class recommended for studio majors working with multiples, variability, and production requiring students to define and complete their own projects. (Formerly 7100:418)

ART:419 Special Topics in Print (3 Credits)

Prerequisite: ART 131 or ART 144 or ART 145. Investigation in specialized printmaking media like Photogravure, Digital Printing, and Book Arts among others. May be offered in conjunction with university sponsored residency or travel. (Formerly 7100:419)

ART:420 Sculpture Portfolio Review (0 Credits)

Prerequisite: ART 422. Corequisite: ART 422. A committee of full-time faculty reviews portfolio of studio work completed in prerequisite/corequisite courses. (Formerly 7100:420)

ART:422 Advanced Sculpture (3 Credits)

Prerequisite: ART 250 and ART 322. Development of individual points of view and sculptural statements. (May be repeated for a total of 15 credits.) (Formerly 7100:422)

ART:423 Art Bomb Brigade: Methods for Creating Public Art (3 Credits)

An experiential learning studio course in which students explore how artists work with community stakeholders to develop ideas for site specific mural projects. (Formerly 7100:423)

ART:424 Middle School Materials & Techniques (3 Credits)

A lecture course exploring current topics and media/materials and techniques in middle school art education. Students will develop an understanding and application of practical media for the middle school art classroom. Students will develop a portfolio of middle school art teaching strategies that apply knowledge of adolescent developmental characteristics and instructional goals to help students achieve maximum growth intellectually, socially and artistically. (Formerly 7100:424)

ART:425 Ceramics: Methods, Materials, & Concepts (3 Credits)

Prerequisites: ART 131 and ART 145. (Lab) Ceramics for teachers. Introduces the potter's wheel, hand-building, firing kilns, history of ceramics and ceramic forms, safety in the studio and strategies for teaching ceramics. (Formerly 7100:425)

ART:426 Early Childhood Art Education (3 Credits)

A lecture course for art educators exploring visual arts as a vehicle for whole child development and learning across the curriculum in PK-5 school settings. (Formerly 7100:426)

ART:427 Art in the Inclusive Classroom (3 Credits)

Prerequisite: EDFN 220. Art education course exploring the use of art with diverse populations through lecture, hands on art making and site visitations. (Formerly 7100:427)

ART:428 Elementary Field Exp: Art Licensure (1 Credit)

Corequisite: ART 410. Instructional experience in the PK-6 art classroom to apply theory and research into practice. (Formerly 7100:428)

ART:429 Secondary Field Exp: Art Licensure (1 Credit)

Corequisite: ART 411. Instructional experience in the 7-12 art classroom to apply theory and research into practice. (Formerly 7100:429)

ART:430 Advanced Practices for Visual Arts Licensure (3 Credits)

Prerequisite: Junior or greater standing. Advanced seminar course introduces Visual Arts Licensure students to pre-service and professional licensure practices. Course also cover professional development issues such as resume writing, portfolio building, interviewing, graduate school applications, creative entrepreneurship, job searches, internships, and other topics. (Formerly 7100:430)

ART:435 Contemporary Art Issues (3 Credits)

Prerequisite: ART 103. Discussion course for advanced students in any visual arts discipline, dealing with concepts and critical theories related to current practice of the visual arts. (Formerly 7100:435)

ART:440 New Media III (3 Credits)

Pre/Corequisite: [ART 110 and ART 330] or [NMED 100 and NMED 300]. Students create their original New Media projects through proposals, productions, and a show. This course will be in addition or crosslisted with the NMED 400 course. (Formerly 7100:440)

ART:450 Advanced Drawing/Life Drawing (3 Credits)

Prerequisites: ART 351 and ART 335. Individual drawing projects exploring aesthetic and conceptual issues involving research, experimentation, and portfolio of a series of related work. (Formerly 7100:450)

ART:452 Service Learning in Art (3 Credits)

Prerequisite: Senior standing. An interdisciplinary, lecture/studio course that integrates fine art and design to promote understanding of the importance of sustained community outreach and serving as arts advocates. (Formerly 7100:452)

ART:453 Advanced Throwing (3 Credits)

Prerequisite: [ART 250 and ART 353] or permission of instructor. Emphasis on making pottery using the potters wheel beyond the beginning level including organization and planning skills needed to make and exhibit or sell items. (May be repeated for a total of six credits.) (Formerly 7100:453)

ART:454 Advanced Ceramics (3 Credits)

Prerequisite: ART 250 and ART 353. Emphasis on refinement of technique toward personal aesthetic statement in preparation for professional or private studio production. Student may choose a general survey of subject matter or a more concentrated area of study. (May be repeated for a total of 18 credits.) (Formerly 7100:454)

ART:455 Advanced Painting (3 Credits)

Prerequisites: ART 351 and ART 348. Exploration of aesthetic and conceptual issues involved in developing an individual stylistic approach to image making, leading to senior portfolio and BFA exhibition. (May be repeated for a total of 15 credits) (Formerly 7100:455)

ART:456 Ceramic Portfolio Review (0 Credits)

Prerequisite: ART 454. A committee of full-time faculty reviews portfolio of studio work completed in prerequisite courses. (Formerly 7100:456)

ART:457 Professional Practices (3 Credits)

Prerequisite: Junior or Senior status. This course covers business, marketing and professional development practices, while also introducing students to issues and strategies in contemporary art. (Formerly 7100:457)

ART:460 The Myers Forum: Studio (1-3 Credits)

Prerequisites: ART 103 and ART 250, and successful completion of at least one 300 level course in the Myers School of Art, or permission of the instructor. Cross-disciplinary studio addressing current issues related to theory and practice of visual communication. (Formerly 7100:460)

ART:461 The Myers Forum: Seminar (1-3 Credits)

Prerequisites: ART 103 and ART 250, and successful completion of at least one 300 level course in the Myers School of Art, or permission of the instructor. Cross-disciplinary seminar addressing current issues related to the theory and practice of visual communication. (Formerly 7100:461)

ART:464 Painting/Drawing Senior Exhibition Preparation (0 Credits)

Prerequisites: Senior standing, the second ART 455 Advanced Painting/Drawing. Preparation of the portfolio to be exhibited in the Senior Exhibition. (Formerly 7100:465)

ART:465 Color in Metals II (3 Credits)

Prerequisite: ART 368. Continuation of 368. Advanced projects designed to develop the student's aesthetic values in color in metals. Emphasis on individual approach and experimentation. (May be repeated for a total of 12 credits.) (Formerly 7100:368)

ART:466 Advanced Metalsmithing (3 Credits)

Prerequisites: ART 250 and ART 366. Investigation in depth of aesthetic and technical problems of metalsmithing. Student works on individual projects under guidance from instructor. (May be repeated for a total of 18 credits.) (Formerly 7100:466)

ART:467 Metalsmithing Portfolio Review (0 Credits)

Prerequisite: ART 466. Corequisite: ART 466. A committee of full-time faculty review portfolio of studio work completed in prerequisite courses. (Formerly 7100:467)

ART:470 Emerging Technologies Studio (3 Credits)

Prerequisite: ART 111. Emerging Technologies Studio focuses on the in-depth development of 2 major projects, one in 2D and one in 3D, specifically geared towards individual investigations in a student's specialty. Both projects are achieved by concentrating on the latest technologies available in the maker space at the Myers School of Art. (Formerly 7100:470)

ART:471 Web and Devices II (3 Credits)

Prerequisite: ART 281. Students learn dynamic back-end understanding of website development while maintaining an emphasis on design and creative solutions. (May be repeated for a total of six credits.) (Formerly 7100:471)

ART:472 Photography III: Color for Non-Art Majors (3 Credits)

Prerequisite: ART 374. Advanced level lecture, studio and lab experience in color photography introducing students to technical, aesthetic and conceptual issues of the medium. (Formerly 7100:472)

ART:473 Photography III: Color (3 Credits)

Prerequisite: ART 375. Advanced level lecture, studio and lab experience in color photography introducing students to technical, aesthetic and conceptual issues of the medium. (Formerly 7100:473)

ART:474 Advanced Photography for Non-Art Majors (3 Credits)

Prerequisite: ART 374. Studio course with emphasis on advanced individual projects. (Formerly 7100:474)

ART:475 Advanced Photography (3 Credits)

Prerequisites: ART 250, ART 375, and ART 473. Photographic media, light and photographic equipment manipulated experimentally to produce creative graphic images. Student works under guidance of instructor on advanced individual projects. (May be repeated for a total of 21 credits.) (Formerly 7100:475)

ART:476 Photography Portfolio Review (0 Credits)

Prerequisite: ART 475. A committee of full-time faculty reviews portfolio of studio work completed in prerequisite/corequisite courses. (Formerly 7100:476)

ART:479 Professional Photographic Practices (3 Credits)

Prerequisites: ART 475 and senior standing. Introduction to business and marketing practices in the fine art and commercial photography industry. Financial, legal, organizational, promotional, interpersonal, and ethical practices will be covered. (Formerly 7100:479)

ART:480 Advanced Graphic Design (3 Credits)

Prerequisite: ART 382 or permission of instructor. Student works on advanced-level individual projects under supervision of instructor. (May be repeated for a total of nine credits.) (Formerly 7100:480)

ART:481 Design X Nine (3 Credits)

Prerequisite: ART 382. Course focusing on professional business practices. Students chosen by portfolio review in junior year. Practical experience gained through working with clients and outside sources. (May be repeated for a total of nine credits.) (Formerly 7100:481)

ART:482 Corporate Identity & Graphic Systems (3 Credits)

Prerequisites: ART 382 and ART 384. Advanced projects in corporate identity and graphic systems analysis. Problem solving for these specific areas of graphic design within limitations of physical and digital reproduction. (Formerly 7100:482)

ART:483 Graphic Design Presentation (3 Credits)

Prerequisite: ART 482. Students prepare a professional portfolio and resume. The course includes project development, portfolio review and exhibition. (Formerly 7100:483)

ART:485 Advanced Illustration (3 Credits)

Prerequisite: ART 380 or permission of instructor. Development of a personal, unique visual voice. Exploration of traditional and/or digital approaches to illustration advancing technical proficiency, imaginative problem solving, and entrepreneurial thinking. (May be repeated for a total of nine credits) (Formerly 7100:485)

ART:487 Packaging Design (3 Credits)

Prerequisite: ART 382. Students solve packaging problems by synthesizing two and three-dimensional design concepts and researching materials and processes applicable to packaging of diverse products. (Formerly 7100:487)

ART:488 Typography IV (3 Credits)

Prerequisite: ART 387. Senior level investigation of complex sequential type systems; including publications, corporate communications and multi-application projects for comprehensive buildout while emphasizing preparation of files for various output. (Formerly 7100:488)

ART:489 Special Topics in Studio Art (3 Credits)

Group Investigation of Topics not offered elsewhere in curriculum. (May be repeated for credit when a different subject or level of investigation is indicated) (Formerly 7100:489)

ART:490 Workshop in Art (1-4 Credits)

Prerequisite: Advanced standing in art or permission of instructor. (May be repeated for credit when a different subject or level of investigation is indicated - ART 490 to maximum of eight credits; ART 590 to maximum of 12 credits). Group investigation of a particular phase of art not offered by other courses in curriculum. (Formerly 7100:490)

ART:491 Architectural Present I (3 Credits)

Prerequisite: ART 144. Studio practice in architectural design and presentation methods in residential and commercial interiors. (Formerly 7100:491)

ART:492 Architectural Present II (3 Credits)

Prerequisite: ART 491. Continuation of concepts covered in Architectural Presentations I with additional work in color rendering techniques. Emphasis on a variety of rendering mediums. (Formerly 7100:492)

ART:493 Advanced Photography: Digital Printing (3 Credits)

Prerequisites: ART 280 and ART 475. Digital technologies for fine-art photographers including scanning negatives; workflow; color management; image adjustment, correction and optimization; inkjet printing; and digital asset management. (Formerly 7100:493)

ART:494 Special Topics: Art Education (1-3 Credits)

May be repeated for credit when a different subject or level of investigation of topics of interest to the art education student is not covered elsewhere in the curriculum. (Formerly 7100:494)

ART:495 Senior Exhibition (0 Credits)

Prerequisite: Senior standing and permission. Exit review of work from B.F.A. candidate's major courses. (Formerly 7100:495)

ART:496 Art Internship/Professional Experience (1-6 Credits)

Prerequisites: Junior standing in major program and permission of Internship Director. In-depth professional training affording the intern on-the-job experience in selected areas of specialization. (Repeatable for credit. No more than six credits of internship may apply toward the elective requirement for completion of any art department major.) (Formerly 7100:496)

ART:497 Independent Study: Art (1-7 Credits)

Prerequisites for art majors: completion of at least one advanced course in the major with a grade of A or A- and permission of instructor. Investigation in depth of aesthetic and technical problems within a studio-selected area of specialization. Student must present in writing a proposed study plan and time schedule for instructor approval. Prerequisites for non-art majors: permission of instructor. (May be repeatable for seven credits). (Formerly 7100:497)

ART:498 Senior Thesis in the History of Art (1-3 Credits)

Prerequisites: 14 credits in art history and permission of instructor. Individual research in art history centered around limited topic, such as specific time period, history of specific techniques, a single artist or movement in art history. No more than 10 credits will be counted toward major. (May be repeated for credit when a different subject or level of investigation is indicated) (Formerly 7100:498)

ART:499 Honors in Art (3 Credits)

Prerequisites: Senior standing in the Honors Program and approval of honors project by faculty advisor. To be used for research in the Honors Program established by student and his/her adviser(s). (May be repeated for a total of six credits) (Formerly 7100:499)

Art Education, BA

Bachelor of Arts in Art Education (C10200BA)

More on the Art Education major (<https://www.uakron.edu/art/academics/art-education.dot>)

The Art Education program in the Mary Schiller Myers School of Art consists of a core curriculum of theory and practice that prepares students to work in a variety of organizational settings, from PK-12 schools to museums and community arts organizations.

Purpose

The purpose of this program is to enable students to develop the range of knowledge, skills, and competencies expected of those holding a liberal-arts baccalaureate degree in art and professional preparation in art education. P, K-12 licensed school art teachers who graduate from this program are expected to exhibit a high level of skills as artists, designers, and educators. Students benefit from excellent art, history, and theory instruction, and professionally equipped art and technology studios, while obtaining licensure from the College of Education through highly academic and interactive coursework.

Goals

The following basic goals/competencies are essential to all prospective art teachers:

- To foster competencies with the basic expressive, technical, procedural and organizational skills, and conceptual insights developed through studio art and design experiences.
- To facilitate an understanding of the major styles and periods of art history, analytical methods, and theories of criticism.
- To help students connect an understanding of educational processes and structures with an understanding of relationships among the arts, sciences, and humanities, in order to apply art competencies in teaching situations and to integrate art/design instruction into the total process of education.
- To assist teachers in developing the knowledge and skills to customize and differentiate learning for learners with a range of individual differences. To aid pre-service teachers in developing curricular, instructional, and assessment strategies for building 21st Century cross-disciplinary skills for K-12 students (communication, collaboration, critical thinking, and the use of technology).
- To help students develop effective assessment strategies for collecting data and using it to improve instruction and support learner success.

Distinctions

Students are presented with a broad range of facilities and opportunities while pursuing their BA in Art Education such as:

- Gain hands-on experience working with diverse student populations in clinical experiences.
- Obtain personalized job placement assistance (85% average full-time placement rate for graduating teachers)
- Exhibit in shows both within the university and beyond in regional venues.
- Network through student organizations like CAT (Coalition for Art Teachers) and at Ohio Art Education Association conferences.
- Participate in Arts LIFT (award-winning community-based art education program) Art Bomb Brigade (Knight funded mural arts program) and other University-sponsored outreach initiatives.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work*

schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others. The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the The Mary Schiller Myers School of Art their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Art Studio with Minor, BA

Bachelor of Art, Studio Emphasis (C10001BA)

More on the Studio Emphasis major (<https://www.uakron.edu/art/academics/>)

The Bachelor of Arts Studio is an interdisciplinary, liberal arts degree, in which students are permitted to self-design the required suite of 42 studio electives around their interests in varying media within the School of Art. BA Studio Art Majors must complete a Minor Area Course of Study, two years of a foreign language, or five courses in American Sign Language.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the The Mary Schiller Myers School of Art their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Ceramics, BFA

Bachelor of Fine Arts in Ceramics (C10009BFA)

More on the Ceramics major (<https://www.uakron.edu/art/academics/ceramics.dot>)

The ceramics program at the Mary Schiller Myers School of Art is assembled on the belief that students can learn through doing: assembling hand-skills through practice, thinking through sketching and growing as artists by undertaking rigorous driven practice.

Education pioneer John Dewey wrote in *Art as Experience*, “we do not learn from experiences, we truly learn by reflecting on our experiences.” In keeping with this thinking, the curriculum at the Myers School of Art explores the history of ceramics and uses that knowledge to consider the future of the medium. Clay and ceramics as a material have developed alongside humanity since the earliest periods of civilization. In that time knowledge has been passed on through demonstration, practical instruction and the exchange that comes with the discussion of novel ideas.

The program at the Myers School of Art explores art making by considering the historical and cultural meaning of ceramic materials, as well as examining the importance of objects. Students are asked to draw on their personal experience with the world of things and then consider new possibility and uses for such items. In support of the creation of individual work, we include lectures, demonstrations, hands-on experiences and experimentation which allow students to develop the knowledge of processes and the skills necessary to production of their ceramic works.

Purpose

The ceramics program at the University of Akron’s Myers School of Art offers a comprehensive forward-thinking undergraduate education, which will prepare students for work as visual artists and independent thinkers. The program is structured so students may consider careers in ceramics, or further graduate education in the visual arts at the countries leading Masters of Fine Arts Programs.

The program aims to offer students a wide range of ceramic techniques and firing methods. The ceramics program at the Myers School of Art provides the highest quality of instruction and support to facilitate students learning and the development of their personal artistic voice.

Goals

Students majoring in Ceramics at the University of Akron will develop:

- Skills for a useful future in the field of fine art.
- A focused understanding of the contemporary continuum of clay.
- Knowledge of the historical uses, importance, and aesthetics of ceramics.
- A tactile understanding of clay materials and their potential.
- Develop a set of problem-solving skills, methods of critical thinking, ideation, and the ability to talk about artwork.
- Reflective ways to self-evaluate and consider developing their own artwork.
- Develop the ability to transfer tactile skills to other media while figuring out how to draw in skills from other areas.
- The ability to operate and control a wide range of ceramics’ firing temperatures and atmospheres in various kilns including bisque, glaze, oxidation, reduction, salt firing, and raku firing.
- Skills of building ceramic forms by hand, on a potter’s wheel, by slipcasting and employing digital technology.
- Knowledge about the formulation of clay bodies, glazes and ceramics coatings for the widest range of color choices.
- Synthesize periodic assignments, and individual ideas into a unique voice and style of producing individual ceramic artwork.

Distinctions

Students at The University of Akron are presented with a broad range of skills and opportunities to develop their personal voice while pursuing a BFA in Ceramics, including:

- Large open studio spaces programmed to facilitate collaboration and a sense of community.
- More than 15 kilns able to fire in the widest range of oxidation, reduction, salt/soda atmosphere, as well as raku and smoke firing.
- A highly functional fully stocked glaze laboratory.
- Clay making facilities replete with a wide range of clay types.
- Access to cutting edge technology like 3D stereolithographic printing, decal printers, vinyl cutters, and a laser cutter.
- Access to a wide range of exhibition opportunities.
- Assistance finding and developing grant proposals.
- Opportunities to develop an understanding of the social aspects of the world’s oldest three-dimensional material.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Drawing, Minor

Minor in Drawing (C10100M)

The Drawing Minor prepares students to engage in an individual search for expression through the development of strong visual skills, critical reasoning abilities, exploration of materials and processes, and understanding of historical and contemporary art. The minor provides students with the opportunity to integrate creative and artistic practice with their other academic and research pursuits. Flexible thinking and analytical skills are sought by a wide range of professions and industries.

Professors encourage both the freedom and discipline essential to drawing by embracing a wide range of aesthetic strategies and offering individual attention. Classes offer a place where ideas are openly examined, exchanged, challenged, and refined. The Minor requirements consist of 18 credits which include introductory and intermediate drawing courses combined with a slate of choices exploring drawing media, subject matter, and applications. A minimum grade-point average of 2.0 is required.

Requirements for Admission

The student must complete at least 18 credits (Note: some minors may require additional credits).

At least six of the 18 credits must be at the 300/400 level.

A minimum grade-point average of 2.0 in each minor is required.

A minor may be designated at any time during the student's career up to and including the time the degree clearance is processed.

A minor will be placed on the student's record only at the time the student receives a baccalaureate degree and only if an application was processed.

Courses to be applied toward the granting of a minor may not be taken credit/non-credit. A maximum of 6 bypassed credits may be used, but all other credits must be earned.

The student must earn at least nine credits at The University of Akron in courses approved by the faculty granting the minor. Written permission of the dean and the head of the department which grants the minor is required for an exception.

If a student desires a minor from the same department/school as his/her major, there is a college requirement for a minimum of nine (9) non-overlapping credits between the minor and the major, as well as between the minor and other minor programs in the department/school.

A minor serving students who major in a different department/school requires a minimum number of non-overlapping credits as deemed necessary by the minor department/school. The minor department/school can also exclude overlapping courses with the major department/school to ensure the distinct competency of the minor.

Courses required for the minor may carry prerequisites, which must be honored before the student may enroll.

Authorization from the student, adviser and Myers School of Art is required to add the Minor in Drawing

Emerging Technologies, Minor Minor in Emerging Technologies (C10107M)

Emerging Technologies is a minor at the Myers School of Art and explores the use of the latest technologies in art and design.

Purpose

The Emerging Technologies minor is open to all majors curious about transforming ideas with a palette of high tech possibilities. Students dive into lasercutting and 3D printing and more cutting edge technologies to create original material using the latest in advanced technology at the Myers School of Art Makerspace. Hands on exercises are geared towards the students interest and complement the class work in their respective majors.

Goals

- Intensively explore Emerging Technologies in the context of a state-of-the-art Makerspace with in depth hands on project.
- Create engaged, socially-responsible, and thoughtful critical thinkers.
- Encourage diverse perspectives, viewpoints and ideas in support of a student's major studies.
- Accomplished faculty in the field encourage experiential learning and entrepreneurship.

Graphic Design, BFA

Bachelor of Fine Arts in Graphic Design (C10104BFA)

More on the Graphic Design major (<https://www.uakron.edu/art/academics/graphic-design.dot>)

Graphic Design is the largest program within the Myers School of Art. It is a professional program for students pursuing careers in the expanding multidisciplinary field of visual communication design. Critical thinking and logical problem solving in print, web and interactive media are emphasized.

Purpose

The curriculum prioritizes creative thinking and problem solving through design theory but also emphasizes contemporary production processes using industry-standard technology. Our program requires students engage in the process of creating and encourages them to explore unexpected solutions. Students gain an understanding that design is an investment in research and ideation, innovative thinking, knowledge of tools and materials, and results-oriented solutions that create value for businesses. Considering this philosophy, our purpose is simple: to educate and prepare students for excellent and diverse careers around the country, appropriate to their talents, skills, and interests.

Goals

- Unapologetically encourage diverse perspectives, viewpoints, ideas and thinking from all students, staff, faculty, guests and visitors.
- Create engaged, socially-responsible, and thoughtful critical thinkers.
- Maintain a diverse and accomplished faculty, knowledgeable and prepared to engage students on the ever-expanding field of graphic design.
- Promote ethical standards of business and communication, while cultivating an environment for a responsible and socially-aware graphic design industry.
- Research and develop modern techniques for graphic designers, including committing to emerging technologies and new industries.
- Archive and maintain the oral and written history of visual communication design.

Distinctions

- A comprehensive graphic design program within an interdisciplinary school of art.
- Graduates of the program have instruction in all areas of the expanding graphic design industry, including traditional print, web, interactive, user experience, motion, animation, environmental, and experimental design.
- Design x Nine is a unique in-house student design studio opportunity creating real-world solutions for on and off-campus clients.
- 100% of our graduates develop business connections and entrepreneurial skills through professional internships; unique in-class client opportunities with companies like the Akron Zoo, MiLB's Akron Rubber Ducks, NASA, Bridgestone, or Microsoft; or various portfolio reviews and local affiliated events with industry professionals.
- Students have access to industry specific and emerging technology, including computer labs, camera/video equipment, various printing

solutions, 3D prototyping and printing, laser cutting, augmented and virtual reality systems, projection mapping, software solutions, and materials.

- Finding inspiration through travel, our students regularly visit design epicenters such as Miami, New York, and Chicago as well as unique travel experiences to other areas of the United States and Europe.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the The Mary Schiller Myers School of Art their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Illustration, Minor

Minor in Illustration (C10108M)

The illustration minor prepares students with skills and knowledge necessary to pursue a career in professional illustration. Students are encouraged to discover their personal, unique visual voice. They will explore traditional and/or digital approaches to illustration, advancing technical proficiency, imaginative problem solving, and entrepreneurial thinking. This minor offers more advanced illustration students the opportunity to enhance their portfolio through the exploration and execution of communicative and narrative image making. Advanced Illustration courses begin with a proposal in writing and will result in a significant personal body of work such as: a graphic novel, a cohesive series of drawings or paintings, a children's book, a series of posters or prints, or conceptual development series for entertainment arts. They must meet goals that he or she sets and complete the project with a high level of finish. The medium and the theme is open but must be clearly established within the proposal. The minor allows students to continue advanced projects from previous semester if repeating.

Jewelry & Metalsmithing, BFA

Bachelor of Fine Arts in Jewelry and Metalsmithing (C10102BFA)

[More on the Jewelry and Metalsmithing major](#)

The jewelry and metalsmithing program introduces students to a variety of techniques and processes specific to the field, which allow students to explore a wide range of ideas, objects, images, and modes of making. The curriculum combines art theory, craft history, contemporary issues and personal influences with a wide approach to making and materials. Students refine their skills as they study and create utilitarian and nonfunctional objects, jewelry and metal sculpture.

Purpose

The purpose of the Jewelry & Metalsmithing program is to offer a comprehensive, forward-thinking undergraduate education preparing students for graduate-level study in the field; professional life as a visual artist; and skills in the production/manufacturing field of the jewelry industry. The program aims to provide students with experience in a wide variety of jewelry and metalsmithing processes as well as alternative approaches to materials, processes, and tools to find their own artistic direction through research, experimentation, and practice.

Goals

- To offer students a foundation in traditional and contemporary jewelry making and metalsmithing practices, while also emphasizing conceptual thinking, innovation in design, and refined craftsmanship.
- To encourage students to explore individual directions in contemporary jewelry making, ornamentation, and object making through mixed media exploration, production techniques, and fine jewelry skills.
- To encourage students to understand the implications of the objects and jewelry they make through the larger contexts of art theory, craft history, and contemporary issues in the studio art jewelry field.
- To give students experience in working with a variety of traditional techniques and processes including silversmithing, hollow form construction, casting, enameling, electroforming, stone setting, and die forming.
- To give students experience at working with a variety of alternative techniques and processes including 3D modeling and printing, laser cutting, powder coating, electroplating, vacuum forming, resin work, and experimentation with other materials that allow students to consider the meaning of materials in our contemporary culture.
- To help students develop creative problem-solving skills, self-motivated studio practice, and a strong work ethic.
- To familiarize students with the major issues and aesthetic approaches of contemporary art and craft disciplines.
- To foster the individual's skills in thinking critically and analytically as a means of evaluating and understanding art made by themselves and other artists.
- To educate students on working safely in all areas of a jewelry and metalsmithing studio.
- To provide students with unique opportunities beyond the scope of traditional classroom learning to both expand upon the education that we offer as well as encourage an appreciation and love of lifelong learning.

Distinctions

Students are presented with a broad range of facilities and opportunities while pursuing their BFA in Jewelry & Metalsmithing such as:

- The Myers School of Art jewelry & Metalsmithing studio is a shared, collaborative environment to which students have 24-hour access. In addition to communal space, studio space is offered to intermediate and advanced level students on a competitive basis.
- Exhibit in shows both within the university and beyond in local, regional, and national venues.
- Participate in the Annual Myers Holiday Shop, Annual Boston Mills ArtFest Akron, Art Museum Holiday Sale, and other local venues.
- Travel to the Biennial Society of North American Goldsmith Conferences.
- Participate in the Akron Jewelry & Metals Club Activities
- Engage with the Akron and Northeast Ohio communities at museums, schools, and community jewelry and metalsmithing events.
- Gain hands-on experience working with visiting artists and local and regional artists in our exciting internship program.
- Past students have interned with Zenia Lis, Stephen Yusko, Tap Studios, Seth Gould, and Cambridge Jewelers.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the The Mary Schiller Myers School of Art their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Painting & Drawing, BFA Bachelor of Fine Art in Painting and Drawing (C10004BFA)

More on the Painting and Drawing major (<https://www.uakron.edu/art/academics/painting-drawing.dot>)

The Painting and Drawing program emphasizes that we are a community of people and ideas. Faculty and students are united in fostering curiosity and shared work ethic. Students explore studio work that demonstrates

individual expression, critical thinking, and an awareness of art's historical and contemporary issues.

Purpose

The painting department supports an inspired learning environment that encourages both experimentation and problem-solving. Working in individual studios, painting majors develop analytical thinking and a supportive community through critiques and discussions. An active visiting artist program and travel opportunities give students direct access to professionals in their field and new perspectives. Faculty and students share a respect for the tradition of painting while addressing how painting engages contemporary culture, technology and ideas.

Goals

Students demonstrate strong technical, design, and conceptual thinking skills. Exposure to a wide range of creative processes and materials prepare students for personally driven projects in advanced work. Learning both traditional and modern approaches, majors enjoy the flexibility to investigate a wide range of approaches and related disciplines. Professional practices courses and visiting artists provide students with innovative learning and career development opportunities.

Distinctions

Students are presented with a broad range of facilities and opportunities while pursuing their BFA in Painting/Drawing such as:

- 24-hour studio access
- Individual studio spaces at the advanced level
- Professional career development
- Exhibition opportunities
- Nationally recognized visiting artist program
- Preparation for graduate study
- Student-run painting club
- Access to world-class museums in the region
- National and international travel opportunities

Painting, Minor

Minor in Painting (C10101M)

The Painting Minor prepares students to engage in an individual search for expression through the development of strong visual skills, critical reasoning abilities, exploration of materials and processes, and understanding of historical and contemporary art. The minor provides students with the opportunity to integrate creative and artistic practice with their other academic and research pursuits. Flexible thinking and analytical skills are sought by a wide range of professions and industries.

Professors encourage both the freedom and discipline essential to painting by embracing a wide range of aesthetic strategies and offering individual attention. Classes offer a place where ideas are openly examined, exchanged, challenged, and refined. The Minor requirements consist of 18 credits including introductory, intermediate, and advanced painting courses offering a range explorations in painting and drawing media. A minimum grade-point average of 2.0 is required.

Requirements for Admission

The student must complete at least 18 credits (Note: some minors may require additional credits).

At least six of the 18 credits must be at the 300/400 level.

A minimum grade-point average of 2.0 in each minor is required.

A minor may be designated at any time during the student's career up to and including the time the degree clearance is processed.

A minor will be placed on the student's record only at the time the student receives a baccalaureate degree and only if an application was processed.

Courses to be applied toward the granting of a minor may not be taken credit/non-credit. A maximum of 6 bypassed credits may be used, but all other credits must be earned.

The student must earn at least nine credits at The University of Akron in courses approved by the faculty granting the minor. Written permission of the dean and the head of the department which grants the minor is required for an exception.

If a student desires a minor from the same department/school as his/her major, there is a college requirement for a minimum of nine (9) non-overlapping credits between the minor and the major, as well as between the minor and other minor programs in the department/school.

A minor serving students who major in a different department/school requires a minimum number of non-overlapping credits as deemed necessary by the minor department/school. The minor department/school can also exclude overlapping courses with the major department/school to ensure the distinct competency of the minor.

Courses required for the minor may carry prerequisites, which must be honored before the student may enroll. ART 131 Foundation Drawing is a prerequisite and is not applicable toward the total credit hour requirements.

Authorization from the student, adviser and Myers School of Art is required to add the Minor in Painting.

Photography, BFA

Bachelor of Fine Arts in Photography (C10103BFA)

More on the Photography major (<https://www.uakron.edu/art/academics/photography.dot>)

The Photography program provides in-depth experience in black and white and color fine art photography utilizing film and digital technologies as well as commercial photography and alternative approaches to the medium. Technical mastery and advanced conceptual thinking are emphasized, along with a solid grounding in historical and contemporary issues.

Purpose

The photography area has a primary aim to provide a high quality professional undergraduate education in fine art photography. The program's curriculum centers on mastery in film and digital technologies as well as strong conceptual development towards a final portfolio and exhibition. The photography area also serves many art and non-art students who take photography classes as electives.

Goals

- Education of the student in the field of fine art photography.
- Understanding of historical and conceptual developments in the field.
- Understanding of the tools, materials, and processes used in the field today.
- Development of the students' career as a professional artist working in the gallery/museum world.
- Personal development for the student, to increase self-awareness and to provide a means for self-expression.

Distinctions

Students are presented with a broad range of facilities and opportunities while pursuing their BFA in Photography such as:

- Competitive scholarships available for partial tuition, fees, tools, research, materials, and travel
- Travel to the Society for Photographic Education's Regional and National Conferences
- Afterhours access to darkrooms, lighting, and digital labs.
- Exhibit on campus, locally, and regionally.
- Gain hands-on experience with visiting artists in residence programs.
- Participate in activities led by the campus student organization, Folk Photography Association.

Printmaking, BFA Bachelor of Fine Arts in Printmaking (C10003BFA)

More on the Printmaking major (<https://www.uakron.edu/art/academics/printmaking.dot>)

The Printmaking program is centered upon a dynamic investigation into the meaning of printed matter and the production of multiples in our complex world. Students energetically examine the visual and expressive potential of fine art printmaking while developing theoretical grounding in the historic context and contemporary applications of printmaking.

The curriculum is structured to provide a firm technical and conceptual foundation in print media as students develop problem-solving and analytical skills. Through independent and communal efforts students refine their art-making abilities, discover their individual voices and aesthetic sensibilities, and learn the habits essential to the lives of active artists and engaged global citizens.

Purpose

The purpose of the Printmaking program is to offer a comprehensive, forward-thinking undergraduate education in printmaking preparing students for professional work as visual artists and practitioners in the fields of printing/printmaking and for graduate-level study in printmaking and the visual arts. The program aims to offer students an education in a wide range of printmaking techniques—from historic to progressive—while continuing to provide high-quality printmaking courses to support and broaden the educations of students in other areas of study within The Myers School of Art.

Goals

- To help students gain technical strength in the four primary printmaking media—relief, intaglio, lithography, and screenprinting—and progressive contemporary printmaking practice—digital printing, printstallation, relational aesthetics, etc.

- To foster student learning of the problem-solving skills, methods of critical thinking, and idea development of the printmaking discipline and greater art-making practice.
- To aid students in seeing the potential for the transference of basic printmaking skills, concepts, and thought processes into other fields of study and areas of personal investigation.
- To lead students in learning to work collaboratively in a communal space with a sense of social responsibility.
- To teach contextual knowledge of contemporary and historic printmaking.
- To foster the ability to critically analyze artworks created through printmaking processes.
- To provide students with unique opportunities beyond the scope of traditional classroom learning to both expand upon the education that we offer as well as encourage an appreciation and love of lifelong learning.

Distinctions

Students are presented with a broad range of facilities and opportunities while pursuing their BFA in Printmaking such as:

- The Myers School of Art Printshop is a shared, collaborative environment to which students have 24-hour access. In addition to communal space, studio space is offered to intermediate and advanced level students on a competitive basis.
- Gain hands-on experience working with our extensive visiting artist program.
- Exhibit in shows both within the university and beyond in regional venues.
- Travel to the annual Southern Graphics Council International and biennial Mid America Print Council conferences.
- Participate in APE (Akron Printmaking Enthusiasts), our printmaking club, activities.
- Engage with the Akron and Northeast Ohio communities at museums, schools, and community printmaking demonstrations and events.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the The Mary Schiller Myers School of Art their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program ([CCP](#)) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade](#)

[in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
General Education Requirements (p. 652)		36
Art History Requirements		12
Foundation Core		12
Art History Elective		3
Printmaking Requirements		36
3D Elective		3
Studio Electives		15
Additional Credits for Graduation *		3
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Note: A 2.5 cumulative GPA in all ART courses is required for graduation.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
ART:101	Survey of Global Art 1: Prehistory to 1250 CE	
ART:102	History of Global Art 2: 1250 CE - 1850 CE	
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity

Sculpture, BFA

Bachelor of Fine Arts in Sculpture (C10005BFA)

More on the Sculpture major (<https://www.uakron.edu/art/academics/sculpture.dot>)

The Sculpture program provides a solid grounding in a wide variety of conceptual, technical and formal approaches for the creation of sculpture to enable students to explore and communicate their individual artistic concerns. The curriculum is designed to introduce students to the almost limitless possibilities of contemporary sculpture.

Purpose

The purpose of the Sculpture program is to provide an undergraduate education in sculpture that prepares students for graduate-level study in sculpture and for professional life as a visual artist. The program aims to provide students with experience in a wide variety of sculptural processes and media and the tools to find their own artistic direction through research, experimentation and practice.

Goals

- To encourage students to explore individual directions in contemporary sculpture through object making, mixed media installations, interdisciplinary projects and public art exhibitions.
- To give students experience at working with a variety of media and processes including steel, wood, plaster, found objects, mixed media and lost wax casting.
- To help students develop creative problem-solving skills, a self motivated studio practice and strong work ethic.

- To familiarize students with the major issues and aesthetic approaches of contemporary sculpture.
- To encourage students to apply skills learned in sculpture to their other areas of study.
- To foster the individual's skills in thinking critically and analytically as a means to evaluating and understanding art made by themselves and other artists.
- To educate students in working safely in three dimensions.

Distinctions

Students are presented with a broad range of facilities and opportunities while pursuing their BFA in Sculpture such as:

- The sculpture facility comprises a well-equipped and organized wood-working shop, metal shop, foundry and plaster area, available outside of class times through supervised lab hours.
- The woodshop has a state of the art "Saw-stop" table saw, compound miter saw, band-saws, sanding machines, drill press and most common woodworking tools and equipment.
- A metal shop, with oxy-acetylene and MIG welding capabilities, hydraulic shear, sheet metal rollers, metal band-saw, bench grinder and more.
- Gain valuable professional work experience as the Sculpture area's Student Assistant.
- Work with internationally-renowned visiting artists.
- Exhibit work on campus and in regional venues – sculpture students have exhibited their work at The Box Gallery, Summit ArtSpace, The Icehouse and Spaces, Cleveland.

The following information has official approval of **The Mary Schiller Myers School of Art** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Students are encouraged to visit the The Mary Schiller Myers School of Art their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Biology

Biology is the fastest-growing field of science today and its impact is carried to many fronts: medicine and health care; the environment

and climate change; and global food sources. A degree in Biology can prepare a student for professional schools, such as medical, dental, veterinary and pharmacy. Alternatively, in collaboration with the College of Education, the degree can prepare a student to teach high school biology. Graduates with Biology degrees from UA become physicians, dentists, pharmacists, veterinarians, and university professors, as well as conducting a variety of biological research in firms such as Enviroscience, Battelle Memorial Institute, Ohio EPA, Ohio Nature Conservancy, and Ohio DNR. UA students gain experience in these areas through research opportunities in academic laboratories, internships with local businesses, and with co-ops.

- Biology, BS (p. 59)
- Biology, Minor (p. 60)
- Biomedical Science, BS (p. 60)

Biology (BIOL)

BIOL:100 Introduction to Botany (4 Credits)

Identification and biology of common plants of this region. Recommended for teachers of nature study. Not available for credit toward a degree in biology. Laboratory. (Formerly 3100:100)

BIOL:101 Introduction to Zoology (4 Credits)

Identification and biology of common animals of this region. Recommended for teachers of nature study. Not available for credit toward a degree in biology. Laboratory. (Formerly 3100:101)

BIOL:103 Natural Science: Biology (4 Credits)

Designed for non-science majors. Laboratory and class instruction illustrate concepts of living organisms with emphasis on mankind's position in, and influence on, the environment. (Formerly 3100:103)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

BIOL:106 Exploring Biology (3 Credits)

Exploration of how science works and the cellular organization, genetic inheritance and diversity of living things. Not available for credit toward a degree in biology. (Formerly 3100:106)

Gen Ed: - Natural Science

BIOL:108 Introduction to Biological Aging (3 Credits)

Prerequisite: BIOL 103. Survey of normal anatomical and physical changes in aging and associate diseases. (For students in gerontological programs at Wayne College. Not for B.S. biology credit.) (Formerly 3100:108)

Gen Ed: - Natural Science

BIOL:111 Principles of Biology I (4 Credits)

Pre/Corequisite: CHEM 151. Molecular, cellular basis of life; energy transformations, metabolism; cell reproduction, genetics, development, immunology, evolution, and origin and diversity of life (through plants). Laboratory. (Formerly 3100:111)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

BIOL:112 Principles of Biology II (4 Credits)

Prerequisite: BIOL 111 with a grade of C- or better. Animal diversity; nutrients, gas exchange, transport, homeostasis, control in plants and animals; behavior; ecology. (BIOL 111 and BIOL 112 are an integrated course for biology majors.) Laboratory. (Formerly 3100:112)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

BIOL:113 Professional Development for Biology Majors (1 Credit)

Prerequisite/Corequisite: BIOL 111. This course is for Biology majors in their first year of study to provide useful tools as they pursue a Biology career. Recommended, not required. (Formerly 3100:113)

BIOL:130 Principles of Microbiology (3 Credits)

Basic principles and terminology of microbiology; cultivation and control of microorganisms; relationships of microorganisms; medical microbiology. Laboratory. Not available for credit toward a degree in biology. (Formerly 3100:130)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

BIOL:131 The Biology of Monsters (1 Credit)

Many movie monsters use exaggerations or extrapolations of real biological concepts. This course uses monsters to teach key biological concepts in a fun and accessible way. A short lecture is followed by a screening of the movie. (Formerly 3100:131)

BIOL:180 BS/MD Orientation (1 Credit)

Orientation to the BS/MD Program. Restricted to students in the BS/MD Program. Graded credit/no credit. Not available for credit toward a biology degree. (Formerly 3100:180)

BIOL:190 Health-Care Delivery Systems (1 Credit)

Health-care principles and practices. Restricted to the student in NEOUCOM, six-year BS/MD program. Graded credit/noncredit. Not available toward credit as major in biological sciences. (Formerly 3100:190)

BIOL:191 Health-Care Delivery Systems (1 Credit)

Health-care principles and practices. Restricted to the student in NEOUCOM, six-year BS/MD program. Graded credit/noncredit. Not available toward credit as major in biological sciences. (Formerly 3100:191)

BIOL:200 Human Anatomy & Physiology I (3 Credits)

Study of structure and function of the human body. Molecular, cellular function, histology, integumentary system, skeletal system, muscular system, nervous system, and the sense organs. Not available for credit toward a degree in biology. (Formerly 3100:200)

Ohio Transfer 36: Yes

BIOL:201 Human Anatomy & Physiology Laboratory I (1 Credit)

Laboratory devised to allow hands on experience using models, dissections of various animals, virtual dissection, and physiological exercises. Not available for credit toward a degree in biology. (Formerly 3100:201)

BIOL:202 Human Anatomy & Physiology II (3 Credits)

Prerequisite: BIOL 200. Study of structure and function of the human body. Endocrine system, cardiovascular system, lymphatics, respiratory system, urinary system, digestive system, and reproductive systems. Not available for credit toward a degree in biology. (Formerly 3100:202)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

BIOL:203 Human Anatomy & Physiology Laboratory II (1 Credit)

Laboratory devised to allow hands on experience using models, dissections of various animals, virtual dissection, and physiological exercises. Not available for credit toward a degree in biology. (Formerly 3100:203)

BIOL:211 General Genetics (3 Credits)

Prerequisite: Completion of BIOL 112 with a grade of "C-" or better. Principles of heredity, principles of genetics. (Formerly 3100:211)

BIOL:212 Genetics Laboratory (1 Credit)

Prerequisite: BIOL 112 with a grade C- or better, and prerequisite or corequisite: BIOL 211. Laboratory experiments in genetics with emphasis on scientific method; techniques in molecular biology. (Formerly 3100:212)

BIOL:217 General Ecology (3 Credits)

Prerequisite: Completion of BIOL 112 with a grade of "C-" or better. Study of interrelationships between organisms and environment. (Formerly 3100:217)

BIOL:225 Biology of AIDS (1 Credit)

Prerequisite: Permission. Course examines the Human Immunodeficiency Virus and the disease of AIDS. Virus structure, replication, therapy, transmission, epidemiology, disease process and social consequences are studied. Not available for credit toward a degree in biology. (Formerly 3100:225)

BIOL:238 Biomimicry Foundations (3 Credits)

An introduction to biomimicry through the analysis of case studies, including those from Northeast Ohio, and a consideration of the major tools and methods. (Formerly 3100:238)

BIOL:265 Introductory Human Physiology (4 Credits)

Study of physiological processes in human body, particularly at organ-systems level. Not open to preprofessional majors. Laboratory. Not available for credit toward a degree in biology. (Formerly 3100:265)
Gen Ed: - Natural Science w/LAB

BIOL:290 Health-Care Delivery Systems (1 Credit)

Health-care principles and practices. A continuation of 190/191 for a second year student in NEOUCOM six-year BS/MD program. Graded credit/noncredit. Not available toward credit as major in biological sciences. (Formerly 3100:290)

BIOL:291 Health-Care Delivery Systems (1 Credit)

Health-care principles and practices. A continuation of 190/191 for a second year student in NEOUCOM six-year BS/MD program. Graded credit/noncredit. Not available toward credit as major in biological sciences. (Formerly 3100:291)

BIOL:295 Special Topics in Biology (1-3 Credits)

Prerequisite: Permission. Special courses offered occasionally in areas where no formal course exists. Not available for credit toward a degree in biology. (Formerly 3100:295)

BIOL:311 Cell & Molecular Biology (4 Credits)

Prerequisites: CHEM 151, CHEM 152, CHEM 153, CHEM 154, and BIOL 211. Study of structure and function of cells, with emphasis on both classical and modern approaches to understanding organelles, energy balance, protein synthesis, and replication. (Formerly 3100:311)

BIOL:312 Neuroscience in Health and Disease (3 Credits)

Prerequisite: BIOL 112 with a C or better or BIOL 202 with a C or better or PSYC 320 with a C or better. Discover how neurons communicate and explore how the brain functions under conditions of normal health, as well as conditions of disease. (Formerly 3100:312)

BIOL:315 Evolutionary Biology Discussion (1 Credit)

Prerequisite: BIOL 211 with a grade of C- or better. Informal discussions of various aspects of organic evolution of general or special interest. (Formerly 3100:315)

BIOL:316 Evolutionary Biology (3 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Description of core evolutionary concepts and the history of evolutionary thought including natural selection, sexual selection, genetic drift, higher level selection and speciation. (Formerly 3100:316)

BIOL:318 Biomimicry Design Challenge (3 Credits)

A studio design course using nature as a model for creating innovative solutions targeting a specific design problem. It combines a brief introduction into biomimetics and is open to students from different disciplines in the arts, sciences, and engineering. (Formerly 3100:318)

BIOL:331 Microbiology (4 Credits)

Prerequisites: BIOL 112, BIOL 211, and CHEM 263 (or corequisite). Survey of monera with emphasis on the bacteria: their morphology, cultivation and chemical characteristics. Relationships of microorganisms to humans and their environment. Laboratory. (Formerly 3100:331)

BIOL:342 Flora & Taxonomy (3 Credits)

Prerequisite: BIOL 112 with a C- or better. Origins of Ohio flora, ecological and evolutionary relationships. Survey of local flowering plant families, collection and identification of flora. Laboratory and field trips. (Formerly 3100:342)

BIOL:343 Diversity of Plants (3 Credits)

Prerequisites: BIOL 112 with a grade of C- or better, and BIOL 217. A broad survey of the traditional plant "branches" of the tree of life. Diversity, structure, and function of fungi, algae, and land plants. (Formerly 3100:343)

BIOL:344 Diversity of Plant Laboratory (2 Credits)

Prerequisites: BIOL 112 with a grade of C- or better, and BIOL 217: Corequisite: BIOL 343. A broad laboratory survey of the traditional plant "branches" of the tree of life. Students will have hands-on experience with fungi, algae, and land plants. (Formerly 3100:344)

BIOL:345 Biology of Vascular Plants (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. A lecture and laboratory course which presents an overview of the anatomy, morphology, development and evolution of vascular plants. (Formerly 3100:345)

BIOL:363 Foundations of Physiology I (3 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Fundamentals of physiology including integrating systems (neurophysiology, sensory processes, and endocrinology), movement, and muscle. For all pre-professional students and Biology majors. (Formerly 3100:363)

BIOL:364 Foundations of Physiology Laboratory I (2 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Corequisite: BIOL 363. Laboratory experiments in animal physiology. (Transport processes, neurophysiology, endocrinology, muscle physiology.) Presentation of results in written scientific format. (Formerly 3100:364)

BIOL:365 Histology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Cellular structure of organs in relation to their functional activity, life history, comparative development. Laboratory. (Formerly 3100:365)

BIOL:367 Genomics (3 Credits)

Prerequisites: BIOL 111 and BIOL 112. Study of genomes from all branches of life to develop a deeper understanding of functional genomics, genomic architecture, and impacts (ethical and social) of advances in genomics. (Formerly 3100:367)

BIOL:401 Human Anatomy for Biology Majors (4 Credits)

Prerequisite: BIOL 112 with a C- or better. Organizing principles and patterns found in human organs and systems. Laboratory integrates creative, analytical and virtual approaches to translate concept into practical application of anatomy. (Formerly 3100:401)

BIOL:404 Digital Skills for Biologists (3 Credits)

This course teaches students with no prior experience the fundamentals of programming, electronics, 3D printing, actuation and robotics for application to biological experiments. (Formerly 3100:404)

BIOL:406 Principles of Systematics (3 Credits)

Prerequisites: BIOL 112 with a grade of C- or better, and BIOL 211, and BIOL 316. The science of identifying, naming, and classifying the diversity of life. Topics include: nomenclature, types, techniques of data collection, and methods of phylogenetic reconstruction. (Formerly 3100:406)

BIOL:418 Field Ecology (4 Credits)

Prerequisite: BIOL 217 (statistics strongly recommended). Introduction to sampling methods, design of experiments and observations, and computer analysis; some local natural history. Laboratory. (Formerly 3100:418)

BIOL:421 Tropical Field Biology (4 Credits)

Prerequisites: Completion of courses BIOL 111 and BIOL 112 with a grade of C- or better, or equivalent. Ecology of coral reefs, tide pools, mangroves, intertidal zones, terrestrial flora and fauna, island biogeography. Taught at a field station in the tropics. Field trips involved; transportation costs. (Formerly 3100:421)

BIOL:422 Conservation Biology (3 Credits)

Prerequisite: BIOL 217. Explores the factors affecting survival of biodiversity, and how to develop practical approaches to resolve complicated conservation issues. (Formerly 3100:422)

BIOL:423 Population Biology (3 Credits)

Prerequisites: BIOL 211 and BIOL 217. Discussions of animal and plant ecology and evolutionary biology from a species and population level perspective. Includes topics in population ecology and population genetics. (Formerly 3100:423)

BIOL:426 Wetland Ecology (4 Credits)

Prerequisite: BIOL 217. Wetland ecology; principles and conservation. Field studies will be conducted at Bath Nature Preserve. Laboratory. (Formerly 3100:426)

BIOL:427 Freshwater Ecology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better, or by permission. The course explores the diversity of aquatic life and key characteristics of freshwater ecosystems with emphasis on the Laurentian Great Lakes. Includes field trips, laboratory. (Formerly 3100:427)

BIOL:428 Biology of Behavior (3 Credits)

Prerequisites: BIOL 211, BIOL 217, and BIOL 316. Biological basis of behavior, ethology, and behavioral ecology. An evolutionary perspective is emphasized. (Formerly 3100:428)

BIOL:429 Biology of Behavior Laboratory (1 Credit)

Prerequisite or corequisite: BIOL 428 and permission of instructor. Individualized, directed study to provide the student with first-hand experience in observing, describing and interpreting animal behavior. (Formerly 3100:429)

BIOL:430 Community/Ecosystem Ecology (3 Credits)

Prerequisite: BIOL 217. An examination of the components, processes, and dynamics in communities and ecosystems. Includes reading and discussion of primary literature. (Formerly 3100:430)

BIOL:433 Medical Microbiology (4 Credits)

Prerequisite: BIOL 331. Pathogenic microorganisms, including bacteria, viruses, fungi, helminthes, and how they cause disease; host-pathogen interactions and the function of the immune response in controlling disease. Laboratory. (Formerly 3100:433)

BIOL:437 Immunology (4 Credits)

Prerequisite: BIOL 211 and BIOL 311. Nature of antigens, antibody response, and antigen-antibody reactions. Site and mechanism of antibody formations, hypersensitivity, immunologic tolerance and immune diseases considered. Laboratory. (Formerly 3100:437)

BIOL:439 Advanced Immunology (3 Credits)

Prerequisite: BIOL 437. Immunology is studied from a historical and current perspective. Topics include T cells, B cells, antigen presentation, HIV, and transplantation. (Formerly 3100:439)

BIOL:440 Mycology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Structure, life history, classification of representative fungi with emphasis on the importance of fungi to humans. Laboratory. (Formerly 3100:440)

BIOL:443 Phycology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Examination of the major groups of algae with emphasis on life histories and their relationship to algal form and structure. Laboratory. (Formerly 3100:443)

BIOL:444 Field Marine Phycology (3 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Collection and identification of tropical marine algae on San Salvador Island, The Bahamas. Discussion of characteristics and ecology of major groups of Caribbean algae. Laboratory. (Formerly 3100:444)

BIOL:451 General Entomology (4 Credits)

Prerequisites: BIOL 112 with a grade of C- or better, and BIOL 217. Structure, physiology, life cycles, economic importance and characteristics of orders and major families of insects. Laboratories parallel lectures. (Formerly 3100:451)

BIOL:453 Invertebrate Zoology (4 Credits)

Prerequisites: BIOL 112 with a grade of C- or better, and BIOL 217. Invertebrate groups, their classification, functional morphology, adaptive radiation and life history. A phylogenetic approach is used. Laboratories parallel lectures. (Formerly 3100:453)

BIOL:454 Parasitology (4 Credits)

Prerequisites: BIOL 112 with a grade of C- or better. Principles of parasitism; host parasite interactions; important human and veterinary parasitic diseases; and control measures. Laboratories parallel lectures. (Formerly 3100:454)

BIOL:455 Ichthyology (4 Credits)

Prerequisites: BIOL 217. Study of fishes; incorporates aspects of evolution, anatomy, physiology, natural history, and commercial exploitation of fishes. Laboratory incorporates field-based exercises and fish taxonomy. (Formerly 3100:455)

BIOL:456 Ornithology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Introduction to biology of birds: classification, anatomy, physiology, behavior, ecology, evolution, natural history and field identification. Laboratory and field trips. (Formerly 3100:456)

BIOL:457 Herpetology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Survey of the diversity, ecology and evolution of amphibians and reptiles. Special emphasis is given to Ohio species. Laboratory. (Formerly 3100:457)

BIOL:458 Vertebrate Zoology (4 Credits)

Prerequisite: BIOL 316 or permission. Biology of vertebrates, except birds evolution, ecology, behavior, systematics and anatomy. Laboratory with field trips. (Formerly 3100:458)

BIOL:460 Medical Histology (4 Credits)

Prerequisite: BIOL 311. 100% online course. Structure of human cells and tissues and their identification. Functional organization of the human cell and tissues. (Formerly 3100:460)

BIOL:463 Exercise Physiology (3 Credits)

Prerequisite: BIOL 363 or instructor permission. Through lecture, reading and critical analysis of current literature, physiologic mechanisms of exercise in animals will be explored. (Formerly 3100:463)

BIOL:465 Advanced Cardiovascular Physiology (3 Credits)

Prerequisite: BIOL 202, or BIOL 363, or BIOL 473. Study of biological mechanisms involved in heart attack, strokes, fluid balance, hypertension and heart disease. Controversial issues in each area will be examined and current research presented. (Formerly 3100:465)

BIOL:466 Vertebrate Embryology (3 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. Lectures focus on development of model vertebrate organisms, and cellular and molecular mechanisms underlying animal development. (Formerly 3100:466)

BIOL:467 Comparative Vertebrate Morphology (4 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. An introduction to the comparative morphology of major vertebrates. The laboratories consist of dissections of representative vertebrates. (Formerly 3100:467)

BIOL:468 The Physiology of Reproduction (3 Credits)

Prerequisites: BIOL 112 with a grade of C- or better, or BIOL 202. Study of the physiological mechanisms of reproduction throughout the animal kingdom with emphasis upon mammalian endocrinological control. Controversial issues and current research will be examined. (Formerly 3100:468)

BIOL:469 Respiratory Physiology (3 Credits)

Prerequisite: BIOL 202, or BIOL 363, or BIOL 473. Study of mechanisms determining gas exchange including mechanics, ventilation, blood flow, diffusion, and control systems. Emphasis is given to normal human lung function. (Clinical aspects are not considered in detail.) (Formerly 3100:469)

BIOL:470 Lab Animal Regulations (1 Credit)

Required of anyone working with animals, and covers government regulations, care of animals and a lab to teach basic animal handling and measurement techniques. (Formerly 3100:470)

BIOL:471 Physiological Genetics (4 Credits)

Prerequisite: BIOL 211 or equivalent and [BIOL 202, or BIOL 363, or BIOL 473]. The integrative study of how genetics and physiology influence complex systems from molecular to behavioral in plants and animals. Laboratory. (Formerly 3100:471)

BIOL:472 Biological Mechanisms of Stress (3 Credits)

Prerequisite: BIOL 202, or BIOL 363, or BIOL 473. Study of mechanisms from molecular to behavioral of how stress influences body systems and signals. The latest research and experimental issues are discussed. (Formerly 3100:472)

BIOL:473 Foundations of Physiology II (3 Credits)

Prerequisite: BIOL 363. Continuing fundamentals of physiology including metabolism and temperature, respiration and circulation, and osmoregulation. Adaptation to extreme environments is emphasized. (Formerly 3100:473)

BIOL:474 Foundations of Physiology Laboratory II (1 Credit)

Prerequisite: BIOL 364; corequisite BIOL 473. Laboratory experiments in animal physiology (respiration, circulation, metabolism, osmoregulation). Presentation of results in scientific format and as oral reports. (Formerly 3100:474)

BIOL:475 Comparative Biomechanics (3 Credits)

Investigation of how physical constraints on biological materials, structural mechanics and locomotion relate to the survival and evolution of living organisms. (Formerly 3100:475)

BIOL:478 Renal Physiology (3 Credits)

Prerequisite: BIOL 112 with a grade of C- or better. The study of how the kidneys affect other body systems and how, in turn, they are affected by these systems. (Formerly 3100:478)

BIOL:480 Molecular Biology (3 Credits)

Prerequisite: BIOL 211 and BIOL 311. Fundamentals of molecular biology, including recombinant DNA technology, applications in biotechnology, medicine, and genetic engineering. Mechanisms of gene regulation. (Formerly 3100:480)

BIOL:481 Advanced Genetics (3 Credits)

Prerequisite: BIOL 211. Nature of the gene; genetic codes; hereditary determinants; mutagenesis and genes in population. Lecture and seminar. (Formerly 3100:481)

BIOL:482 Neurobiology (3 Credits)

Prerequisites: Completion of BIOL 111 and BIOL 112 with a grade of "C-" or better. History of Neuroscience; organization, function and development of the central nervous system; electrophysiological properties of nerve cells; learning and memory; molecular basis for mental diseases. (Formerly 3100:482)

BIOL:483 Research Techniques in Neuroscience (3 Credits)

Prerequisite: [BIOL 112, or BIOL 202, or BIOL 320] with a C or better. Discover how the most cutting edge neuroscience research techniques are designed and implemented to further our understanding of the brain and visual system. (Formerly 3100:483)

BIOL:485 Cell Physiology (3 Credits)

Prerequisite: BIOL 112 with a grade of C- or better and CHEM 401. Explores molecular and biochemical aspects of energy metabolism, inter and intracellular signaling, growth and death of cells. Emphasizes up-to-date scientific literature. (Formerly 3100:485)

BIOL:486 Cell Physiology Laboratory (2 Credits)

Prerequisite: BIOL 112 with a grade of C- or better and CHEM 401. Corequisite: BIOL 485. Practice of modern cell physiology laboratory techniques. Emphasis on student directed original research. (Formerly 3100:486)

BIOL:494 Workshop in Biology (1-3 Credits)

(May be repeated) Prerequisite: Permission of instructor. Group studies of special topics in biology. May not be used to meet undergraduate or graduate major requirements in biology. May be used for elective credit only. (Formerly 3100:494)

BIOL:495 Special Topics in Biology (1-3 Credits)

Special courses offered occasionally in areas where no formal course exists. (Formerly 3100:495)

BIOL:496 Internship in Biology (1-3 Credits)

(May be repeated for maximum of 6 credits) Prerequisites: Permission of department and a minimum 3.0 GPA in Biology courses (20 credits minimum). Work experience to focus on career applications in Biology. Maximum 3 credits will count towards Biology electives. (Formerly 3100:496)

BIOL:497 Biological Problems (1-3 Credits)

(May be repeated for a total of 6 credits) Prerequisites: Permission of department, 2.0 GPA or better in Biology coursework, and currently in the College of Arts & Sciences. Advanced level work, usually consisting of laboratory investigations. A maximum of 4 credits may apply toward the major degree requirements. (Formerly 3100:497)

BIOL:499 Senior Honors Program in Biology (1-3 Credits)

(May be repeated for a total of five credits) Prerequisites: senior standing in Honors College and approval of honors preceptor. Open only to biology and natural sciences divisional majors in Honors College. Independent study leading to completion of approved senior honors. (Formerly 3100:499)

Biology, BS

Bachelor of Science in Biology (310000BS)

More on the Biology major (<https://www.uakron.edu/biology/academics/undergraduate/>)

The following information has official approval of **The Department of Biology** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	College of Arts & Sciences Requirements	14
	Biology Core Requirement	47-50
	Biology Electives	19
	Additional Credits for Graduation *	4-1
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
	<i>Mathematics, Statistics and Logic: 3 credit hours</i>	
	<i>Speaking: 3 credit hours</i>	
	<i>Writing: 6 credit hours</i>	
Breadth of Knowledge		22
	<i>Arts/Humanities: 9 credit hours</i>	
	<i>Natural Sciences: 7 credit hours</i>	
	<i>Social Sciences: 6 credit hours</i>	
Diversity		
	Domestic Diversity	
	Global Diversity	
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
	Complex Issues Facing Society	
	Capstone	
	<i>Review the General Education Requirements page for detailed course listings.</i>	
Total Hours		36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements in Arts & Sciences include the demonstration of ability to use another language by completion of the second year of a foreign language.		
<i>2 Year Language Proficiency</i>		14
	101 Beginning I	
	102 Beginning II	
	201 Intermediate I	
	202 Intermediate II	
SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	

Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:

Upper-level (300/400) courses both in and outside of the student's major;

or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops

Biology Core Requirements

Code	Title	Hours
BIOL:111	Principles of Biology I	4
BIOL:112	Principles of Biology II	4
BIOL:211	General Genetics	3
BIOL:217	General Ecology	3

Biology Electives

Code	Title	Hours
Complete 19 credits: ¹		19
BIOL 3xx/4xx		
Total Hours		19

¹ Credits must be at the 300/400 level and must not be used in the core.

Biology, Minor

Minor in Biology (310000M)

Program Contact

Dr. Stephen Weeks

Professor and Chair, Department of Biology

330-972-6954

scweeks@uakron.edu

The following information has official approval of the **Department of Biology** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Biology" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Summary

Code	Title	Hours
Required Courses		21
Electives		2-3
Total Hours		23-24

Biomedical Science, BS

Bachelor of Science in Biomedical Science (390002BS)

More on the Biomedical Science major (<https://www.uakron.edu/biology/academics/undergraduate-major-information/biology-undergraduate-degree.dot>)

The biomedical science major provides for a broad background in science with concentrations in biology, chemistry, math and physics.

This major is designed with the appropriate coursework to prepare and ensure your maximal success on entrance tests like the MCAT, and for your success in professional school in general.

You'll be prepared to:

- analyze and interpret scientific material
- present scientific or health care-related information clearly and persuasively
- imagine and evaluate alternative ideas
- use research to more effectively address scientific problems

The following information has official approval of **The Department of Biology** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

	General Education Requirements (p. 652)	36
	Biology Requirements	34
	Chemistry Requirements	25
	Math and Physics Requirements	16
	Program Requirements	12
Total Hours		123

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:221	Analytic Geometry-Calculus I	
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking	
	or COMM:106 Effective Oral Communication	
<i>Writing: 6 credit hours</i>		
ENGL:111	English Composition I	
ENGL:112	English Composition II	
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
PSYC:100	Introduction to Psychology	
SOCIO:100	Introduction to Sociology	
Diversity		
Domestic Diversity		
SOCIO:100	Introduction to Sociology

Chemistry

Chemistry is an experimental science that seeks to understand the structure and function of molecules. Chemists synthesize new materials, and study their properties and how they interact with other compounds. The B.S. degrees offered by the department prepare students for independent laboratory work and research. The B.A. degree is less strongly focused on research and prepares students for professional degrees like medicine, dentistry and pharmacy.

Admission, Retention and Graduation

- The student must maintain a minimum 2.00 grade point average
- The student must obtain a grade of C- or better in all required chemistry courses

Introduction

In Northeast Ohio, there is a growing demand for professionals trained in polymer chemistry. The polymer industry is one of the major industrial sectors of the economy of Ohio. The BS/MS Polymer Chemistry degree was instituted to prepare students for jobs in this area. The program provides a quality undergraduate science degree coupled with a graduate degree from one of the premier polymer programs in the country.

Students who are admitted to this program can complete the undergraduate phase of the course of study in three years and then immediately begin graduate studies in polymer science. Under rare circumstances, a student can complete the undergraduate phase in four years after approval of the advisers. A student not proceeding to the graduate program in Polymer Science may complete the degree requirements for the BS Natural Sciences - Polymer Chemistry Concentration.

Students earn a Bachelors degree in Natural Science from the Buchtel College of Arts and Sciences (<https://www.uakron.edu/bcas/>) that is heavily weighted toward chemistry. They will be assigned an adviser in the Department of Chemistry (<https://www.uakron.edu/chemistry/>) and a co-adviser in the Department of Polymer Science (<https://www.uakron.edu/cpspe/>) who will advise them throughout their undergraduate program. Once the undergraduate degree is completed students begin studies to earn a Masters of Science from the College

of Polymer Science and Polymer Engineering (<https://www.uakron.edu/cpspe/>) that will require two years of courses and research.

Admission, Retention, and Graduation

- Honors Students who express interest will be admitted into the 3+2 program after an interview
- Students must have a 3.70 grade point average in all undergraduate science and math classes at the end of the first semester in the third year
- Students who earn a grade less than a C- in any required science or math class will have to repeat the course and earn a grade of C- or better

Cooperative Education Program in Chemistry

Qualifications

Arrangements for entry into the program are on an individual basis and are initiated by the student during the second year of undergraduate study. Full-time B.S. chemistry majors at The University of Akron must meet the following requirements:

- Satisfactory completion of 60 credits with a quality point average of at least 2.3 in chemistry courses and on schedule in their curriculum.
- Acceptance by a cooperative education coordinator or director following a series of interviews
- Part-time students must have completed 60 credits with a 2.3 average and be on schedule in their curriculum
- Transfer students must have preparation equivalent to the minimum requirements for The University of Akron students and must have completed at least one semester of full-time study at The University of Akron

Placement in an industrial or other position is not guaranteed, and foreign students should recognize that many companies require U.S. citizenship or possession of a permanent visa. In any case, final acceptance of a student for any position is the decision of the employer.

Schedule

The work-study schedule for students in the co-op program is as follows:

Fall	Spring	Summer
School	School	Vacation/School
School	School	Vacation/School/Work
School	Work	School
Work	School	Work
School	School	

Admission to Program

Interested students should attend a Cooperative Education orientation session. Students will be expected to remain with their employer for all co-op work periods in order to provide a progression of experience and responsibility. Employment must have approval of the department and the Cooperative Education director, but the University does not guarantee employment.

Registration

Students register for Cooperative Work Periods in the same manner that a student registers for any other University courses. The course is: BCAS:301 Cooperative Education.

A registration fee for each work period is charged to offset the expenses of administering the Co-op Program. Upon completion of a work period, a statement will appear on the student's official transcript listing the course number and title. In place of a grade, "credit" or "no credit" will be given, depending upon the student's satisfactory or unsatisfactory completion of the following:

- Work performance as evaluated by the employer
- Submission of a written Work Report and its approval by the Cooperative Education staff
- Submission of a Cooperative Work Period Summary Form
- Biochemistry, BS (p. 65)
- Chemistry, BA (p. 68)
- Chemistry, BS (p. 69)
- Chemistry, Minor (p. 71)
- Chemistry, Polymer Option, BS (p. 72)

Chemistry (CHEM)

CHEM:100 Chemistry & Society (3 Credits)

Qualitative introduction to chemistry using current world problems and commercial products, such as the ozone layer, nuclear fission, polymers and drugs, to introduce chemical principles. (Formerly 3150:100)

CHEM:101 Chemistry for Everyone (4 Credits)

Integrated, hands-on, laboratory instruction in the fundamental concepts of chemistry for general education and middle-level licensure for pre-service and in-service teachers. (Formerly 3150:101)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

CHEM:110 Introduction to General, Organic & Biochemistry I (Lecture) (3 Credits)

Sequential. Introduction to principles of chemistry, fundamentals of inorganic, organic and biochemistry. Structure and chemistry of carbohydrates, lipids, proteins; biochemistry of enzymes, metabolism, radiation. (Formerly 3150:110)

Ohio Transfer 36: Yes

CHEM:111 Introduction to General, Organic & Biochemistry I (Laboratory) (1 Credit)

Prerequisite/Corequisite: CHEM 110. Sequential. Laboratory course applying principles of chemistry and fundamentals of inorganic, organic and biochemistry. (Formerly 3150:111)

Ohio Transfer 36: Yes

CHEM:112 Introduction to General, Organic & Biochemistry II (Lecture) (3 Credits)

Prerequisite: CHEM 110. Sequential. Introduction to principles of chemistry, fundamentals of inorganic, organic and biochemistry. Structure and chemistry of carbohydrates, lipids, proteins; biochemistry of enzymes, metabolism, radiation. (Formerly 3150:112)

Ohio Transfer 36: Yes

CHEM:113 Introduction to General, Organic & Biochemistry II (Laboratory) (1 Credit)

Prerequisite/Corequisite: CHEM 112. Sequential. Laboratory course applying principles of chemistry and fundamentals of inorganic, organic and biochemistry. (Formerly 3150:113)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

CHEM:114 Introduction to General, Organic & Biochemistry (Lecture) (4 Credits)

Prerequisite: If a student has no high school chemistry, CHEM:101 is recommended to be taken prior to enrollment in CHEM:114. Introduction to principles of chemistry, fundamentals of inorganic, organic and biochemistry. Structure and chemistry of carbohydrates, lipids, proteins; biochemistry of enzymes, metabolism, radiation. (Formerly 3150:114)

CHEM:115 Introduction to General, Organic & Biochemistry (Laboratory) (1 Credit)

Pre/Corequisite: CHEM 114. Laboratory course applying principles of chemistry and fundamentals of inorganic, organic and biochemistry. (Formerly 3150:115)

CHEM:151 Principles of Chemistry I (3 Credits)

Prerequisite: placement in MATH 149 or MATH 154 or permission. Introduction to basic facts and principles of chemistry including atomic and molecular structure, states of matter and thermodynamics. For chemistry majors, pre-medical students and most other science majors. Discussion (day sections). (Formerly 3150:151)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

CHEM:152 Principles of Chemistry I Laboratory (1 Credit)

Pre/Corequisite: CHEM 151. Laboratory course applying principles of thermodynamics, chemical analysis and laboratory practice. (Formerly 3150:152)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

CHEM:153 Principles of Chemistry II (3 Credits)

Pre/Corequisite: CHEM 151. Continuation of 151, 152, including aqueous solution theory, chemical kinetics, equilibrium, electrochemistry and nuclear chemistry. For chemistry majors, premedical students and most other science majors. Discussion (day sections). (Formerly 3150:153)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

CHEM:154 Qualitative Analysis (2 Credits)

Prerequisite: CHEM 152; pre/corequisite: CHEM 153. Laboratory course applying principles of chemical equilibrium to inorganic qualitative analysis. (Formerly 3150:154)

CHEM:199 Introductory Seminar in Chemistry (1 Credit)

Basic concepts in chemistry practice including written and oral communication skills, computer skills, professional ethics, environmental issues, chemical literature, degree options, and career considerations. (Formerly 3150:199)

CHEM:263 Organic Chemistry Lecture I (3 Credits)

Sequential. Prerequisite: CHEM 153 or permission. Structure and reactions of organic compounds, mechanism of reactions. (Formerly 3150:263)

CHEM:264 Organic Chemistry Lecture II (3 Credits)

Sequential. Prerequisite: CHEM 263 or permission. Structure and reactions of organic compounds, mechanism of reactions. (Formerly 3150:264)

CHEM:265 Organic Chemistry Laboratory I (2 Credits)

Sequential. Prerequisite: CHEM 154; pre/corequisite: CHEM 263. Laboratory experiments to develop techniques in organic chemistry and illustrate principles. Discussion. (Formerly 3150:265)

CHEM:266 Organic Chemistry Laboratory II (2 Credits)

Sequential. Prerequisite: CHEM 265. Laboratory experiments to develop techniques in organic chemistry and illustrate principles. Discussion. (Formerly 3150:266)

CHEM:305 Physical Chemistry for the Biological Sciences (4 Credits)

Prerequisites: CHEM 264, MATH 222, and [PHYS 262 or PHYS 292]. Chemical thermodynamics, kinetics, molecular structure and spectra. Accepted for the BS degree in Biochemistry. (Formerly 3150:305)

CHEM:313 Physical Chemistry Lecture I (3 Credits)

Prerequisites: CHEM 264, MATH 223, and PHYS 291. Gases, thermodynamics, thermochemistry, solutions, dilute solutions, chemical equilibrium, phase rule, chemical kinetics, electrochemistry, electrolytic equilibria. (Formerly 3150:313)

CHEM:314 Physical Chemistry Lecture II (3 Credits)

Prerequisites: CHEM 264, and MATH 335, and PHYS 292. Atomic and molecular structure and spectroscopy. (Formerly 3150:314)

CHEM:370 Biochemistry Laboratory (2 Credits)

Prerequisite: CHEM 266. An integrated laboratory experience covering the isolation, characterization and analysis of enzymes and DNA, protein synthesis and purification, enzyme kinetics, biochemical databases and statistical treatment of data. (Formerly 3150:370)

CHEM:380 Advanced Chemistry Laboratory I (2 Credits)

Prerequisite: CHEM 266. A laboratory experience that focuses on the synthetic and spectroscopic techniques of modern inorganic chemistry, including bio-inorganic and organometallic compounds. (Formerly 3150:380)

CHEM:381 Advanced Chemistry Laboratory II (2 Credits)

Prerequisite CHEM 266; corequisite: CHEM 314 or CHEM 305 or permission. Integrated laboratory experience covering the areas of quantitative analysis, physical chemistry, and instrumental techniques. (Formerly 3150:381)

CHEM:399 Internship in Chemistry (1-3 Credits)

Prerequisites: minimum GPA of 2.5; permission of the Department. Work experience focused on career applications of the discipline of Chemistry. (May repeat for a maximum of six credits.) (Formerly 3150:399)

CHEM:401 Biochemistry Lecture I (3 Credits)

Prerequisite: CHEM 264. Biochemistry of amino acids, carbohydrates, lipids, and nucleic acids: structure/function relations. Enzymes as catalysts: kinetics and regulation. Cofactors. (Formerly 3150:401)

CHEM:402 Biochemistry Lecture II (3 Credits)

Prerequisite: CHEM 401. Overview of metabolism; thermodynamics; carbohydrate, fatty acid, amino acid, and nucleoside anabolism and catabolism; hormonal control of metabolism. Photosynthesis. (Formerly 3150:402)

CHEM:406 Biochemistry of Gene Expression (3 Credits)

Prerequisites: BIOL 311 and CHEM 401. DNA, RNA, and protein synthesis, translation and transcription. Gene function and expression, cell cycle and cancer, genetic engineering, gene silencing, gain of function studies. (Formerly 3150:406)

CHEM:410 Special Readings in Analytical Chemistry (1-3 Credits)

Prerequisite: Junior standing or higher. Selected topics in advanced analytical chemistry for which no course exists. (May be repeated) (Formerly 3150:410)

CHEM:411 Special Readings in Inorganic Chemistry (1-3 Credits)

Prerequisite: Junior standing or higher. Selected topics in advanced inorganic chemistry for which no course exists. (May be repeated) (Formerly 3150:411)

CHEM:412 Special Readings in Organic Chemistry (1-3 Credits)

Prerequisite: Junior or greater standing. Selected topics in advanced organic chemistry for which no course exists. (May be repeated) (Formerly 3150:412)

CHEM:413 Special Readings in Physical Chemistry (1-3 Credits)

Prerequisite: Junior or greater standing. Selected topics in advanced physical chemistry for which no course exists. (May be repeated) (Formerly 3150:413)

CHEM:415 Special Readings in Biochemistry (1-3 Credits)

Prerequisite: Junior or greater standing. Selected topics in advanced biochemistry for which no course exists. (May be repeated) (Formerly 3150:415)

CHEM:423 Analytical Chemistry I (3 Credits)

Prerequisite: CHEM 154 and CHEM 263. Theoretical principles of quantitative and instrumental analysis. (Formerly 3150:423)

CHEM:424 Analytical Chemistry II (3 Credits)

Prerequisite: CHEM 154 and CHEM 263. Instrumental analysis with emphasis on newer analytical tools and methods. (Formerly 3150:424)

CHEM:463 Advanced Organic Chemistry (3 Credits)

Prerequisite: CHEM 264. Introduction to study of mechanisms of organic reactions. (Formerly 3150:463)

CHEM:472 Advanced Inorganic Chemistry (3 Credits)

Prerequisites: CHEM 314 or CHEM 305. Concepts of atomic structure integrated in systematic classification of elements. Periodic table. Chemistry of the representative elements. Transition elements including coordination compounds, organometallics and metal carbonyls. (Formerly 3150:472)

CHEM:480 Advanced Chemistry Laboratory III (2 Credits)

Prerequisite: CHEM 381; or Corequisite: CHEM 305; or permission. Integrated laboratory experience covering the areas of quantitative analysis, physical chemistry, instrumental techniques, and inorganic chemistry. (Formerly 3150:480)

CHEM:490 Workshop in Chemistry (1-3 Credits)

(May be repeated) Group studies of special topics in chemistry. May not be used to meet undergraduate or graduate major requirements in chemistry. (Formerly 3150:490)

CHEM:497 Honors Project in Chemistry (2 Credits)

(May be repeated for a total of eight credits) Prerequisites: Junior or senior standing in Honors College and permission of department honors preceptor. Independent research leading to completion of honors thesis under guidance of honors project adviser. (Formerly 3150:497)

CHEM:498 Special Topics in Chemistry (1-3 Credits)

Special Topics in Chemistry. (Formerly 3150:498)

CHEM:499 Research Problems in Chemistry (1-2 Credits)

(May be repeated for a total of eight credits) Prerequisite: Permission. Assignment of special problems to student, designed as an introduction to research problems. (Formerly 3150:499)

Biochemistry, BS

Bachelor of Science in Biochemistry (315002BS)

More on the Biochemistry major (<https://www.uakron.edu/chemistry/undergraduate.dot>)

Chemistry is an experimental science that seeks to understand the structure and function of molecules. Chemists synthesize new materials, and study their properties and how they interact with other compounds. The BS degree offered by the department prepares students for independent laboratory work and research.

The following information has official approval of **The Department of Chemistry** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	31
	College of Arts & Sciences Requirements	8
	Chemistry Requirements	33-35
	Biology Requirements	24
	Physics Requirements	8
	Mathematics Requirements	8
	Biochemistry Electives	8
Total Hours		120-122

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity		
Domestic Diversity		
Global Diversity		
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements for this Bachelor of Science in Arts & Sciences include the demonstration of ability to use another language by completion of the first year of a foreign language.		
<i>1 Year Language Proficiency</i>		<i>8</i>
101 Beginning I		
102 Beginning II		
SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	
Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:		
Upper-level (300/400) courses both in and outside of the student's major;		
or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops		

Chemistry Requirements ¹

BIOL:486	Cell Physiology Laboratory	2
CHEM:3xx/4xx	Upper Level Biochem Elective ^{1,5}	4
	Domestic Diversity Requirement ^{3,4}	3
Hours		12

Total Hours **124-126**

¹ The above order in which you take the 300/400 level Biology and Chemistry courses is **suggested**. **Such courses are not necessarily offered every year.**

² Students pursuing Biochemistry can choose to take CHEM:305 Physical Chemistry for Biosciences, or CHEM:313 and 314 Physical Chemistry Lecture I and II. CHEM:313 is offered in the Fall and CHEM:314 is offered in the Spring.

³ These courses fulfill General Education requirements. Unless a course is specified, refer to the General Education guide at <https://bulletin.uakron.edu/undergraduate/general-education/>. It is recommended that General Education courses be selected to satisfy major or minor requirements, or to double dip between multiple tiers (i.e. Chemistry majors are encouraged to take SOCIO:100 Introduction to Sociology and/or SOWK:244/344 Death and Dying to satisfy the Domestic Diversity Requirement, as well as part of the Social Science Requirement).

⁴ If requirement has been satisfied by previous coursework, credits should still be filled as general electives.

⁵ Students pursuing Biochemistry must take at least 8 credits to fulfill Upper Level Chemistry course requirements. Options for electives include BIOL:331, BIOL:437, BIOL:481, BIOL:497, CHEM:199, CHEM:380, CHEM:381, CHEM:399, CHEM:423, CHEM:424, CHEM:463, CHEM:472, CHEM:497, CHEM:499, STAT:401, PLYS:407, PLYS:497, PLYS:499

Chemistry, BA

Bachelor of Arts in Chemistry (315000BA)

More on the Chemistry major (<https://www.uakron.edu/chemistry/undergraduate.dot>)

Program Description

Chemistry is an experimental science that seeks to understand the structure and function of molecules. Chemists synthesize new materials, and study their properties and how they interact with other compounds. The BS degrees offered by the department prepare students for independent laboratory work and research. The BA degree is less strongly focused on research and prepares students for professional degrees like medicine, dentistry and pharmacy.

Admission, Retention and Graduation

The student must maintain a minimum 2.00 grade point average. The student must obtain a grade of C- or better in all required chemistry courses.

The following information has official approval of **The Department of Chemistry** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program ([CCP](#)) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

More on the Chemistry major (<https://www.uakron.edu/chemistry/undergraduate.dot>)

Program Description

Chemistry is an experimental science that seeks to understand the structure and function of molecules. Chemists synthesize new materials, and study their properties and how they interact with other compounds. The BS degrees offered by the department prepare students for independent laboratory work and research. The BA degree is less strongly focused on research and prepares students for professional degrees like medicine, dentistry and pharmacy.

Admission, Retention and Graduation

The student must maintain a minimum 2.00 grade point average. The student must obtain a grade of C- or better in all required chemistry courses.

The following information has official approval of **The Department of Chemistry** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements

Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	College of Arts & Sciences Requirements	8

Chemistry Requirements	40
Physics Requirements	8
Mathematics Requirements	15
Advanced Chemistry Electives	7
Additional Credits for Graduation *	6
Total Hours	120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity		
Domestic Diversity		
Global Diversity		
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements for this Bachelor of Science in Arts & Sciences include the demonstration of ability to use another language by completion of the first year of a foreign language.		
<i>1 Year Language Proficiency</i>		<i>8</i>
101 Beginning I		
102 Beginning II		
SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	
Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:		
Upper-level (300/400) courses both in and outside of the student's major;		
or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops		

Chemistry Requirements ¹

Code	Title	Hours
CHEM:151	Principles of Chemistry I	3
CHEM:152	Principles of Chemistry I Laboratory	1
CHEM:153	Principles of Chemistry II	3
CHEM:154	Qualitative Analysis	2
CHEM:263	Organic Chemistry Lecture I	3
CHEM:264	Organic Chemistry Lecture II	3
CHEM:265	Organic Chemistry Laboratory I	2

Hours		12
Total Hours		120

¹ Students pursuing the Bachelor of Science in Chemistry must take at least 7 credits to fulfill the Upper Level Chemistry course requirements from: CHEM:399 Internship in Chemistry, CHEM:401/402 Biochem I/II, CHEM:463 Advanced Organic Chemistry, CHEM:497 Honors Project in Chemistry, CHEM:498 Special Topics: Chemistry, CHEM:499 Research Problems, PHYS:481 Methods of Mathematical Physics I, PLYS:403 Polymer Chemistry, PLYS:404 Polymer Physics, PLYS:405 Polymer Science Lab.

² These courses fulfill General Education requirements. Unless a course is specified, refer to the General Education guide at <https://bulletin.uakron.edu/undergraduate/general-education/>. It is recommended that General Education courses be selected to satisfy major or minor requirements, or to double dip between multiple tiers (i.e. Chemistry majors are encouraged to take 3850:100 Introduction to Sociology to satisfy the Domestic Diversity Requirement, as well as part of the Social Science Requirement).

³ If requirement has been satisfied by previous coursework, credits should still be filled as general electives.

Chemistry, Minor Minor in Chemistry (315000M)

Program Contact

Dr. Chris Ziegler
Professor, Chemistry
330-972-7365
ziegler@uakron.edu

The following information has official approval of the **Department of Chemistry and The Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Chemistry" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Summary

Electives

Code	Title	Hours
Select 6 credits of 300/400 level Chemistry courses		6
CHEM 3XX	300-level Chemistry Elective ¹	
CHEM 4XX	400-level Chemistry Elective ¹	
Total Hours		6

¹ For additional 300/400 level chemistry courses, a premed, medical technology or biology student might take CHEM:401 Biochemistry Lecture I, CHEM:402 Biochemistry Lecture II (three credits each). An engineering or physics major might select CHEM:313 Physical Chemistry Lecture I, CHEM:314 Physical Chemistry Lecture II (three credits each). Analytical or instrumental courses might be attractive to students in other fields. Students who intend to minor in chemistry should seek advice from the Chemistry Department about the 300/400 level courses that would be most relevant to their interests.

Note: Chemical engineering majors automatically fulfill the requirements for a minor in chemistry.

Chemistry, Polymer Option, BS

Bachelor of Science in Chemistry, Polymer Option (315001BS)

More on the Chemistry, Polymer Option major (<https://www.uakron.edu/chemistry/undergraduate.dot>)

Chemistry is an experimental science that seeks to understand the structure and function of molecules. Chemists synthesize new materials, and study their properties and how they interact with other compounds. This BS degree offered by the department provides a great way to study polymers as an undergraduate with the opportunity to perform individual research with Akron's renowned Polymer Science faculty.

The following information has official approval of **The Department of Chemistry** and **The Buchtel College of Arts & Sciences**, but is

intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

¹ These courses fulfill General Education requirements. Unless a course is specified, refer to the General Education guide at <https://bulletin.uakron.edu/undergraduate/general-education/>. It is recommended that General Education courses be selected to satisfy major or minor requirements, or to double dip between multiple tiers (i.e. Chemistry majors are encouraged to take SOCIO:100 Introduction to Sociology and/or SOWK:244/344 Death and Dying to satisfy the Domestic Diversity Requirement, as well as part of the Social Science Requirement).

² If requirement has been satisfied by previous coursework, credits should still be filled as general electives.

³ Classes are part of an in-progress curriculum change and are what students should take moving forward based on availability.

Communication

The School of Communication offers students a liberal arts education combined with professional and practical experience to meet the social, professional and personal challenges of the 21st century marketplace. Steeped in the tradition of free, accountable, and effective expression of thoughts and ideas, the broad-based curriculum equips students to think critically, write and speak eloquently, work in groups effectively, develop creatively, act ethically and interface proactively with converged media platforms.

Students choose from three academic concentrations: Strategic and Organizational Communication, Public Relations and Media Studies. Additionally, students are encouraged to participate in internships that lead to careers in media, business, sales and marketing, public relations, journalism and conference planning.

Additional information about the school, its faculty and its programs is available at <http://www.uakron.edu/schlcomm> (<http://www.uakron.edu/schlcomm/>)

Requirements for transferring into the School of Communication:

- Admission to the Buchtel College of Arts and Sciences and a 2.5 GPA or above

Exit Requirement

To graduate with a degree from the School of Communication, a student must attain a minimum 2.0 GPA overall, a minimum 2.30 GPA for all courses taken in the School of Communication and have completed one of the following courses with a grade of C or better.

Code	Title	Hours
COMM:105 & COMM:106	Introduction to Public Speaking and Effective Oral Communication	6
ENGL:111	English Composition I	3
ENGL:112	English Composition II	3
ENGL:113	African American Language and Culture I: College Composition	3
or ENGL:114	African American Language and Culture II: College Composition	

- Business and Professional Communication and Leadership, Certificate (p. 79)
- Communication Studies, BA (p. 80)
- Converged Media, Minor (p. 82)
- Interpersonal Group Communication, Minor (p. 83)
- Media Production, Minor (p. 83)
- Media Studies, BA (p. 84)
- News, Minor (p. 86)
- Organizational Communication, Minor (p. 87)
- Organizational Supervision, BS (p. 87)
- Professional Social Media, Certificate (p. 90)
- Public Communication, Minor (p. 90)
- Public Relations, BA (p. 91)
- Public Relations, Minor (p. 93)

Interdisciplinary Programs

- Applied Political Communication, Certificate (p. 330)

School of Communication (COMM)

COMM:101 Introduction to Communication (3 Credits)

Survey of the field of communication. Topics will focus on the history, as well as the theories, constructs, and career opportunities of all sub disciplines. (Formerly 7600:101)

COMM:105 Introduction to Public Speaking (3 Credits)

Introduction to principles and practice of speaking by reading examples of speeches, studying techniques and methods employed and applying them in a variety of speaking situations. (Formerly 7600:105)

Ohio Transfer 36: Yes

Gen Ed: - Speaking

COMM:106 Effective Oral Communication (3 Credits)

Principles of communication in speaker-audience, group and informal settings, and application of the principles in speeches, group discussions and other oral and written assignments. (Formerly 7600:106)

Ohio Transfer 36: Yes

Gen Ed: - Speaking

COMM:107 Essentials of Management Technology (3 Credits)

Survey of management principles for business and other organizations. Emphasizes the basic management functions including planning, organizing, staffing, influencing, and control. (Formerly 2420:103)

COMM:108 Introduction to Business (3 Credits)

Survey of business emphasizing the nature of business and including entrepreneurship concepts, form, marketing, management, human resources, financial resources and production. (Formerly 2420:104)

COMM:117 Small Business Development (3 Credits)

Prerequisite: COMM 211 with a grade of C or better or permission. Introduction to small business and entrepreneurship: opportunities and qualifications for establishing, financing, operating and developing managerial policies and procedures for small business (Formerly 2420:117)

COMM:125 Essentials of Personal Finance (3 Credits)

Consumer decision making including credit and budgets, time value of money, major purchases, insurance, investments, tax planning, retirement and estate planning. (Formerly 2420:125)

COMM:133 Essentials of Marketing Technology (3 Credits)

Survey of marketing including its environment, buyer behavior, target market selection, product decision, distribution decisions, promotion decisions, pricing decisions and marketing management. (Formerly 2520:101)

COMM:140 Keyboarding (2 Credits)

Fundamentals in the operation of the keyboard; application emphasis on individual student needs such as resumes, application letters and forms, term reports, abstracting, etc. (Formerly 2420:140)

COMM:202 Elements of Human Resource Management (3 Credits)

Prerequisite: COMM 107 with a grade of C or better. Provides students with an overview of human resource management functions. Includes planning, EEO/AA, selection, development, legal environment, compensation, labor relations, appraisal systems and career planning. (Formerly 2420:202)

COMM:204 Services Marketing (3 Credits)

Prerequisites: COMM 260 and COMM 219. Corequisite: COMM 205. Focuses on quality customer service and its role in marketing. Evaluation of customers' needs and expectations, interpretation of customer data and creation of service strategies. (Formerly 2520:204)

COMM:205 Retailing Fundamentals (3 Credits)

Presents basic principles and practices of retailing operations, including site selection, buying, pricing and promotion practices. Use is made of extensive projects and investigations and actual retail operations. (Formerly 2520:202)

COMM:206 Retail Promotion & Advertising (3 Credits)

Prerequisite: COMM 205 or permission. Studio course in retail display and promotion techniques. Window, interior and point of purchase categories; principles of design as applied to commercial art; function in visual design, elements of design, color theory, lettering, printing process, layout to camera-ready art. (Formerly 2520:206)

COMM:209 Principles of Sales (3 Credits)

Prerequisite: COMM 133 or permission. Study of basic principles of selling, emphasizing individual demonstrations and sales projects. Includes review of sales function as integral part of marketing process. (Formerly 2520:212)

COMM:210 Multiplatform Production (3 Credits)

A basic introduction to theory and practice of single camera, photography, graphic and web production. (Formerly 7600:210)

COMM:211 Essentials of Financial Accounting (3 Credits)

Explores accounting concepts, basic accounting cycle, financial statement preparation and interpretation. Coverage of revenues, receivables, inventory, long-term assets/liabilities, debt/equity financing and financial ratios. (Formerly 2420:211)

COMM:212 Basic Accounting II (3 Credits)

Prerequisite: COMM 211 with a grade of C or better. Accounting as it applies to partnerships and corporations. Includes stocks, bonds, cash flows, financial statement analysis, and specialized accounting software. (Formerly 2420:212)

COMM:213 Essentials of Management Accounting (3 Credits)

Prerequisite: COMM 211 with a grade of C or better. Study of the interpretation and use of accounting data by management in decision making and the planning and controlling of business activities. (Formerly 2420:213)

COMM:214 Essentials of Intermediate Accounting (3 Credits)

Prerequisite: COMM 212 with a grade of C or better. Study of development of financial accounting theory and its application to problems of financial statement generation, account valuation, analysis of working capital, and determination of net income. (Formerly 2420:214)

COMM:215 Computer Applications for Accounting Cycles (3 Credits)

Prerequisites: COMM 212, COMM 213, and COMM 270 all with grades of C or better. Develops the skills of computer accounting as used in today's marketplace through hands on experience with general ledger accounting software. (Formerly 2420:215)

COMM:216 Survey of Cost Accounting (3 Credits)

Prerequisite: COMM 213 with a grade of C or better. Provides student with conceptual understanding of how accounting information is developed and used for product costing, decision making and managerial planning and control. (Formerly 2420:216)

COMM:217 Survey of Taxation (3 Credits)

Survey course of basic tax concepts, research, planning, and preparation of returns for individuals. Federal, state and local taxes are discussed. (Formerly 2420:217)

COMM:218 Automated Bookkeeping (2 Credits)

Corequisite: COMM 212. Provides experience with accounting software packages to include the processing of general ledger, accounts receivable, accounts payable, and payroll transactions. (Formerly 2420:218)

COMM:219 Introduction to Public Relations (3 Credits)

Introduction to public relations is a survey course that provides students with foundational information related to the study and practice of public relations. (Formerly 7600:219)

COMM:220 Applied Accounting (3 Credits)

Prerequisites: COMM 212, COMM 213, and COMM 270 all with grades of C or better. An applied orientation focusing on all accounting functions through adjusted trial balance and basic payroll skills. Emphasis on skills required for the Certified Bookkeeping designation. (Formerly 2420:220)

COMM:221 Entrepreneurship Projects (3 Credits)

Prerequisites: COMM 107, COMM 108, COMM 117, COMM 212, COMM 243, and COMM 270 all with grades of C or better. Requires the student to research, design, and complete a comprehensive business plan which will become the blueprint for a new or existing business. (Formerly 2420:227)

COMM:222 Marketing Projects (3 Credits)

Prerequisite: COMM 260. Students will prepare marketing projects by applying knowledge and skills learned in previous marketing courses. (Formerly 2520:221)

COMM:226 Interviewing (3 Credits)

Study and practical application of selected interviewing concepts associated with job interviewing, journalistic interviewing, and life review interviewing. (Formerly 7600:226)

COMM:227 Non-Verbal Communication (3 Credits)

Focused study of the principal aspects of nonverbal communication in public, group and interpersonal settings. (Formerly 7600:227)

COMM:228 ZTV (1 Credit)

Participation in the operations of the University television station. *Total repeats not to exceed eight credits. (Note: Students being paid salaries from Student Activity Funds are not eligible for credit.) (Formerly 7600:228)

COMM:230 WZIP-FM (1 Credit)

Participation in the operations of the University radio station. *Total repeats not to exceed eight credits. (Note: Students being paid salaries from Student Activity Funds are not eligible for credit.) (Formerly 7600:230)

COMM:231 Forensics (1 Credit)

Participation in the operations of the University forensics team. *Total repeats not to exceed eight credits. (Note: Students being paid salaries from Student Activity Funds are not eligible for credit.) (Formerly 7600:231)

COMM:232 Buchtelite (1 Credit)

Participation in the operations of the University newspaper. *Total repeats not to exceed eight credits. (Note: Students being paid salaries from Student Activity Funds are not eligible for credit.) (Formerly 7600:232)

COMM:233 Tel-Buch (1 Credit)

Participation in the operations of the University year book. *Total repeats not to exceed eight credits. (Note: Students being paid salaries from Student Activity Funds are not eligible for credit.) (Formerly 7600:233)

COMM:240 Marketing Internship (3 Credits)

Prerequisites: COMM 133, COMM 260, COMM 205, and COMM 219. On-the-job work experience in a marketing environment in which students apply learned skills and concepts to practical business situations. Periodic reports and projects required as appropriate. (Formerly 2520:240)

COMM:243 Survey in Finance (3 Credits)

Prerequisites: 2420:170 and COMM 211 with grades of C or better. Survey of field including instruments, procedures, practices and institutions. Emphasis on basic principles. (Formerly 2420:243)

COMM:244 Business Management Accounting Internship (3 Credits)

Prerequisites: [COMM 212 and COMM 213] or [COMM 215 and COMM 216] with grades of C or better. An accounting field experience exposing the student to the actual accounting environment and general workplace. (Formerly 2420:245)

COMM:245 Argumentation (3 Credits)

Study of process of developing, presenting and defending inferences and arguments in oral communication setting. Includes study and practice of evidence, reasoning, case construction, refutation and rebuttal. (Formerly 7600:245)

COMM:246 Business Management Internship (3 Credits)

Prerequisites: [COMM 107, COMM 108, COMM 212, COMM 280 all with grades of C or better], ENTRE 201, SOWK 230, and sophomore or greater standing. A management field experience exposing the student to the actual management environment and general workplace. (Formerly 2420:246)

COMM:250 Problems in Business Management (3 Credits)

Prerequisites: COMM 107, COMM 108, COMM 212, COMM 243, COMM 270, and COMM 133 all with grades of C or better. Capstone course studies the development of solutions and the formulation of policies to solve business problems, emphasizes case studies, group projects, oral and written presentations. (Formerly 2420:250)

COMM:254 Sales Management Technology (3 Credits)

Prerequisite: COMM 219. Process relating to the formulation, implementation, and control of a strategic sales program. Students will learn how to select, evaluate, and motivate a sales force. (Formerly 2520:254)

COMM:260 Principles of Advertising (3 Credits)

Prerequisite: COMM 133 or MKTG 205. Focuses on principles and functions of advertising, creation and evaluation of advertisements, research of target market, message selection strategy, and media placement options. (Formerly 2520:203)

COMM:263 Professional Communications and Presentations (3 Credits)

Application of the principles of communication in speeches, business presentations, group discussions, and business documents. (Formerly 2420:263)

Ohio Transfer 36: Yes

Gen Ed: - Speaking

COMM:270 Business Software Applications (3 Credits)

Prerequisite: CISS 105; Wayne College students - COMM 125, 2540:241, and 2540:253. Use of business application software and critical thinking skills to solve business problems. Word processing, spreadsheets, database, presentation software, integration of applications, and the Internet. (Formerly 2420:270)

COMM:274 Introduction to the Media Industries (3 Credits)

An introduction to the media industries concentrating on industry structure and business models with a particular emphasis on media convergence and distribution. (Formerly 7600:274)

COMM:280 Essentials of Business Law (3 Credits)

History of the law and the judicial system, torts and criminal law affecting business, contracts with emphasis on sales under the UCC, and commercial paper. (Formerly 2420:280)

COMM:290 Special Topics: Business Management Technology (1-3 Credits)

Prerequisite: Permission. Selected topics or subject areas of interest in business management technology. (May be repeated for a total of four credits) (Formerly 2420:290)

COMM:300 Newswriting Across the Media (3 Credits)

Prerequisite: completion of General Education English Composition Requirement with a grade of C or better or permission. Concentration on what constitutes news, legal and ethical aspects of what to print/broadcast and writing news stories for print and broadcast media. (Formerly 7600:300)

COMM:301 Advanced Newswriting (3 Credits)

Prerequisite: Admitted to a four year degree granting college and COMM 300. Advanced course in writing and editing news, features and analysis for print media. Behavioral approach to communication of information and ideas. (Formerly 7600:301)

COMM:303 Public Relations Writing (3 Credits)

Prerequisite or Corequisite: COMM 219. Introduction of writing skills required by public relations practitioners emphasizing different approaches for specific publics and specific media. (Formerly 7600:303)

COMM:304 Information Gathering & Editing (3 Credits)

Prerequisite: Ability to type. Editing stories and photographs and writing headlines for print and online. Gathering information from primary and secondary sources. (Formerly 7600:304)

COMM:305 Communication Theory (3 Credits)

Prerequisite: COMM 101. Examination of the theoretical foundations of the communication discipline. Historical roots, major theory building perspectives and a review of contemporary theories and applications in communication contexts. (Formerly 7600:305)

COMM:307 Principles of Social Media (3 Credits)

This course provides students with a thorough understanding of social media as it relates to the tools, history, theories, ethics and practice of communication. (Formerly 7600:209)

COMM:309 Public Relations Publications (3 Credits)

Preparation of publications used as communication tools in public relations, advertising and organizations. Emphasis upon design, layout and technology. (Formerly 7600:309)

COMM:317 Topics in Media Production (3 Credits)

Variable topics in media production including audio, video, digital. Repeatable with a change in topic, maximum 9 credits. (Formerly 7600:317)

COMM:324 Interpersonal Communication (3 Credits)

Theory and practice in interpersonal communication concepts and principles. Special topics in communication apprehension, assertive communication, communication dyads and triads, and transactional communication. (Formerly 7600:235)

COMM:325 Intercultural Communication (3 Credits)

Study of human communication processes between individuals in culturally diverse contexts, both domestically and internationally, with an emphasis on analysis and application. (Formerly 7600:325)

Gen Ed: - Domestic Diversity

COMM:330 Principles of Organizational Supervision (3 Credits)

Competencies required for successful transition from individual contributor to supervisor. Emphasis on working effectively with others and self-development as a leader. (Formerly 2420:300)

COMM:331 Information Design (3 Credits)

Prerequisites: [ENGL 111 and ENGL 112] or equivalent. Principles of visual rhetoric and practice in communicating with text and graphics. Examines the role of design in a variety of workplace communication documents. (Formerly 2420:301)

COMM:333 Ethics and Law in Business (3 Credits)

Prerequisite: Junior or greater standing. Workplace ethical principles and legal issues such as liability, safety, quality, honesty, and confidentiality. Case studies and projects explore global, legal, and technological issues affecting employee interaction in the workplace. (Formerly 2420:302)

COMM:334 Leadership Principles & Practices (3 Credits)

Pre/Corequisite: COMM:330 or permission of instructor. Contemporary perspectives and issues in leadership and supervision. Development of effective leadership characteristics. (Formerly 2420:310)

COMM:335 Corporate Social Responsibility and Leadership (3 Credits)

Pre/Corequisite: COMM 330 with a C or better. Theory and best practices in corporate social responsibility, community service and leadership in local, national and global settings. Identify leadership opportunities for future contributions. (Formerly 2420:311)

COMM:336 Global Business Communication (3 Credits)

Prerequisite: Completion of 48 credit hours. Emphasis on organizational and interpersonal communication needed in an integrated world economy. Provides an overview of business communication to effectively conduct global business and negotiations. (Formerly 2420:312)

COMM:344 Small Group Communication (3 Credits)

Prerequisite: Junior or higher standing. This course explores the dynamics of small group communication. Students will learn how to become effective members of groups by practicing course concepts and theories in assignments. (Formerly 7600:344)

COMM:345 Advanced Presentational Communication (3 Credits)

Prerequisite: COMM 105 or COMM 263. Continued development of audience analysis, research, style, and delivery to improve oral communication skills for a variety of civic and organizational purposes. (Formerly 7600:345)

COMM:352 Persuasion (3 Credits)

Emphasis on understanding persuasion theory and practice. Includes information analysis of motivational appeals and introduction to propaganda analysis. (Formerly 7600:252)

COMM:355 Freedom of Speech (3 Credits)

Discussion and analysis of the Constitution's free speech guarantee; contemporary issues in freedom of speech; role of the media in free speech issues. (Formerly 7600:355)

COMM:356 Rhetorical Criticism (3 Credits)

Prerequisite: COMM 360. Identifies principal textual and contextual elements of public discourse and presents various theories and models to be applied in studying rhetorical acts. (Formerly 7600:356)

COMM:360 Theories of Rhetoric (3 Credits)

Theories of Rhetoric exposes students to 2,000 years of thought on rhetoric and meaning. Students explore the relationship between knowledge, truth and rhetoric. (Formerly 7600:360)

COMM:364 Legal Issues in Media (3 Credits)

Concentration on government regulations and legal requirements in production of broadcasting, film, and print media. Particular emphasis on copyright. (Formerly 7600:284)

COMM:368 Basic Audio & Video Editing (3 Credits)

Prerequisite: Admitted to a four year degree granting college. A basic practical introduction to audio and video editing and the Avid Editing system in the MediaNet environment. (Formerly 7600:368)

COMM:378 Topics in Media History (3 Credits)

Prerequisite: Admitted to a four year degree granting college. In-depth study of topics in media history and genre. Repeatable with a change in topic (9 credits maximum). (Formerly 7600:378)

COMM:384 Communication Research (3 Credits)

Prerequisites: COMM 101 with a grade of C or better. Fundamental concepts of communication research methods, and the analysis, application, and interpretation of data in communication and media operations. (Formerly 7600:384)

COMM:398 Honors Project Preparatory (1 Credit)

Prerequisite: junior standing, honors students only. This course prepares honors students to begin work on their senior honors project. Students will learn how to do background research, literature reviews, work with human subjects, and School of Communication requirements. At the end of the semester, students will have their proposal ready for submission to the Honors College. (Formerly 7600:398)

COMM:404 Public Relations Cases (3 Credits)

Prerequisite or corequisite: COMM 219. Application of principles of public relations profession in an actual organizational setting. (Formerly 7600:404)

COMM:405 Media Copywriting (3 Credits)

Prerequisite: COMM 309. Selected communication theories and research techniques used to plan, write and analyze commercial messages. Emphasis will be placed on selection of audience, medium, appeal, writing style and evaluation of efforts. (Formerly 7600:405)

COMM:406 Public Relations Theory (3 Credits)

Prerequisite: COMM 219. Study and practical application of communication concepts, theories and skills relevant to public relations programs in businesses and nonprofit organizations. (Formerly 7600:406)

COMM:408 Women, Minorities & News (3 Credits)

Prerequisites: COMM 300 and admission to a four year degree granting college. From a professional journalism perspective, this course provides historical analysis of diversity in the newsroom and the news. Students produce new content that addresses diversity. (Formerly 7600:408)

COMM:409 Public Relations Strategic Campaigns (3 Credits)

Prerequisite: COMM 219. This course allows students to apply knowledge of public relations practice, history, theories, ethics and strategic planning to create real-world public relations campaigns. (Formerly 7600:409)

COMM:410 Digital Content Creation (3 Credits)

This course is an overview of different online writing styles, focusing on strategic writing principles for social media, online publications, and multimedia production.

COMM:429 Advanced Strategic Social Media (3 Credits)

Prerequisite: COMM 307. Students will learn and apply knowledge of professional social media including theories, ethics, policy, and best practices to solve real-world social media problems. (Formerly 7600:429)

COMM:430 Leading Project Teams (3 Credits)

Prerequisite: COMM 334 with the grade of C or better. Examines and applies the operational and human aspects of project team management from conception to completion. (Formerly 2420:401)

COMM:431 Operational Assessments and Improvements (3 Credits)

Prerequisites: [STAT 250 or STAT 260] and COMM 334 with a grade of C or better. Methods for conducting business process assessments and evaluating results in organizations. (Formerly 2420:402)

COMM:432 Human Resources Development (3 Credits)

Prerequisite: COMM 334 with a grade of C or better. Overview of current theories and best practices in human capital development. (Formerly 2420:420)

COMM:435 Organizational Communication (3 Credits)

Prerequisite: COMM 101 or COMM 330. Overview of theories and approaches for understanding communication flow and practices in organizations, including interdepartmental, networks, superior-subordinate, formal and informal communication. (Formerly 7600:435)

COMM:436 Analyzing Organizational Communication (3 Credits)

Prerequisites: [COMM 384 or COMM 331] and COMM 435, or permission. Methodology for in-depth analysis and application of communication in organizations; team building; conflict management, communication flow. Individual and group projects; simulations. (Formerly 7600:436)

COMM:437 Training Methods in Communication (3 Credits)

Prerequisite: COMM 345 or COMM 435 or permission. Principles and concepts in the design and delivery of communication training programs; integration of theory and methodology; presentation skills; matching methods and learner needs. (Formerly 7600:437)

COMM:438 Health Communication (3 Credits)

Prerequisite: Admitted to a four year degree granting college. The course presents an overview of health communication theory and research issues in interpersonal, small group, organizational, public relations, and mass media contexts. (Formerly 7600:438)

COMM:439 Independent Study: Communication (1-12 Credits)

(May be repeated for a total of 12 credits) Prerequisites: Admitted to a four year degree granting college except CAST, permission of faculty. Directed independent readings, research, projects and productions. Written proposal must be submitted before permission is granted. Appropriate documentation of work required. (Formerly 7600:439)

COMM:444 Communication & Conflict (3 Credits)

Prerequisite: COMM 101 or COMM 330. Explores roles of communication & conflict in personal and work relationships. Emphasis placed on application of theories and strategies for conflict resolution from a communication perspective. (Formerly 7600:444)

COMM:450 Special Topics in Communication (3 Credits)

(May be repeated for a total of nine credits) Special interest topics in mass communication, journalism, or communication, supplementing courses listed in University Bulletin. See department for current listing of offerings. (Formerly 7600:450)

COMM:457 Rhetoric in Contemporary Culture (3 Credits)

Prerequisite: COMM 360 & COMM 356. Rhetoric in Contemporary Culture serves as an advanced course in rhetorical criticism. Students apply critical methods to contemporary issues surrounding political, popular, and vernacular discourses. (Formerly 7600:457)

COMM:459 Leadership and Communication (3 Credits)

Prerequisite: Admitted to a four year degree granting college except CAST. Theories of leadership and communication across public, organizational, small group, interpersonal, and political contexts. Assessments tools provided. Guest speakers. (Formerly 7600:459)

COMM:468 Advanced Audio and Video Editing (3 Credits)

Prerequisite: COMM 368. A study of film and video editing. It provides practical experience and exposure to the various creative approaches and techniques of film / video editing. (Formerly 7600:468)

COMM:472 Video Production (3 Credits)

Prerequisite or corequisite: COMM 368. Theory and practice of digital video; development of professional skills in lighting, use of lenses, visual composition and sound recording for Single Camera applications (Formerly 7600:372)

COMM:474 Media Theory (3 Credits)

Prerequisites: COMM 101. A review of mass communication theories and their applications in addressing major issues relevant to media content, media audience and media effects. (Formerly 7600:474)

COMM:475 Political Communication (3 Credits)

Students explore the relationship between politicians, citizens, and media. Topics include media coverage, campaign technologies, advertising, debates, engagement, rhetoric, and attitudes. (Formerly 7600:475)

COMM:480 Communication Internship (3-6 Credits)

Prerequisites: 2.3 GPA in Communication courses, permission from internship coordinator, and [24 credit hours in Communication courses completed or senior status]. Supervised experience and on-the-job training. Written permission prior to the semester enrolled is necessary. Repeatable up to a maximum 6 credits. (Formerly 7600:480)

COMM:481 Film as Art: An Introduction to the Film Form (3 Credits)

A study of the role and function of Cinematography, Editing, Sound, and Mise-en-scene as they shape the meaning of the film, within the context of the traditional / non-traditional narratives and the documentary structure. (Formerly 7600:481)

COMM:485 Honors Project in Communication (3 Credits)

Prerequisites: COMM 398, approval of honors preceptor. Independent study project leading to completion of honors research, creative or service project. (Formerly 7600:485)

COMM:486 Media Management & Leadership (3 Credits)

Prerequisite: COMM 384. An intensive overview of media management and leadership principles and applications of these principles in addressing issues related to entrepreneurship, ethics, globalization and media convergence. (Formerly 7600:486)

COMM:487 Advanced Topics in Media Writing (3 Credits)

Prerequisite: COMM 300. Advanced study in media writing. Topics include: script writing, broadcast newswriting, new media writing, etc. Repeatable with a change in topic, maximum 12 credit hours. (Formerly 7600:487)

COMM:490 Communication Workshop (1-3 Credits)

(May be repeated for a total of six credits) Prerequisite: Admitted to a four year degree granting college. Group study or group projects investigating a particular phase of media not covered by other courses in curriculum. (Formerly 7600:490)

COMM:498 Senior Seminar in Organizational Supervision (3 Credits)

Prerequisite: COMM 431 with a grade of C or better. Integration and application of professional knowledge, skills, and technologies to organizational issues. (Formerly 2420:421)

COMM:499 Capstone in Communication (3 Credits)

Prerequisites: [COMM 101 or COMM 330] and [COMM 384 or COMM 331] and senior standing. Capstone in communication integrates theories, concepts, and skills: provides interdisciplinary work, and applied focus; and culminates in a project, paper, or production. Topics vary. (Formerly 7600:499)

Business and Professional Communication and Leadership, Certificate

Certificate in Business and Professional Communication and Leadership (202100CW)

The undergraduate certificate in Business and Professional Communication and Leadership is open to students of any major, as well as working professionals and serves as formal training in the areas of written, presentational, and leadership communication in the workplace. Students will refine their communication skills to be more polished communicators and leaders in organizational settings.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Certificate in Workplace Communication" and must be completed with a minimum grade point average of 2.0 overall for the certificate to be noted on the student's record.

Communication Studies, BA

Bachelor of Arts in Communication Studies (C60101BA)

More on the Communication Studies major (<https://www.uakron.edu/schlcomm/ugrad-programs/strategic-organization/>)

The Communication Studies degree equips students with the knowledge and skills needed to evaluate the role of communication in society and effectively develop messages to address organizational and community challenges. Students study communication practices, concepts, and theories that can be used to help build and maintain relationships in personal and professional contexts.

This major provides students with hands-on learning activities, internships, and co-curricular opportunities. Communication Studies graduates have strong communication, analytic, and critical thinking skills. They are prepared to craft meaningful messages and lead productive discussion and debate in the workplace and broader community. Our graduates enter careers in a variety of sectors, including business, government, non-profit, healthcare, and education.

The following information has official approval of **The School of Communication** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

¹ ENGL:222 Technical Report Writing is an option for the second semester writing requirement.

² Any course that meets the General Education Mathematics, Statistics, and Logic requirement may be taken.

³ Students are required to complete four semesters of a modern language or sign language OR complete a certificate from the approved list (see below). Demonstration of ability to use another language by completion of the second year of a modern language or sign language is required through coursework, AP, CLEP, or Oral Proficiency Interview. See your advisor for placement. Please note that all four semesters must be completed in the SAME language and it's recommended you begin your first language course as soon as possible. Students can also complete one of the following certificates, instead of a language, to satisfy this requirement: Applied Political Communication [370019C], Artificial Intelligence [360010C], Conflict Transformation & Social Entrepreneurship [370016C], Parent and Family Education [H40203C], Entrepreneurship [630000C], Health Care Selling [660108C], International Business [680000C], Applied

Politics [370005C], Asian Studies [340001C], Environmental Studies [337004C], Field Archaeology [324001C], Gerontology [300006C], Latin American Studies [300008C], Linguistic Studies [330008C], Middle Eastern Studies [340002C], Pan-African Studies [300002C], Research Methods for the Social Sciences [385000C], Teaching English as a Second Language [330003C], Women's Studies [300110C], Manual Communication [H70007C], Museum and Archives Studies [140001C], and Addiction Services [226106C].

⁴ COMM:105 Introduction to Public Speaking and COMM:106 Effective Oral Communication are the required courses to meet the General Education Speaking requirement.

⁵ A grade of "C" or better is required **in order to graduate**.

⁶ The School of Communication recommends COMM:325 Intercultural Communication to meet both a Communication elective and the Domestic Diversity course requirement.

⁸ A student must complete one of the following: (1) A university approved minor from the Undergraduate Bulletin, (2) an earned Associate's or Bachelor's degree, or (3) a second major not in Communication.

⁹ Degree requirements in Arts & Sciences require a minimum of 40 credits of 300/400 level courses (excluding workshops). In order to meet this requirement, courses in the minor area of study should be at the upper level. In order to assist students in graduating on time, only students in a degree granting college may take upper level (300/400) Communication courses. General electives can be any course not already required.

¹⁰ This course is not needed if a foreign language is taken instead of the a certificate program.

Converged Media, Minor

Minor in Converged Media (C60110M)

Students will gain hands-on experience with emerging technology tools to become responsible media content developers and information brokers. Specifically, the Converged Media Minor (CM) will provide students with the knowledge and the skills to: (1) develop digital media literacy; (2) gather information and create content; (3) write for accuracy, thoroughness, authenticity, and efficiency; (4) design and distribute content for print, audio, video, and the web; and (5) apply media ethics.

- ¹ ENGL:222 Technical Report Writing is an option for the second semester writing requirement.
- ² Any course that meets the General Education Mathematics, Statistics, and Logic requirement may be taken.
- ³ Students are required to complete four semesters of a modern language or sign language OR complete a certificate from the approved list (see below). Demonstration of ability to use another language by completion of the second year of a modern language or sign language is required through coursework, AP, CLEP, or Oral Proficiency Interview. See your advisor for placement. Please note that all four semesters must be completed in the SAME language and it's recommended you begin your first language course as soon as possible. Students can also complete one of the following certificates, instead of a language, to satisfy this requirement: Applied Political Communication [370019C], Artificial Intelligence [360010C], Conflict Transformation & Social Entrepreneurship [370016C], Parent and Family Education [H40203C], Entrepreneurship [630000C], Health Care Selling [660108C], International Business [680000C], Applied Politics [370005C], Asian Studies [340001C], Environmental Studies [337004C], Field Archaeology [324001C], Gerontology [300006C], Latin American Studies [300008C], Linguistic Studies [330008C], Middle Eastern Studies [340002C], Pan-African Studies [300002C], Research Methods for the Social Sciences [385000C], Teaching English as a Second Language [330003C], Women's Studies [300110C], Manual Communication [H70007C], Museum and Archives Studies [140001C], and Addiction Services [226106C].
- ⁴ COMM:105 Introduction to Public Speaking and COMM:106 Effective Oral Communication are the required courses to meet the General Education Speaking requirement.
- ⁵ A grade of C or better is required **in order to graduate**.
- ⁶ The School of Communication recommends COMM:325 Intercultural Communication to meet both a Communication elective and the Domestic Diversity course requirement.
- ⁸ A student must complete one of the following: (1) A university approved minor from the Undergraduate Bulletin, (2) an earned Associate's or Bachelor's degree, or (3) a second major not in Communication.
- ⁹ Degree requirements in Arts & Sciences require a minimum of 40 credits of 300/400 level courses (excluding workshops). In order to meet this requirement, courses in the minor area of study should be at the upper level. In order to assist students in graduating on time, only students in a degree granting college may take upper level (300/400) Communication courses. General electives can be any course not already required.
- ¹⁰ This course is not needed if a foreign language is taken instead of the a certificate program.

Program Information

The baccalaureate program in organizational supervision is designed specifically for students with an earned associate degree from an accredited institution or junior standing (60+ credits) at The University of Akron. The program prepares students to gain communication and leadership skills necessary for professional and career advancement.

Requirements for Admission

The baccalaureate program in organizational supervision is an articulated degree (or degree completer) that is designed specifically for students with an earned Associates Degree from an accredited institution or junior standing (60+ credits).

Career Information

The program prepares students for positions at the supervisory level of large organizations, as small business owners/managers, or as team leaders for organizations. Graduates of the BOS degree might be able to get jobs as management analysts, human resources managers, sales managers, community service managers, and consultants in various areas of the business world, including human resources, training and sales, or to find work in the nonprofit sector or in government.

For additional information, please visit the Career Center at the Student Union, room 211 or visit the Bureau of Labor Statistics at www.bls.gov (<http://www.bls.gov>).

The following information has official approval of **The School of Communication** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

¹ All students pursuing a bachelor's degree at the University of Akron must complete the General Education requirements. Students transferring to the Bachelors of Organizational Supervision who have not completed these requirements prior to acceptance into the program should meet with an academic advisor to review remaining courses.

² All students will be required to take ECON:100 Introduction to Economics, or any other ECON course that satisfies the General Education - Social Science requirement, and PSYC:100 Introduction to Psychology for their General Education - Social Science requirements.

Program Notes:

- All students will be required to complete a minimum of 34 credit hours of 300/400 level courses.
- Students will be required to complete all necessary prerequisites and to meet the general education requirements for all baccalaureate students at The University of Akron. There are no exceptions to prerequisites for the BOS courses.
- If a student has not completed Statistics as part of an Associate degree or General Education requirements, student must take this course even if they have met the math requirement for the General Education requirements.

- Students in Junior standing (at least 60 credits) who have not earned an Associates degree will be required to complete an undergraduate certificate or minor towards completion in their BOS degree.
- A 2.0 GPA is required to graduate from the program.

Professional Social Media, Certificate Certificate in Professional Social Media (C60108C)

The Professional Social Media Certificate is open to students of any major, as well as professionals. It serves as formal training and evidence of your preparation in the subject.

You will learn to generate content, use analytics to measure success, and create a complete social media campaign for a real client as your final project for the course, Advanced Strategic Social Media, giving you a hands-on experiential learning opportunity.

"The number of jobs that request or require skills and knowledge in social media is continuously growing, yet there are still very few educational credentials available to help students demonstrate a mastery of this expertise that organizations need. This certificate is a concrete way for current students and professionals already in the field to obtain formal training in social media, as well as gain evidence of their preparation."

Total Hours		9

¹ No more than 3 credits of COMM:231 Forensics will count toward this minor.

² Prior to enrolling in COMM:450 Special Topics in Communication, approval must be given by School Director.

Public Relations, BA

Bachelor of Arts in Public Relations (C60100BA)

More on the Public Relations major (<https://www.uakron.edu/schlcomm/ugrad-programs/public-relations/>)

Public Relations is all about building and maintaining beneficial relationships between organizations and their stakeholders and customers. The organization's message is the foundation of building those relationships. As a PR representative, students will create and shape those messages between an organization and its public.

Our PR degree path provides students with real-world experiences through service-learning; exposure to people, organizations and scenarios that foster creativity; and helps develop the critical thinking skills students will use throughout their career in the industry

The following information has official approval of **The School of Communication** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program (CCP) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

	Additional Credits for Graduation *	15-3
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
	<i>Mathematics, Statistics and Logic: 3 credit hours</i>	
	<i>Speaking: 3 credit hours</i>	
	<i>Writing: 6 credit hours</i>	
Breadth of Knowledge		22
	<i>Arts/Humanities: 9 credit hours</i>	
	<i>Natural Sciences: 7 credit hours</i>	
	<i>Social Sciences: 6 credit hours</i>	
Diversity		
	Domestic Diversity	
	Global Diversity	
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
	Complex Issues Facing Society	
	Capstone	
	<i>Review the General Education Requirements page for detailed course listings.</i>	
Total Hours		36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements in Arts & Sciences include either 1) the demonstration of ability to use another language by completion of the second year of a foreign language, or 2) the completion of a certificate program outside of the Communication department		
<i>2 Year Language Proficiency</i>		14
	101 Beginning I	
	102 Beginning II	
	201 Intermediate I	
	202 Intermediate II	

SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	
-or-		
Certificate program ¹		12-24

¹ Please see your advisor for a list of available certificate programs

Code	Title	Hours
Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:		
Upper-level (300/400) courses both in and outside of the student's major;		
or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops		

Communication Core ¹

- ¹ ENGL:222 Technical Report Writing is an option for the second semester writing requirement.
- ² Any course that meets the General Education Mathematics, Statistics, and Logic requirement may be taken.
- ³ Students are required to complete four semesters of a modern language or sign language OR complete a certificate from the approved list (see below). Demonstration of ability to use another language by completion of the second year of a modern language or sign language is required through coursework, AP, CLEP, or Oral Proficiency Interview. See your advisor for placement. Please note that all four semesters must be completed in the SAME language and it's recommended you begin your first language course as soon as possible. Students can also complete one of the following certificates, instead of a language, to satisfy this requirement: Applied Political Communication [370019C], Artificial Intelligence [360010C], Conflict Transformation & Social Entrepreneurship [370016C], Parent and Family Education [H40203C], Entrepreneurship [630000C], Health Care Selling [660108C], International Business [680000C], Applied Politics [370005C], Asian Studies [340001C], Environmental Studies [337004C], Field Archaeology [324001C], Gerontology [300006C], Latin American Studies [300008C], Linguistic Studies [330008C], Middle Eastern Studies [340002C], Pan-African Studies [300002C], Research Methods for the Social Sciences [385000C], Teaching English as a

- Second Language [330003C], Women's Studies [300110C], Manual Communication [H70007C], Museum and Archives Studies [140001C], and Addiction Services [226106C].
- ⁴ COMM:105 Introduction to Public Speaking and COMM:106 Effective Oral Communication are the required courses to meet the General Education Speaking requirement.
- ⁵ A grade of C or better is required in order to graduate.
- ⁶ The School of Communication recommends COMM:325 Intercultural Communication to meet both a Communication elective and the Domestic Diversity requirement.
- ⁷ Public Relations Electives: Complete 12 credits of coursework from COMM:209 Principles of Sales, COMM:309 Public Relations Publications, COMM:325 Intercultural Communication, COMM:405 Media Copywriting, COMM:406 Public Relations Theory, or any 7600 courses not included above and not including COMM 105 and COMM 106.
- ⁸ A student must complete one of the following: (1) A university approved minor from the Undergraduate Bulletin, (2) An earned Associate's or Bachelor's degree, (3) A second major not in Communication.
- ⁹ Degree requirements in Arts & Sciences require a minimum of 40 credits of 300/400 level courses (excluding workshops). In order to meet this requirement, courses in the minor area of study should be at the upper level. In order to assist students in graduating on time, only students in a degree granting college may take upper level (300/400) Communication courses. General electives can be any course not already required.
- ¹⁰ This course is not needed if a modern language is taken instead of the a certificate program.

Criminal Justice Studies

The Criminal Justice program develops critical thinking, problem solving techniques, effective communications and the ability to use technology while examining crime and the methods used to prevent it, as well as investigate and punish those who violate the law. It provides a professional perspective of the Criminal Justice field, including policing, corrections and security administration.

- Criminal Justice Studies, AASCJS (p. 98)
- Criminology & Criminal Justice, BS (p. 100)
- Forensic Psychology, Minor (p. 103)
- Forensic Studies, Minor (p. 104)
- Forensic Study of Behaviors, Certificate (p. 104)
- Law Enforcement, Minor (p. 105)
- Police Leadership, Certificate (p. 105)

See also:

- Criminal Justice, Minor (p. 300)

Criminal Justice Studies (CRJU)

CRJU:100 Introduction to Criminal Justice (3 Credits)

Overview of criminal justice system, its history, development and evolution within the United States including subsystems of police, courts, corrections. Constitutional limitations, current criminal justice practices human relations, professionalization, prevention. (Formerly 3800:100)

CRJU:101 Introduction to Security Administration Technology (3 Credits)

Introduces fundamentals such as equipment, technology, design theories, management practices, trends, concerns, and issues in security administration. (Formerly 3800:101)

CRJU:104 Evidence & Criminal Legal Process (3 Credits)

Prerequisite: CRJU 100. Study of evidence law, constitutional perspectives and law enforcement officer's relationship thereto. Court procedures from arrest to incarceration. (Formerly 3800:104)

CRJU:106 Juvenile Justice Process (3 Credits)

Prerequisite: CRJU 100. Examination of juvenile justice system, functions of its various components; adolescent subculture, legislation, causative factors, prevention and treatment methodologies and programs. (Formerly 3800:106)

CRJU:120 Crime Prevention: Theory, Practice, and Management (3 Credits)

Examines contemporary crime prevention and security strategies used in target hardening. Central theme is the use of community resources to prevent crime. (Formerly 3800:120)

CRJU:202 Principles of Criminal Law (3 Credits)

Prerequisite: CRJU:100. This course examines the central principles of criminal law, including its history, philosophy, the elements of major crimes and criminal defenses. (Formerly 3800:102)

CRJU:203 Corrections (3 Credits)

Prerequisite: CRJU:100. Application and analysis of the goals, theories, practices, strategies, and law of institutional and community corrections. (Formerly 3800:103)

CRJU:205 Police Studies (3 Credits)

Prerequisite: CRJU:100. Provides a foundation for understanding police role, structure, and function in American society at the local, state, and federal levels. (Formerly 3800:105)

CRJU:220 Prior Learning Assessment (1 Credit)

Prerequisites: Admission to the BS in Criminology and Criminal Justice, BS in Criminal Intelligence Analysis, or AAS in Criminal Justice program, CRJU:100 and permission. Students with prior learning experiences that are not documented by academic or military transcript will construct a portfolio that provides evidence demonstrating the learning objectives for a specific course have been met. Qualified faculty will review the portfolio and make a determination if college credit will be awarded based on the evidence provided in the portfolio.

CRJU:224 Profiling Serial Killers (3 Credits)

Prerequisite: CRJU 100. Introduction to the theories, analyses, and methodology used in profiling serial killers. Actual serial profiles and paradigms of crime scene analyses also examined. (Formerly 3800:224)

CRJU:225 The Police Experience (3 Credits)

Prerequisites: CRJU 100 and permission. Completion (C or better) and CRJU 100 qualifies a commissioned police officer to test out of certain courses (see adviser). Academic refresher course of basic police academy. (Formerly 3800:225)

CRJU:226 Interviews, Interrogations, and Hostage Negotiations (3 Credits)

Prerequisite: CRJU 100. An overview of the legal, theoretical, and applied aspects of conducting interviews, interrogations, and hostage negotiations within the field of law enforcement. (Formerly 3800:226)

CRJU:231 Physical Security: Systems, Design, and Control (3 Credits)

Topics include: controlling and monitoring the access of persons and vehicles, prevention and detection of unauthorized intrusions and surveillance, and safeguarding key assets. (Formerly 3800:231)

CRJU:232 Legal Issues in Security Administration (3 Credits)

Survey of laws applicable to the security administration function including tort, labor, employment, unemployment, workers' compensation, contract, insurance, cyber, criminal and constitutional law. (Formerly 3800:232)

CRJU:233 Security Investigations: Principles and Practice (3 Credits)

Overview of investigative methods employed by the security manager. Students will examine legal and ethical duties and issues related to investigation. (Formerly 3800:233)

CRJU:234 Computer and Information Security (3 Credits)

Examines practical applications of effective information security measures and legal, ethical and privacy issues concerning the storage and use of information in society. (Formerly 3800:234)

CRJU:235 School Crime and Violence Prevention (3 Credits)

Prerequisites: CRJU 101, CRJU 120. Examines the nature and extent of crime and deviance in American schools. Particular focus is on the use of a systems approach to prevent crime. (Formerly 3800:235)

CRJU:240 Vice & Organized Crime (3 Credits)

Prerequisites: CRJU 100 and permission. An overview of organizations operating nationally and internationally in a variety of criminal activities with a particular emphasis on narcotics trafficking. (Formerly 3800:240)

CRJU:245 Homeland Security: Principles and Practice (3 Credits)

Overview of fundamental homeland security concepts and issues such as: intelligence, critical infrastructure protection, hazards, strategy, policy, risk, organizational design and leadership. (Formerly 3800:245)

CRJU:251 Criminal Investigation (3 Credits)

Prerequisite: CRJU 100. The course provides the student with fundamental investigative skills and the ability to manage a criminal case from initiation through conclusion. (Formerly 3800:251)

CRJU:253 Basic Forensic Methods (3 Credits)

Introduction to the science, technology and application of forensic methods in the investigation of crime. (Formerly 3800:253)

CRJU:255 Introduction to Forensic Investigation (3 Credits)

Prerequisite: CRJU 100. This course is designed to introduce the student to the field of forensic science. The emphasis will be on skills and techniques of evidence evaluation. (Formerly 3800:255)

CRJU:270 Community Corrections (3 Credits)

Prerequisite: CRJU 100. Examines the corrections component of the criminal justice system. Special focus on the development and use of probation, parole, and other alternative forms of sentencing. (Formerly 3800:270)

CRJU:275 Legal Aspects of Corrections (3 Credits)

Examination of the influence of the legal system on corrections, especially United States Supreme Court decisions. (Formerly 3800:275)

CRJU:286 Courtroom Communication (3 Credits)

Prerequisite: CRJU 100. Witnessing studies the trial process, emphasizing role of witnesses. Effective communication to juries, applicable evidentiary rules and preparation techniques are taught, preparing students for direct and cross-examination. (Formerly 3800:286)

CRJU:287 The Legal System and Psychology (3 Credits)

Prerequisite: CRJU 100. Examination of various areas where law and psychology interface, particularly in criminal cases by examining the expanding role of psychology in justice system and the courtroom. (Formerly 3800:287)

CRJU:292 Special Topic: Criminal Justice (1-4 Credits)

(May be repeated for a total of six credits). Prerequisite: Permission. Workshops and special programs in selected areas of criminal justice such as community relations, crime statistics, ethics, survival. (Formerly 3800:292)

CRJU:296 Current Topics in Criminal Justice (1-3 Credits)

Prerequisite: CRJU 100. A variety of course topics on current subjects relative to law enforcement and the Criminal Justice System. May be repeated for up to 12 credits. (Formerly 3800:296)

CRJU:297 Independent Study: Criminal Justice (1-3 Credits)

Prerequisite: CRJU 100 and permission. Selected topics and special areas of study in Criminal Justice Technology under the supervision of a selected faculty member with whom specific arrangements have been made. (Formerly 3800:297)

CRJU:298 Applied Ethics in Criminal Justice (3 Credits)

Prerequisite: CRJU 100. This course deals with ethical considerations which confront justice practitioners and the legal ramifications of misconduct. (Formerly 3800:298)

CRJU:302 Theory of Criminal Law (3 Credits)

Prerequisite: CRJU 102. Criminal law is built on a number of core issues. This course examines the principles and doctrines that shape and limit criminal liability and punishment. (Formerly 3800:302)

CRJU:305 Policing Administration and Management (3 Credits)

This course prepares students for promotion through the ranks of policing organizations, covering issues of interest to first-line supervisors and mid-level managers. (Formerly 3800:305)

CRJU:307 Foundations of Crime Analysis (3 Credits)

Introduction to the profession of crime analysis. Provides an overview of crime analysis techniques. (Formerly 3800:307)

CRJU:325 Information Privacy (3 Credits)

This course examines the origins, development and scope of individual control over, or government regulation of, personal information. (Formerly 3800:325)

CRJU:386 Courtroom Proceedings and Testimony (3 Credits)

All criminal justice professionals will appear as a witness at some point in their career. This course examines the courtroom process and how to effectively prepare and present testimony before a judge or jury. (Formerly 3800:386)

CRJU:398 Police Accountability and Risk Management (3 Credits)

This course focuses on building intelligent and resilient policing organizations that are structured to prevent officer misconduct, hold officers accountable when prevention efforts fail, and support both officer and community justice and wellness. (Formerly 3800:398)

CRJU:401 Legal Research and Writing (3 Credits)

Prerequisites: [CRJU:100 and CRJU:202] or CRJU:307. This course covers the process, concepts, methods, and techniques used in legal research, legal writing, and legal analysis.

CRJU:404 Criminal Procedure (3 Credits)

Prerequisites: CRJU:100 and CRJU:202. A critical examination of the law governing the method by which persons who are accused of committing crimes are processed through the criminal justice system. Coverage focuses on the limits imposed by the U.S. Constitution on the procedures used in both state and federal criminal prosecutions.

CRJU:405 Policing Theory and Strategy (3 Credits)

Students will use social science theory and methods to evaluate police officers, practices and organizations. (Formerly 3800:405)

CRJU:407 Advanced Crime Analysis (3 Credits)

Prerequisite: CRJU 307. Introduction to advanced concepts and techniques for all major types of crime analysis: tactical, strategic, operations, administrative, intelligence, and investigative. (Formerly 3800:407)

CRJU:414 Evidence Law (3 Credits)

Prerequisites: CRJU:100 and CRJU:202. This course will examine the rules governing the admission, exclusion, and presentation of evidence in criminal proceedings. Topics to be covered in this course include history and development of evidence law; relevancy; categorical rules of exclusion; character and habit evidence; competency of witnesses; examination and impeachment of witnesses; opinion and expert testimony; presentation of evidence; privilege; the hearsay rule and its exceptions; presumptions and burdens of proof; and the scope of judicial notice.

CRJU:457 Crime Analysis Applications (3 Credits)

Prerequisites: CRJU 307 and CRJU 407. Students apply theories, strategies, techniques, and methods with the breadth and quality of work expected of crime analysis professionals. Students should complete all technology core requirements for the Bachelor of Science degree in Criminal Intelligence Analysis before attempting this course. (Formerly 3800:457)

CRJU:465 Crisis & Trauma: Assessments & Interventions (3 Credits)

Introduction to the stressors and emotions of dealing with people in crisis situations. Intervention, assessment and prevention strategies to help people in traumatic situations. (Formerly 3800:465)

CRJU:480 Special Topics in Criminal Justice (1-3 Credits)

The exact topic for this course will vary each semester. It will cover relevant topics in policing, courts, corrections, or criminology. (Formerly 3800:480)

CRJU:495 Professional Pathways in Criminal Justice (3-12 Credits)

Prerequisite: Admission to the Criminology and Criminal Justice or Criminal Intelligence Analysis program, sophomore or greater standing, and nine credit hours of CRJU courses. This course provides a cooperative and experiential learning opportunity with a criminal justice organization or community partner. Students will receive general instruction on entering career pathways in criminal justice and developing as a professional. Community partners will provide training, mentorship, and problem-solving opportunities in a specific career pathway.

CRJU:497 Independent Study and Research (1-3 Credits)

Prerequisite: Permission of Department. This course allows students to explore a topic of interest in criminal justice with the guidance of a faculty member. (Formerly 3800:497)

CRJU:498 Honors Research in Criminal Justice (1-3 Credits)

Prerequisites: Admission to the Criminology and Criminal Justice or Criminal Intelligence Analysis program and approval of honors advisor. Individual research with a faculty advisor leading to the completion of a research project satisfying departmental and university requirements.

Criminal Intelligence Analysis, BS

Bachelor of Science in Criminal Intelligence Analysis (380002BS)

More on the Criminal Intelligence Analysis major (<https://www.uakron.edu/ccj/criminal-intelligence-analysis/>)

The Bachelor of Science degree in Criminal Intelligence Analysis prepares students for analytical and research positions in policing, homeland security, legal, and private sector organizations. The curriculum is a combination of the social science theory and methods, analytical techniques, and computer and geographic sciences courses that are necessary for career entry and development as crime and intelligence analysts or allied fields.

The following information has official approval of **The Department of Criminal Justice Studies** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Program Information

The Criminal Justice Studies Associate of Arts degree provides a core foundation in policing, courts, law, and corrections for students new to the field, as well as for those employed as criminal justice professionals. The program features general education courses and a wide variety of electives allowing students to tailor the degree to a specific career path or interest.

Career Information

- Police Officer - Additional training is required. See your advisor for more information.
- Court Services Officer - also referred to as bailiffs, court services officers provide police services to the courts. They handle security issues and physical disturbances that take place within the courts.
- Parole Officer - Supervises offenders who have been released from jail or prison. Oversee community service or work responsibilities. Oversee recently-freed inmates.
- Probation Officer - Probation officers supervise offenders who are awaiting trial, or serving a sentence in the community, rather than in jail or prison.
- Private Investigators work in the private sector or in police departments. Additional training and certification may be required.
- Crime Scene Technician
- Crime Intelligence Analyst
- Please visit the Bureau of Labor Statistics for updated information <http://www.bls.gov/>

Bachelor Degree Options

- Criminal Justice Bachelor of Science degree (p. 100)
- Emergency Management and Homeland Security Bachelor of Science degree (p. 578)
- Organization Supervision Bachelor degree (p. 87)

Criminology & Criminal Justice, BS

Bachelor of Science in Criminology & Criminal Justice (380001BS)

More on the Criminology & Criminal Justice major (<https://www.uakron.edu/ccj/criminology-and-criminal-justice/>)

The criminology and criminal justice program prepares students for careers in policing, courts, corrections, and criminology at any level of government or in the private sector. This program is also appropriate for students who desire to pursue graduate or law school. Students will take a broad core of criminal justice courses, and then select courses from concentrations in policing, courts, corrections, or criminology. Students have a number of electives to tailor their degrees to particular career paths of interest.

The following information has official approval of **The Department of Criminal Justice Studies** and **The Buchtel College of Arts & Sciences**, but

is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

¹ ENGL:111 English Composition I and ENGL:112 English Composition II are the recommended classes to meet the General Education Writing requirement. ENGL:222 Technical Report Writing can be used to fulfill the English Composition II requirement.

² While a variety of mathematics and statistics courses can be taken to meet this requirement, it is strongly recommended that students take a statistics course. Students planning on graduate school should take STAT 261 and 262, and a higher level STAT course for the Foundation Part III requirement.

³ POLIT:100 Government & Politics in the United States and SOCIO:100 Introduction to Sociology are required and will fulfill the General Education Social Science requirement.

⁴ Open electives can be any course not already required by your major and Upper Level (300/400) electives can be any course in or outside your major excluding workshops.

⁵ For the Criminology and Criminal Justice Degree, students select a concentration area. Each of these requires 18 credits, with 2-3 required courses and 3-4 elective courses from the Program Electives List.

⁶ There is no language requirement for the Criminology and Criminal Justice degree. However, students who complete the first year of a foreign language will fulfill the Foreign Cultures requirement. If students elect not to complete the first year of a foreign language, 6 credits from coursework designed to introduced the student to a foreign culture are required. An approved list of courses is available from the program advisors.

Forensic Psychology, Minor Minor in Forensic Psychology (380021M)

The Forensic Psychology Minor provides an educational foundation in the application of psychological theory and methods in criminal justice.

Program Contact

Stephanie Yuhas, JD
Criminal Justice Studies Department

Forensic Studies, Minor

Minor in Forensic Studies (380020M)

The Forensic Studies Minor is designed for individuals interested in the application of scientific methods to the criminal legal process. The minor provides the student with a foundation in forensic methods, professional communication, evidence and the investigative process. The minor is appropriate for anyone with an interest in forensics, including students majoring in chemistry, biology, nursing, computer science, or accounting.

Forensic Study of Behaviors, Certificate

Certificate in Forensic Study of Behaviors (380022C)

Admission to this program has been suspended

This certificate program is intended for individuals who wish to enhance their knowledge of behavioral sciences in criminal justice settings. This certificate is independent of a degree and is designed for individuals in one of the following categories:

- Criminal justice majors who wish to specialize in the study of behaviors within the criminal justice field
- Non-criminal justice majors who want an introduction to the discipline of criminal justice
- Professionals employed in the field who would like to further develop their expertise in this area

Police Leadership, Certificate

Certificate in Police Leadership (380023C)

The Certificate in Police Leadership is designed to provide advanced police studies education and preparation for promotional assessments for current and aspiring police supervisors and managers. The program

combines topics covered in state and national police leadership programs with a comprehensive exploration of the social science research on policing. The Certificate will help leaders develop the data-driven and evidence-based decision-making tool kit that is necessary for success in this demanding career path.

The Certificate in Police Leadership is a stand-alone certificate. Students are not required to enroll in a degree program.

Dance, Theatre, and Arts Administration

Dance

The University of Akron can help you choose the undergraduate dance degree program that best supports your academic, personal and career goals. Both degree programs prepare students for performing, graduate studies in dance, fields related to dance such as arts administration, dance history, physical therapy, dance therapy, dance education, or dance ethnology, as well as teaching in private studios. Students in the Dance Program enjoy exceptional opportunities to study, perform, and collaborate with regionally, nationally, and internationally renowned professionals. The University of Akron Dance Program has been accredited by the National Association of Schools of Dance since 1986. Whatever your goals in dance are, The University of Akron Dance Program can help you develop the necessary skills.

Arts Administration

The University of Akron Arts Administration Graduate Program is designed to prepare students for successful careers in all disciplines of the non-profit arts. The strength of the program lies in a commitment to balancing theoretical study in the classroom with an application through

practical experiences and internships. The M.A. in Arts Administration is awarded after the successful completion of the graduate course work, the completion of a professional internship experience, and the acceptance of a thesis/project. The curriculum provides students with a philosophical base for decision-making and planning, as well as a comprehensive range of techniques for working effectively in the field.

Dance, Theatre, and Arts Administration Facilities

Our Center for Dance and Theatre at Guzzetta Hall is world class. It features seven technology-enhanced dance studios, including an alternative/experimental performance venue; a design and lighting studio; scene and costume shops; trainer and physiotherapy facilities; locker rooms; and technology-enhanced classrooms.

Additional information about the school, its faculty, and programs can be accessed at <https://uakron.edu/dtaa/>

Dance (DNCE)

DNCE:100 Ballet I (2 Credits)

(May be repeated for a total of four credits) Emphasis on body placement, muscular awareness. (Formerly 7900:124)

DNCE:101 Ballet II (2 Credits)

Prerequisite: permission or grade of B or better for one semester of DNCE 100. (May be repeated for a total of four credits) Continuation of DNCE 100. Basic exercises of classical ballet. (Formerly 7900:125)

DNCE:110 Modern I (2 Credits)

(May be repeated for a total of four credits) Exploring the basic principles of modern dance with an emphasis on body alignment and muscular awareness. (Formerly 7900:119)

DNCE:111 Modern II (2 Credits)

Prerequisite: permission or grade of B or better for one semester in DNCE 110. (May be repeated for a total of four credits) Continuation of DNCE 110. Increasing movement vocabulary, muscular strength and coordination of modern dance. (Formerly 7900:120)

DNCE:120 Jazz Dance I (2 Credits)

(May be repeated for a total of four credits.) Basic jazz dance technique and jazz dance origins. (Formerly 7900:130)

DNCE:130 Tap Dance I (2 Credits)

(May be repeated for a total of four credits.) Basic tap dance technique and terminology. (Formerly 7900:144)

DNCE:148 Dance Somatics: Alexander Technique (1 Credit)

Prerequisite: DNCE 100 or DNCE 110, or higher levels of ballet or modern dance technique. Exploration of alternative movement disciplines aimed at increasing body-mind awareness and dancer health. Must be taken by dance majors in first two years of study. (Formerly 7900:105)

DNCE:149 Dance Somatics: Gyrokinesis (1 Credit)

Prerequisite: DNCE 100 or DNCE 110, or higher levels of ballet or modern dance technique. Exploration of alternative movement disciplines aimed at increasing body-mind awareness and dancer health. Must be taken by dance majors in first two years of study. (Formerly 7900:104)

DNCE:150 Dance Somatics: Pilates (1 Credit)

Prerequisite: DNCE 200 or DNCE 210, or higher levels of ballet or modern dance technique. Exploration of alternative movement disciplines aimed at increasing body-mind awareness and dancer health. Must be taken by dance majors in first two years of study. (Formerly 7900:102)

DNCE:151 Dance Somatics: Yoga (1 Credit)

Prerequisite: DNCE 100 or DNCE 110, or higher levels of ballet or modern dance technique. Exploration of alternative movement disciplines aimed at increasing body-mind awareness and dancer health. Must be taken by dance majors in first two years of study. (Formerly 7900:101)

DNCE:152 Topics in World Dance (1 Credit)

May be repeated for a total of six credits. Prerequisite: DNCE 100 or DNCE 110, or higher levels of ballet or modern dance technique. Exploration of various dance genres from world and historical traditions. (Formerly 7900:111)

DNCE:153 Orientation for Dance (0 Credits)

Orientation to the dance program and field. Must be taken by all dance majors in their first semester of study. Dance Orientation is a degree requirement and is offered on a credit/noncredit basis. (Formerly 7900:103)

DNCE:154 Freshman Jury and Interview (0 Credits)

The passing of the Freshman Jury and interview is a requisite for becoming a BA dance major. It is also a degree requirement. Students may take the Freshman Jury and Interview the following semester if failed the first time. It may not be taken more than twice. Offered on a credit/non credit basis. (Formerly 7910:201)

DNCE:155 BFA Audition (0 Credits)

Prerequisite: DNCE 154 or permission. Passing the BFA Audition is a requisite for becoming a BFA dance major. It is also a degree requirement. It may not be taken more than twice. Offered on a credit/noncredit basis. (Formerly 7910:200)

DNCE:156 Physical Analysis for Dance I (2 Credits)

Prerequisites: BIOL 200, BIOL 201; NUTR 133. Required for all dance majors. Recommended to be taken in the first two years. Lecture/laboratory. Skeletal and muscular analysis for dance technique. (Formerly 7900:116)

DNCE:157 Physical Analysis for Dnce II (2 Credits)

Prerequisite: DNCE 156. Support systems, conditioning injury prevention, rehabilitation, nutrition for dancers. (Formerly 7900:117)

DNCE:158 Movement Fundamentals (2 Credits)

Beginning study of Labanotation method of recording movement, and Laban's theories of effort, space, and shape. (Formerly 7900:320)

DNCE:159 Ballroom Dance I (1 Credit)

(May be repeated for a total of four credits.) Introduction to the basic patterns and techniques of major ballroom dances. (Formerly 7900:150)

DNCE:160 Dance As An Art Form (2 Credits)

Survey of dance for novice observer. aesthetics, philosophies, methods of training. Lecture and discussion of readings, viewing of film, videotape and live performances. (Formerly 7900:115)

DNCE:200 Ballet III (3 Credits)

(May be repeated for a total of 6 credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 101. Continuation of DNCE 101. Emphasis on barre and developing strength. (Formerly 7900:224)

DNCE:201 Ballet IV (3 Credits)

Prerequisite: Permission or grade of B or better for one semester in DNCE 200. Continuation of DNCE 200. Emphasis on the increase of strength and flexibility. (May be repeated for a total of twelve credits) (Formerly 7900:225)

DNCE:210 Modern III (2 Credits)

(May be repeated for a total of 4 credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 111. Continuation of DNCE 111. Introduction to current modern dance styles and technique. (Formerly 7900:219)

DNCE:211 Modern IV (2 Credits)

(May be repeated for a total of 4 credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 210. Continuation of DNCE 210. Application of basic modern dance theory of current modern dance styles and techniques. (Formerly 7900:220)

DNCE:220 Jazz Dance II (2 Credits)

(May be repeated for a total of 4 credits.) Prerequisite: permission or a grade of B or better in DNCE 120. Continuation of basic jazz technique and stylistic range of jazz dance. (Formerly 7900:230)

DNCE:230 Tap Dance II (2 Credits)

(May be repeated for a total of four credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 130. Refinement of tap technique and stylistic range of tap dance. (Formerly 7900:145)

DNCE:265 Viewing Dance (3 Credits)

To explore dance as an art form through experiential activities, dance literature, film and live performance for non-dance majors. (Formerly 7900:200)

Ohio Transfer 36: Yes

Gen Ed: - Arts

DNCE:290 Special Topics in Dance (1-4 Credits)

(May be repeated. No more than 10 credits may be applied toward the B.F.A. or B.A.) Prerequisite: Permission. Traditional and nontraditional topics in dance. (Formerly 7920:403)

DNCE:300 Ballet V (4 Credits)

(May be repeated for a total of 16 credits) Prerequisite: permission or a grade of B+ or better for one semester in DNCE 201. Theory, vocabulary, structure, placement. Concurrent enrollment in pointe class recommended. (Formerly 7900:122)

DNCE:301 Ballet VI (4 Credits)

(May be repeated for a total of 16 credits) Prerequisite: permission or a grade of B+ or better for one semester in DNCE 300. Continuation of DNCE 300, expanding theory on vocabulary, structure, placement. Concurrent enrollment in pointe class recommended. (Formerly 7900:222)

DNCE:310 Modern V (3 Credits)

(May be repeated for a total of 6 credits.) Prerequisite: Permission or a grade of B or better for one semester in DNCE 211. The intermediate study of modern dance styles and technique through the application of more complex movement theories, rhythmic patterns, and improvisational studies. (Formerly 7900:228)

DNCE:311 Modern VI (3 Credits)

(May be repeated for a total of 6 credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 310. Introduction to intermediate theory of current modern dance styles and techniques. (Formerly 7900:229)

DNCE:320 Jazz Dance III (2 Credits)

(May be repeated for a total of 4 credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 220. Intermediate jazz dance technique and the jazz eras. (Formerly 7900:351)

DNCE:330 Tap Dance III (2 Credits)

(May be repeated for a total of 4 credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 230. Advancement of tap dance technique through the use of complex combinations, syncopation, routines, and styles. (Formerly 7900:246)

DNCE:340 Partnering (2 Credits)

Prerequisite: [DNCE 300 or DNCE 301 or DNCE 400 or DNCE 401] and [DNCE 310 or DNCE 311 or DNCE 410 or DNCE 411] or permission. An exploration of the fundamentals of dance partnering: weight sharing, centering, safety via contact improvisation. (Formerly 7900:333)

DNCE:349 Learning Theory for Dance (2 Credits)

Prerequisites: DNCE 160, DNCE 200 (or higher levels of ballet technique), [PSYC 100 or EDFN 22], or permission of instructor. Theories of learning and their use in teaching dance. (Formerly 7900:361)

DNCE:351 History of Ballet (2 Credits)

Prerequisite: DNCE 160 or DNCE 265 or permission. Development of ballet beginning with its origins in French Courts through the Romantic and Diaghilev Eras to current times. (Formerly 7900:432)

DNCE:352 Digital Technology for Dance (3 Credits)

Hands-on exploration of theories and methods used in electronic development of promotional and creative materials. Activities include still and motion image capture, editing, and distribution. (Formerly 7900:274)

DNCE:353 Instructional Strategies for Dance (2 Credits)

Prerequisite: DNCE 349. Practical work and development of teaching skills in dance for public and private settings. (Formerly 7900:362)

DNCE:354 Dance Philosophy and Criticism (3 Credits)

Prerequisites: HIST 210 or HIST 221, PHIL 101, DNCE 160 and DNCE 351 or DNCE 355. Review of historical dance philosophies, performance, attributes, choreographic and theatrical elements of dance and criticism. (Formerly 7900:445)

DNCE:355 Dance History: 20th Century (2 Credits)

Prerequisite: DNCE 160 or DNCE 265 or permission. Development of modern dance as an art form and the further evolution of ballet and concert dance. (Formerly 7900:433)

DNCE:356 Choreography I (2 Credits)

Prerequisite: Permission or DNCE 211 or above. Theoretical and practical introduction to principles of choreography: space, time, energy. (Formerly 7900:316)

DNCE:357 Choreography II (2 Credits)

Prerequisite: DNCE 356 or permission. Continuation of DNCE 356. Emphasis on musical choices and finding movement specific to the individual choreographer. (Formerly 7900:317)

DNCE:358 Pointe I (2 Credits)

(May be repeated for a total of eight credits) Prerequisite: permission or DNCE 300 or above. Corequisite: DNCE 300 or above. Reinforcement of selection principles for pointe shoes, proper holding of foot muscularly and control of heel while ascending and descending from pointe. (Formerly 7900:141)

DNCE:359 Pointe II (2 Credits)

(May be repeated for a total of 12 credits) Prerequisite: permission or a grade of B or better for one semester in DNCE 358. Corequisite: DNCE 301 or above. Continuation of DNCE 358. Continued development of strength, coordination and endurance of holding foot muscularly. Further development and emphasis on principles of weight transfer. (Formerly 7900:241)

DNCE:360 Rhythmic Analysis - Dance (2 Credits)

Prerequisites: 32 credits and DNCE 101 or DNCE 111, or higher levels of ballet or modern dance technique, or permission. Lecture and application of basic rhythmic structures used in dance and dance instruction. (Formerly 7900:321)

DNCE:400 Ballet VII (4 Credits)

(May be repeated for a total of 24 credits.) Prerequisite: Permission or a grade of B+ or better for one semester in DNCE 301 Ballet VI. Continuation of DNCE 301. Emphasis on technique, style, line. Concurrent enrollment in point class is recommended. (Formerly 7900:322)

DNCE:401 Ballet VIII (4 Credits)

(May be repeated for a total of 32 credits.) Prerequisite: permission or a grade of B+ or better for one semester in DNCE 400. Continuation of DNCE 400. Advanced level of technique. Concurrent enrollment in pointe class recommended. (Formerly 7900:422)

DNCE:410 Modern VII (3 Credits)

(May be repeated for a total of 12 credits.) Prerequisite: permission or a grade of B or better in DNCE 311. Refinement and stylization of modern techniques for performance of modern dance. (Formerly 7900:328)

DNCE:411 Modern VIII (3 Credits)

(May be repeated for a total of 12 credits.) Prerequisite: permission or a grade of B or better in DNCE 410 Modern VII. Application of advanced modern dance techniques and styles. (Formerly 7900:329)

DNCE:420 Jazz Dance IV (2 Credits)

(May be repeated for a total of eight credits.) Prerequisite: permission or a grade of B or better for one semester in DNCE 320. Advanced jazz dance technique and styles for the professional dancer. (Formerly 7900:451)

DNCE:430 Tap Dance IV (2 Credits)

(May be repeated for a total of 8 credits.) Prerequisite: Permission or a grade of B or better for one semester in DNCE 330. Advanced tap combinations, styles, routines. (Formerly 7900:347)

DNCE:440 Pas De Deux I (2 Credits)

(May be repeated for a total of eight credits) Prerequisites: Permission; concurrent enrollment in a pointe class recommended. Provides student with the beginning understanding and practice of pas de deux. (Formerly 7900:334)

DNCE:450 Choreography III (2 Credits)

Prerequisite: DNCE 357 or permission. Continuation of DNCE 357. Emphasis on form and choreographic analysis. (Formerly 7900:416)

DNCE:451 Choreography IV (2 Credits)

Prerequisite: DNCE 450 or permission. Continuation of DNCE 450. Expanding into group choreography and longer works. (Formerly 7900:417)

DNCE:453 Senior Seminar (1 Credit)

Prerequisite: DNCE 352; senior standing or permission. A forum to develop professional skills to make the transition to a dance career: artistic, academic, or business. (Formerly 7900:471)

DNCE:454 Seminar & Field Experience in Dance Education (2 Credits)

Prerequisite: DNCE 353. Corequisite: DNCE 161. Supervised observation and teaching experience in dance education in the field. (Formerly 7900:461)

DNCE:455 Professional Issues in Dance Education (2 Credits)

Prerequisite: DNCE 454. Corequisite: DNCE 161. An examination of current issues and goals in dance education. (Formerly 7900:462)

DNCE:456 Independent Study in Dance (1-3 Credits)

(May be repeated for a total of four credits) Prerequisite: Permission and prearrangement with instructor. Individual creative project, research or readings in dance with faculty advisor. (Formerly 7900:497)

DNCE:457 Honors Research Project in Dance (1-3 Credits)

May be repeated for a total of six credits. Prerequisite: Approval of department preceptor. Creative project or research supervised by dance preceptor. (Formerly 7900:498)

DNCE:490 Workshop in Dance (1-3 Credits)

(May be repeated for a total of eight credits) Prerequisite: Permission. Group study/projects investigating a particular field of dance not covered by other courses. (Formerly 7900:490)

DNCE:491 Special Topics in Dance (1-4 Credits)

(May be repeated. No more than 10 credits may be applied toward the B.F.A. or B.A.) Prerequisite: Permission. Traditional and nontraditional topics in dance. (Formerly 7900:403)

Dance Organizations (DNCEO)

DNCEO:150 Classical Ballet Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of classical ballet repertoire. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:101)

DNCEO:151 Contemporary Dance Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of contemporary dance repertoire. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:103)

DNCEO:152 Jazz Dance Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of jazz dance repertoire. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:104)

DNCEO:153 Touring Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of any dances prepared for touring purposes. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:111)

DNCEO:154 Character Ballet Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of character ballet repertoire. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:102)

DNCEO:155 Dance Production Ensemble (1 Credit)

By permission only. Participation in technical assistance, preparation and performance of student dance productions: theory and laboratory. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:112)

DNCEO:156 Musical Comedy Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of dance production numbers in a musical comedy. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:105)

DNCEO:157 Opera Dance Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of dance sequences in an opera. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:106)

DNCEO:158 Experimental Dance Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of avant-garde dances. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:107)

DNCEO:159 Ethnic Dance Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of ethnic dance repertoire. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:109)

DNCEO:160 Period Dance Ensemble (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of dances from specific historical periods such as the Renaissance or Baroque eras. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:110)

DNCEO:161 Choreographers Workshop (1 Credit)

By audition only. Participation in rehearsal and preparation for public performance of student dances. **Course may be repeated for credit. Total credit for graduation may not exceed 12 credits. All courses are by audition only. (Formerly 7910:108)

DNCEO:191 Dance Organizations: Workshop (1 Credit)

By permission only. Participation in a dance workshop as volunteer, participant and/or presenter that forwards and augments the student's dance education and networking skills. (Formerly 7910:113)

Theatre (THEA)

THEA:100 Experiencing Theatre (3 Credits)

Experience the theatre as a live, dynamic art form through an exposure to and participation in University productions. (Formerly 7800:100)

Gen Ed: - Arts

THEA:103 Theatre Orientation (0 Credits)

Orientation to the information and strategies necessary to aid new theatre students in their understanding of the field of theatre. (Formerly 7800:103)

THEA:108 Introduction to the Visual Arts of World Theatre (3 Credits)

Introduction to the theories and styles of scenic, costume, and lighting design from around the world, including the application of these principles to various media. (Formerly 7800:108)

An introduction to the techniques of collaborative creation and physical theatre especially space awareness, movement training, and storytelling. (Formerly 7800:145)

THEA:151 Vocal Dynamics (3 Credits)

This course is concerned with the various techniques and principles of vocal production in their practical application providing a structure to discover your vocal potential. (Formerly 7800:151)

THEA:172 Acting I (3 Credits)

Introductory fundamentals of acting through the investigation of the body as an instrument for the stage, improvisation and basic scene study. (Formerly 7800:172)

THEA:264 Playscript & Performance Analysis (3 Credits)

An introduction to various methods of how to read and analyze a play script for theatre production, utilizing theories and tools from Aristotle to today. (Formerly 7800:264)

Gen Ed: - Arts

THEA:265 Basic Stagecraft (3 Credits)

Basic stagecraft including equipment, construction and handling of two-dimensional scenery and theatrical hardware. Laboratory required. (Formerly 7800:265)

THEA:274 Digital Technology for Theatre (3 Credits)

Hands-on exploration of theories and methods used in electronic development of promotional and creative materials. Activities include still and motion image capture, editing and distribution. (Formerly 7800:274)

THEA:301 Introduction to Theatre Through Film (3 Credits)

Prerequisite: HIST 210 or HIST 221. A study of the Theatre with emphasis on its cultural and social influences on our society. Does not meet the Humanities requirement for Theatre majors. (Formerly 7800:301)

THEA:306 Costume Design for the Performing Arts and Media (3 Credits)

Prerequisites: THEA 108. Costume design and construction techniques, organization and maintenance of wardrobe for stage performance and other types of production. Lab required. (Formerly 7800:306)

THEA:335 History of Theatre and Dramatic Literature: Origins through 18th Century (3 Credits)

The history and theory of dramatic literature and theatre practices from their origins through the 18th Century, including select non-western theatre traditions. (Formerly 7800:335)

Gen Ed: - Global Diversity

THEA:336 Scenic Design for Performing Arts & Media (3 Credits)

Prerequisites: THEA 108. The theory, principles, and practice of scene design for the theatre and other media. Lab required. (Formerly 7800:336)

THEA:351 Advanced Ensemble Theatre Lab (3 Credits)

Prerequisites: THEA 145. Advanced training in the techniques and principles of collaborative creation and physical theatre leading toward performance of a devised solo and/or group performance. (Formerly 7800:351)

THEA:355 Lighting Design and Technology (3 Credits)

Prerequisites: THEA 108 The art and technique of lighting design for the stage and other media: light plotting, color theory, and special effects. Lab required. (Formerly 7800:355)

THEA:370 Directing I (3 Credits)

Prerequisites: THEA 100, THEA 172, and THEA 264. Emphasizes fundamentals of play directing, including responsibilities of director, stage nomenclature, play selection, analysis, and rehearsal techniques. (Formerly 7800:370)

THEA:373 Acting II (3 Credits)

Prerequisite: THEA 172. Continuation of THEA 172. Further emphasis on the psychology of the actor and development of performing techniques through scene study. (Formerly 7800:373)

THEA:374 Acting III (3 Credits)

Prerequisite: THEA 373. Further in-depth actor training with emphasis on the language and interpretation of classic plays including Shakespeare. (Formerly 7800:374)

THEA:403 Special Topics: Theatre Arts (1-3 Credits)

Prerequisite: Permission. Traditional and nontraditional topics in theatre arts. (May be repeated, only 3 credits may apply to Theatre major and on 9 credits toward B.A degree). (Formerly 7800:403)

THEA:433 Theatre Organization & Production Management (3 Credits)

Study of successful methods of theatre organization and production stage management of professional and non-professional performing arts operations. (Formerly 7800:433)

THEA:435 History of Theatre and Dramatic Literature: 1800 to Present (3 Credits)

The history and theory of dramatic literature and theatre practices from the nineteenth century through the present, including select non-western theatre traditions. (Formerly 7800:435)

Gen Ed: - Global Diversity

THEA:436 Styles of Scenic Design for the Performing Arts and Media (3 Credits)

Prerequisite: THEA 336. Theatrical and practical exploration of the styles and periods of production design and designers for stage and media. Lab required. (Formerly 7800:436)

THEA:455 Creating Performance (3 Credits)

(May be repeated for a total of six credits.) This course introduces devising processes, improvisation, ensemble work, and physical theatre techniques appropriate to the preparation of practical performance projects from sources other than a conventional play. (Formerly 7800:455)

THEA:461 Directing II (3 Credits)

Prerequisite: THEA 370. Emphasizes fundamentals of play directing, including responsibilities of director, stage nomenclature, play selection, analysis, and rehearsal techniques. (Formerly 7800:461)

THEA:467 Multi-Cultural Theatre (3 Credits)

A detailed examination of contemporary performances, performance texts, and theoretical writings that reference the history and experience of diverse communities of America and the world. (Formerly 7800:467)

Gen Ed: - Domestic Diversity

THEA:471 Senior Seminar (1 Credit)

Prerequisites: THEA 274, upper class standing, and permission from the theatre advisor. A forum to develop professional skills to make the transition to a theatre career: artistic, academic, business and professional. (Formerly 7800:471)

THEA:476 Theatre and Community Action (3 Credits)

This course will explore civic engagement strategies and situations linking theatre and community in which students tackle community issues and concerns utilizing various performative techniques. (Formerly 7800:476)

THEA:480 Independent Study: Theatre (1-3 Credits)

Practice, study, and/or research in selected elements of theatre arts and production including preparation and presentation of creative and technological projects. (Formerly 7800:480)

THEA:490 Workshop in Theatre Arts (1-3 Credits)

(May be repeated for a total of 6 credits) Prerequisite: advanced standing or permission. Group study or group projects investigating particular phases of theatre arts not covered by other courses in curriculum. (Formerly 7800:490)

THEA:495 Honors Research Project in Theatre (1-3 Credits)

Prerequisite: Approval of department preceptor. Creative project or research supervised by theatre preceptor. (Formerly 7800:495)

Dance with Business Cognate, BA

Bachelor of Arts in Dance with Business Cognate (C90002BA)

More on the Dance with Business Cognate major (<https://www.uakron.edu/dtaa/dance/degree-programs.dot>)

This BA degree is designed to offer students a broad learning experience in dance, including ballet, modern, tap, and jazz, supplemented by business studies. Core coursework includes choreography, dance history, pedagogy, and physical analysis. This program prepares students for dance studio management, graduate studies in the fields related to dance such as arts administration, dance history, physical therapy, dance therapy, or dance ethnology, as well as teaching in private studios.

Placement into the dance program for the first year of study as a probationary dance major is by audition only. Promotion in levels of dance techniques is by receipt of a "B+" grade or better for one semester for advancement from Ballet IV to V to VI to VII to VIII respectively, and by receipt of a "B" grade or better for one semester in all other technique classes.

To be admitted to the BA program in Dance in the School of Dance, Theatre and Arts Administration, students must complete one year of study as a probationary dance major, demonstrate acceptable work habits, pass the Freshman Jury and Interview and maintain a 2.785 GPA in all dance classes. All students are required to be enrolled in a dance technique class each semester until they satisfy their technique requirements. Completion of two semesters of Ballet V is required for the BA in Dance Studies with a Business Cognate.

The following information has official approval of **The School of Dance, Theatre, and Arts Administration** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program ([CCP](#)) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade](#)

in a CCP course. Students may also receive credit by examination or via placement tests, where appropriate.

Dance, BFA

Bachelor of Fine Arts in Dance (C90000BFA)

More on the Dance major (<https://www.uakron.edu/dtaa/dance/degree-programs.dot>)

The BFA dance major is designed for the student who wishes to pursue professional training in dance through an emphasis in ballet and modern dance techniques. This program offers extensive training in technical, performing and choreographic skills and is supported by a core of coursework in dance history, pedagogy, and physical analysis. The BFA in Dance prepares students for performing, graduate studies in performance and choreography, fields related to dance such as arts administration, dance history, physical therapy, dance therapy, dance education, or dance ethnology, as well as teaching in private studios.

Placement into the dance program for the first year of study as a probationary dance major is by audition only. Promotion in levels of dance techniques is by receipt of a "B+" grade or better for one semester for advancement from Ballet IV to V to VI to VII to VIII respectively, and by receipt of a "B" grade or better for one semester in all other technique classes.

To be admitted to the BFA degree program in Dance in the School of Dance, Theatre, and Arts Administration, students must work for one year of study as a probationary dance major, demonstrate acceptable

work habits, pass the Freshman Jury and Interview to gain admittance to the college and status as a BA in Dance major in preparation for auditioning for the BFA program at the end of the sophomore year. BFA students must maintain a 2.875 GPA in all dance classes for a total of two years and may be placed on artistic probation if they demonstrate less acceptable work habits. Full status must be regained to graduate. To graduate with the BFA in Dance, students must complete one full year of Ballet VIII with a minimum of "B" and be enrolled in a ballet technique class each semester until they satisfy their technique requirements and maintain an overall 2.875 GPA in all dance classes.

The following information has official approval of **The School of Dance, Theatre, and Arts Administration** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Theatre Arts, BATA

Bachelor of Arts in Theatre Arts (C80002BAT)

More on the Theatre Arts major (<https://www.uakron.edu/dtaa/theatre/>)

Admission to this program has been suspended

The Bachelor of Arts in Theatre Arts (TAG) is a liberal arts degree which introduces the students to all facets of Theatre Arts and allows the student to specialize in one area of theatre such as Acting/Directing or Design/Tech or branch out into an inter-disciplinary specialization such as Communication, Media Arts, or English Literature.

The following information has official approval of **The School of Dance, Theatre, and Arts Administration** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Theatre Arts, Minor

Minor in Theatre Arts (C80002M)

Admission to this program has been suspended

In order to obtain a Minor in Theatre Arts, the student must successfully complete a minimum of 18 credits; 12 credits of required theatre core courses and 6 credits of theatre electives from 300-400 level courses.

The following information has official approval of the **School of Dance, Theatre, & Arts Administration** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Theatre Arts" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. A minor in Theatre Arts may only be awarded at the time a student receives a baccalaureate degree. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

English

Statement of Policies—Admission and Graduation

For students enrolled at The University of Akron and for students wishing to transfer directly into Buchtel College of Arts and Sciences from other institutions, the following criteria must be satisfied for admission to the Department of English:

- The student must be admissible to the Buchtel College of Arts and Sciences

- The student must have a minimum grade point average of 2.20 in all university coursework

In order to graduate with an English major, the following requirements must be satisfied:

- The student must achieve a grade of C- or higher in all these required courses:

Code	Title	Hours
ENGL:300	Critical Reading & Writing	3
ENGL:301	English Literature I	3
ENGL:315	Shakespeare: The Early Plays	3
or ENGL:316	Shakespeare: The Mature Plays	
ENGL:341	American Literature I	3
ENGL:371	Introduction to Linguistics	3
ENGL:492	Senior Seminar	3

- The student must earn a cumulative grade point average of 2.20 in English courses

- Creative Writing, Minor (p. 128)
- English, BA (p. 129)
- English, Minor (p. 131)
- Linguistic Studies, Certificate (p. 131)
- Popular Literature and Film, Minor (p. 132)
- Teaching English as a Second Language, Certificate (p. 133)

English (ENGL)

ENGL:110 English Composition I + Workshop (4 Credits)

Prerequisite: Placement. Extensive and varied experience in developing writing skills, with practice in expressive, reflective, and analytic forms of writing. Includes one credit, support-intensive workshop. (Formerly 3300:110)

Ohio Transfer 36: Yes

Gen Ed: - Writing First Course

ENGL:111 English Composition I (3 Credits)

Extensive and varied experience in developing writing skills, with practice in expressive, reflective, and analytic forms of writing. (Formerly 3300:111)

Ohio Transfer 36: Yes

Gen Ed: - Writing First Course

ENGL:112 English Composition II (3 Credits)

Prerequisite: ENGL 110 or ENGL 111 or ENGL 113. Designed to develop skills in analyzing and writing persuasive arguments. (Formerly 3300:112)

Ohio Transfer 36: Yes

Gen Ed: - Writing Second Course

ENGL:113 African American Language and Culture I: College Composition (3 Credits)

Discussion, argumentation, and writing related to African American culture and language. An option to ENGL 111 English Composition I. Open to all students. (Formerly 3300:113)

ENGL:114 African American Language and Culture II: College Composition (3 Credits)

Prerequisites: ENGL 110 or ENGL 111 or ENGL 113. Composition and discussion topics focus on the structure, history, and culture of African American English. An option to ENGL 112 English Composition II. Open to all students. (Formerly 3300:114)

ENGL:120 Writing and Editing (1 Credit)

Examination of the editing process of writing. Focuses on developing a clear, effective, and correct professional writing style appropriate for academic and business documents. (Formerly 2020:120)

ENGL:123 Writing for Presentations (1 Credit)

A writing intensive course that focuses on the rhetorical and theoretical challenges and considerations of effective presentations. (Formerly 2020:123)

ENGL:216 Collaborative Writing (1 Credit)

Prerequisite: ENGL 111 or equivalent. A writing course that focuses on strategies and techniques for successful collaborative writing in the workplace. (Formerly 2020:216)

ENGL:220 Writing and Research (1 Credit)

Prerequisite: ENGL 111 or equivalent. Practical examination of writing effectively and professionally about primary and secondary research sources in the student's choice of several citation methods. (Formerly 2020:220)

ENGL:222 Technical Report Writing (3 Credits)

Prerequisite: ENGL 110 or ENGL 111 or equivalent. Prepares students to write the types of reports most often required of technicians, engineers, and scientists. Includes types of reports, memoranda, and letters; techniques of research, documentation and oral presentations. (Formerly 3300:222)

Ohio Transfer 36: Yes

Gen Ed: - Writing Second Course

ENGL:224 Writing for Advertising (3 Credits)

Prerequisite: ENGL 111 or equivalent. Introduction to the copywriter's role in print, broadcast, and Web advertising. Study of advertising language; practice in writing advertisements and producing collateral copywriting materials. (Formerly 2020:224)

ENGL:226 Electronic Reference Resources in the Computer Age (3 Credits)

Prerequisite: ENGL 111. Designed for individuals to broaden their scope and understanding of various electronic research techniques. Study, evaluation, and use of current and emerging technologies will be examined. (Formerly 2020:226)

ENGL:227 Writing for the World Wide Web (3 Credits)

Prerequisite: ENGL 111 or equivalent, and familiarity with Internet (or attend Computer Center training seminar) knowledge of word processing software. Introductory course examines spoken and written contexts merging into one "writing space"; provides writing theory and practice for effective e-mail, newsgroup, chat, and web site writing. (Formerly 2020:227)

ENGL:250 Classic & Contemporary Literature (3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, and HIST 210 or HIST 221, or permission of the instructor. Close reading and analysis of fiction, poetry, and drama from the evolving canon of American, British, and World literature. This course fulfills the General Education Humanities Requirement. It cannot be used to meet requirements in English. (Formerly 3300:250)

ENGL:252 Shakespeare & His World (3 Credits)

Prerequisite: ENGL 112 or equivalent. An introduction to the works of Shakespeare and their intellectual and social contexts. Each section "places" Shakespeare through compact readings of works by the playwright's contemporaries. This course fulfills the General Education Humanities Requirement. It cannot be used to meet requirements in English. (Formerly 3300:252)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

ENGL:275 Specialized Writing (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. (May be repeated for different topics, with permission) Principles and practice of style, structure and purpose in writing, with special applications to writing demands of a specific career area. (Formerly 3300:275)

ENGL:276 Introduction to Creative Nonfiction Writing (3 Credits)

Prerequisites: ENGL 111 and ENGL 112. This course introduces the techniques of Creative Nonfiction through writing exercises that give experience with the form. (Formerly 3300:276)

ENGL:277 Introduction to Poetry Writing (3 Credits)

Prerequisite: ENGL 111 and ENGL 112. Practice in writing poems. Study of techniques in poetry, using contemporary poems as models. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing. (Formerly 3300:277)

ENGL:278 Introduction to Fiction Writing (3 Credits)

Prerequisite: ENGL 111 and ENGL 112. Practice in writing short stories. Study of various techniques in fiction, using contemporary stories as models. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing. (Formerly 3300:278)

ENGL:279 Introduction to Script Writing (3 Credits)

Prerequisite: ENGL 111 and ENGL 112. Practice in writing scripts. Study of various techniques in script writing, using contemporary models for study. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing. (Formerly 3300:279)

ENGL:280 Poetry Appreciation (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. Close reading of a wide selection of British and American poems with emphasis on dramatic situation, description, tone, analogical language, theme and meaning. (Formerly 3300:280)

ENGL:281 Fiction Appreciation (3 Credits)

Prerequisites: Completion of ENGL 111 and ENGL 112 or their equivalents. Close reading of modern masters of short story and novel. Fulfills the General Education Humanities Requirement. It cannot be used to meet requirements in English. (Formerly 3300:281)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

ENGL:283 Film Appreciation (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course. Introduction to dramatic choices made by filmmakers in scripting, directing, editing and photographing narrative films; and qualities of reliable film reviews. (Formerly 3300:283)

Ohio Transfer 36: Yes

Gen Ed: - Arts

ENGL:290 Special Topics: Associate Studies (1-4 Credits)

(May be repeated with a change in topic) Prerequisite: permission. Selected topics on subject areas of interest in associate studies. (Formerly 2020:290)

ENGL:300 Critical Reading & Writing (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. An introduction to English studies, focusing on critical methods for reading and writing about literature, with attention to research skills and uses of computer technology. (Formerly 3300:300)

ENGL:301 English Literature I (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. Studies in English literature from Old English to 1800, with emphasis upon specific representative works and upon the cultural and intellectual background which produced them. Literature to be read will include both major and minor poetry, prose and drama. (Formerly 3300:301)

ENGL:315 Shakespeare: The Early Plays (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. Introduction to early drama of Shakespeare with close reading of tragedies, histories and comedies. Includes explanatory lectures of both the plays and their backgrounds. (Formerly 3300:315)

ENGL:316 Shakespeare: The Mature Plays (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. Study of Shakespeare's plays after 1598, beginning with mature comedies. Concentration on major tragedies and romances. (Formerly 3300:316)

ENGL:325 Signs of Professional Writing (1 Credit)

Prerequisite: ENGL 111 or equivalent. Practical examination of concrete and abstract indicators that lead readers to judge the professional quality of a written text beyond its meaning and correctness. (Formerly 2020:325)

ENGL:341 American Literature I (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor. Historical survey of major and minor American writers to 1865. (Formerly 3300:341)

ENGL:350 Black American Literature (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course, or permission of the instructor. Survey of representative black American writers from the 19th Century to present, with particular attention to historical and social backgrounds. (Formerly 3300:350)

Gen Ed: - Domestic Diversity

ENGL:360 Old Testament As Literature (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level course. History of Hebrews to 586 B.C., as revealed through epic, fiction, saga and poetry, viewed against background of the Asian World. (Formerly 3300:360)

ENGL:361 The New Testament and Apocrypha as Literature (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level course. These two bodies of literature read with emphasis on form of gospel and epistle, and concept of apocalypse. Both are viewed against their historical and social backgrounds. (Formerly 3300:361)

ENGL:362 World Literatures (3 Credits)

The course is a study of short fiction, poems, plays, and novels of the non-Western world from early antiquity to the present. (Formerly 3300:362)

Gen Ed: - Global Diversity

ENGL:364 Women Writers (3 Credits)

Prerequisite: ENGL 112 or equivalent, or permission of instructor. A study of the diverse voices of female experiences through literature written by women. (Formerly 3300:364)

ENGL:366 European Background of English Literature (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level course. Representative continental texts from Homer to Cervantes, selected both for their excellence and for their important influence on English and American literature. (Formerly 3300:366)

ENGL:367 The Rhetoric of God (3 Credits)

Addresses the nature of language and the purpose of rhetoric as applied to the possibility/impossibility of transcendence. Fulfills General Education Global Diversity requirement. (Formerly 3300:367)

Gen Ed: - Global Diversity

ENGL:371 Introduction to Linguistics (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level English course or permission. Scientific introduction to the study of written and spoken linguistic behavior in English. History of English, varieties of English, and acquisition of English also introduced. (Formerly 3300:371)

ENGL:376 Legal Writing (3 Credits)

Prerequisite: Completion of ENGL 112 or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level course. Intensive practice in writing for prelaw students through assignments based on actual legal situations and real cases. Particular attention to stating legal issues, writing persuasively, applying rules of law, and other topics that will help those preparing for law school and the profession. (Formerly 3300:376)

ENGL:377 Advanced Poetry Writing (3 Credits)

Prerequisites: ENGL 277, ENGL 111 and ENGL 112. Advanced practice in writing poems, emphasis on shaping publishable works. Survey of market. Class discussion of student poems; individual conference with instructor. (Formerly 3300:377)

ENGL:378 Advanced Fiction Writing (3 Credits)

Prerequisites: ENGL 278, ENGL 111 and ENGL 112. Advanced practice in writing short stories, emphasis on shaping publishable works. Survey of market. Class discussion of student stories; individual conference with instructor. (Formerly 3300:378)

ENGL:379 Advanced Script Writing (3 Credits)

Prerequisites: ENGL 112 and ENGL 279. This course focuses on writing for the screen and developing the visual imagination. (Formerly 3300:379)

ENGL:380 Film Criticism (3 Credits)

Prerequisite: ENGL 112 or any 200-, 300- or 400-level English course. Application of literary critical theory to the study of film. (Formerly 3300:380)

ENGL:381 Advanced Creative Nonfiction Writing (3 Credits)

Prerequisite: ENGL 276. This course advances student practice in the craft of Creative Nonfiction through writing exercises and workshop sessions. (Formerly 3300:381)

ENGL:389 Special Topics: Literature & Language (3 Credits)

Prerequisite: Completion of ENGL 112 or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course. (May be repeated for credit as different topics are offered). Traditional and nontraditional topics in English literature and language, supplementing course listed in this General Bulletin, generally constructed around theme, genre and language study. (Formerly 3300:389)

ENGL:390 Professional Writing I (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level English course, or permission of the instructor. Designed to help prepare student for a career as professional business writer. Stresses theory and practice of written and oral communication in business organization. Individual and group performance, relating to communication theories, concepts of semantics. Functional writing as well as special needs of business are illustrated by actual cases. Adapting style and organization is practiced. (Formerly 3300:390)

ENGL:391 Professional Writing II (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level English course, or permission of the instructor. Designed to help prepare student for a career as professional technical writer. Covers principles and practices concerning editing company technical communications, such as specifications, annual reports, promotional brochures for technical products, services, scientific abstracts, proposals. Also treats problems of adapting materials to formats, graphic display of technical information, adaptation of technical material to nontechnical reader. (Formerly 3300:391)

ENGL:392 Internship in English (1-3 Credits)

Prerequisite: Minimum GPA of 2.5, permission of the instructor. (May be repeated for a maximum of six credits.) Critical reading and writing focused on career applications of the discipline of English. May count up to three credit hours toward the English major. (Formerly 3300:392)

ENGL:399 The Gothic Imagination (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course. A loosely chronological study of major British, American, and European authors in the Gothic tradition. Focus on the literary conventions of Gothic fiction, to the "popular" nature of the literature and to its major themes/motifs. (Formerly 3300:399)

ENGL:400 Anglo Saxon (3 Credits)

Prerequisites: ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level English course, Junior or greater standing, or permission of the instructor. Studies in Old English language and Old English prose and poetry, including Beowulf. (Formerly 3300:400)

ENGL:403 Development of the Arthurian Legend (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Traces evolution of Arthurian materials from 540 to 1500 and beyond, with emphasis on characters, themes, events and treatments. (Formerly 3300:403)

ENGL:406 Chaucer (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Close study of Chaucer's major works *The Canterbury Tales* and *Troilus and Criseyde* in Middle English. (Formerly 3300:406)

ENGL:407 Middle English Literature (3 Credits)

Prerequisites: ENGL 111 and ENGL 112, 64 credits or permission. Study of genres, topics, styles and writers of the Middle English literary works from 12th to 15th Centuries. Readings in Middle English. (Formerly 3300:407)

ENGL:424 Early English Fiction (3 Credits)

Prerequisites: Completion of ENGL 111 and ENGL 112, 64 credits or permission. Development of English novel before 1830. Focus on works of Defoe, Richardson, Fielding, Smollett, Sterne, Austen and Scott. (Formerly 3300:424)

ENGL:425 Studies in Romanticism (3 Credits)

Prerequisites: Completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Literary, philosophical, psychological and social revolutions of romantic period as reflected in works of such major writers as Wordsworth, Byron and Keats. (Formerly 3300:425)

ENGL:430 Victorian Poetry & Prose (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Poetry, prose of the late 19th Century, excluding fiction, with attention to Tennyson, Browning, Arnold, Carlyle, Ruskin and other major writers. (Formerly 3300:430)

ENGL:431 Victorian Fiction (3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Reading of at least five major novels of Victorian era, of varying length, by Emily Bronte, Dickens, Eliot, Thackeray and Hardy. Characterization, theme and attitude toward life emphasized. (Formerly 3300:431)

ENGL:435 20th Century British Poetry (3 Credits)

Prerequisites: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. Concentrated study of major poems of Yeats, Eliot and Auden, with attention also to Hardy, Housman, Spender, C. Day Lewis, Dylan Thomas and others. (Formerly 3300:435)

ENGL:436 British Fiction: 1900-1925 (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. Study of Conrad, Joyce, D. H. Lawrence and Virginia Woolf, with attention to their innovations in narrative and style, their psychological realism and symbolism. Brief consideration of other important fiction writers of the period, including Wells, Bennett and Mansfield. (Formerly 3300:436)

ENGL:437 British Fiction Since 1925 (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. Study of important British novelists since 1925, excluding Lawrence, Joyce and Woolf. Attention to development of British short story from 1925 to present. (Formerly 3300:437)

ENGL:440 Women and Film (3 Credits)

Prerequisites: [ENGL 111 and ENGL 112] or any 200-, 300- or 400-level English course and Junior or greater standing. This course explores representations of the feminine and treatments of gender issues in mainstream Hollywood films within a critical framework of feminist film theory. (Formerly 3300:440)

ENGL:448 American Romantic Fiction (3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Examination of early American fiction, tracing its genesis, romantic period and germinal movements toward realism. Writers discussed include Cooper, Poe, Hawthorne and Melville. (Formerly 3300:448)

ENGL:449 American Fiction: Realism & Naturalism (3 Credits)

Prerequisite: Completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. Examination of American writers of realistic and naturalistic fiction (e.g., Howells, James, Crane, Dreiser), tracing developments in American fiction against background of cultural and historical change. (Formerly 3300:449)

ENGL:450 Modern American Fiction (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. Study of significant American short and long fiction from World War I to the present. (Formerly 3300:450)

ENGL:451 American Poetry to 1900 (3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, 64 credits, or permission of the instructor. Survey of American poetry of the 17th, 18th and 19th Centuries. (Formerly 3300:451)

ENGL:452 Modern American Poetry (3 Credits)

Prerequisites: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission, and junior or greater standing. Survey of 20th Century American poetry beginning with Edwin Arlington Robinson and ending with contemporary poets. (Formerly 3300:452)

ENGL:453 American Women Poets (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. Study of modern poets' uses and revisions of tradition, women's relationships, conceptions of art and of the artist-as-woman, and the debate between "public" and "private" poetry. (Formerly 3300:453)

ENGL:454 20th Century American Drama (3 Credits)

Prerequisites: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. Examination of major, established playwrights (including O'Neill, Miller and Williams) and sampling of new and rising ones. (Formerly 3300:454)

ENGL:455 The American Short Story (3 Credits)

Prerequisite: ENGL 112 or equivalent, or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. A study of the development of the short story as a particularly American genre, from Washington Irving to the present. (Formerly 3300:455)

ENGL:456 Thoreau, Emerson, and Their Circle (3 Credits)

Prerequisite: Junior or greater standing or permission. A study of work and life of Henry David Thoreau, Ralph Waldo Emerson, and other key figures of the American Renaissance. (Formerly 3300:456)

ENGL:457 Writers on Writing (3 Credits)

Prerequisite: ENGL 111 and ENGL 112 and Junior standing. A close look at what established writers have to say about the process of writing. Students write response essays and take exams on readings. (Formerly 3300:457)

ENGL:460 Film and Literature (3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, 64 credits, or permission of instructor. Analysis of literary texts and their film adaptations. Emphasis on genre, structure, and visual elements as counterparts to written texts. (Formerly 3300:460)

ENGL:466 Linguistics and Language Arts (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course, and a minimum of Junior standing or higher, or permission of the instructor. Foundation course in linguistics with pedagogical implications for second language learners. Fundamental topics (morphology, syntax, semantics, phonetics, pragmatics) and related topics (sociolinguistics, contrastive analysis) covered. (Formerly 3300:466)

ENGL:467 Modern European Fiction (3 Credits)

Prerequisites: ENGL 112 or equivalent, or any 200- or 300- or 400-level English course, Junior or greater standing, or permission. Representative European writers from about 1850 to present, in translation. Focus on fiction of such writers as Dostoyevsky, Gide, Camus, Mann, Kafka and Kundera. (Formerly 3300:467)

ENGL:468 International Poetry (3 Credits)

Prerequisite: ENGL 112 or equivalent, 64 credits or permission of instructor. Junior standing. This survey of world poetry focuses on the stylistic concerns and social consequences of literature from Latin America, Africa, Asia, Europe, and beyond. (Formerly 3300:468)

ENGL:469 Eros & Love in Early Western Literature (3 Credits)

Prerequisites: Completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission of the instructor. An analysis of the use of sex and love in the literature of the Western World from Greco-Roman times to 1800, with special emphasis on how sexuality and "romantic" love are used as allegorical, satiric, fantastic or realistic devices. (Formerly 3300:469)

ENGL:470 History of English Language (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level English course, and a minimum of Junior standing or higher, or permission of the instructor. Development of English language, from its beginnings: sources of its vocabulary, its sounds, its rules; semantic change; political and social influences on changes; dialect origins; correctness. (Formerly 3300:470)

ENGL:471 U.S. Dialects: Black & White (3 Credits)

Prerequisites: ENGL 112 or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course or equivalent, Junior or greater standing, or permission of the instructor. Study of differences in pronunciation, vocabulary and grammar among U.S. language varieties. Origins, regional and social dimensions are explored. Correctness, focusing on black English and Appalachian speech, explored. (Formerly 3300:471)

ENGL:472 Syntax (3 Credits)

Prerequisite: [ENGL 371 and ENGL 112] or any [ENGL 200-, or ENGL 300-, or ENGL 400-] level English course or their equivalents, minimum of Junior standing or higher, or permission of the instructor. Principles of syntactic description. Sentence structures are investigated from a variety of languages, with emphasis on English. (Formerly 3300:472)

ENGL:473 Theoretical Foundations and Principles of ESL (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course and a minimum of Junior standing or higher, or permission. Second language acquisition theories and teaching methodologies surveyed. Second language teaching principles from research in linguistics, psycholinguistics, and second language pedagogy explored. (Formerly 3300:473)

ENGL:474 African American English (3 Credits)

Prerequisite: 64 credits or permission. Junior standing. African American English grammatical structure, pronunciations, origins, and cultural role. Comparisons with academic English. Discussion of language correctness, legal status, and role in education. (Formerly 3300:474)

ENGL:475 Theory of Rhetoric (3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, 64 credits, or permission of the instructor. Ancient and modern theories of rhetoric, with attention to classical oration, "topics" of rhetoric and their application to teaching of English. (Formerly 3300:475)

ENGL:477 Sociolinguistics (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course, or permission of the instructor. Major sociolinguistic concepts and methodology examined, as well as relationships between language, socio-cultural factors, and education. Issues of Standard English, power, and gender also examined. (Formerly 3300:477)

ENGL:478 Grammatical Structures of Modern English (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course, and a minimum of Junior standing or higher, or permission of the instructor. Contemporary understanding of Modern English sentence structure: parts of speech, sentence types, phrase types, modification, coordination and subordination, parentheticals. Traditional grammar and sentence rhetoric discussed. (Formerly 3300:478)

ENGL:479 Management Reports (3 Credits)

Prerequisites: ENGL 112 or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course or equivalent, and a minimum of Junior standing or higher, or permission. Study of principles and writing practice in effective business style, specialized structure, and purpose for business reports. (Formerly 3300:479)

ENGL:482 Senior Honors Project in English (1-3 Credits)

(May be repeated for a total of six credits). Prerequisites: Completion of ENGL 111 and ENGL 112 or their equivalents, or permission of the instructor, senior standing in Honors College and approval of honors preceptor; open only to English majors enrolled in Honors College. Independent study leading to completion of senior honors thesis or other original work. (Formerly 3300:482)

ENGL:484 Fantasy (3 Credits)

Prerequisites: [ENGL 111 and ENGL 112] or any or any 200-, 300- or 400-level English course, 64 credits or permission. Junior standing. A study of forms of literature, primarily fiction, based on and controlled by an overt violation of what is generally considered as possibility. (Formerly 3300:484)

ENGL:485 Science Fiction (3 Credits)

Prerequisite: 64 credits or permission. Junior standing. A study of twentieth-century British and American science fiction, featuring primary forms of the science fiction story and the work of major authors. (Formerly 3300:485)

ENGL:486 Learner English (3 Credits)

Prerequisite: Completion of ENGL 112 or equivalent, or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course, or permission of the instructor. Introduction to tools for and practice in analyzing second language learners' production of English. Theory and practice of teaching oral and written English also covered. (Formerly 3300:486)

ENGL:487 Field Experience: Teaching Second Language Learners (3 Credits)

Prerequisite: Permission of instructor. Practical experience in which second language teachers-in-training observe, participate in, and practice teaching under the supervision of the instructor and/or an experienced, certified teacher. (Formerly 3300:487)

ENGL:489 Seminar in English (2-3 Credits)

Prerequisite: ENGL 112 or any [ENGL 200-, or ENGL 300- or, ENGL 400-] level course or equivalent, and a minimum of Junior standing or higher, or permission. (May be repeated with different topics.) Special studies, and methods of literary research, in selected areas of English and American literature and language. (Formerly 3300:489)

ENGL:490 Workshop in English (1-3 Credits)

Prerequisites: ENGL 111 and ENGL 112 or their equivalents, 64 credits, or permission of the instructor. (May be repeated with different topics) Group studies of special topics in English. Cannot be used to meet undergraduate or graduate major requirements in English; for elective credit only. (Formerly 3300:490)

ENGL:492 Senior Seminar (3 Credits)

Discussion of select literary topic and reflection on student development in the major. Requires independent research and reflection papers. Limited to senior English majors. (Formerly 3300:492)

ENGL:498 Independent Study in English (1-3 Credits)

Prerequisite: completion of ENGL 111 and ENGL 112 or their equivalents, 64 credits or permission. Directed study in a special field of interest chosen by student in consultation with instructor. (Formerly 3300:498)

Creative Writing, Minor

Minor in Creative Writing (330007M)

The Creative Writing Minor allows students to develop their skills in four areas of writing: Creative Nonfiction, fiction, poetry, and script writing.

Program Contact

Prof. Lisa Rhoades

Professor of Instruction, Department of English

330-972-8556

rhoades@uakron.edu

The following information has official approval of the **Department of English** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Creative Writing" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. A minor in Creative Writing may only be awarded at the time a student receives a baccalaureate degree. If a student desires a minor from the same department/school as their major, there is a college requirement for a minimum of nine (9) non-overlapping credits between the minor and the major, as well as between the minor and other minor programs in the department/school. The following English courses are not accepted for any English minors:

- ENGL:111 English Composition I
- ENGL:112 English Composition II
- ENGL:250 Classic & Contemporary Literature
- ENGL:252 Shakespeare & His World
- ENGL:281 Fiction Appreciation

Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Total Hours		6

¹ The following courses taken to fulfill specific requirements in the English major cannot also be used to fulfill the 18 hours requirement in this minor: ENGL:300 Critical Reading & Writing, ENGL:301 English Literature I, ENGL:315 Shakespeare: The Early Plays, ENGL:316 Shakespeare: The Mature Plays, ENGL:341 American Literature I, and one course in world or multicultural literature.

English, BA

Bachelor of Arts in English (330000BA)

More on the English major (<https://www.uakron.edu/english/academics/undergraduate/majors.dot>)

Our course of study of literature, language, rhetoric, and creative writing fosters the development of critical thinking, skilled communication, appreciation of cultural contexts, informed citizenship, and knowledge of the various literary texts representing human thought and inquiry through the centuries. Students majoring in English studies go on to become successful professionals in their chosen fields. Graduates have taken the department's reputation into the world outside the campus gates and hold careers ranging from positions in successful law practices, to jobs as published authors, technical writers, and journalists.

rhoades@uakron.edu

The following information has official approval of **The Department of English** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
General Education Requirements (p. 652)		36
College of Arts & Sciences Requirements		14
English Core		18
Distribution Requirements		3
400 Level Course Requirements		9
English Electives		18
Additional Credits for Graduation *		22
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Note: A 2.2 cumulative GPA in all ENGL courses is required for graduation.

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity		
Domestic Diversity		
Global Diversity		
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements in Arts & Sciences include the demonstration of ability to use another language by completion of the second year of a foreign language.		
<i>2 Year Language Proficiency</i>		14
101	Beginning I	
102	Beginning II	
201	Intermediate I	
202	Intermediate II	
SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	
Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:		
Upper-level (300/400) courses both in and outside of the student's major;		
or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops		

English Core ¹

English, Minor

Minor in English (330000M)

Program Contact

Prof. Lisa Rhoades

Professor of Instruction, Department of English

330-972-8556

rhoades@uakron.edu

The following information has official approval of the **Department of English** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in English" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. A minor in English may only be awarded at the time a student receives a baccalaureate degree. If a student desires a minor from the same department/school as their major, there is a college requirement for a minimum of nine (9) non-overlapping credits between the minor and the major, as well as between the minor and other minor programs in the department/school. The following English courses are not accepted for any English minors:

- ENGL:111 English Composition I
- ENGL:112 English Composition II
- ENGL:250 Classic & Contemporary Literature
- ENGL:252 Shakespeare & His World
- ENGL:281 Fiction Appreciation

Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Summary

Linguistic Studies, Certificate

Certificate in Linguistic Studies (330008C)

Completion of five linguistically oriented courses is required as follows: the foundation course, two core courses and at least two elective courses. Three or more of the courses must be at the 300/400 level. (Subject to approval by the program director, other theoretically oriented linguistics courses may substitute for core courses.)

To obtain the certificate, a student must have at least two semesters of language. A student entering the program should discuss plans with the director.

Total Hours **18**

¹ For ENGL:389 Special Topics: Literature & Language, choose between American Noir, Detective Fiction, Popular Culture, Stephen King, Jewish Women in Literature, Modern Jewish Novel, AfroAmerican Novel, Literary Ohio.

² For ENGL:489 Seminar in English, choose between 20th Century Irish Drama, 20th Century Women Writers, Harlem Renaissance, Holocaust Literature, International Short Story, New Fiction, American Literature Since Civil War, Jewish American Literature, New Poetry, Women's Writing/Lives, Literature of the Occult, Contemporary Gothic Women Writers.

Teaching English as a Second Language, Certificate

Certificate in Teaching English as a Second Language (330003C)

This program is intended for both native and non-native speakers of English who seek training in the teaching of English as a second language (ESL) and wish to obtain an initial qualification to teach ESL/ EFL (English as a foreign language) in educational settings other than public schools in Ohio or in countries outside the United States. For Ohio qualification in teaching ESL in the Ohio public school system, see the TESOL Endorsement requirements in this bulletin under the College of Education.

This program is designed to introduce the student to central issues in the theory and practice of teaching English to non-native speakers through courses in modern and applied linguistics, in second language pedagogy, and in related disciplines.

Geosciences

Geoscientists focus on problems related to how the Earth works, and our students are given opportunities to build the skills necessary for understanding the Earth System. Through a variety of field and laboratory experiences, our curriculum emphasizes hands-on learning. Students may find employment opportunities in the Earth resources field, environmental consulting, the government sector, or a variety of other career paths.

Transfer to College of Arts & Sciences

Students should apply to the college upon the attainment of:

- a cumulative GPA of 2.0 or better (includes transfer coursework until 30 credits are earned at UA)
- a major GPA of 2.0 or better (includes transfer coursework until 30 credits are earned at UA)
- 30 credits completed including both required English composition courses and 3 credits of mathematics or statistics that meets the General Education requirement

Students can arrange inter-college transfers through an appointment with their academic advisor; advisor contact information is listed in "My Akron."

Placement

A student is encouraged to check with his/her major department and with the Career Center, Student Union 211, (330) 972-7747, regarding employment opportunities in the field.

College of Arts & Sciences

Degree requirements in Arts and Sciences include the demonstration of ability to use another language by completion of the second year of a foreign language or sign language and a minimum of 40 credits of 300/400 level courses (excluding workshops) consisting of either:

- Upper level (300/400) courses both in and outside the student's major
- Any courses outside the major department as specified in and approved by the student's major department chair (permission should be obtained prior to enrollment) except workshops

Geology (GEOL)

GEOL:100 Earth Science (3 Credits)

Introduction to earth science for non-science majors. Survey of earth in relation to its physical composition, structure, history, atmosphere, oceans; and relation to solar system and universe. (Formerly 3370:100)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

GEOL:101 Introductory Physical Geology (4 Credits)

A study of the nature of earth, its materials, and the processes which continue to change it. Laboratory, field trips. (Formerly 3370:101)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

GEOL:102 Introductory Historical Geology (4 Credits)

Prerequisite: GEOL 101 or [GEOL 104 and GEOL 211] or permission. Geologic history of earth, succession of major groups of plants and animals interpreted from rocks, fossils. Laboratory, field trips. (Formerly 3370:102)

Gen Ed: - Natural Science w/LAB

GEOL:103 Natural Science: Geology (3 Credits)

Study of basic principles and investigative techniques in various fields of geology with emphasis on relationship of geologic processes to society. (Formerly 3370:103)

GEOL:104 Exercises in Physical Geology (1 Credit)

Prerequisite: GEOL 100 or GEOL 103 or GEOL 200 or GEOL 211 or permission of geology adviser. Laboratory exercises on the identification of earth materials and the utilization and interpretation of geologic data and maps. (Formerly 3370:104)

GEOL:105 Geology for Engineers (3 Credits)

Introduction of physical geology to engineers, including mechanics, hydraulics and case studies that illustrate interactions between geology and engineering. Laboratory, field trips. (Formerly 3370:105)

GEOL:121 Dinosaurs (1 Credit)

Introductory course exploring the geological occurrence, mode of fossilization, evolutionary development, habits, and sudden extinction of the largest known land vertebrates. (Formerly 3370:121)

Gen Ed: - Natural Science

GEOL:122 Mass Extinctions & Geology (1 Credit)

Catastrophic changes in plants and animals have occurred throughout earth history. The causes of these extinctions have sparked debate which has enlivened the scientific world. (Formerly 3370:122)

Gen Ed: - Natural Science

GEOL:125 Earthquakes: Why, Where, When? (1 Credit)

Causes and effects of earthquakes, geological settings for earthquakes, seismic measurements, mechanical response of rock to stress, earthquake prediction and precautionary measures. (Formerly 3370:125)

GEOL:126 Natural Disasters & Geology (1 Credit)

A study of the earth's natural hazards including earthquakes, landslides, meteorites and tsunamis. (Formerly 3370:126)

GEOL:127 The Ice Age & Ohio (1 Credit)

Introductory course covering the effects of the ice age on the geology, vegetation, fauna and economy of Ohio. (Formerly 3370:127)

GEOL:128 Geology of Ohio (1 Credit)

Survey of Ohio's geologic setting and history, natural resources, landforms, and their significance in terms of human activity, from early settlement to future economy. (Formerly 3370:128)

GEOL:129 Medical Geology (1 Credit)

Abundance and distribution of trace elements in surface and groundwater, soils and rocks. The effects of trace elements to health through dose-response relationships. (Formerly 3370:129)

GEOL:130 Geologic Record of Climate Change (1 Credit)

Examines evidence for natural climate changes in geologic past and evaluates the role of modern society in influencing future climate. (Formerly 3370:130)

Gen Ed: - Natural Science

GEOL:132 Gemstones & Precious Metals (1 Credit)

Introduction to minerals which form gemstones and precious metals. Topics to be covered include physical properties, geologic occurrences, and geographic locations of major deposits. (Formerly 3370:132)

GEOL:133 Caves (1 Credit)

Topics include: karst processes and the origin of caverns; carbonate depositional environments and the origin of limestones; environmental problems associated with karst landscapes (Formerly 3370:133)

Gen Ed: - Natural Science

GEOL:134 Hazardous & Nuclear Waste Disposal (1 Credit)

Disposition of hazardous waste in secured landfill site. Geologic factors which determine the selection of low-level and high-level radioactive waste sites. (Formerly 3370:134)

GEOL:135 Geology of Energy Resources (1 Credit)

Topics include the origin of hydrocarbon and coal deposits, global distribution of energy resources, environmental impact of energy consumption. (Formerly 3370:135)

Gen Ed: - Natural Science

GEOL:137 Earth's Atmosphere & Weather (1 Credit)

Structure and composition of the atmosphere; earth's radiation budget; atmospheric moisture, clouds and precipitation; weather systems and storms, severe weather, Ohio weather. (Formerly 3370:137)

Gen Ed: - Natural Science

GEOL:139 Current Topics in Geology (1 Credit)

(May be repeated for up to 2 credits.) Special topics offered once or only occasionally in areas where no formal course exists. (Formerly 3370:139)

GEOL:140 Rocky Mountain National Parks (1 Credit)

Badlands, Yellowstone, Grand Canyon and other Rocky Mountain National Parks will be used to illustrate basic principles of geology. (Formerly 3370:140)

GEOL:141 Natural Environment of China (1 Credit)

Introduction to geographical and geological environments of China. Geography and geology of geoparks will be presented and discussed as examples (Formerly 3370:141)

GEOL:171 Introduction to the Oceans (3 Credits)

Provides a basic introduction to the oceans. Topics include formation of the oceans, ocean circulation, waves and tides, marine animals, marine communities, and climate change. (Formerly 3370:171)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

GEOL:200 Environmental Geology (3 Credits)

Analysis of geologic aspects of the human environment with emphasis on geologic hazards and environmental impact of society's demand for water, minerals and energy. (Formerly 3370:200)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

GEOL:201 Exercises in Environmental Geology I (1 Credit)

Pre/Corequisite: GEOL 200. Recognition, and evaluation of environmental problems related to geology through laboratory exercises and demonstrations which apply concepts discussed in introductory geoscience courses. Laboratory. (Formerly 3370:201)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

GEOL:203 Exercises in Environmental Geology II (1 Credit)

Prerequisite: GEOL 201. Pre/Corequisite: GEOL 200. Recognition and evaluation of environmental problems related to geology. (Continuation of 201) Laboratory. (Formerly 3370:203)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

GEOL:211 Introduction to Environmental Science (3 Credits)

Interdisciplinary analysis of our relationship with nature and dependence upon the environment, with emphasis on evaluation of current environmental problems and rational solutions. (Formerly 3370:211)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

GEOL:230 Mineral Science (4 Credits)

Prerequisite: GEOL 101 or [GEOL 104 and GEOL 211]. Corequisites: CHEM 151 and CHEM 152. Crystallography and chemistry of minerals. Topics also covered include physical, chemical and optical properties, occurrences and uses of the common non silicate minerals. Laboratory, field trips. (Formerly 3370:230)

Gen Ed: - Natural Science w/LAB

GEOL:231 Silicate Mineralogy and Petrology (4 Credits)

Prerequisites: [GEOL 101 and GEOL 230] or appropriate test score. Corequisites: CHEM 151 and CHEM 152. Physical and chemical properties, occurrence, and uses of common silicate minerals, followed by megascopic and microscopic identification, classification, and petrogenesis of rocks. Laboratory. (Formerly 3370:231)

GEOL:301 Engineering Geology (3 Credits)

Prerequisite: GEOL 101 or [GEOL 100 and GEOL 104] or [GEOL 104 and GEOL 211] or permission of instructor. Presents quantitative analysis of geologic features and processes and is supported by the study of case histories. Lecture, lab, field study, field trips. (Formerly 3370:301)

GEOL:310 Geomorphology (3 Credits)

Prerequisite: GEOL 101 or [GEOL 100 and GEOL 104] or [GEOL 104 and GEOL 211]. Study of landforms as a function of structure, process, and time. Laboratory, field trips. (Formerly 3370:310)

GEOL:324 Sedimentation & Stratigraphy (4 Credits)

Prerequisite: GEOL 102. Introduction to sedimentary processes and environments; stratigraphic principles and techniques. Hand specimens, thin sections, and sedimentary sequences studied. Laboratory, field trips. (Formerly 3370:324)

GEOL:350 Structural Geology (4 Credits)

Prerequisite: GEOL 101 or [GEOL 100 and GEOL 104] or [GEOL 104 and GEOL 211]. Origins and characteristics of folds, faults, joints and rock cleavage. Structural features of sedimentary, igneous and metamorphic rocks. Laboratory, field trips. (Formerly 3370:350)

GEOL:355 Contemporary Issues in Environmental Science (3 Credits)

Prerequisite: GEOL 100, GEOL 101, or GEOL 211. Advanced interdisciplinary analysis of our relationship with nature and dependence upon the environment, with emphasis on evaluation of current environmental problems and rational solutions. (Formerly 3370:355)

GEOL:360 Paleobiology (4 Credits)

Prerequisite: GEOL 101 or BIOL 111. Introductory course emphasizing morphology and evolution of major invertebrate groups with consideration of practical applications of paleontology. Laboratory, field trips. (Formerly 3370:360)

GEOL:371 Oceanography (4 Credits)

Prerequisite: GEOL 101. Study of the dominant feature of our planet, the oceans, emphasizing ocean basins evolution, and physical, chemical and biological processes in the various marine environments. Field trips. (Formerly 3370:371)

GEOL:405 Archaeological Geology (3 Credits)

Prerequisite: GEOL 101. Provides background in geologic principles and techniques relevant to archaeologists. Topics include stratigraphy, absolute dating, locality assessment, zooarchaeology, taphonomy, and remote sensing. Laboratory, field trips. (Formerly 3370:405)

GEOL:407 Archaeogeophysical Survey (3 Credits)

Prerequisites: ANTH 110 or GEOL 101 or GEOG 310. Advanced instruction in subsurface geophysical survey techniques in archaeology. Emphasis on magnetic gradiometry and electrical resistivity techniques, image processing and geological and archaeological interpretation. (Formerly 3370:407)

GEOL:410 Regional Geology of North America (3 Credits)

Prerequisites: GEOL 101 and GEOL 102. Examination of physiographic provinces of North America emphasizing structure, tectonic setting, stratigraphy and processes responsible for landforms in each province. Laboratory, field trips. (Formerly 3370:410)

GEOL:411 Glacial Geology (3 Credits)

Causes and effects of Pleistocene expansion of polar ice masses with emphasis on glacial deposits and world climatic changes. Laboratory, field trips. (Formerly 3370:411)

GEOL:421 Coastal Geology (3 Credits)

Prerequisites: GEOL 101 and GEOL 324, or permission of instructor. Study of the origins and evolution of coasts and coastal deposits with particular attention paid to the interaction of waves and currents with sediment, and the development of associated sedimentary features. Field trips. (Formerly 3370:421)

Gen Ed: - Complex Issues Facing Society

GEOL:425 Principles of Sedimentary Basin Analysis (3 Credits)

Prerequisites: GEOL 324 and GEOL 360, or permission. Primarily the study of depositional systems, regional and global stratigraphic cycles, and sedimentation and plate tectonics. (Formerly 3370:425)

GEOL:432 Optical Mineralogy - Introductory Petrology (3 Credits)

Prerequisites: GEOL 230 and GEOL 231. Optical techniques for identification, characterization, and classification of minerals and rocks using the petrographic microscope. Laboratory. (Formerly 3370:432)

GEOL:433 Advanced Petrology (3 Credits)

Prerequisite: GEOL 432. Petrogenesis of igneous, metamorphic and sedimentary rocks as determined by microscopic studies of textures and mineral assemblages using thin sections. Laboratory. (Formerly 3370:433)

GEOL:435 Petroleum Geology (3 Credits)

Prerequisite: GEOL 350. Natural occurrences of petroleum. Characteristics, origin, entrapment and exploration methods. Laboratory, field trips. (Formerly 3370:435)

GEOL:436 Coal Geology (3 Credits)

Prerequisites: GEOL 101 and GEOL 102. Origin, composition and occurrence of coal with emphasis on depositional environments, coalification processes, exploration, evaluation and exploitation. Laboratory, field trips. (Formerly 3370:436)

GEOL:437 Economic Geology (3 Credits)

Prerequisites: GEOL 231 and GEOL 350. Study of metallic and nonmetallic mineral deposits emphasizing paragenesis and exploration. Laboratory, field trips. (Formerly 3370:437)

GEOL:441 Fundamentals of Geophysics (3 Credits)

Prerequisites: MATH 223 or permission and PHYS 292. Fundamental concepts in solid earth geophysics, planetary physics, geodesy, and geomagnetism. Contributions of geophysics to recent major developments in geoscience. (Formerly 3370:441)

GEOL:443 Rivers (3 Credits)

Prerequisite: Permission of department. Study of the geologic and environmental aspects of river systems and related human impacts. Includes mandatory, 0 credit weekend field work. (Formerly 3370:443)

Gen Ed: - Complex Issues Facing Society

GEOL:444 Environmental Magnetism (3 Credits)

Prerequisite: GEOL 101 or permission. Introduction to the theory and methods of environmental magnetism and the application of environmental magnetism to interpreting sedimentary deposits. (Formerly 3370:444)

GEOL:445 Environmental and Engineering Geophysics (3 Credits)

Prerequisite: PHYS 261 or PHYS 291 or permission of instructor. Corequisite: PHYS 262 or PHYS 292 or permission of instructor. Basic subsurface exploration using ground penetrating radar and multi-channel electrical resistivity. Applications in environmental assessment, civil engineering and geotechnical engineering. Field trips. (Formerly 3370:445)

GEOL:446 Exploration Geophysics (3 Credits)

Prerequisites: MATH 223 and PHYS 292. Basic principles and techniques of geophysical exploration with emphasis on gravimetric, magnetic, seismic and electrical methods and application to geological problems. Laboratory, field trips. (Formerly 3370:446)

GEOL:449 Borehole Geophysics (3 Credits)

Basic principles and techniques of geophysical well logging with emphasis on electrical, radioactive, and sonic measures and their quantitative evaluation. Applications in oil, gas, and groundwater exploration. Laboratory. (Formerly 3370:449)

GEOL:450 Advanced Structural Geology (3 Credits)

Prerequisite: GEOL 350. Fundamental and advanced concepts of structural geology with emphasis on current and developing concepts. Laboratory, field trips. (Formerly 3370:450)

GEOL:451 Field/Lab Studies in Environmental Science (3 Credits)

Field/Laboratory inquiry into a specific interdisciplinary, environmental science topic. Students complete a research project involving collecting, analyzing and interpreting real world data. (May be repeated once.) (Formerly 3370:451)

GEOL:452 Geology and Environmental Science Service Learning (1-3 Credits)

Prerequisite: Permission of instructor. Team service-learning project that involves collection, organization, analysis, and presentation of data. Field trips. (May be repeated for a maximum of four credits.) (Formerly 3370:452)

Gen Ed: - Complex Issues Facing Society

GEOL:453 Geology Field Camp I (3 Credits)

Prerequisites: GEOL 101, GEOL 102, GEOL 324 and permission of instructor. Introduction to collection and interpretation of field data and construction of geologic maps. Student will bear trip expenses. (Formerly 3370:453)

GEOL:454 Geology Field Camp II (3 Credits)

Prerequisites: GEOL 231, GEOL 350, GEOL 453, and permission of instructor. Advanced techniques and methods of field geology necessary for detailed geological maps and interpretation. Student will bear trip expenses. (Formerly 3370:454)

GEOL:455 Field Studies in Geology (1-3 Credits)

Field trip course emphasizing aspects of geology not readily studied in Ohio. Includes pre-trip preparation and post-trip examination. Student will bear trip expenses. (May be repeated for a total of four credits.) (Formerly 3370:455)

GEOL:462 Macroevolution (3 Credits)

Prerequisites: GEOL 360 or BIOL 111. Provides a comprehensive treatment of macroevolutionary theory, focusing on evidence from the fossil record. Topics include genetics, speciation, development, and fossil lineages. Laboratory. (Formerly 3370:462)

GEOL:463 Environmental Micropaleontology (3 Credits)

Prerequisite: GEOL 360. Introduction to techniques of micropaleontology as proxy indicators for environmental and climate change. Laboratory. Field trips. (Formerly 3370:463)

GEOL:465 Geomicrobiology (3 Credits)

Prerequisites: CHEM 151 and CHEM 153. A course addressing the physiology, ecology, and activities of microorganisms that mediate important biogeochemical processes, and the interdisciplinary approaches to studying them. (Formerly 3370:465)

GEOL:470 Geochemistry (3 Credits)

Prerequisites: GEOL 101, GEOL 230, CHEM 151, and CHEM 152. Application of chemical principles to the study of geologic processes. Laboratory, field trips. (Formerly 3370:470)

GEOL:472 Stable Isotope Geochemistry (3 Credits)

Prerequisites: GEOL 101, GEOL 102, CHEM 151, CHEM 152, CHEM 153, and MATH 221. Application of stable isotope geochemistry to the study of hydrologic and carbon cycles, modern sedimentary environments, and the interpretation of sedimentary rocks. (Formerly 3370:472)

GEOL:474 Groundwater Hydrology (3 Credits)

Prerequisite: GEOL 101 or [GEOL 104 and GEOL 211]. Origin, occurrence, regimen and utilization of groundwater. Qualitative and quantitative presentation of geological and geochemical aspects of groundwater hydrology. Laboratory, field trips. (Formerly 3370:474)

GEOL:480 Seminar in Environmental Studies (2 Credits)

Discussion of specific environmental topic(s) from an interdisciplinary viewpoint; resource persons are drawn from the University and surrounding community. (Formerly 3370:480)

GEOL:481 Analytical Methods in Geology (2 Credits)

Prerequisites: GEOL 230 and GEOL 231. A survey of analytical methods used to solve geologic problems with emphasis on method selection, proper sample collection, analysis of data quality and data presentation. (Formerly 3370:481)

GEOL:484 Geoscience Research & Consulting Methods (2 Credits)

Prerequisite: Must be a Geology Department graduate student or senior major in Geology, or have permission of instructor. Methods for finding, gathering, managing, and evaluating geoscience information. Emphasis on finding data sources (including electronic), creating valid data sets, visualizing data. (Formerly 3370:484)

GEOL:485 Individual Readings in Geology and Environmental Science (1-3 Credits)

Prerequisite: Permission of instructor. (May be repeated for a total of 4 credits) Independent study and directed readings on a selected topic to fit an individual student's program. (Formerly 3370:485)

GEOL:490 Workshop in Geology and Environmental Science (1-4 Credits)

Group studies of special topics in geology and environmental science. May not be used to meet undergraduate major requirements in the Department. May be used for elective credit only. (May be repeated for up to 4 credits.) (Formerly 3370:490)

GEOL:491 Internship in Geology and Environmental Science (1-3 Credits)

Prerequisite: Permission of Department Chair. Supervised professional experience in geology or environmental science. Only three credits may be applied toward a degree in geology. (May be repeated for a total of six credits.) (Formerly 3370:491)

GEOL:497 Honors Project in Geology (1-3 Credits)

(May be repeated for a total of six credits.) Prerequisite: permission of department honors preceptor, Honors student only. Exploration of research topics and issues in geology. Selection of research topic and writing of research paper in proper scholarly form under direction of faculty member. (Formerly 3370:497)

GEOL:498 Special Topics in Geology (1-3 Credits)

Prerequisite: Permission of instructor. Special lecture courses offered once or only occasionally in areas where no formal course exists. (Formerly 3370:498)

GEOL:499 Research Problems in Geology (1-3 Credits)

(May be repeated for a total of four credits) Prerequisite: Permission. Independent research leading to the completion of a written paper or presentation at a professional meeting.

Environmental Studies, Certificate Certificate in Environmental Studies (337004C)

Program Contact

Dr. Ira Sasowsky
Professor, Geosciences
330-972-5389
ids@uakron.edu

The following information has official approval of the **Department of Geosciences** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Certificate in Environmental Studies" and must be completed with a minimum grade point average of 2.0 overall for the certificate to be noted on the student's record. To qualify for the certificate program, students must request admission to the program by completing the certificate application form. Contact the Director of the Center for Environmental Studies to develop a program including the core requirements to fulfill remaining electives. To satisfy the requirements, a student must complete the core courses and 11 credits from the list of elective courses or other courses identified as acceptable by the director. Elective courses will be selected from outside the student's academic major.

Summary

Geology, BS

Bachelor of Science in Geology (337000BS)

More on the Geology major (<https://www.uakron.edu/geology/academics/undergraduate/geology-program.dot>)

Geology is the study of Earth's materials, structures and processes and how they've changed through time. This knowledge may be applied to addressing problems associated with environmental contamination; investigating Earth's history to understand the evolution of life and global climate change; understanding natural hazards such as earthquakes, volcanoes and landslides; and exploration for natural resources, including metals, petroleum and water. Geologists are employed by environmental consulting firms, government agencies, nonprofit organizations, natural resource companies and universities.

Core courses provide the fundamentals in:

- physical and historical geology
- mineralogy and petrography
- structural geology and plate tectonics
- sedimentology, paleontology and stratigraphy

Degree program can be tailored to a major field of interest by taking additional courses in the supporting sciences, mathematics and engineering fields.

Requirements for Admission

Admission to the College of Arts and Sciences. The student must maintain a minimum 2.00 grade point average.

The following information has official approval of **The Department of Geosciences** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
General Education Requirements (p. 652)		36
College of Arts & Sciences Requirements		8

Geology Elective Requirements		19
Geology Math Requirement		8
Geology Chemistry Requirement		7
Geology Physics Requirement		8
Total Hours		120

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:221	Analytic Geometry-Calculus I	
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
ENGL:111	English Composition I	
	or ENGL:113 African American Language and Culture I: College Composition	
ENGL:112	English Composition II	
	or ENGL:114 African American Language and Culture II: College Composition	
	or ENGL:222 Technical Report Writing	
Breadth of Knowledge		22

Arts/Humanities: 9 credit hours

Natural Sciences: 7 credit hours

GEOL:101 Introductory Physical Geology

CHEM:151 Principles of Chemistry I

Social Sciences: 6 credit hours

Diversity

Domestic Diversity

Global Diversity

Integrated and Applied Learning 2

Select one class from one of the following subcategories:

Capstone

Review the General Education Requirements page for detailed course listings.

Total Hours 36

College of Arts & Sciences Requirements

Code	Title	Hours
------	-------	-------

Degree requirements for this Bachelor of Science in Arts & Sciences include the demonstration of ability to use another language by completion of the first year of a foreign language.

1 Year Language Proficiency 8

101 Beginning I

102 Beginning II

SLPA:222 Survey of Deaf Culture in America (American Sign Language option only)

Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:

Upper-level (300/400) courses both in and outside of the student's major;

or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops

Geology Core Requirements

¹ Upper Level Geology elective courses GEOL:421 Coastal Geology and GEOL:443 Rivers satisfy this requirement in addition to counting towards the Geology Upper Level Electives requirement.

The following information has official approval of **The Department of Geosciences** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor. Students are encouraged to visit The Department of Geosciences their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Students are encouraged to visit The Department of Geosciences their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Total Hours		120-122

¹ All Geology majors should take the Math Placement Test. The BS requirement is MATH:221 Analytic Geometry-Calculus I and MATH:222 Analytic Geometry-Calculus II

² For English Composition I, ENGL:111 English Composition I or ENGL:113 African American Language and Culture I: College Composition are the recommended classes to meet the General Education English requirement. For English Composition II, ENGL:112 English Composition II or ENGL:114 African American Language and Culture II: College Composition are the recommended classes to meet the General Education English requirement. ENGL:222 Technical Report Writing fulfills the English Composition II requirement.

³ Demonstration of ability to use another language by completion of the first year of a foreign language or sign language is required. See your advisor for placement. Please note that both semesters must be completed in the SAME language and it's recommended you begin your first language class as soon as possible.

⁴ We strongly recommend selecting Humanities and/or Social Science courses that fulfill both a Breadth of Knowledge requirement and Domestic or Global Diversity requirement. Please consult the General Education requirements (<https://bulletin.uakron.edu/undergraduate/general-education/#associatedegree requirementstext>) to see which courses fulfill both requirements.

⁵ A total of 19 Geology electives at the 300/400 level is required. Please contact a Department of Geology advisor to discuss alternatives.

⁶ We strongly recommend taking GEOL:421 Coastal Geology or GEOL:443 Rivers to fulfill this requirement. These courses both count towards this requirement and the Geology Upper Level Electives requirement.

⁷ General electives can be any course not already required by your major and Upper Level (3xx/4xx) electives can be any course in or outside your major excluding General Education courses and workshops.

Alert

- By the end of your first 48 credit hours attempted, you must have completed your General Education English, Math, and Communications (Speech) requirements
- By the end of your first 48 credit hours attempted, you must have declared a major and transferred to (been accepted by) a degree granting college at The University of Akron.

Geology, Earth Science, BA Bachelor of Arts in Geology, Earth Science (337001BA)

More on the Geology, Earth Science major (<https://www.uakron.edu/geology/academics/undergraduate/>)

Earth Science Fundamentals

Earth scientists study earth materials, structures and processes and how they've changed through time. This knowledge may be applied to exploration for natural resources — including metals, petroleum and water; understanding natural hazards such as earthquakes, volcanoes and landslides; addressing problems associated with environmental contamination; and investigating Earth's history to understand the evolution of life and global climate change. Earth scientists are employed by natural resource companies, environmental consulting firms, government agencies, nonprofit organizations and universities.

Core courses provide the fundamentals in:

Please note that all four semesters must be completed in the SAME language and it's recommended you begin your first language class as soon as possible.
- ⁵ All Geology majors should take the Math Placement Test. The B.A. requirement is MATH:149 Precalculus Mathematics.
- ⁶ B.A. degree requires completion of at least 7 credits from the following and these options can satisfy the upper level requirement for Arts & Sciences as well (300/400 level): BIOL:111 Principles of Biology I, BIOL:112 Principles of Biology II, CHEM:153 Principles of Chemistry II, PHYS:291 Elementary Classical Physics I/PHYS:292 Elementary Classical Physics II, MATH:221 Analytic Geometry-Calculus I, MATH:222 Analytic Geometry-Calculus II.
- ⁷ A total of 18 departmental (GEOL) credits are required, eight of which must be at the 300/400 level. Please contact a Department of Geosciences adviser to discuss alternatives.
- ⁸ **Buchtel College of Arts & Sciences (BCAS)** – requires **40 credits** at the 300/400 level. Please contact an adviser to determine how many additional 300/400 courses you need to complete this requirement.

Alert

- By the end of your first 48 credit hours attempted, you must have completed your General Education English, Math, and Communications (Speech) requirements
- By the end of your first 48 credit hours attempted, you must have declared a major and transferred to (been accepted by) a degree granting college at The University of Akron.

Geology, Environmental Science, BA Bachelor of Arts in Environmental Science (337004BA)

More on the Environmental Science major (<https://www.uakron.edu/geology/academics/undergraduate/environmental-science-program.dot>)

Environmental Science Fundamentals

Environmental science is the study of society's relationship with the physical and biological world. This knowledge may be applied to understanding natural hazards such as earthquakes, volcanoes and landslides; addressing problems associated with environmental contamination; and investigating earth's history to understand the global climate change. Environmental scientists are employed by environmental consulting firms, government agencies, nonprofit organizations and universities.

Core courses provide the fundamentals in:

- physical geology
- biology
- chemistry

Degree program can be tailored to a major field of interest by taking additional courses in the supporting sciences and mathematics.

The following information has official approval of **The Department of Geosciences** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor. Students are encouraged to visit The Department of Geosciences their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Students are encouraged to visit The Department of Geosciences their freshman year to obtain preliminary information regarding the program requirements and to learn more about on-campus opportunities available to students.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program ([CCP](#)) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

1st Year

Fall Semester		Hours
GEOL:101	Introductory Physical Geology ¹	4
	English Composition I Requirement ²	3

Speech/Oral Communication Requirement	3
Social Science Requirement ⁴	3

Total Hours	119

¹ GEOL:101 Introductory Physical Geology Strongly Preferred, or GEOL:100 Earth Science, or GEOL:200 Environmental Geology or (by permission only) GEOL:211 Introduction to Environmental Science and GEOL:104 Exercises in Physical Geology.

² For English Composition I, ENGL:111 English Composition I or ENGL:113 African American Language and Culture I: College Composition are the recommended classes to meet the General Education English requirement. For English Composition II, ENGL:112 English Composition II or ENGL:114 African American Language and Culture II: College Composition are the recommended classes to meet the General Education English requirement. ENGL:222 Technical Report Writing fulfills the English Composition II requirement.

³ Demonstration of ability to use another language by completion of the second year of a foreign language or sign language is required. See your advisor for placement. Please note that all four semesters must be completed in the **same** language and it's recommended you begin your first language class as soon as possible.

⁴ Introduction to Geography and ANTH:110 Introduction to Archaeology recommended.

⁵ All Geology majors should take the Math Placement Test. The B.A. requirement is MATH:149 Precalculus Mathematics.

⁶ Departmental electives: at least 18 credits with a minimum of 11 credits at the 300/400 level. Up to 8 credits may be selected from the Environmental Studies Certificate electives list. Please contact a Department of Geology & Environmental Science adviser to discuss alternatives.

⁷ B.A. degree requires completion of at least 8 credits from the following and these options can satisfy the upper level requirement for Arts & Sciences as well (300/400 level): BIOL:217 General Ecology, CHEM:153 Principles of Chemistry II, CHEM:154 Qualitative Analysis, PHYS:291 Elementary Classical Physics I/PHYS:292 Elementary Classical Physics II, MATH:221 Analytic Geometry-Calculus I, MATH:222 Analytic Geometry-Calculus II.

⁸ General electives can be any course not already required by your major and Upper Level (300/400) electives can be any course in or outside your major excluding workshops.

Alert

- By the end of your first 48 credit hours attempted, you must have completed your General Education English, Math, and Communications (Speech) requirements;
- By the end of your first 48 credit hours attempted, you must have declared a major and transferred to (been accepted by) a degree granting college at The University of Akron.

History

About the Department of History

Students and faculty in the Department of History explore the forces that drove past events and shaped the present. Our faculty members have a wide range of teaching and research interests, from the ancient world to the recent past. We encourage students to design degree programs that enable them to both pursue their own historical interests and obtain a broader understanding of history across time and place.

The department offers nearly a dozen degree programs and certificates. Take a look around our website to learn more about our programs, scholarships, and career opportunities for students of history!

- Classical Studies, Minor (p. 150)
- History Asian Studies, Certificate (p. 150)
- History Middle Eastern Studies, Certificate (p. 151)
- History, BA (p. 152)
- History, Minor (p. 154)
- History/JD Degree Accelerated, BA (p. 155)

Classics (CLAS)

CLAS:230 Sports & Society in Ancient Greece and Rome (3 Credits)

A multimedia survey of ancient Greek and Roman sports, from the Olympics to gladiatorial games, and their connection to ancient and modern society. (Formerly 3200:230)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

CLAS:289 Mythology of Ancient Greece (3 Credits)

Myth, legend and folktale in ancient Greece, with attention to religion and the transmission of Greek myth to Rome and the West. No foreign language necessary. (Formerly 3200:289)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

CLAS:361 The Literature of Greece (3 Credits)

Prerequisite: HIST 210 or HIST 221. Major writers of ancient Greece and their influence on later European literature. No foreign language necessary. Required of majors. (Formerly 3200:361)

CLAS:362 The Literature of Rome (3 Credits)

Major writers of ancient Rome and their influence on later European literature. No foreign language necessary. Required of majors. (Formerly 3200:362)

CLAS:363 Women in Ancient Greece and Rome (3 Credits)

Examine women's lives in ancient Greece and Rome. Read their poetry, see them in ancient theatre, art, and philosophy, and in modern art and film. (Formerly 3200:363)

CLAS:480 Reading & Research in Classical Studies (1-3 Credits)

Directed reading and research for individual and small group study in any recognized area of classical studies. (Formerly 3200:480)

CLAS:499 Honors Project in Classics (1-3 Credits)

(May be repeated for a total of six credits) Prerequisites: Senior standing in Honors Program and permission. Independent study leading to completion of a senior honors thesis under the supervision of a member of the Department of Classics. (Formerly 3200:499)

CLAS:550 Select Topics: Ancient Cultures (3 Credits)

(May be repeated with change of subject) Varied offerings in literature, art and archaeology and religion. No foreign language necessary. (Formerly 3200:550)

History (HIST)

HIST:101 Introduction to History: Selected Topics (3 Credits)

This course is intended as an introduction to History, to explore how historians try to explain current events in terms of the past, and to introduce students to the discussion and analysis of primary sources. The focus of the course will be determined by the individual instructor; the main idea is to examine a current issue or event and place it in historical context, to show how the past shapes the present.

HIST:200 Empires of the Ancient World (3 Credits)

Comparative study of the formation of ancient empires of the Afro-Eurasian world up to the rise of Islam. (Formerly 3400:200)

Ohio Transfer 36: Yes

Gen Ed: - Humanities; - Global Diversity

HIST:210 Humanities in the Western Tradition from Ancient Times to 1500 (3 Credits)

Prerequisites: [ENGL 112 or ENGL 114 or ENGL 222] and sophomore or greater standing. Introduction to the human condition as manifested in ideas, religions, visual arts and music of Western civilization from ancient Mesopotamia and Egypt through the Italian Renaissance. Can be used to meet major requirements in History. (Formerly 3400:210)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

HIST:211 Humanities in the Western Tradition II (3 Credits)

Prerequisite: HIST 210. Introduction to the human condition in the past as manifested in the ideas, religions, visual arts and music of Western civilization from the Protestant Reformation to the Present. Cannot be used to meet major requirements in History. (Formerly 3400:211)

HIST:221 Humanities in the World since 1300 (3 Credits)

Prerequisites: ENGL 112 or ENGL 114 or ENGL 222 and sophomore standing. Introduction to the human condition as expressed in the ideas, religions, visual arts, and music of the world since 1300. Cannot be used to meet major requirements in History. (Formerly 3400:221)

Ohio Transfer 36: Yes

Gen Ed: - Humanities; - Global Diversity

HIST:250 U.S. History to 1877 (3 Credits)

Historical survey from the Age of Discovery and North American colonization through the creation of the United States to the Civil War and Reconstruction. (Formerly 3400:250)

Ohio Transfer 36: Yes

Gen Ed: - Social Science; - Domestic Diversity

HIST:251 U.S. History since 1877 (3 Credits)

Survey of United States history from the end of Federal Reconstruction to the present. (Formerly 3400:251)

Ohio Transfer 36: Yes

Gen Ed: - Social Science; - Domestic Diversity

HIST:285 World Civilizations: China (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:285)

HIST:286 World Civilizations: Japan (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:286)

HIST:287 World Civilizations: Southeast Asia (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:287)

HIST:288 World Civilizations: India (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:288)

HIST:289 World Civilizations: Middle East (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:289)

HIST:290 World Civilizations: Africa (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:290)

HIST:291 World Civilizations: Latin America (2 Credits)

Prerequisite: Completion of [ENGL 112 or ENGL 114 or ENGL 222] or equivalent and a minimum of sophomore or greater standing. Courses 285 through 291 are designed to provide a basic knowledge of past human experiences and an understanding of current events in key areas of the non-Western world. These courses cannot be used to meet major requirements in History. (Formerly 3400:291)

HIST:292 Global Societies: Africa (3 Credits)

Prerequisites: Sophomore or greater standing and no credit in both World Civ: Africa and Global Societies: Africa. This course surveys the major social, economic, political, and cultural transformations in Africa, and explores interconnected global histories in on regional context. (Formerly 3400:292)

Gen Ed: - Global Diversity

HIST:294 Global Societies: India (3 Credits)

Prerequisites: Sophomore or greater standing and no credit in World Civilization and Global Societies. This course surveys the major social, economic, political, and cultural transformations in India, and explores interconnected global histories in one regional context. (Formerly 3400:294)

Gen Ed: - Global Diversity

HIST:295 Global Societies: Japan (3 Credits)

Prerequisites: Sophomore or greater standing and no credit in World Civilization: Japan and Global Societies: Japan. This course surveys the major social, economic, political and cultural transformations in Japan, and explores interconnected global histories in its regional context. (Formerly 3400:295)

Gen Ed: - Social Science; - Global Diversity

HIST:296 Global Societies: Latin America (3 Credits)

Prerequisites: Sophomore or greater standing and no credit in both World Civilizations: Latin America and Global Societies: Latin America. This course surveys the major social, economic, political, and cultural transformations in Latin America since 1492, and explores interconnected global histories in a regional context. (Formerly 3400:296)

Gen Ed: - Social Science; - Global Diversity

HIST:297 Global Societies: Middle East (3 Credits)

Prerequisites: Sophomore or greater standing and no credit in both World Civilizations: Middle East and Global Societies: Middle East. This course surveys the major social, economic, political, and cultural transformations in the Middle East, and explores interconnected global histories in a regional context. (Formerly 3400:297)

Gen Ed: - Social Science; - Global Diversity

HIST:300 Imperial China (3 Credits)

Prerequisite: A minimum of Sophomore standing or higher, or permission of the instructor. Selective study of institutional, intellectual, political and artistic developments in Chinese civilization from antiquity to 18th century. Emphasis on general features of traditional Chinese culture. (Formerly 3400:300)

HIST:301 Modern China (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. This course examines the domestic and global roots of China's 20th century modernization and their relationship to the challenges China now faces. (Formerly 3400:301)

HIST:303 Modern East Asia (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. Exploration of domestic and global factors that shaped modern East Asia (Japan, China, Korea and Vietnam). (Formerly 3400:303)

HIST:307 The Ancient Near East (3 Credits)

Prerequisite: A minimum of Sophomore standing or higher, or permission of the instructor. Mesopotamia, Egypt; Israel, and neighbors to Persian Empire. (Formerly 3400:307)

HIST:308 Ancient Greece: from Stone Age to the Hellenistic Empires (3 Credits)

A survey of the history of ancient Greece from its Neolithic villages to the Hellenistic empires. Attention will be given to developments in cultural production, society, economics, politics, and philosophy. (Formerly 3400:308)

HIST:310 Historical Methods (3 Credits)

Introduction to historical research and writing. Required for history major. (Formerly 3400:310)

HIST:313 Eastern Roman Empire (324-1453) (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. Byzantine culture and history from 324 to the fall of 1453. (Formerly 3400:313)

HIST:317 Roman Republic (3 Credits)

Prerequisite: Sophomore or greater standing. An intensive survey of the Roman Republic. Attention will be given to the nature of the source material, ancient historiography, text criticism and the like. (Formerly 3400:317)

HIST:319 Medieval Europe, 500-1200 (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. Migration of peoples, Carolingian revival, renewed invasions; social, economic and intellectual stirrings lead to birth of Europe. (Formerly 3400:319)

HIST:320 Medieval Europe, 1200-1500 (3 Credits)

Prerequisite: Sophomore or greater standing. Middle Ages and the middle class; economic and political change, international wars, social unrest and religious crosscurrents. (Formerly 3400:320)

HIST:321 Europe: Renaissance to Religious Wars, 1350-1610 (3 Credits)

Prerequisite: A minimum academic standing of Sophomore or higher. Survey of the social, political, economic, religious, and intellectual history of Early Modern Europe from the Italian Renaissance to the early 17th century. (Formerly 3400:321)

HIST:322 Europe: Absolutism to Revolution, 1610-1789 (3 Credits)

Prerequisite: Sophomore standing or higher. Survey of the social, political, economic, religious, and intellectual history of Early Modern Europe from the Thirty Years War to the French Revolution. (Formerly 3400:322)

HIST:323 Europe from Revolution to World War, 1789-1914 (3 Credits)

Prerequisite: a minimum of 32 credits or permission of the instructor. Surveys the political, economic, social, and cultural history of modern Europe from the French Revolution to the First World War. (Formerly 3400:323)

HIST:324 Europe from World War I to the Present (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. A survey of European political and social history from World War I to the present. (Formerly 3400:324)

Gen Ed: - Global Diversity

HIST:325 Women in Modern Europe (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. A survey of the history of women in Europe since 1500, with emphasis on their roles and the changes attendant on modernization. (Formerly 3400:325)

HIST:330 Modern Africa (3 Credits)

This course will introduce major themes in modern African history, from the trans-Atlantic, slave trade, through the colonial and post-independence periods. (Formerly 3400:330)

HIST:335 Russia to 1801 (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. Survey of Russian history from Kievan period to death of Paul I, emphasizing development of autocratic government, Russian culture, reigns of Peter and Catherine. (Formerly 3400:335)

HIST:336 Russia Since 1801 (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. Survey of 19th and 20th centuries. Special emphasis on problems of modernization, the revolution and development of communism. (Formerly 3400:336)

HIST:337 France from Napoleon to DeGaulle (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. Combines a study of Napoleon and DeGaulle with a survey of the political, economic, social, and cultural/artistic trends of modern French history. (Formerly 3400:337)

Gen Ed: - Global Diversity

HIST:338 England to 1688 (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. Survey of English history from the Anglo-Saxon conquest to the Revolution of 1688. Medieval and early modern institutions, social and cultural life. (Formerly 3400:338)

HIST:339 England Since 1688 (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. Survey of English history from 1688 to the present. The reform of English institutions and life, modernization of the economy, the welfare state, society and war. (Formerly 3400:339)

HIST:340 Selected Topics in History (3 Credits)

Prerequisite: A minimum academic standing of Sophomore or higher. Includes experimental offerings such as those crossing subject of chronological lines, and subjects not listed in this General Bulletin. See departmental office for current subject. (Formerly 3400:340)

HIST:341 Islamic Fundamentalism & Revolution (3 Credits)

Prerequisite: Sophomore or greater standing. The political and socio-economic roots of Islamic reformism and militancy in the Middle East and North Africa since the 1960s. (Formerly 3400:341)

HIST:342 The Crusades through Arab Eyes (3 Credits)

Prerequisite: Sophomore or greater standing. Political and military struggles, diplomatic practices and intellectual traditions of the Medieval Islamic/Arab world and the Western crusaders. (Formerly 3400:342)

HIST:345 Native North American History (3 Credits)

Prerequisite: Minimum of 32 credits. The histories of Native Americans from Columbus to the present, emphasizing a half-millennium of adaptive responses to the presence of Europeans in North America. (Formerly 3400:345)

HIST:350 U.S. Women's History (3 Credits)

Prerequisite: a minimum of 32 credits History of American women's experiences and exploration of gender as a changing structure shaping American life from the colonial period through the 20th century. (Formerly 3400:350)

Gen Ed: - Domestic Diversity

HIST:351 Global History: Encounters and Conflicts (4 Credits)

Prerequisite: a minimum of 32 credits or permission of the instructor. This course explores historical encounters between societies to explain the development of the integrated economic, political, and cultural systems presently characterizing the modern world. (Formerly 3400:351)

HIST:352 The American West (3 Credits)

Prerequisite: A minimum of 32 credits. Examination of westward movement from revolution to closing of frontier; types of frontiers; impact of west on nation's development. (Formerly 3400:352)

HIST:354 American Immigration (3 Credits)

Prerequisite: A minimum of 32 credits. Examination of European migrants to American colonies and United States, their reasons for leaving Europe and coming to America, and their experience after arrival. (Formerly 3400:354)

HIST:355 American Religious History (3 Credits)

Prerequisite: A minimum of 32 credits. Addresses critical issues and figures in American religious history from the colonial era to present, including ways ideas have influenced political and judicial discourse. (Formerly 3400:355)

HIST:356 Sports in American History Since 1865 (3 Credits)

Prerequisite: A minimum of 32 credits. An examination of the reciprocal relationship between sports and various institutions of society: culture, religion, politics, education, economics, race, ethnicity, diplomacy and gender. (Formerly 3400:356)

HIST:358 Urban America (3 Credits)

Prerequisite: A minimum of 32 credits. This course looks at the significance of cities and urban development in shaping American society. (Formerly 3400:358)

HIST:360 United States Military History (3 Credits)

Prerequisite: a minimum of 32 credits or permission of the instructor. Survey of United States military history from the colonial era to the present. (Formerly 3400:360)

HIST:361 African American History, 1492-1877 (3 Credits)

Prerequisite: Sophomore or greater standing. This course focuses on African American history, culture and heritage from 1492 to 1877. (Formerly 3400:361)

HIST:362 African American History, 1877 to Present (3 Credits)

Prerequisite: Sophomore or greater standing. This course focuses on African American history, culture and heritage from 1877 to present. (Formerly 3400:362)

HIST:363 African American Men's History and Studies (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. This course will examine the experiences of African American Men from historical, socio-economic, philosophical, religious/spiritual, and psychological standpoints. (Formerly 3400:363)

HIST:371 Selected Topics: North American History (3 Credits)

Prerequisite: Sophomore or greater standing. Selected topics addressing the history of North America (from the Rio Grande to the Arctic). Contact the department office concerning specific topics. (Formerly 3400:371)

HIST:372 Selected Topics: European History (3 Credits)

Prerequisite: a minimum of 32 credits or permission of the instructor. Selected topics addressing European history from the collapse of the Roman Empire to the present. Contact the department office concerning specific topics. (Formerly 3400:372)

HIST:373 Selected Topics: Other (3 Credits)

Prerequisite: A minimum of Sophomore standing or higher, or permission of the instructor. Selected historical topics on Africa, Asia, Latin America, the ancient world and world history. Contact the department office concerning specific topics. (Formerly 3400:373)

HIST:377 History of Women in Latin America (3 Credits)

Prerequisite: A minimum of Sophomore or greater standing or permission of the instructor. Survey of changes and continuities in the lives of Latin American women since the colonial period; emphasis on gender, race, class in shaping women's experiences. (Formerly 3400:377)

Gen Ed: - Global Diversity

HIST:378 Spanish Conquest and Colonization of the Americas (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. Course examines the conquest, colonization, and three-centuries-long Spanish rule in Latin America since 1492. Emphasis on culture, power inequalities, issues of identity, and memory. (Formerly 3400:378)

Gen Ed: - Global Diversity

HIST:379 Modern Latin America (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. This course examines the history of Latin America during the national period, ca. 1820s to the present. Focus on politics, economic systems, and nation-state formation. (Formerly 3400:379)

HIST:381 History of Canada (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. Survey of Canadian history from the age of the explorers to the present. Special emphasis will be placed on the history of French-Canadians, on economic development and on Canadian-American relations. (Formerly 3400:381)

HIST:382 The Vietnam War (3 Credits)

Prerequisite: Sophomore or greater standing or permission of the instructor. An examination and evaluation of all aspects of the war in Vietnam, political, military, diplomatic and economic, including its impact domestically then and later. (Formerly 3400:382)

HIST:392 Internship in History (1-3 Credits)

Prerequisites: 64 credits, History major or minor, prior completion of 16 credits in History (not including Humanities in the Western Tradition or World Civilizations), minimum 2.5 history GPA, and permission of instructor. Individual field experience in applied history. May be repeated up to 6 credits; 4 credits to apply to the 32 credit minimum for a history major. (Formerly 3400:392)

HIST:395 Modern Iran (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. This course on modern Iran explores the country's history of nationalism, identity, gender, and religion, and its place in world history. (Formerly 3400:395)

Gen Ed: - Global Diversity

HIST:396 Iraq in Historical Perspective (3 Credits)

Prerequisite: A minimum of 32 credits or permission of the instructor. This course will offer a complex and nuanced look into the history of Iraq and will situate current events firmly in their historical context. (Formerly 3400:396)

HIST:397 Individual Study in History (1-3 Credits)

(May be repeated for a total of four credits) Prerequisite: Permission. For individual study or research in history, including special projects, summer study tours or specialized training. (Formerly 3400:397)

HIST:400 Gender and Culture in China (3 Credits)

Prerequisite: A minimum of Sophomore standing or higher, or permission of the instructor. This course examines the dynamic between gender and culture from late imperial to post-socialist China, with connections drawn to public policies in different periods. (Formerly 3400:400)

HIST:401 Japan & the Pacific War, 1895-1945 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. The rise of Japanese militarism, Japan's drive to create an empire in East and Southeast Asia, 1895-1945, and its role in the Pacific War, 1937-45. (Formerly 3400:401)

HIST:404 Studies in Roman History (3 Credits)

Prerequisite: Minimum of 48 credits or permission of the instructor. Concentrated investigation of selected topics, such as imperialism in middle and late Republic, the age of Augustus, or the fall of western Empire. (Formerly 3400:404)

HIST:405 War and Politics in the Renaissance (3 Credits)

Prerequisite: Senior standing. This course will explore the theory and practice of politics and diplomacy during the European Renaissance. We will examine such topics as the rise of the modern nation/state, the origins of modern diplomatic practice, the development of European imperialism, and the impact of major political thinkers such as Machiavelli and More. We will also examine the politics behind the various wars of the period, particularly the religious wars in the Reformation. We will begin in early Renaissance Italy, and then turn to the rise of Atlantic powers such as Spain, England and the Netherlands. (Formerly 3400:405)

HIST:409 Imperial Spain, 1469-1700 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. This course examines the rise and fall of Spain as the first world power. It will cover Spanish political, cultural, and social history, 1469-1700. (Formerly 3400:409)

HIST:410 History and Film (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Repeatable once with permission. Examines films as historical experiences, historical events, and artifacts of history. Themes and foci will vary. (Formerly 3400:410)

HIST:416 Modern India (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. History of the Indian subcontinent from c. 1500 with emphasis on India society and culture, British imperialism, and the emergence of Indian nationalism. (Formerly 3400:416)

HIST:417 Latin America and the United States (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Inter-American relations viewed from Latin American and U.S. perspectives; U.S. policy, imperialism, economic and cultural influences. (Formerly 3400:417)

HIST:418 History of Brazil Since 1500 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Survey of the economic, political, social and cultural history of Brazil since 1500. (Formerly 3400:418)

HIST:424 The Renaissance (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. The age of transition from the Middle Ages to modern times (1350-1600). Special emphasis on intellectual trends, the development of humanism, and the fine arts. (Formerly 3400:424)

HIST:425 The Reformation (3 Credits)

Prerequisite: Completion of a minimum of 48 credits or higher. Europe in 16th century; its religious, cultural, political and diplomatic development, with special emphasis on Protestant, Anglican and Catholic reformations. (Formerly 3400:425)

HIST:429 Europe in the French Revolutionary Era-1789-1815 (3 Credits)

Prerequisite: a minimum of Junior standing or permission of the instructor. Development of Revolution; Napoleon's regime and satellites. (Formerly 3400:429)

HIST:438 Nazi Germany (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. This course covers the social, economic, and political history of Germany from World War I to 1945 with emphasis on the Third Reich. (Formerly 3400:438)

HIST:440 Tudor & Stuart Britain, 1485-1714 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. An examination of the development of, and increasing links between the British kingdoms in the early modern period, with emphasis on culture, politics, and religion. (Formerly 3400:440)

HIST:443 Churchill's England (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. An examination of the changes that Britain experienced during the life of Winston Churchill, 1874-1965. Emphasis is on cultural, social, and political developments. (Formerly 3400:443)

HIST:451 Colonial American History (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. This course covers the history of colonial America from the first European contact in the Americas in 1492 to the onset of the American Revolution. (Formerly 3400:451)

HIST:452 American Revolutionary Era (3 Credits)

Prerequisite: Completion of a minimum of 48 credits or higher. The struggle for the rights of colonists and independence; the impact of war on American society and the creation of republican institutions. (Formerly 3400:452)

HIST:453 The Early American Republic (3 Credits)

Prerequisite: Completion of a minimum of 48 credits or higher. The evolution of the American republic from its early beginnings after the American Revolution to the antebellum era. Emphasis upon political, social, and cultural developments. (Formerly 3400:453)

HIST:454 Civil War & Reconstruction, 1850-1877 (4 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Sectionalism, slavery and the causes of the Civil War; wartime activities of the Union and Confederacy; leading personalities; problems of reconstruction and the new Union. (Formerly 3400:454)

HIST:455 Origins of Modern America, 1877-1917 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. United States from Reconstruction Era to World War I (1877-1920); emphasis on political responses to rise of an industrialized-urbanized society, the populist and progressive movements. (Formerly 3400:455)

HIST:456 America in World Wars & Depression, 1917-1945 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. World War I and Versailles; the 1920s, the Great Depression and the New Deal; World War II. (Formerly 3400:456)

HIST:457 The United States since 1945 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Nuclear age, cold war, foreign policy and domestic affairs to present. Social, political, constitutional, diplomatic, cultural and economic changes since 1945. (Formerly 3400:457)

HIST:461 The United States as a World Power (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. The course analyzes the emergence and functioning of the United States as a world power, with particular emphasis on the 20th century. (Formerly 3400:461)

HIST:463 United States Constitutional History (3 Credits)

Prerequisite: A minimum of 48 credits or permission of the instructor. This course examines the evolution of constitutional government from the drafting of the U.S. Constitution (1787) to present. (Formerly 3400:463)

Gen Ed: - Complex Issues Facing Society

HIST:465 American Economy Since 1900 (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Survey of economic developments since 1900; topics include agriculture, business and labor. Special emphasis on role of big business and evolution of monetary and fiscal policy. (Formerly 3400:465)

HIST:467 History of American Pop Culture (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Historical analysis of mass cultural phenomena and the social experiences associated with mass technologies that transformed modern America life in the 19th and 20th centuries. (Formerly 3400:467)

HIST:468 African-American Social & Intellectual History (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Examination of black thought and activities reflective of African-American culture, conditions facing black people within America and efforts toward coordinated black activity. (Formerly 3400:468)

HIST:469 African-American Women's History (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Study of black American women's lives from colonial times to the present featuring autobiographical. Fictional and secondary works authored by black women. (Formerly 3400:469)

HIST:470 Ohio History (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Political, social, economic and intellectual history of Ohio, with special emphasis on Ohio's relationship to Old Northwest and to the nation. (Formerly 3400:470)

HIST:471 American Environmental History (3 Credits)

Prerequisite: a minimum of 48 credits completed or permission of the instructor. Utilization, conservation of natural resources from beginnings of American society to present; combination of economic, technological history of extensive treatment of public policy, environmental issues. (Formerly 3400:471)

HIST:472 Empire, Genocide, and Mass Violence (3 Credits)

Prerequisite: A minimum of 48 credits or permission of the instructor. This course explores the histories of genocide and other types of mass violence, as well as the debates surrounding them. Focusing on examples that begin with the genocide of indigenous peoples in the Americas and Australia and concluding with current cases, we will explore the role of modern identity politics, imperialism, and ideology in mass murders and genocides and will consider analyses of case studies from multiple disciplinary perspectives. We will conduct this class as a seminar, which means that we engage in extensive reading (as well as writing) assignments and regular participation from students in discussions. (Formerly 3400:472)

Gen Ed: - Complex Issues Facing Society

HIST:475 Mexico (3 Credits)

History of Mexico from Indian civilizations to present with emphasis on relations with United States; social and political ramifications of the 20th Century Mexican revolution. (Formerly 3400:475)

HIST:476 Central America & the Caribbean (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Selected aspects of the histories of Central American and Caribbean countries with emphasis on populist and peasant movements, political reform, social revolution, economic and under development, and relations with the United States. (Formerly 3400:476)

HIST:483 History in Video Games (3 Credits)

Prerequisite: Sophomore standing. Examines the presentation of history in video games analyzing them for accuracy, bias, structural limitations, and utility as teaching tools. (Formerly 3400:483)

HIST:484 Museums and Archives (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. This course will focus on the work of history museums, historical societies and historic house museums and archives. (Formerly 3400:484)

HIST:485 History, Communities, and Memory (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Course examines the interactions between the work of academic historians and the public in areas such as local history, monuments, oral history, film and the Internet. (Formerly 3400:485)

HIST:487 Science and Technology in World History (3 Credits)

Prerequisite: Completion of a minimum of 48 credits or higher. This course examines the development and diffusion of science and technology in human history, its impact on society, culture, and daily life. (Formerly 3400:487)

HIST:489 Ottoman State and Society (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Explores political, economic, and social dynamics of one of the world's most enduring and expansive multiethnic empires. (Formerly 3400:489)

Gen Ed: - Global Diversity

HIST:491 Honors Seminar in History (3 Credits)

Prerequisite: Permission of department head or instructor. Selected readings; writing of research paper. For student seeking to graduate with honors in history and for student in Honors Program. (Formerly 3400:491)

HIST:492 Honors Project in History (1-3 Credits)

Prerequisite: 64 credits. An individual research project relevant to history, supervised by a member of the Department of History, culminating in an undergraduate thesis. (Formerly 3400:492)

HIST:493 Special Studies: North American History (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Special studies in the history of North America (Rio Grande to Arctic). See department office for information on particular offerings. (Formerly 3400:493)

HIST:494 Workshop in History (1-3 Credits)

(May be repeated) Group studies of special subjects pertaining to history. May be used for elective credit only. May not be used to meet undergraduate or graduate major requirements in history. (Formerly 3400:494)

HIST:495 Special Studies: European History (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Special studies in European history from the fall of the Roman Empire to the present. See department office for information on particular offerings. (Formerly 3400:495)

HIST:496 Special Studies in History: Other (3 Credits)

Prerequisite: a minimum of 48 credits or permission of the instructor. Special studies in the history of Latin America, Asia, Africa or the Pacific. See department office for information on particular offerings. (Formerly 3400:496)

HIST:498 Race, Nation, and Class in the Middle East (3 Credits)
 Prerequisite: a minimum of 48 credits or permission of the instructor. This course analyzes identity politics and the development of the ideas of race, nation, and class in the Middle East from a historical perspective. (Formerly 3400:498)

HIST:499 Women and Gender in Middle Eastern Societies (3 Credits)
 Prerequisite: a minimum of 48 credits or permission of the instructor. This course explores the multi-layered processes and dimensions, including texts, cultural values and practices, institutions, and events, which have shaped women’s experiences in the Middle East. (Formerly 3400:499)

- 1 Select one of the following topics; A History of Iraq and States, or Statelessness in the Middle East: Kurds and Palestinians
- 2 Select one of the following topics; Ottoman State and Society 1300-1922, or Women and Gender in the Middle East
- 3 The program strongly encourages study abroad, and will offer additional credits, to be applied toward the certificate, for certain courses that require overseas study in a country of the student's focus (Asia, Middle East) or for other individual experiences abroad.

History, BA

Bachelor of Arts in History (340000BA)

More on the History major (<https://www.uakron.edu/history/undergraduate/history-major/>)

In addition to the knowledge conveyed through the study of the past, students of history obtain practical skills that empower them no matter what career direction they take. History students learn to read widely and critically. They develop analytical and writing skills and gain experience with oral communication, all of which can be employed in any career or profession. Tens of thousands of attorneys, teachers, civic and business leaders, military professionals, and others have developed successful careers as a result of their decision to study history. The intellectual skills and cultural sensitivity that history teaches can be applied in all walks of life. People who study history learn to ask questions, think for themselves, and become better citizens.

The following information has official approval of **The Department of History** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

History, Minor

Minor in History (340000M)

Program Contact

Rose Eichler
Professor, History
330-972-6760
rteichl@uakron.edu

The following information has official approval of the **Department of History** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in History" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. A minimum of 10 credits must be at the 300/400 level. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

History/JD Degree Accelerated, BA Bachelor of Arts in History/Juris Doctor Degree Accelerated (340003BA)

The BA/JD degree is an accelerated program which allows highly qualified and disciplined students to earn a Bachelor's of Arts in History and a Juris Doctor degree in six years (178 credits) instead of the usual seven (208 credits) by counting 29 credits from the first year of law school toward the bachelor's degree.

Requirements for Admission

Admission to the program as a freshman requires an ACT of 25 (SAT of 980) and a high school GPA of 3.4; admission of transfer and ICT students requires a GPA of 3.4, thus seeking to attract higher performing students. Any University of Akron History majors may apply for inclusion into the 3+3 program at the same time they apply for admission to the History BA program, or anytime while enrolled as a History major at the University of Akron. Admission to the BA/JD accelerated program does not constitute admission to the Law School, which requires a separate application during the third year of the undergraduate degree. University of Akron History majors participating in the joint 3+3 program who have completed the equivalent of three years or more of a baccalaureate degree will be admitted into the University of Akron School of Law so long as they:

1. are in good standing academically, financially, and from a disciplinary perspective in the History BA program;
2. satisfy the character and fitness standards required of all students admitted to the Law School;
3. have an LSAT that is at or above the 25th percentile of the previous year's entering class, and not below a 151 (GRE results can be considered if no LSAT score is available); and
4. have an undergraduate grade point average at or above the median of the previous University of Akron Law School entering class. History majors who are not enrolled in the 3+3 program, or who do not meet the automatic admission criteria set forth above will still be considered for admission into the Law School on a case-by-case basis.

The following information has official approval of **The Department of History, The School of Law and The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

LeBron James Family Foundation School of Education

School Requirements

Selection, Admission, Retention, and Teacher Licensure

The LeBron James Family Foundation School of Education has selective admission, retention, and graduation requirements for the completion of a program at The University of Akron.

For all students applying to a School of Education Professional Education program, the admission and degree requirements outlined in the current UA Undergraduate Bulletin will be used to determine admission (or readmission) and degree requirements for all programs.

From admission through graduation, all decisions are made following the School's or department's approved criteria. Prior to admission to a program, Ohio requires all colleges and universities preparing teachers and educational personnel to assess students in the areas of verbal communication and academic achievement. The University of Akron's School of Education admission procedures are designed to establish admission criteria, provide for assessments, allow for skills enhancement, reassessment and reapplication where appropriate.

General Education Requirements: To be admitted to the LeBron James Family Foundation School of Education teacher education programs, all students must be able to meet the following criteria: English Comp I (or equivalent): Grade C or better, English Comp II: Grade C or better, Any Gen Ed Quantitative Reasoning, Speaking Requirement, Any Gen Ed Natural Science (7 credits including one lab course), Any Gen Ed Social Science.

Grade-Point Average: For admission, a minimum grade point average of 2.5 or better overall for the above Gen Ed courses and minimum and 2.5 or better cumulative GPA.

Bureau of Criminal Investigation Clearance: A signed Criminal Background Check Acknowledgement Form must be submitted and is

included in the School of Education Application. Current Ohio Bureau of Criminal Identification and Investigation (BCI) and Federal Bureau of Investigation (FBI) background checks are required before you may participate in coursework with clinical or field experience.

School of Education Application: All students must complete the School of Education application (<https://www.uakron.edu/education/academic-programs/how-to-apply.dot>). Responses to the questions on the application will help School of Education advisors offer the most effective and efficient advisement. It will also help advisors know students as individuals with unique backgrounds and experiences. **Undergraduate** students should apply during the semester in which all School of Education pre-admission requirements will be met.

Admission Timeline: Admission to a School of Education Professional Education program is in effect for five years from the date of admission. All criteria and procedures regarding selective admission and retention are available in

The LeBron James Family Foundation School of Education
Zook Hall 002
The University of Akron
Akron, OH 44325-4201
(330) 972-7750
www.uakron.edu/education (<http://www.uakron.edu/education/>)

Application for Admission to Professional Education Programs

All students are required to have completed the application process no less than six weeks prior to the semester in which they wish to begin coursework in the School of Education. Additional information and applications are available on the LeBron James Family Foundation School of Education website at <https://www.uakron.edu/education/academic-programs/how-to-apply.dot>

Program Area of Study: All students are expected to comply with requirements specified by the program to which they are applying. These are available in the Office of Advising & Student Success.

Advisement: All students will be assigned an advisor and meet with them during the first semester of admission. Students are encouraged to see their advisor when necessary to assure they are maintaining progress in their program.

Retention: Retention of students in each program will be evaluation based. Students will have opportunities to upgrade their skills and achievement in areas where such needs may exist. Completion of program requirements will be reviewed by the student and faculty advisor. Approval to student teach is contingent on the student's progress through the program of study with satisfactory grades. Graduation is contingent on completion of coursework, student teaching, GPA of 2.50 overall, 2.50 in education classes, and 2.50 in the student's major.

Licensure: After graduation, students may apply for licensure through the Ohio Department of Education. The State of Ohio requires all applicants for licensure to submit a current BCI/FBI Clearance. A BCI/FBI Clearance is valid for 12 months from the date of issue. Ohio also requires all applicants for licensure to pass appropriate examination(s) for intended area(s) of licensure. Information about specific licenses can be obtained from the School of Education.

Transfer Students: Transfer students will be expected to meet the same admission standards as University of Akron students.

Post-Baccalaureate Students: Qualified post-baccalaureate students seeking licensure will be admitted to the LeBron James Family Foundation School of Education and to the appropriate program once they meet all admission requirements.

Bachelor's Degrees

The Professional Education Program prepares students to teach in one or more of the following areas/fields: primary inclusive teacher preparation (age 3 through grade 5); middle childhood (grades 4 through 9) dual licensure with intervention specialist; the conventional academic fields found in programs for adolescent to young adult students (grades 7 through 12); in special education as an intervention specialist for mild/moderate and moderate/intensive (K-12); and multi-age (grades PK through 12). To qualify for the bachelor's degree, the minimum credits as required by the student's degree program at the time of admission with a grade-point average of 2.50 overall, 2.50 in education classes, and 2.50 in the student's major must be completed.

The specific subjects required for degrees in certain fields are set forth in subsequent pages. In all cases, the requirements include courses in general education, professional education and content areas.

The Bachelor of Arts in Education degree is granted to those whose major is in one of the academic fields. The Bachelor of Science in Education is granted to those whose major is in the other special fields or in primary inclusive or middle childhood education.

Professional Education Programs

The LeBron James Family Foundation School of Education is a learning and teaching community that prepares educational professionals across varied organizations, who are committed to diversity, equity, excellence and who conduct, utilize, and critique research through scholarship, leadership, collaboration, inclusive education, innovation, and professionalism. Decision-making is stressed in the standards-based programs that prepare teachers and other school personnel for professional practice. Initial professional education programs are aligned with the Ohio Standards for the Teaching Profession, and Specialized Professional Association Standards. Advanced Programs for practicing teachers are aligned with the Ohio Standards for the Teaching Profession. For more complete information about the professional education program, consult the School of Education at (330)972-7750.

Students must complete appropriate professional education courses with grades of 'C' or better before progressing through the program.

Professional Preparation

Throughout their program, teacher candidates take a combination of core courses, field experiences, and courses in their program studies area. Students should note the sequence of core and program courses. The core courses cover the knowledge base that is common for all teachers, regardless of their teaching field. The field experiences provide teacher candidates with experience in schools from the beginning of their program. Additionally during their field and clinical experiences, teacher candidates learn to apply what they are learning in courses.

Program content area courses are related to teacher candidates' intended area of licensure. In addition, teacher candidates have a faculty advisor to help plan what to study and to review what has been accomplished.

The culminating experience for teacher candidates is student teaching. Under the supervision of a team of faculty and a classroom teacher,

each student teacher begins to put newly-developed competencies into practice.

For candidates seeking to graduate without licensure, substitute courses for this culminating experience of student teaching and colloquium will be determined with recommendation by the advisor and subject to approval by the Director to assure that candidates meet an equivalent number of Education course hours for the program. Candidates must meet all other program requirements. If the student wishes to seek licensure after graduation, the student would need to apply to be admitted to the appropriate program. The student will be required to complete all necessary requirements for licensure in place at the time admission.

Clinical and Field-Based Experiences

All teacher candidates are required to participate satisfactorily in clinical and field-based experiences prior to recommendation for licensure to teach in Ohio. These clinical and field-based experiences are designed to provide teacher candidates with the opportunity to apply theory and skills related to their areas of licensure in diverse clinical and field-based settings. Clinical experiences are those planned activities in which professional education students apply the principles of teaching.

Student Teaching

Student teaching is an all-day, full-time, planned teaching experience for 16 weeks in an approved public or private school. Placements are made in schools selected and supervised by the School of Education in collaboration with school districts and faculty.

All teacher candidates must have an approved student teaching application on file to be considered for placement.

To qualify for student teaching, teacher candidates must have a 2.50 average overall, a "C" or better in professional education classes, a minimum of a 2.50 and/or a "C" or better in the teacher candidate's major, and in methods courses as defined by departments. Satisfactory completion of field and pre-clinical experience is also required before student teaching. Students also need to pass at least one Ohio Assessment for Educators (OAE) in the program area.

Licensure

Every teacher in Ohio public schools is required to have a teaching license covering the fields in which teaching is being done. This license is issued by the Ohio Department of Education upon recommendation of the School of Education. The teacher candidate must provide evidence of a current BCI/FBI Clearance, must pass appropriate examination(s) required in Ohio, complete the appropriate program requirements successfully, and be recommended for a teaching license.

Endorsements

TESOL Endorsement (Teaching English to Speakers of Other Languages)

This program introduces teacher candidates to the key issues in teaching English to non-native speakers through coursework in linguistics, second language theory and methods, and related disciplines.

Teacher candidates seeking this endorsement must have studied a foreign language at some time during their academic career.

Students who do not have English as a native language must demonstrate adequate proficiency in English with a valid TOEFL score

of 580 or above and a score of 240 or above on the TSE (Test of Spoken English).

- AYA Earth Science/Physics Licensure, BAE (p. 167)
- AYA Integrated Language Arts, BAE (p. 169)
- AYA Integrated Mathematics, BAE (p. 171)
- AYA Integrated Science Licensure, BAE (p. 174)
- AYA Integrated Social Studies, BAE (p. 177)
- AYA Life/Biology-Chemistry Licensure, BAE (p. 179)
- Early Childhood Intervention Specialist, BSE (p. 182)
- Middle Level Education, BSE (p. 183)
- Middle Level Education, Dual Licensure, BSE (p. 186)
- Mild/Moderate Intervention Specialist, BSE (p. 189)
- Moderate/Intensive Intervention Specialist, BSE (p. 192)
- Primary Inclusive Teacher Preparation, BSE (p. 194)

Educational Foundations and Leadership (EDFN)

EDFN:150 Democracy & Education (3 Credits)

Based on an interdisciplinary inquiry, this course examines varied theories and practices of democratic education. (Formerly 5100:150)

EDFN:200 Introduction to Education (3 Credits)

Prerequisite: 13-15 sem. hrs. of specific GenEd courses; FBI/BCI background checks. Introduction to the teaching profession designed to explore the purposes of schools in society and what is required to be an effective teacher today. This course will include 10 field hours of field observation in an urban setting. (Formerly 5100:200)

EDFN:205 Fundamental Educational Computer Skills (1 Credit)

Elective Course: Computer skills for education majors with little or no computer experience. Includes word processing, databases, graphics and communications. Cannot substitute for any required course. (Formerly 5100:205)

EDFN:210 Characteristics of Learners (3 Credits)

Prerequisite: Completion of all LBJFF School of Education program admission requirements. Corequisite: EDFN 211. Describe cognitive, psychosocial, physical, language, and moral development of learners Pre-K through adult. Identifies learner needs, roles of teachers and schools in fostering optimal development. (10 hours of field experience included.) (Formerly 5100:210)

EDFN:211 Teaching & Learning Strategies (3 Credits)

Prerequisite: Completion of all LBJFF School of Education admission requirements. Corequisite: EDFN 210. From course content and activities, students will recognize, select, and practice various instructional models. Students will acquire and apply appropriate learning and motivational strategies. (10 hours of field experience included.) (Formerly 5100:211)

EDFN:220 Educational Psychology (3 Credits)

Prerequisite: 13-15 sem. hrs. of specific GenEd courses; EDFN 200 (may be taken as prerequisite or corequisite); FBI/BCI background checks. Focuses on the developmental influences and characteristics of learners, and psychological principles pertaining to teaching and learning processes, motivation and self-regulation in learners. (Formerly 5100:220)

EDFN:300 Educational Equity and Excellence in a Culturally Pluralistic Society (3 Credits)

Prerequisites: EDFN 200, EDFN 220, EDCI 230, EDIS 225. Corequisite with or prerequisite to EDCI 360. Engages teacher candidates in inquiry-based seminars and service learning that facilitate their developing pedagogical competence implementing equity and excellence in education. (Formerly 5100:300)

EDFN:330 Early Adolescent Learner (3 Credits)

Study of issues in adolescent development, particularly as it relates to educational settings. Physical, cognitive, language, emotional, social, and moral development in learners 8-14 years old. (Formerly 5100:330)

EDFN:410 Professional Issues in Education (3 Credits)

Prerequisites: EDCI 310, EDCI 311, EDCI 320, EDCI 330, and admission to the LBJFF School of Education. Course work applies social and philosophical foundations of education to current and historical issues in education with attention to roles and responsibilities of contemporary teachers. (Formerly 5100:410)

EDFN:420 Introduction to Instructional Computing (3 Credits)

Prepares the student in the use of instructional technologies in educational and business settings. Segments of the course are offered in an online format. (Formerly 5100:420)

EDFN:430 Senior Honors Project: Foundations (1-6 Credits)

(May be repeated for a total of six credits) Prerequisites: senior standing in Honors Program and permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry. (Formerly 5100:430)

EDFN:480 Special Topics: Educational Foundations (1-4 Credits)

(May be repeated with a change in topic) Prerequisite: Permission of instructor. Group study of special topics of critical, contemporary concern in professional education. (Formerly 5100:480)

EDFN:481 Special Topics: Educational Administration (1-4 Credits)

(May be repeated with a change in topic) Prerequisite: Permission of instructor. Group study of special topics of critical, contemporary concern in professional education. (Formerly 5700:480)

EDFN:490 Workshop: Educational Foundations & Leadership (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5100:490)

EDFN:491 Workshop: Educational Foundations & Leadership (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5100:491)

EDFN:492 Workshop: Educational Foundations & Leadership (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5100:492)

EDFN:493 Workshop: Educational Foundations & Leadership (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5700:492)

EDFN:494 Workshop: Educational Foundations & Leadership (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5700:493)

EDFN:495 Educational Institutes in Educational Foundations & Leadership (1-4 Credits)

Special course designed as in-service upgrading programs. (Formerly 5100:494)

EDFN:496 Educational Institutes: Education Foundations & Leadership (1-4 Credits)

Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations. (Formerly 5700:494)

EDFN:497 Independent Study (1-3 Credits)

(May be repeated for a total of six credits) Prerequisites: Permission of department head and instructor. Specific area of study determined in accordance with program and professional goals. (Formerly 5100:497)

Primary Inclusive (EDPI)

EDPI:100 Orientation to Early Childhood Specialist (0 Credits)

Pre/Corequisite: EDFN 200. Orientation to the information and strategies necessary for a student to be successful in the program, including portfolio development. (Formerly 5200:100)

EDPI:200 Pre-Kindergarten Participation I (1 Credit)

Prerequisite: CHFD 265, CHFD 245. Planned field experience in a pre-kindergarten infant/toddler classroom where students work with children age birth to 3 years both individually and in small groups. (Formerly 5200:200)

EDPI:215 The Child, the Family, and the School (3 Credits)

Prerequisites: EDFN 220, EDIS 225. The purpose of this course is to learn about why we create reciprocal working relationships with parents, and methods of creating these types of relationships. (10 field/clinical hours). (Formerly 5200:215)

EDPI:220 Visual Arts Culture in Early Childhood (1 Credit)

Prerequisite: admission to Teacher Education Program. Art education concepts, structures, and knowledge base to provide curricular opportunities for education majors to develop as creative problem solvers in an elementary school setting. First offered Fall 1993. (Formerly 5200:220)

EDPI:250 Developing Processes of Investigation (3 Credits)

Prerequisites: EDFN 210, EDFN 211, and admission to Teacher Education Program. This course will enable students to identify and acquire those investigative and discovery processes and skills that are common in mathematics, science, and social studies. (Formerly 5200:250)

EDPI:300 Pre-Kindergarten Participation II (1 Credit)

Prerequisites: EDPI 200, EDIS 450 and admission to Teacher Education Program. Planned field experience in pre-kindergarten early intervention program where student works in both small and large group settings and with individual children. (Formerly 5200:300)

EDPI:319 Integrated Expressive Arts in Primary Grades (3 Credits)

Prerequisites: CHFD 265 and [MUSIC 201, ART 210, or THEA 100]. This course focuses on creative expression and play as primary activities to support the physical, intellectual, social, emotional and aesthetic development of children from birth through fifth grade. Theory and practice of play, child study, environmental planning, creativity and arts-based expression are foundational in this course. Students learn how to teach with the arts, within and across the academic content curriculum. (Formerly 5200:319)

EDPI:320 Visual Arts Application in the Elementary School (3 Credits)

Prerequisite: EDPI 220. Exploration of materials, methods, processes and visual techniques relating two and three-dimensional art experiences for the teacher of elementary children. (Formerly 5200:320)

EDPI:321 Instructional Techniques: Modern Languages K-8 (3 Credits)

Prerequisite: admission to the LBJFF School of Education. Focus on theories of language acquisition, models of instruction suited to teaching foreign languages and cultures in the elementary school (K-8), and strategies that promote appropriate levels of language proficiency and competency for young learners. (Formerly 5200:321)

EDPI:325 Early Childhood Inclusive Practicum (3 Credits)

Prerequisite: EDCI 240. Corequisite: EDCI 241. Prerequisite or Corequisite: EDCI 308. This field-based course emphasizes developmental domains of preschool children. Candidates design appropriate activities for culturally and linguistically diverse population of typically and atypically developing children. (Formerly 5200:325)

EDPI:330 Building Understanding in Early Childhood Settings (3 Credits)

Prerequisite: EDCI 240. Corequisite: EDCI 241 and EDIS 448. Prerequisite or corequisite: EDCI 308. This course prepares teachers to work in inclusive programs, able to meet the needs of children; exceptional, cultural and linguistic diverse, and typically. (Formerly 5200:453)

EDPI:331 Kindergarten Methods & Material (4 Credits)

Prerequisite: CHFD 265. Scope and sequence of kindergarten curricula, with emphasis on developmentally appropriate methods and materials. This course is not part of the new teacher licensure program. (Formerly 5200:331)

EDPI:333 Science for Primary Teachers (3 Credits)

Prerequisite: EDCI 308. Teachers of children from Pre-K through Grade 5 must be well versed in the essential science content knowledge and they should demonstrate the understanding of central concepts, academic language, and the structure of science content areas needed to provide appropriate environments that support integrated and authentic learning for ALL children. Well prepared candidates use their knowledge, appropriate Ohio New Learning Science standards, and other resources to design, implement, and evaluate meaningful, challenging standards-based curriculum for each child. (Formerly 5200:333)

EDPI:334 Teaching Art in the Elementary School (3 Credits)

Prerequisite: Admission to Teacher Education Program, Art K-12. Visual arts in elementary schools. Art education concepts with studio orientation including history of art education, developmental stages, curriculum and organization, methods, evaluation and research, and practical participation. (Formerly 5200:334)

EDPI:338 Social Studies for Primary Teachers (3 Credits)

Prerequisite: EDCI 308. This course equips primary grade teachers with content knowledge, skills, and dispositions necessary to teach grades Pk-5 students to be informed and active citizens in classrooms, their community, country, and world. Students will learn critical content related to the guidelines of the Ohio Department of Education and the National Council for the Social Studies standards in social studies education. They will make decisions about what to teach (standards and themes), how to teach (strategies), and which materials best serve the needs of their students (resources). (Formerly 5200:338)

EDPI:340 Developmental Writing and Digital Literacies in Inclusive Early (3 Credits)

Prerequisite: EDCI 240. Prerequisite or corequisite: EDCI 241, EDCI 308, and EDIS 448. This course focuses on theoretically grounded developmental writing and communication using digital literacy in the information age specifically for children age 3 to third grade. (Formerly 5200:340)

EDPI:342 Teaching Math to Young Children (3 Credits)

Prerequisites: MATH 140, MATH 240. Prerequisite or corequisite: EDCI 370. Trends in mathematics instruction in early childhood/middle level classrooms. Procedures for the development of mathematics concepts and skills. (Formerly 5200:342)

EDPI:352 Teaching Mathematics in Inclusive Primary Settings (3 Credits)

Prerequisite: EDCI 308. Pre/Corequisite: MATH 240. To examine and know the standards-based mathematics curriculum and the instruction appropriate for inclusive primary setting. (10 hours of Field Work) (Formerly 5200:352)

EDPI:395 Field Experience (1-3 Credits)

Prerequisites: Permission of advisor and department head. Independent field work in area selected by student's adviser, based on student's needs. (Formerly 5200:395)

EDPI:420 Integrated Primary Curriculum (4 Credits)

Prerequisite or corequisite: EDCI 370. Course models an inquiry-based format that integrates math, science, social studies, and technology standards where students learn how to create, implement, manage, and evaluate student-centered learning environments. (25 hours field and 35 clinical hours). (Formerly 5200:420)

EDPI:425 Advanced Integrated Primary Curriculum (4 Credits)

Prerequisites: EDCI 420 and admission to teacher education program. This course further explores an inquiry-based format that integrates math, science, social studies, and technology standards by having the students implement, manage, and evaluate their own and their students' learning. (25 field and 35 clinical hours). (Formerly 5200:425)

EDPI:454 Inquiry Learning in Primary Inclusive Settings (3 Credits)

Prerequisites: EDCI 241 and EDCI 308. Corequisite: EDIS 450. Pre/Corequisites: EDPI 333 and EDPI 338. Anchored in the authentic work of teacher and students, this field-based capstone methods class utilizes action research strategies in primary inclusive settings. By using inquiry-based methods that focus on reflective teaching and student learning, pre-service teachers learn to analyze and resolve their own teaching/learning challenges. They learn how to ask focusing questions, define terms, collect relevant data, analyze findings and communicate process that informs their professional practice. 35 field hours. (Formerly 5200:454)

EDPI:480 Special Topics: Elementary Education (1-4 Credits)

(May be repeated with a change in topic) Prerequisite: Permission of instructor. Group study of special topics of critical, contemporary concern in professional education. (Formerly 5200:480)

EDPI:490 Workshop: Elementary Education (1-3 Credits)

Elective workshop for elementary education major who would pursue further refinement of teaching skills. Emphasizes demonstrations of teaching techniques and development of suitable teaching devices. (Formerly 5200:490)

EDPI:491 Workshop: Elementary Education (1-3 Credits)

Elective workshop for elementary education major who would pursue further refinement of teaching skills. Emphasizes demonstrations of teaching techniques and development of suitable teaching devices. (Formerly 5200:491)

EDPI:492 Workshop: Elementary Education (1-3 Credits)

Elective workshop for elementary education major who would pursue further refinement of teaching skills. Emphasizes demonstrations of teaching techniques and development of suitable teaching devices. (Formerly 5200:492)

EDPI:493 Workshop: Elementary Education (1-3 Credits)

Elective workshop for elementary education major who would pursue further refinement of teaching skills. Emphasizes demonstrations of teaching techniques and development of suitable teaching devices. (Formerly 5200:493)

EDPI:495 Student Teaching (Pre K through K) (5 Credits)

Prerequisites: Approval of the Student Teaching Committee, considered based upon approved application to student teaching, passing PRAXIS II subject test, and approved portfolio. Corequisite: EDPI 498. Planned teaching experience in schools selected and supervised by Office of Field Experience. (Formerly 5200:495)

EDPI:496 Student Teaching (Grades 1-3) (6 Credits)

Prerequisites: Approval of the Student Teaching Committee, considered based upon approved application to student teaching, passing PRAXIS II subject test, and approved portfolio. Corequisite: EDPI 498. Planned teaching experience in schools selected and supervised by Office of Field Experience. (Formerly 5200:496)

EDPI:497 Independent Study: Elementary Education (1-3 Credits)

Prerequisites: permission of adviser and department head. Specific area of curriculum investigation pertinent to elementary education as determined by student's academic needs. (Formerly 5200:497)

EDPI:498 Student Teaching Colloquium (1 Credit)

Prepares students for the final phase of becoming decision makers. The colloquium will explore problems encountered in classrooms, initiate reflective practice and concepts of action research, and focus on preparation of unit outlines with emphasis on applied decision making. (Formerly 5200:498)

EDPI:499 Student Teaching in Inclusive Early Childhood Settings (9 Credits)

Prerequisite: Approval of the Student Teaching Committee, based upon approved application to student teaching, passing at least one of Ohio Assessments for Educators subject-specific tests. Corequisite: EDIS 470. Planned 16-week experience in schools selected and supervised by the Office of Field Experiences. 322 Clinical Hours. (Formerly 5200:499)

Middle Level Education (EDML)

EDML:100 Orientation to Middle Level Education (0 Credits)

Pre/Corequisite: EDFN 200. Orientation to the information and strategies necessary for a student to be successful in the program, including portfolio development. (Formerly 5250:100)

EDML:300 Middle Level Education (3 Credits)

Prerequisite or corequisite: EDCI 308. Reviews nature/needs of early adolescents; developmentally appropriate middle schooling; philosophy of school organizations; curriculum, pedagogy, and assessment; cultural and community contexts. 15 field hours. (Formerly 5250:300)

EDML:333 Teaching Science to Middle Level Learners (4 Credits)

Prerequisites: EDCI 308 and admission to the School of Education. A methods course for the prospective teacher to develop a point of view toward science teaching and strategies for effective standards-based science teaching. (15 field hours) (Formerly 5250:333)

EDML:338 Teaching Social Studies to Middle Childhood (3 Credits)

Prerequisites: EDCI 308 and admission to the School of Education. A methods course to examine the school social studies curriculum and strategies for effective teaching. (15 field hours) (Formerly 5250:338)

EDML:342 Teaching Math to Middle Level Learners (3 Credits)

Prerequisites: EDCI 308 and admission to the School of Education. Modern strategies of psychology and methodology in middle childhood mathematics on exploratory, structural and mastery levels of learning. (15 field hours) (Formerly 5250:342)

EDML:350 Teaching Language Arts & Media to Middle Level Learners (3 Credits)

Prerequisites: EDCI 240, EDCI 241, EDCI 308, and admission to the School of Education. This course provides preservice middle grade teachers with strategies for integrating the language arts in the areas of reading, writing, speaking, listening, media and drama. (15 Field Hours) (Formerly 5250:350)

EDML:351 Modes of Writing for the Middle Grades (3 Credits)

Prerequisite: EDCI 308. This course will provide middle school languages arts teachers the understandings and skills necessary to teach writing in varieties of forms and modes including newswriting. (Formerly 5250:351)

EDML:480 Special Topics: Middle School (1-3 Credits)

Prerequisite: Permission of instructor. (May be repeated with change of topic) Group study of special topics in middle childhood of critical contemporary concern in professional education. (Formerly 5250:480)

EDML:490 Workshop: Middle Level (1-3 Credits)

Elective workshop for Middle Childhood majors who would like to pursue further refinement of teaching skills. Emphasis in demonstrations of teaching techniques and development. (Formerly 5250:490)

EDML:495 Student Teaching: Grades 4-6 (5 Credits)

Planned teaching experience in schools selected and supervised by the Office of Field Experience. (Formerly 5250:495)

EDML:496 Student Teaching: Grades 7-9 (6 Credits)

Prerequisites: Approval of the Student Teaching Committee, considered based upon approved application to student teaching, passing PRAXIS II subject test, and approved portfolio; senior status. Corequisite: EDML 498. Planned teaching experience in schools selected and supervised by the Office of Field Experiences. (Formerly 5250:496)

EDML:497 Independent Study (1-3 Credits)

Prerequisites: Permission of advisor and department head. Specific area of curriculum investigation pertinent to middle level education as determined by student's academic needs. (Formerly 5250:497)

EDML:498 Student Teaching Colloquium: Middle Grades (3 Credits)

Corequisite: EDML 499. The course provides a forum to discuss professional issues related to student teaching, and to support students as they complete their capstone project. The colloquium will explore a broad range of topics concerning the field of education, within the structure of the Ohio Teacher Standards. Candidates will explore the challenges encountered in classrooms, initiate reflective practice, and nurture their commitment to lifelong learning. (Formerly 5250:498)

EDML:499 Student Teaching: Middle Level Education (9 Credits)

Corequisite: EDML 498. Student teaching is a planned, all-day, full time teaching experience. It is coordinated and given oversight by LeBron James Family Foundation School of Education, in an approved public or private school for a total of 16 weeks. (Formerly 5250:499)

Secondary Education (EDSE)

EDSE:100 Orientation to the AYA/P-12 Multi-Age Programs (0 Credits)

Pre/Corequisite: EDFN 200. Orientation to the information and strategies necessary for a student to be successful in the program, including portfolio development. (Formerly 5300:100)

EDSE:312 Introduction to Social Studies Teaching in Secondary Schools (3 Credits)

Prerequisite: Admission to the Social Studies Teacher Prep Program. Pre/Corequisite: EDCI 308. This course assists teacher candidates in understanding the history, issues, and trends related specifically to teaching secondary social studies. Students will learn about the "State of the Social Studies" in Ohio, across the United States, and internationally, to better understanding the field's democratic and civic mission. Standards-based and high-leverage instructional strategies in social studies will be modeled.

EDSE:314 Introduction to Mathematics Teaching in Secondary Schools (3 Credits)

Prerequisite: Admission to the Mathematics Teacher Prep Program. Pre/Corequisite: EDCI 308. This course introduces secondary teacher candidates to trends, issues, and challenges as it relates specifically to curriculum and instruction in mathematics in secondary schools.

EDSE:315 Introduction to Science Teaching in Secondary Schools (3 Credits)

Prerequisite: Admission to the Science Teacher Prep Program. Pre/Corequisite: EDCI 308. This course introduces secondary teacher candidates to trends, issues, and challenges as it relates specifically to teaching science in secondary schools.

EDSE:316 Methods in Teaching Art (3 Credits)

Prerequisites: Completion of required course for art teachers and grade-point average of 2.50 in the field. Study of trends and procedures in teaching and supervision; relation of art to home, school and community; observation in selected schools required. (Formerly 5300:316)

EDSE:317 Instructional Techniques: Modern Languages-Secondary (3 Credits)

Focus on theories of language acquisition, models of instruction for teaching foreign languages/cultures and strategies that promote levels of proficiency/competency for adolescent learners. (Formerly 5300:317)

EDSE:320 Introduction to Teaching in the Content Area (3 Credits)

Prerequisite: EDCI 308. This course introduces secondary teacher candidates to trends, issues, and challenges as it relates specifically to curriculum and instruction in the content areas in secondary schools. (Formerly 5300:320)

EDSE:325 Content Reading in Secondary Schools (3 Credits)

Instructional principles and practices for helping secondary school youth and adults learn subject matter through application of reading and study skills. (Formerly 5300:325)

EDSE:330 Teaching Adolescent/Middle Level Literature (3 Credits)

Student develops skills for selection of literature that is well-suited for adolescent/middle level children. Student develops, uses, and experiences methods for teaching adolescent/middle level literature in the classroom. (30 clinical experience hours) (Formerly 5300:330)

EDSE:335 Language Learning in Secondary Schools (3 Credits)

Prerequisite: Admission to the Teacher Education program. Introduces English teachers to the issues of language learning and techniques required to teach language skills. (Formerly 5300:335)

EDSE:395 Field Experience: Secondary Education (1-3 Credits)

Supervised work with youngsters, individually and in groups in school and/or community settings. (Formerly 5300:395)

EDSE:401 Secondary English Language Arts Instructional Techniques (3 Credits)

Prerequisites: EDCI 308 and admission to the School of Education.
Corequisite: EDSE 411. This course prepares teacher candidates to use various techniques of planning, instruction and assessment for teaching English Language Arts in secondary schools. (25 hours field)

EDSE:402 Secondary Social Studies Instructional Techniques (3 Credits)

Prerequisites: EDCI 308 and admission to the School of Education.
Corequisite: EDSE 412. This course prepares social studies teacher candidates to identify and implement research-based planning, instruction, and assessment techniques for effectively teaching social studies in secondary schools. The course includes 25 hours of field experience.

EDSE:404 Secondary Mathematics Instructional Techniques (3 Credits)

Prerequisites: EDCI 308 and admission to the School of Education.
Corequisite: EDSE 414. This course prepares mathematics teacher candidates to identify and implement research-based planning, instruction, and assessment techniques for effectively teaching mathematics in secondary schools. The course includes 25 hours of field experience.

EDSE:405 Secondary Science Instructional Techniques (3 Credits)

Prerequisites: EDSE 308 and admission to the School of Education.
Corequisite: EDSE 415. This course prepares science teacher candidates to use various techniques of planning, instruction and assessment for teaching science in secondary schools. (25 hours field)

EDSE:411 Clinical Teaching I - Secondary ELA (3 Credits)

Prerequisite: Admission to the School of Education. Corequisite: EDSE 401. Field application to observe and apply English Language Arts education methodologies and theories in a school/classroom setting.

EDSE:412 Clinical Teaching I - Sec Social Studies (3 Credits)

Prerequisites: EDCI 308 and Admission to the School of Education.
Corequisite: EDSE 402. Observe and apply social studies education methodologies and theories in a school/classroom field-based environment. (50 clinical hours)

EDSE:414 Clinical Teaching I - Sec Mathematics (3 Credits)

Prerequisite: Admission to the School of Education. Corequisite: EDSE 404. Observe and apply mathematics education methodologies and theories in a school/classroom field-based environment. (50 clinical hours)

EDSE:415 Clinical Teaching I - Secondary Science (3 Credits)

Prerequisites: EDSE 308 and admission to the School of Education.
Corequisite: EDSE 405. Practical course that provides hands-on experience for teacher candidates in planning, assessment, and instruction in secondary science classrooms.

EDSE:420 Instructional Techniques in Secondary Education (3 Credits)

Prerequisite: EDCI 308. Corequisite: EDSE 421. Open to student who has completed certification requirements in all content fields. Techniques of planning, instruction and evaluation in various secondary teaching fields. (Formerly 5300:420)

EDSE:421 Instructional Techniques in Secondary Education - II (3 Credits)

Prerequisites: EDSE 420 and EDSE 430. Corequisite: EDSE 431.
Continuation of teaching strategy and assessment implementation based on research and theory. (Formerly 5300:421)

EDSE:430 Clinical Teaching I (3 Credits)

Prerequisite: EDCI 308. Corequisite: EDSE 420. Observe and apply education methodologies and theories in a school/classroom field-based environment. (50 clinical hours) (Formerly 5500:430)

EDSE:431 Clinical Teaching II (3 Credits)

Prerequisites: EDSE 420 and EDSE 430. Corequisite: EDSE 421. Course following Clinical Teaching I - Apply education methodologies and theories in a classroom environment in a full-time school environment. (640 clinical hours) (Formerly 5500:431)

EDSE:480 Special Topics: Secondary Education (1-4 Credits)

(May be repeated with a change in topic) Prerequisite: Permission of instructor. Group study of special topics of critical, contemporary concern in professional education. (Formerly 5300:480)

EDSE:490 Workshop: Secondary Education (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5300:490)

EDSE:491 Workshop: Secondary Education (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5300:491)

EDSE:492 Workshop: Secondary Education (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5300:492)

EDSE:493 Workshop: Secondary Education (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. (Formerly 5300:493)

EDSE:494 Educational Institutes: Secondary Education (1-4 Credits)

Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations. (Formerly 5300:494)

EDSE:495 Student Teaching: Secondary Education (6-11 Credits)

Prerequisites: Approval of the Student Teaching Committee, considered based upon approved application to student teaching, and passing state licensure exam(s). Corequisite: EDSE 496. Planned teaching experience in schools selected and supervised by the Office of Field Experiences. (Formerly 5300:495)

EDSE:496 Student Teaching Colloquium in Secondary Education (1 Credit)

Concurrent with Student Teaching; emphasis on applied decision making, group problem solving, and commitment to life-long learning. (Formerly 5300:496)

EDSE:497 Independent Study (1-3 Credits)

Specific area of curriculum investigation pertinent to secondary education as determined by student's academic needs. (Formerly 5300:497)

Technical Education (EDTE)

EDTE:400 Adult Learning (3 Credits)

Describes characteristics of the adult learner and examines issues, factors, and strategies pertinent to successful facilitation of learning in a variety of training environments. (Formerly 5400:400)

EDTE:401 Learning with Technology (3 Credits)

Application of learning technologies to situations encountered by academic and professional learners. Addresses foundational concepts of computer literacy, ethics, security, collaboration, and learning design. (Formerly 5400:401)

EDTE:413 Instructional Design Profession (3 Credits)

Examination of the Instructional Design profession, its history, trends, issues and impact on Instruction Design's future. Research on best practice in the field are explored. (Formerly 5400:413)

EDTE:415 Talent Development and Training (3 Credits)

Prerequisites: EDTE 401 or permission from instructor. Examine the training function within talent development from a global perspective. Explore best practices for today's workforce. Identify emerging trends and training solutions. (Formerly 5400:415)

EDTE:420 eLearning by Design (3 Credits)

Experiences in using, developing and evaluating learning technologies and media used for instructional design and training. (Formerly 5400:420)

EDTE:430 Program Planning (3 Credits)

Process of program planning and evaluation for instructional design and training for a variety of adult learning organizations. (Formerly 5400:430)

EDTE:435 Systematic Instructional Design in Postsecondary Education (3 Credits)

Prerequisites or corequisites: EDTE 401, EDTE 420, EDTE 430, admission to program, or permission of instructor. Examination of instructional design models with particular emphasis of the ADDIE model. Study of applications to Instructional Design Technology. (Formerly 5400:435)

EDTE:475 Instructional Delivery (3 Credits)

Prerequisite: Permission of department. Implementation of instructional design principals in the proposal, design, development, implementation, assessment and evaluation (ADDIE) of eLearning and other delivery of training courses. (Formerly 5400:475)

EDTE:480 Globally Diverse Workforce (3 Credits)

Study of cultural pluralism and disability in the workplace and the best practices, as related to training in adult learning organizations. (Formerly 5400:480)

EDTE:481 Special Topics: Technical Education (1-4 Credits)

See department for course description. (Formerly 5400:481)

EDTE:490 Workshop: Technical Education (1-3 Credits)

Individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units. Delivered in a totally on-line format and face to face format with web enhancements. (Formerly 5400:490)

EDTE:495 Postsecondary Education Practicum (3 Credits)

Prerequisites: EDTE 400, EDTE 401, EDTE 405, EDTE 415, EDTE 420, EDTE 430, EDTE 435, and admission to the Postsecondary Technical Education program with a "C" or better in each EDTE course and a 2.5 or better overall GPA in EDTE courses, and an overall GPA of 3.0 or better. Directed instruction under the supervision of directing instructor and university supervisor, and development of instructional portfolio. (Formerly 5400:495)

EDTE:497 Independent Study: Technical Education (1-3 Credits)

Area of study determined by student's need. (Formerly 5400:497)

Curricular and Instructional Studies (EDCI)

EDCI:223 Urban Youth Mentoring (3 Credits)

Urban youth mentoring and mentorship theory and practice in school-based settings; including the completion of 30 hours of urban mentorship field experience. (Formerly 5500:223)

Gen Ed: - Complex Issues Facing Society

EDCI:230 Educational Technology (3 Credits)

Prerequisite: 13-15 sem. hrs. with a 'C' or better in specific GenEd courses; EDFN 200 (may be taken as prerequisite or corequisite); FBI/BCI background checks. Effectively identifying, locating, evaluating, designing, preparing, and efficiently using educational technology as instructional resource in the classroom to support learning and teaching. (Formerly 5500:230)

EDCI:240 Foundations of Literacy (3 Credits)

Focus on building blocks of teaching children how to read with an emphasis on literacy development and an emphasis on research-based components of reading instruction. (Formerly 5500:240)

EDCI:241 Word Study, Phonics & Spelling (3 Credits)

Prerequisite: EDCI 240. Candidates will explore a variety of genres, types of texts, resources, and instructional strategies to maximize students' comprehension, fluency, and vocabulary growth. (Formerly 5500:241)

EDCI:245 Understanding Literacy Development & Phonics (3 Credits)

Prerequisite: admission to Teacher Preparation Program. Children's literacy development is explored through an integrated instructional model, with emphasis on the role of comprehension, phonics, and functional spelling in language learning. (10 hours of service learning) (Formerly 5500:245)

EDCI:251 Teaching Personal Finance in the PK-12 Classroom (3 Credits)

Teacher candidates learn best practices in planning and implementing standards-based personal finance and economic instruction. (Formerly 5500:251)

EDCI:286 Teaching Multiple Texts (3 Credits)

Prerequisite: EDCI 240. Candidates will explore a variety of genres, types of texts, resources, and instructional strategies to maximize students' comprehension, fluency, and vocabulary growth. 10 field hours. (Formerly 5500:286)

EDCI:308 Instructional Design and Assessment (6 Credits)

Prerequisites: EDFN 220 and EDIS 225. Theoretical and practical foundations for standards-based instruction and assessment; including instructional design, assessment development, and classroom practice for all learners in diverse and inclusive settings. 30 Field Hours. (Formerly 5500:308)

EDCI:310 Instructional Design (3 Credits)

Prerequisites: EDFN 210, EDFN 211, and admission to LBJFF School of Education. Corequisite: EDCI 311. Design and teach lessons using instructional models, strategies, and resources for students with different characteristics and design appropriate assessments to measure content mastery. (Formerly 5500:310)

EDCI:311 Instructional Resources (3 Credits)

Prerequisites: EDFN 210, EDFN 211; Corequisite: EDCI 310. Examines existing and developing media, technological, human and environmental resources as they relate to learning. Includes identifying, locating, evaluating, using, designing, and preparing educational resources. (Formerly 5500:311)

EDCI:320 Diversity in Learners (3 Credits)

Prerequisites: EDFN 210, EDFN 211. Students learn to appreciate common core culture, the diversity in the student population and the democratic ideal of equal access to educational opportunity. (10 hours of field experience included.) (Formerly 5500:320)

EDCI:330 Classroom Management (3 Credits)

Prerequisites: EDFN 210, EDFN 211. Content regarding effective organization of the classroom as well as procedures and models for mediation of student behaviors will be presented. (Formerly 5500:330)

EDCI:341 Laboratory Practicum in Reading (3 Credits)

Prerequisite: EDCI 445. Laboratory experience with classroom, small groups and individual situations. A student diagnoses, implements procedures and follows prescribed reading improvement practices. (25.5 field hours) (Formerly 5500:341)

EDCI:360 Educational Planning: Instruction, Assessment and Classroom Management (3 Credits)

Prerequisites: EDCI 230, EDFN 200, EDFN 220; EDIS 225; prerequisite or corequisite: EDFN 300. Theoretical foundations for standards-based thematic units and lesson plans, classroom assessment and organization, including procedures and models for mediating student behavior and classroom management. (Formerly 5500:360)

EDCI:370 Educational Implementation: Instruction, Assessment and Classroom Management (3 Credits)

Prerequisites: EDCI 360, EDFN 300. Interpretation and application of standards-based thematic units and lesson plans; classroom assessment and organization, including mediation of student behaviors and classroom management. (Formerly 5500:370)

EDCI:403 Global Education & Technology (3 Credits)

This course focuses on theories, materials, and methods for teaching global education through e-learning and web-based tools. (Formerly 5300:303)

EDCI:430 Honors Research Project: Early Childhood (1-6 Credits)

Prerequisite: Permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry. (May be repeated for a total of six credits). (Formerly 5200:430)

EDCI:431 Honors Research Project: Secondary Education (1-6 Credits)

(May be repeated for a total of six credits) Prerequisite: Permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry. (Formerly 5300:430)

EDCI:432 Honors Research Project: Special Education (1-6 Credits)

(May be repeated for a total of six credits) Prerequisite: Permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry. (Formerly 5610:430)

EDCI:433 Honors Research Project: Middle Level Education (1-6 Credits)

(May be repeated for a total of six credits.) Prerequisites: Permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry. (Formerly 5250:430)

EDCI:439 Engineering for Educators (3 Credits)

Prerequisite: EDCI 308. Engineering design concepts and their applications course for teachers/teacher candidates. Students will engage in engineering problem solving activities and design lesson plans that address science and engineering practices. (Next Generation Science Standards) (Formerly 5500:439)

EDCI:440 Literacy in the Content Areas (3 Credits)

Prerequisite: EDCI 308. Prepare candidates to understand issues and use methods and materials to promote disciplinary literacy in middle and secondary classrooms (20 hours clinical). (Formerly 5500:440)

EDCI:442 Teaching Reading to Culturally Diverse Learners (3 Credits)

Prerequisites: EDCI 245, EDCI 286. The course is designed to provide students with knowledge, skills, and attitudes that will enable employment of effective methods of teaching reading to culturally different learners and/or learners whose language patterns are nonstandard. (Formerly 5500:442)

EDCI:445 Assessment and Instruction in Literacy (3 Credits)

Prerequisites: EDCI 240, EDCI 241, and [EDCI 286 or EDCI 440] with a grade of C or better. This course explores the assessment of students' progress in language literacy. Formal and informal instruments identifying progress in reading, writing, speaking, and listening are examined implemented. There are 30 hours of field experience included in this course. (Formerly 5500:445)

EDCI:450 Nature, History, and Philosophy of Science (3 Credits)

(May be repeated with a change in topic). Provides opportunities to examine the historical and philosophical perspectives of science in an online medium and the impact of science and technology on society. (Formerly 5500:450)

EDCI:455 Literacy for Multiage Licensure (3 Credits)

Prerequisite: Admission to Teacher Education Program. Organizing instruction, use of oral language development protocols, strategies for word skill development, comprehension and assessment as they relate to content areas. (Formerly 5500:455)

EDCI:456 Scaffolding Language and Content Learning for English Learners (3 Credits)

Prerequisite: ENGL 473. This course prepares students to use quality, research-based sheltered instruction for improving teaching effectiveness and accelerating academic achievement achievement for English learners. (Formerly 5500:456)

EDCI:458 Inclusive Field Experience (1 Credit)

Corequisite: EDIS 457. In this inclusive field experience, teacher candidates explore the challenges and best practices in providing quality educational services for all learners. (20 field hours) (Formerly 5500:458)

EDCI:475 Instructional Technology Applications (3 Credits)

Prerequisite: EDCI 230 and EDCI 360. Focus on developing learner competencies in the use of instructional technologies to enhance both the instructor's personal and professional productivity. (Formerly 5500:475)

EDCI:480 Special Topics: Curriculum & Instruction (1-6 Credits)

Group study of special topics of critical, contemporary concern in professional education. (May be repeated with a change in topic) (Formerly 5500:480)

EDCI:484 Principles of Bilingual/Multicultural Education (3 Credits)

An introduction to the theoretic, cultural, sociolinguistic bases of bilingual/multicultural education. Legislation, court decisions, program implementation included. (Formerly 5500:484)

EDCI:485 Teaching Literacy to English Learners (3 Credits)

Prerequisite: Admission to the LBJFF School of Education. Course applies methodologies for teaching literacy to English learners, assessment of literacy skills and development of materials. 12 field hours of field experience are required. (Formerly 5500:485)

EDCI:486 Teaching Mathematics, Social Studies & Science to Bilingual Students (3 Credits)

Prerequisites: Completion of all age-appropriate methods courses. Course applies methodologies for teaching mathematics, science, social studies in the bilingual/multicultural classroom. The bilingual student's native language stressed. (Formerly 5500:486)

EDCI:487 Techniques of Teaching English as a Second Language (3 Credits)

Course includes teaching language skills to Limited English Proficient students in grades K-12, administration of language assessment tests, selection and evaluation of materials. (10 field hours) (Formerly 5500:487)

EDCI:488 Practicum: Teaching English as a Second Language (2 Credits)

Prerequisites: EDCI 485 and EDCI 487. A practical experience in which teacher candidates observe, participate, and practice teaching in an ESL classroom under the supervision of an experienced, certified/licensed teacher. (Formerly 5500:488)

EDCI:490 Workshop: Curriculum & Instruction (1-3 Credits)

Emphasizes development of teaching devices and/or curriculum units, demonstration of teaching techniques. (Formerly 5500:490)

EDCI:491 Workshop: Curriculum & Instruction (1-3 Credits)

Emphasizes development of teaching devices and/or curriculum units, demonstration of teaching techniques. (Formerly 5500:491)

EDCI:492 Workshop: Curriculum & Instruction (1-3 Credits)

Emphasizes development of teaching devices and/or curriculum units, demonstration of teaching techniques. (Formerly 5500:492)

EDCI:497 Independent Study (1-3 Credits)

Prerequisite: Permission of advisor and department chair. Specific area of curriculum investigation pertinent to the general curriculum and instruction area as determined by student's academic needs. (Formerly 5500:497)

Special Education Programs (EDSP)

EDSP:492 Workshop in Reading (1-3 Credits)

Individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units. (Formerly 5800:492)

EDSP:493 Workshop on Exceptional Children (1-3 Credits)

Individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units. (Formerly 5800:493)

EDSP:494 International School Study (3-6 Credits)

On-the-scene study of education in foreign countries, usually by concentrating on the study of schools in one restricted geographical area. (Formerly 5800:494)

AYA Earth Science/Physics Licensure, BAE

Bachelor of Arts in Education, Adolescent to Young Adult Earth Science/Physics Licensure (Grades 7-12) (530600BA)

More on the Adolescent to Young Adult Earth Science/Physics Licensure major (<https://www.uakron.edu/education/academic-programs/undergraduate-programs.dot>)

Admission to this program has been suspended

School of Education Admission Requirements For Those Persons Seeking State of Ohio Licensure

All students must complete the following requirements for admission:

- School of Education Application for Admission.** Responses to the questions on the application will help School of Education advisors offer the most effective and efficient advisement. It will also help advisors know students as individuals with unique backgrounds

and experiences. Applications are available online at: <http://www.uakron.edu/education/academic-programs/how-to-apply.dot>.

- Intercollege Transfer (Undergraduate students only).** Those students enrolled in another college wishing to complete degree requirements in the School of Education should see their advisor to initiate an intercollege transfer to the School of Education. Those students may not access School of Education core courses prior to admission. Students planning to complete teacher education as part of their degree requirements in another college need not complete an ICT.
- Grade Point Average of 3.0 or better overall and 2.5 or better overall in prerequisite credit hours from specific courses identified by the School.**
- Evidence of competency in reading comprehension and writing as demonstrated by one of the following:**
 - A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of "B" or higher in a course that meets the University's General Education English Composition I requirement.
- Evidence of competency in mathematics as shown by one of the following:**
 - A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of "B" or better in a minimum of 3 credits of mathematics that meets the University's General Education mathematics requirement.
- Signed Criminal Background Check Acknowledgment Form**

The LeBron James Family Foundation School of Education
Zook Hall, Room 002
Akron, Ohio 44325-4201
(330) 972-7750

The following information has official approval of **The LeBron James Family Foundation School of Education** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	Professional Education Requirements for Undergraduate Science Students	39-44
	Content Requirements for Earth Science/Physics Licensure Students	73
	Additional Major Electives *	7-2
Total Hours		155

* This major requires a minimum of 155 completed credit hours.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking or COMM:10 Effective Oral Communication	
<i>Writing: 6 credit hours</i>		
ENGL:111	English Composition I	
ENGL:112	English Composition II	
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity		
Domestic Diversity		
Global Diversity		
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		36

Professional Education Requirements for Undergraduate Science Students ¹

Code	Title	Hours
Phase One:		
EDFN:200	Introduction to Education	3
EDFN:220	Educational Psychology	3
EDSE:100	Orientation to the AYA/P-12 Multi-Age Programs	0
EDSE:320	Introduction to Teaching in the Content Area	3
EDSE:420	Instructional Techniques in Secondary Education	3
EDSE:421	Instructional Techniques in Secondary Education - II	3
EDCI:308	Instructional Design and Assessment	6
EDSE:430	Clinical Teaching I	3
EDSE:431	Clinical Teaching II	3
EDCI:440	Literacy in the Content Areas	3
EDIS:225	Introduction to Exceptionalities	3
Phase Two:		
EDSE:495	Student Teaching: Secondary Education ²	6-11
Total Hours		39-44

¹ At least 39 credit hours with a grade of C or better and a GPA of 2.5 or better.

² All students must have the approval of the Student Teaching Committee, based upon approved application to student teaching, and passing OAE Content and Reading tests. Planned teaching experience in schools selected and supervised by the Office of Teacher Education and Licensure experiences. Co-requisite EDSE:496 Student Teaching Colloquium in Secondary Education. To qualify for student teaching, students must have a 2.5 GPA overall, 2.5 in education classes, and 2.5 in the student's major, in methods courses, core courses, and in their teaching field(s). Satisfactory completion of a minimum of 100 hours of field experience is also required before student teaching.

Content Requirements for Earth Science/Physics Licensure Students ¹

AYA Integrated Mathematics, BAE Bachelor of Arts in Education, Adolescent to Young Adult Integrated Mathematics Licensure (Grades 7-12) (530702BA)

More on the Adolescent to Young Adult Integrated Mathematics Licensure major (<https://www.uakron.edu/education/academic-programs/undergraduate-programs.dot>)

This program prepares secondary teacher candidates for licensure in Adolescent to Young Adult (AYA) - Integrated Mathematics in the State of Ohio.

School of Education Admission Requirements For Those Persons Seeking State of Ohio Licensure

All students must complete the following requirements for admission:

- School of Education Application for Admission.** Responses to the questions on the application will help School of Education advisors offer the most effective and efficient advisement. It will also help advisors know students as individuals with unique backgrounds and experiences. Applications are available online at: <http://www.uakron.edu/education/academic-programs/how-to-apply.dot>.
- Intercollege Transfer (Undergraduate students only).** Those students enrolled in another college wishing to complete degree requirements in the School of Education should see their advisor to initiate an intercollege transfer to the School of Education. Those students may not access School of Education core courses prior to admission. Students planning to complete teacher education as part of their degree requirements in another college need not complete an ICT.
- Grade Point Average of 2.5 or better overall and 2.5 or better overall in prerequisite credit hours from specific courses identified by the School.**
- Evidence of competency in reading comprehension and writing as demonstrated by one of the following:**
 - A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of "B" or higher in a course that meets the University's General Education English Composition I requirement.
- Evidence of competency in mathematics as shown by one of the following:**
 - A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of "B" or better in a minimum of 3 credits of mathematics that meets the University's General Education mathematics requirement.
- Signed Criminal Background Check Acknowledgment Form**

The LeBron James Family Foundation School of Education
Zook Hall, Room 002
Akron, Ohio 44325-4201
(330) 972-7750

The following information has official approval of **The LeBron James Family Foundation School of Education** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the

degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	Professional Education Requirements for Undergraduate Mathematics Students	44-39
	Content Requirements for Undergraduate Integrated Mathematics Students	39-41
	Additional Credits for Graduation *	1-4
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
	<i>Mathematics, Statistics and Logic: 3 credit hours</i>	
	<i>Speaking: 3 credit hours</i>	
COMM:105	Introduction to Public Speaking or COMM:10 Effective Oral Communication	
	<i>Writing: 6 credit hours</i>	
ENGL:111	English Composition I	
ENGL:112	English Composition II	
Breadth of Knowledge		22
	<i>Arts/Humanities: 9 credit hours</i>	
	<i>Natural Sciences: 7 credit hours</i>	
	<i>Social Sciences: 6 credit hours</i>	
Diversity		
	Domestic Diversity	
	Global Diversity	
Integrated and Applied Learning		2
	<i>Select one class from one of the following subcategories:</i>	
	Complex Issues Facing Society

AYA Life/Biology-Chemistry Licensure, BAE

Bachelor of Arts in Education, Adolescent to Young Adult Life/Biology-Chemistry Licensure (Grades 7-12) (530505BA)

More on the Adolescent to Young Adult Life/Biology-Chemistry Licensure major (<https://www.uakron.edu/education/academic-programs/undergraduate-programs.dot>)

This program prepares teachers of grades seven to twelve for licensure in Biology and Chemistry in the State of Ohio.

School of Education Admission Requirements For Those Persons Seeking State of Ohio Licensure

All students must complete the following requirements for admission:

- School of Education Application for Admission.** Responses to the questions on the application will help School of Education advisors offer the most effective and efficient advisement. It will also help advisors know students as individuals with unique backgrounds and experiences. Applications are available online at: <http://www.uakron.edu/education/academic-programs/how-to-apply.dot>.
- Intercollege Transfer (Undergraduate students only).** Those students enrolled in another college wishing to complete degree requirements in the School of Education should see their advisor to initiate an intercollege transfer to the School of Education. Those students may not access School of Education core courses prior to admission. Students planning to complete teacher education as part of their degree requirements in another college need not complete an ICT.
- Grade Point Average of 2.5 or better overall and 2.5 or better overall in prerequisite credit hours from specific courses identified by the School.**
- Evidence of competency in reading comprehension and writing as demonstrated by one of the following:**

- i. A composite ACT score of 21 or higher, or
 - ii. A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - iii. A grade of B or higher in a course that meets the University's General Education English Composition I requirement.
- e. **Evidence of competency in mathematics as shown by one of the following:**
- i. A composite ACT score of 21 or higher, or
 - ii. A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - iii. A grade of B or better in a minimum of 3 credits of mathematics that meets the University's General Education mathematics requirement.
- f. **Signed Criminal Background Check Acknowledgment Form**

The LeBron James Family Foundation School of Education
Zook Hall, Room 002
Akron, Ohio 44325-4201
(330) 972-7750

The following information has official approval of **The LeBron James Family Foundation School of Education** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)*	26
	Professional Education Requirements for Undergraduate Science Students	39
	Content Requirements for Life/Biology-Chemistry Licensure Students	4-75
Total Hours		139-140

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
	<i>Mathematics, Statistics and Logic: 3 credit hours</i>	

Speaking: 3 credit hours

COMM:105 Introduction to Public Speaking
or COMM:10 Effective Oral Communication

Writing: 6 credit hours

ENGL:111 English Composition I
ENGL:112 English Composition II

Breadth of Knowledge **22**

Arts/Humanities: 9 credit hours

Natural Sciences: 7 credit hours

Social Sciences: 6 credit hours

³ Planned teaching experience in schools selected and supervised by the Office of Student Teaching and Field Experience. Students must have approved application to student teaching, and pass appropriate OAE tests. To qualify for student teaching, students must have a 2.5 GPA overall, 2.5 in education classes, and 2.5 in student's major, in methods courses, core courses, and in their teaching fields. Satisfactory completion of a minimum of 100 hours of field experience is also required before student teaching.

Areas of Concentration ¹

Language Arts

Code	Title	Hours
ENGL:350	Black American Literature	3
ENGL:362	World Literatures	3

Middle Level Education, Dual Licensure, BSE

Bachelor of Science in Middle Level Education

- Language Arts and Science (520310BS)
- Language Arts and Mathematics (520311BS)
- Language Arts and Social Studies (520312BS)
- Science and Mathematics (520313BS)
- Science and Social Studies (520314BS)
- Mathematics and Social Studies (520315BS)

More on the Middle Level Education major (<https://www.uakron.edu/education/academic-programs/undergraduate-programs.dot>)

Program Description

This program prepares middle level teacher candidates for inclusive educational settings, serving needs of diverse learners including those with mild/moderate education needs. Students will complete two of four focus areas (Language Arts, Science, Mathematics, Social Studies) when completing this program.

School of Education Admission Requirements

All students must complete the following requirements for admission to the School of Education:

- School of Education Application for Admission.** Responses to the questions on the application will help School of Education advisors offer the most effective and efficient advisement. It will also help advisors know students as individuals with unique backgrounds and experiences. Applications are available online at: <http://www.uakron.edu/education/academic-programs/how-to-apply.dot>.
- Intercollege Transfer (Undergraduate students only).** Those students enrolled in another college wishing to complete degree requirements in the School of Education should see their advisor to initiate an intercollege transfer to the School of Education. Those students may not access School of Education core courses prior to admission. Students planning to complete teacher education as part of their degree requirements in another college need not complete an ICT.

- c. **Grade Point Average of 2.5 or better overall and 2.5 or better overall in prerequisite credit hours from specific courses identified by the School.**
- d. **Evidence of competency in reading comprehension and writing as demonstrated by one of the following:**
- A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of B or higher in a course that meets the University's General Education English Composition I requirement.
- e. **Evidence of competency in mathematics as shown by one of the following:**
- A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of B or better in a minimum of 3 credits of mathematics that meets the University's General Education mathematics requirement.
- f. **Signed Criminal Background Check Acknowledgment Form**

The LeBron James Family Foundation School of Education
Zook Hall, Room 002
Akron, Ohio 44325-4201
(330)972-7750

The following information has official approval of **The LeBron James Family Foundation School of Education** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	32
	Professional Education Requirements for Middle Level Education Students	65-66
	Areas of Concentration	28-34
	Total Hours	125-132

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		

Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.

Academic Foundations	12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>	
STAT:260	Basic Statistics
<i>Speaking: 3 credit hours</i>	
COMM:105	Introduction to Public Speaking
or COMM:106	Effective Oral Communication
<i>Writing: 6 credit hours</i>	
ENGL:111	English Composition I
ENGL:112	English Composition II
Breadth of Knowledge	22
<i>Arts/Humanities: 9 credit hours</i>	
HIST:250	U.S. History to 1877
or HIST:251	U.S. History since 1877
or POLIT:100	Government & Politics in the United States
<i>Natural Sciences: 7 credit hours</i>	
BIOL:103	Natural Science: Biology
CHEM:101	Chemistry for Everyone
or CHEM:111	Introduction to General, Organic & Biochemistry I (Lecture)
<i>Social Sciences: 6 credit hours</i>	
GEOG:100	Introduction to Geography ¹
or PSYC:100	Introduction to Psychology
or SOCIO:100	Introduction to Sociology
Diversity	
Domestic Diversity	
HIST:250	U.S. History to 1877
HIST:251	U.S. History since 1877
SOCIO:100	Introduction to Sociology
Global Diversity	
Integrated and Applied Learning	
<i>Select one class from one of the following subcategories:</i>	
Complex Issues Facing Society	
EDCI:223	Urban Youth Mentoring
Capstone	
<i>Review the General Education Requirements page for detailed course listings.</i>	
Total Hours	34

¹ If Social Studies is one of the chosen concentration areas, substitute PSYC:100 or SOCIO:100 in lieu of GEOG:100.

The following information has official approval of **The LeBron James Family Foundation School of Education** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	Professional Education Requirements for Moderate/Intensive Intervention Specialist Students	81
	Additional Credits for Graduation *	3
Total Hours		120

* Bachelor's degrees require a minimum of 120 credits hours for graduation.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:145	Algebra for Calculus	
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking	
	or COMM:106 Effective Oral Communication	
<i>Writing: 6 credit hours</i>		
ENGL:111	English Composition I	
ENGL:112	English Composition II	
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
CHEM:101	Chemistry for Everyone	
	or CHEM:111 (Introduction to General, Organic & Biochemistry I (Lecture)	

Social Sciences: 6 credit hours

PSYC:100	Introduction to Psychology
SOCIO:100	Introduction to Sociology

Diversity

Domestic Diversity

SOCIO:100	Introduction to Sociology
	Global Diversity

Integrated and Applied Learning 2

Primary Inclusive Teacher Preparation, BSE

Bachelor of Science in Primary Inclusive Teacher Preparation Program (Age 3 thru Grade 5) (561207BS)

More on the Inclusive Teacher Preparation major (<https://www.uakron.edu/education/academic-programs/undergraduate-programs.dot>)

The Primary Inclusive Teacher Preparation Program prepares teachers to effectively work in inclusive educational settings, serving needs of children from preschool through grade 5, typically developing children and/or with mild/moderate/intensive educational needs.

School of Education Admission Requirements For Those Persons Seeking State of Ohio Licensure

All students must complete the following requirements for admission:

- School of Education Application for Admission.** Responses to the questions on the application will help School of Education advisors

offer the most effective and efficient advisement. It will also help advisors know students as individuals with unique backgrounds and experiences. Applications are available online at: <http://www.uakron.edu/education/academic-programs/how-to-apply.dot>.

- Intercollege Transfer (Undergraduate students only).** Those students enrolled in another college wishing to complete degree requirements in the School of Education should see their advisor to initiate an intercollege transfer to the School of Education. Those students may not access School of Education core courses prior to admission. Students planning to complete teacher education as part of their degree requirements in another college need not complete an ICT.
- Grade Point Average of 2.5 or better overall and 2.5 or better overall in prerequisite credit hours from specific courses identified by the School.**
- Evidence of competency in reading comprehension and writing as demonstrated by one of the following:**
 - A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of "B" or higher in a course that meets the University's General Education English Composition I requirement.
- Evidence of competency in mathematics as shown by one of the following:**
 - A composite ACT score of 21 or higher, or
 - A composite SAT-R score of 1060 (Math and Verbal) or higher, or
 - A grade of "B" or better in a minimum of 3 credits of mathematics that meets the University's General Education mathematics requirement.
- Signed Criminal Background Check Acknowledgment Form**

Modern Languages

The Department of Modern Languages is committed to preparing all University of Akron students to succeed in the global economy and to become productive and engaged global citizens. Our students achieve linguistic competencies and multicultural literacies, develop critical-thinking and problem-solving skills and connect with diverse local, national, and international communities.

• Spanish

- The Spanish Major is designed for those students who are interested in developing their skills in the Spanish language and in gaining a broader perspective on and a deeper understanding of Spanish-speaking countries in Europe and Latin America. Spanish is the second-most commonly spoken language after English within the United States, and in today's economy, getting a good job within any customer service-related industry is greatly enhanced by the ability to speak Spanish.

- Advanced Spanish for Health Professions and First Responders, Certificate (p. 204)
- Arabic Language and Culture, Minor (p. 204)

- Beginning Medical Spanish, Certificate (p. 205)
- French, Minor (p. 205)
- Spanish Language and Hispanic Cultures for International Business, Certificate (p. 206)
- Spanish, BA (p. 206)
- Spanish, Minor (p. 207)

Modern Languages (MODL)

MODL:101 Beginning Modern Language I (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3500:101)

MODL:102 Beginning Modern Language II (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3500:102)

MODL:201 Intermediate Modern Language I (3 Credits)

Sequential. Prerequisite: MODL 102 or equivalent. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3500:201)

MODL:202 Intermediate Modern Language II (3 Credits)

Sequential. Prerequisite: MODL 201 or equivalent. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3500:202)

MODL:422 Modern Languages: Special Topics in Advanced Language Skills, or Culture, or Literature (1-4 Credits)

Prerequisite: Modern Languages MODL 202 or equivalent. Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (Formerly 3500:422)

MODL:490 Workshop in Modern Languages (1-4 Credits)

Prerequisite: Permission of instructor. (May be repeated for a total of 8 credits) Group studies of special topics in modern languages. (Formerly 3500:490)

MODL:497 Individual Readings in Modern Languages (1-3 Credits)

Prerequisites: MODL 202 and permission of department chair. (Formerly 3500:497)

MODL:498 Senior Honors Project (1-3 Credits)

(May be repeated for a total of six credits) Prerequisites: senior standing in Honors Program and permission. Open only to language major enrolled in Honors Program. Independent study leading to completion of senior honors thesis or other original work. (Formerly 3500:498)

MODL:522 Modern Languages: Special Topics in Advanced Language Skills or Culture, or Literature (1-4 Credits)

See department for course description. (Formerly 3500:522)

MODL:590 Workshop in Modern Language (1-4 Credits)

Prerequisite: graduate status or permission of department. (May be repeated for a maximum of eight credits) Group studies of special topics in modern languages. (Formerly 3500:590)

MODL:597 Individual Reading in Modern Languages (1-4 Credits)

Prerequisite: Graduate status and permission of the instructor and department chair. Individual study under the guidance of professor who directs and coordinates student's reading and research. The general designation of MODL is used for languages that do not have a specific department number (i.e., Arabic, Chinese, Portuguese, etc.). May be repeated with departmental permission. (Formerly 3500:597)

Arabic (ARAB)

ARAB:101 Beginning Arabic I (4 Credits)

Sequential. Acquisition of basic speaking, listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3501:101)

ARAB:102 Beginning Arabic II (4 Credits)

Sequential. Prerequisite: ARAB 101 or equivalent. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3501:102)

ARAB:201 Intermediate Arabic I (4 Credits)

Sequential. Prerequisite: ARAB 102 or equivalent. Continuing acquisition of competence in speaking, listening comprehension, reading and writing through use of culturally authentic materials, with emphasis on developing accuracy and self-expression. (Conducted in Arabic). (Formerly 3501:201)

ARAB:202 Intermediate Arabic II (4 Credits)

Sequential. Prerequisite: ARAB 201 or equivalent. Continuing acquisition of competence in speaking, listening comprehension, reading and writing through use of culturally authentic materials, with emphasis on developing accuracy and self-expression. (Conducted in Arabic). (Formerly 3501:202)

ARAB:210 Arabic Culture through Film (3 Credits)

Prerequisites: 32 credit hours including English Composition I and II [ENGL 111 and ENGL 112] or equivalent. Exploration of Arabic culture through viewing of films subtitled in English. Readings and discussions in English. Does not count toward minor in Arabic. (Formerly 3501:210)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

ARAB:301 Composition and Conversation (4 Credits)

Prerequisite: ARAB 202 or equivalent. Further development of language skills acquired at the intermediate level: Writing, Speaking, Listening Comprehension and Reading. (Conducted in Arabic). (Formerly 3501:301)

ARAB:302 Arabic Media (4 Credits)

Prerequisite: ARAB 202 or equivalent. Further development of practical language skills with a focus on Arabic media. The course also will enrich students understanding of Arabic culture. (Conducted in Arabic). (Formerly 3501:302)

ARAB:303 Introduction to Modern Arabic Literature (4 Credits)

Prerequisite: ARAB 202 or equivalent. Enhancement of students' communicative skills with emphasis on development of the ability to read, appreciate and discuss Modern Arabic Literature. (Conducted in Arabic). (Formerly 3501:303)

ARAB:304 Cultural Readings in Arabic (4 Credits)

Prerequisite: ARAB 202 or equivalent. Enhancement of communicative skills in Arabic with a focus on development of the ability to read, appreciate and discuss Arabic writing. (Conducted in Arabic). (Formerly 3501:304)

ARAB:311 Arabic Cultural Experience Abroad (1-8 Credits)

Prerequisite: Permission of Department Chair. Residence and study abroad in an Arabic-speaking country. May be repeated once with different content. Only 8 credits allowable for minor in Arabic. (Formerly 3501:311)

ARAB:422 Special Topics in Arabic (1-4 Credits)

Prerequisite: Two of the group of [ARAB 301, ARAB 302, ARAB 303, ARAB 304] or permission of instructor. Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (Conducted in Arabic.) (May be repeated once with different topic for a maximum total of 8 credits.) (Formerly 3501:422)

ARAB:497 Individual Reading in Arabic (1-4 Credits)

Prerequisite: ARAB 202 and permission of the instructor and department chair. Individual study under the guidance of professor. May be repeated once with departmental permission for a total of 8 credits. (Formerly 3501:497)

Chinese (CHIN)

CHIN:101 Beginning Chinese I (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing, and listening comprehension skills, with emphasis on development of self-expression in everyday situations through culturally authentic media and texts. (Formerly 3502:101)

CHIN:102 Beginning Chinese II (4 Credits)

Sequential. Prerequisite: CHIN 101 or equivalent. Acquisition of basic reading, speaking, writing, and listening comprehension skills, with emphasis on development of self-expression in everyday situations through culturally authentic media and texts. (Formerly 3502:102)

CHIN:201 Intermediate Chinese I (4 Credits)

Sequential. Prerequisite: CHIN 102 or equivalent. Continuing acquisition of speaking, listening, comprehension, reading, and writing competency through use of culturally authentic materials; emphasis on developing accuracy of self-expression. (Conducted in Chinese.) (Formerly 3502:201)

CHIN:202 Intermediate Chinese II (4 Credits)

Sequential. Prerequisite: CHIN 201 or equivalent. Continuing acquisition of speaking, listening, comprehension, reading, and writing competency through use of culturally authentic materials; emphasis on developing accuracy of self-expression. (Conducted in Chinese.) (Formerly 3502:202)

CHIN:210 Chinese Culture Through Film (3 Credits)

Prerequisites: 32 credit hours including ENGL 111 and ENGL 112 or equivalent. Exploration of Chinese culture through viewing of films subtitled in English. Readings and discussions in English. Does not count toward minor in Chinese. (Formerly 3502:210)

Gen Ed: - Humanities

CHIN:301 Chinese Conversation (4 Credits)

Prerequisite: CHIN 202 or equivalent. Continuing development of oral expression, listening comprehension and conversational ability, with emphasis on expressing and supporting opinions. (Conducted in Chinese.) (Formerly 3502:301)

CHIN:302 Chinese Composition (4 Credits)

Prerequisite: CHIN 202 or equivalent. Development of writing skills through intensive practice and study of written expression in Chinese. Emphasis on composing extensive descriptive narrations and personal letters. (Conducted in Chinese.) (Formerly 3502:302)

CHIN:303 Chinese Conversation Through Media (4 Credits)

Sequential. Prerequisite: CHIN 202 or equivalent. Development of oral expression and listening comprehension, with emphasis on discussing current topics and expressing and supporting opinions based on media clips. (Conducted in Chinese.) (Formerly 3502:303)

CHIN:304 Chinese Reading and Writing (4 Credits)

Prerequisite: CHIN 202 or equivalent. Continuing development of reading ability through study of Chinese publications, and writing summaries of the texts. (Conducted in Chinese.) (Formerly 3502:304)

CHIN:311 Chinese Cultural Experience Abroad (1-8 Credits)

Prerequisite: Residence and study abroad in a Chinese-speaking country. May be repeated once with different content. Only 8 credits allowable for minor in Chinese. (Formerly 3502:311)

CHIN:422 Special Topics in Language Skills, or Culture or Literature (1-4 Credits)

Prerequisite: Two of the group [CHIN 301, CHIN 302, CHIN 303, CHIN 304]. Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (May be repeated once under different topic for a total of 8 credits.) (Formerly 3502:422)

CHIN:497 Individual Reading in Chinese (1-4 Credits)

Prerequisite: CHIN 202. Individual study under guidance of professor who directs and coordinates student's reading and research. May be repeated once for a total of 8 credits. (Formerly 3502:497)

Latin (LATN)

LATN:101 Beginning Latin I (4 Credits)

Sequential. Reading, writing and translation; oral and written drill; analysis of grammatical structure and English vocabulary building. (Formerly 3510:101)

LATN:102 Beginning Latin II (4 Credits)

Sequential. Prerequisite: LATN 101 or equivalent. Reading, writing and translation; oral and written drill; analysis of grammatical structure and English vocabulary building. (Formerly 3510:102)

LATN:190 The Making of English Words from Latin and Greek Elements (3 Credits)

The influence of Latin and Greek on English vocabulary with some attention to the use of these languages in the scientific and legal fields. No foreign language is necessary. (Formerly 3510:190)

LATN:201 Intermediate Latin I (3 Credits)

Prerequisite: LATN 102 or equivalent. A survey of readings of the less difficult authors such as Pliny, Caesar, Plautus, Cicero's Letters or equivalent material. (Formerly 3510:201)

LATN:202 Intermediate Latin II (3 Credits)

Prerequisite: LATN 201 or equivalent. A survey of readings of the less difficult authors such as Pliny, Caesar, Plautus, Cicero's Letters or equivalent material. (Formerly 3510:202)

LATN:303 Advanced Latin I (3 Credits)

Prerequisites: LATN 202 or equivalent. Satirists, dramatists, philosophical, religious writers, lyric and elegiac poets, medieval writers. (May be repeated for credit with change of subject) (Formerly 3510:303)

LATN:304 Advanced Latin II (3 Credits)

Prerequisite: LATN 202 or equivalent. Satirists, dramatists, philosophical, religious writers, lyric and elegiac poets, medieval writers. (May be repeated for credit with change of subject) (Formerly 3510:304)

LATN:497 Latin Reading & Research (3 Credits)

Generally Latin epigraphy, prose composition or philology; numismatics or certain other archaeological topics may be offered. (May be repeated for credit with change of subject) (Formerly 3510:497)

LATN:498 Latin Reading & Research (3 Credits)

Generally Latin epigraphy, prose composition or philology; numismatics or certain other archaeological topics may be offered. (May be repeated for credit with change of subject) (Formerly 3510:498)

French (FREN)**FREN:101 Beginning French I (4 Credits)**

Sequential. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3520:101)

FREN:102 Beginning French II (4 Credits)

Sequential. Prerequisite: FREN 101 or placement test. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3520:102)

FREN:201 Intermediate French I (3 Credits)

Sequential. Prerequisite: FREN 102 or placement test. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3520:201)

FREN:202 Intermediate French II (3 Credits)

Sequential. Prerequisite: FREN 201 or placement test. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3520:202)

FREN:210 French and Francophone Cultures Through Film (3 Credits)

Prerequisites: Sophomore or higher standing (30 credit hours including ENGL 111 and ENGL 112) or equivalent. Exploration of French and Francophone cultures through viewing of films subtitled in English. Readings and discussions in English. (Formerly 3520:210)

Gen Ed: - Humanities; - Global Diversity

FREN:300 Contemporary French and Francophone Cultures (3 Credits)

Prerequisite: FREN 202. Introduction to contemporary lives and cultures in France and other Francophone countries as portrayed in recent documents, literary works and films. (Formerly 3520:300)

FREN:301 French Conversation (3 Credits)

Sequential. Prerequisite: FREN 202 or placement test. Development of speaking skills beyond the intermediate level. Practice of listening comprehension, correct pronunciation, extended and grammatically sound discourse. May be repeated for a total of six credits. (Formerly 3520:301)

FREN:302 French Composition (3 Credits)

Sequential. Prerequisite: FREN 202. Development of writing skills beyond intermediate level. (Formerly 3520:302)

FREN:303 French Culture & Civilization I (3 Credits)

Prerequisite: FREN 202 or equivalent. History of France and French cultural heritage from its origins to mid-20th century. (Formerly 3520:303)

FREN:304 French Culture & Civilization II (3 Credits)

Prerequisite: FREN 202 or equivalent. Modern history of France. Focus on political and social trends since 1960. (Formerly 3520:304)

FREN:305 Introduction to French Literature I (3 Credits)

Prerequisite: FREN 202. Survey of French literature from its origins to present, with lectures, reading and class discussion of representative works. (Formerly 3520:305)

FREN:306 Introduction to French Literature II (3 Credits)

Prerequisite: FREN 202. Survey of French literature from its origins to present, with lectures, reading and class discussion of representative works. (Formerly 3520:306)

Prerequisite: Permission of the French section advisor. May be taken for a total of six credits. No more than three credits may be applied toward a FREN major. Student's residence and independent study/project in French-speaking country which results in demonstrable understanding of the country's culture (Formerly 3520:312)

FREN:315 French Phonetics (3 Credits)

Pre/Corequisite: FREN 202 or equivalent. Intensive drill in pronunciation with correction and improvement of student's accent, emphasis on articulation, intonation and rhythm. (Formerly 3520:315)

FREN:350 Themes in French Literature in Translation (3 Credits)

Prerequisite: HIST 210 or HIST 221. (May not be taken for credit toward the French major) Readings, discussion of novels and plays relating to selected themes of French literature. Texts and discussion in English. (Formerly 3520:350)

FREN:351 Translation: French (3 Credits)

Prerequisite: FREN 202. Study of translation techniques, both French to English and English to French. Emphasis on stylistics and interpretation of idioms. (Formerly 3520:351)

FREN:352 Translation: Business French (3 Credits)

Prerequisite: FREN 351 or equivalent. Application of translation techniques with particular stress on business styles, formats, and vocabulary. Especially recommended for students interested in international business. (Formerly 3520:352)

FREN:402 Advanced French Grammar (3 Credits)

Prerequisite: FREN 302. Advanced study of normative French grammar with emphasis on syntax, morphology, grammatical structure and phonetic principles. (Formerly 3520:402)

FREN:403 Advanced French: Written and Oral Communication (3 Credits)

Prerequisite: [FREN 301 and FREN 302] or permission. Development of writing and speaking skills beyond that achieved in 301 and 302 through intensive practice and grammar review. (Formerly 3520:403)

FREN:407 French Literature of the Middle Ages & the Renaissance (4 Credits)

Prerequisite: FREN 305 or FREN 306. Reading and discussion of selected Medieval and Renaissance literary works. Conducted in French. (Formerly 3520:407)

FREN:413 French Cinema (3 Credits)

Prerequisites: FREN 301 or FREN 302 or permission from instructor. Study and discussion of various aspects of French culture and civilization as characterized in movies. (Formerly 3520:413)

FREN:419 19th Century French Literature (4 Credits)

Prerequisite: FREN 305 or FREN 306. Reading and discussion of selected works pertaining to romantic, realistic and naturalistic movements. Conducted in French. (Formerly 3520:419)

FREN:422 French: Special Topics in Advanced Language Skills, Culture or Literature (1-4 Credits)

Prerequisite: FREN 202. (May be repeated) Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (Formerly 3520:422)

FREN:427 20th Century French Literature (4 Credits)

Prerequisite: FREN 305 or FREN 306 or equivalent. Reading and discussion of the most representative works of period. Conducted in French. (Formerly 3520:427)

FREN:430 Contemporary Quebec (3 Credits)

Prerequisite: FREN 301 or FREN 302 or permission. Historical, political, sociological and cultural overviews of Québec, offering an in-depth examination of questions of identity through the study of literature and popular culture. (Formerly 3520:430)

FREN:431 Francophone Literature (3 Credits)

Prerequisite: FREN 300 or FREN 301 or FREN 302 or permission. The problematics of identity (race, class) in postcolonial context, studied through literary texts by authors from Africa, Caribbean, and Québec. (Formerly 3520:431)

FREN:460 Selected Themes in French Literature (3 Credits)

(May be repeated.) Conducted in French. Prerequisites: FREN 305 and FREN 306. Reading and discussion of literary works selected according to an important theme. (Formerly 3520:460)

FREN:497 Individual Reading in French (1-3 Credits)

Prerequisite: FREN 202 and permission of department chair. (Formerly 3520:497)

FREN:498 Individual Reading in French (1-3 Credits)

Prerequisite: FREN 202 and permission of department chair. (Formerly 3520:498)

German (GERM)

GERM:101 Beginning German I (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3530:101)

GERM:102 Beginning German II (4 Credits)

Sequential. Prerequisite: GERM 101 or equivalent. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3530:102)

GERM:201 Intermediate German I (3 Credits)

Sequential. Prerequisite: GERM 102 or equivalent. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3530:201)

GERM:202 Intermediate German II (3 Credits)

Sequential. Prerequisite: GERM 201 or equivalent. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3530:202)

GERM:301 German Conversation & Composition (3 Credits)

Prerequisite: GERM 202 or equivalent. Advanced composition using German models, special attention to words and idioms, development of oral expression and conversational ability. (Formerly 3530:301)

GERM:302 Special Topics in German Conversation & Composition (3 Credits)

Prerequisite: GERM 202 or equivalent or permission of instructor. May be repeated for credit. Special attention to development of oral expression and conversational ability. (Formerly 3530:302)

GERM:310 Sex, Violence, & Terror in German Fairy Tales (3 Credits)

Exploration of historical context of German fairy tales and interpretation plus modern significance of texts according to Jungian archetypal psychology. Readings and discussions in English. (Formerly 3530:310)

GERM:403 Advanced German Conversation & Composition (3 Credits)

Prerequisite: GERM 302 or equivalent. Thorough analysis of syntax, morphology, phonetic principles and grammatical structure. (Formerly 3530:403)

GERM:404 Advanced German Conversation & Composition (3 Credits)

Prerequisite: GERM 302 or equivalent. Thorough analysis of syntax, morphology, phonetic principles and grammatical structure. (Formerly 3530:404)

GERM:406 German Culture & Civilization (3 Credits)

Prerequisite: GERM 302 or equivalent. Particular emphasis on customs, traditions, literary trends and artistic tendencies that constitute German's contribution to Western civilization. (Formerly 3530:406)

GERM:407 German Culture & Civilization (3 Credits)

Prerequisite: GERM 302 or equivalent. Particular emphasis on customs, traditions, literary trends and artistic tendencies that constitute German's contribution to Western civilization. (Formerly 3530:407)

GERM:422 German: Special Topics in Advanced Language Skills or Culture or Literature (1-4 Credits)

Prerequisite: GERM 202 or equivalent. (May be repeated) Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (Formerly 3530:422)

GERM:497 Individual Reading in German (1-3 Credits)

Prerequisite: GERM 202 and permission of department chair. (Formerly 3530:497)

GERM:498 Individual Reading in German (1-3 Credits)

Prerequisite: GERM 202 and permission of department chair. (Formerly 3530:498)

Italian (ITAL)

ITAL:101 Beginning Italian I (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3550:101)

ITAL:102 Beginning Italian II (4 Credits)

Sequential. Prerequisite: ITAL 101. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3550:102)

ITAL:201 Intermediate Italian I (3 Credits)

Sequential. Prerequisite: ITAL 102 or equivalent. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3550:201)

ITAL:202 Intermediate Italian II (3 Credits)

Sequential. Prerequisite: ITAL 102 or equivalent. Continuing acquisition of competence in reading, writing, speaking, and listening comprehension through use of culturally authentic materials, with emphasis on developing accuracy and self-expression in a wide range of situations. (Formerly 3550:202)

ITAL:301 Italian Composition & Conversation (3 Credits)

Prerequisite: ITAL 202 or equivalent. Italian composition using Italian models, special attention to words and idioms and development of oral expression and conversational ability. (Formerly 3550:301)

ITAL:302 Italian Composition & Conversation (3 Credits)

Prerequisite: ITAL 202 or equivalent. Italian composition using Italian models, special attention to words and idioms and development of oral expression and conversational ability. (Formerly 3550:302)

ITAL:422 Italian: Special Topics in Advanced Language Skills, or Culture, or Literature (1-4 Credits)

Prerequisite: ITAL 202 or equivalent. (May be repeated) Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (Formerly 3550:422)

ITAL:497 Individual Reading in Italian (1-3 Credits)

Prerequisite: ITAL 202 and permission of the department chair. (Formerly 3550:497)

Japanese (JAPN)

JAPN:101 Beginning Japanese I (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing, and listening comprehension skills. (Formerly 3560:101)

JAPN:102 Beginning Japanese II (4 Credits)

Sequential. Prerequisite: JAPN 101 or equivalent. Acquisition of basic reading, speaking, writing, and listening comprehension skills. (Formerly 3560:102)

JAPN:201 Intermediate Japanese I (3 Credits)

Sequential. Prerequisite: JAPN 102 or equivalent. Continuing development of reading, writing, speaking, and listening comprehension skills. (Formerly 3560:201)

JAPN:202 Intermediate Japanese II (3 Credits)

Sequential. Prerequisite: JAPN 201 or equivalent. Continuing development of reading, writing, speaking, and listening comprehension skills. (Formerly 3560:202)

JAPN:210 Japanese Culture through Film (3 Credits)

Prerequisites: A minimum of Sophomore standing or higher and completion of English Composition I and II (ENGL 111 and ENGL 112) or equivalent. Exploration of various aspects of Japanese culture through viewing of films. Films are subtitled in English. Readings and discussions in English. (Formerly 3560:210)

Gen Ed: - Humanities; - Global Diversity

JAPN:301 Advanced Intermediate Japanese I (3 Credits)

Prerequisite: JAPN 202 or placement. Course focuses on intermediate-advanced speaking, listening, writing, and reading skills in Japanese, as well as cultural proficiency. (Formerly 3560:301)

JAPN:422 Special Topics in Language Skills, or Culture, or Literature (3 Credits)

Prerequisite: JAPN 202 or equivalent. (May be repeated). Development of specialized language skills or reading of significant works of literature or culture not studied in other courses. (Formerly 3560:422)

JAPN:497 Individual Reading in Japanese (1-3 Credits)

Prerequisite: JAPN 202 or permission of the department chair. Directed study in an area of individual interest chosen by the student in consultation with the instructor. (Formerly 3560:497)

Spanish (SPAN)

SPAN:101 Beginning Spanish I (4 Credits)

Sequential. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3580:101)

SPAN:102 Beginning Spanish II (4 Credits)

Sequential. Prerequisite: SPAN 101. Acquisition of basic reading, speaking, writing and listening comprehension skills, with emphasis on development of self-expression in everyday situations, through culturally authentic media and texts. (Formerly 3580:102)

SPAN:103 Intensive First Year Spanish-Hybrid (4 Credits)

Prerequisites: Permission of Department of Modern Languages. First year elementary Spanish in hybrid format for those who have some experience learning Spanish. (Formerly 3580:103)

SPAN:104 Beginning Medical Spanish I (3 Credits)

Development of basic Spanish medical oral expression by studying health terminology and practicing conversational skills. Development of an awareness of Hispanic cultures. Conducted in Spanish. (Formerly 3580:104)

SPAN:105 Beginning Medical Spanish II (3 Credits)

Prerequisites: Completion of SPAN 104 with a C+ or better. Development of basic Spanish medical written expression by studying health terminology and practicing writing. Development of an awareness of Hispanic cultures. Conducted in Spanish. (Formerly 3580:105)

Program Contact

Prof. Eihab Abousena
Professor of Instruction, Modern Languages
330-972-7486
eta1@uakron.edu (dfrase@uakron.edu)

A knowledge of the Arabic language and culture will offer individuals greater access to careers in fields such as business, diplomacy, journalism, defense, public policy, health care, and more. In careers that involve interaction with native Arabic speakers, knowing Arabic will increase credibility and the ability to build strong relationships. (19 credits required).

The following information has official approval of the **Department of Modern Languages** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Arabic Language and Culture" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. 12 credits must be at the 300 level or higher. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Spanish Language and Hispanic Cultures for International Business, Certificate

Certificate in Spanish Language and Hispanic Cultures for International Business (358002C)

The Certificate of Spanish Language and Hispanic Cultures for International Business prepares students to meet the challenges of doing business in the Spanish-speaking world. This certificate aims to give the advanced students of Spanish a foundation in business vocabulary, basic business and cultural concepts, and situational practice that will prepare them to function competently in today's Spanish-speaking world. Students will gain a practical knowledge of global diversity, global business relationships, and practice critical thinking on international current events and challenges facing both businesses today.

Requirements for Admission

All prerequisites must be satisfied prior to enrollment in required courses.

Spanish, BA

Bachelor of Arts in Spanish (358000BA)

More on the Spanish major (<https://www.uakron.edu/modlang/academics/undergraduate/spanish-major-information.dot>)

Departmental Requirements

Completion of 28 credits above the second year (200 level): including at least one 400-level language course and one 400-level culture course, which must be taken at The University of Akron. All courses taken toward completion of the requirements for the Spanish major must be passed with a grade of C or better in order to count toward fulfillment of the major requirements. Minimum Upper Division: Excluding workshops is 40 credits, Department credits is 28, Elective credits 36 and the minimum GPA/Major and Cumulative GPA is a 2.0.

The following information has official approval of **The Department of Modern Languages** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be

earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program ([CCP](#)) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

¹ At least 12 credits must be at the 300 level or higher

Music

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions (<https://www.uakron.edu/admissions/>). A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument. Once students have matriculated, they are required to complete The Undergraduate Placement Examination in Music Theory and be evaluated in keyboard skills. Prospective students should contact the School of Music for information on specialized programs.

A student receiving a grade below C- in a required music course must repeat the course. Music Education majors receiving a grade below C in a required music course must repeat the course.

Changing Major Instruments

A student may later change their declared major instrument after being admitted to the School of Music, but must then audition and satisfy all requirements for the new area as an entering student.

Applied Music Requirements

Studio Study (Private Lessons) - Skill in at least one major area of performance must be progressively developed to the highest level appropriate to the student's major. All students majoring in music are required to enroll in applied music on their declared major instrument every semester. A performance major in the Bachelor of Music program must enroll for four credits in applied music each semester which equates to a one-hour lesson or two half-hour lessons each week. All other students enroll for two credits in applied music on their declared major instrument each semester which equates to a half-hour lesson each week.

Because of the tutorial nature of applied music study, there is an additional fee for applied music registration beyond the normal credit-hour tuition and general service fee.

The offering of applied music instruction is dependent upon the availability of instructors. Although students may request study with a given instructor, the audition does not guarantee study with a particular member of the faculty. The priority for assignment is as follows:

- collegiate music majors;
- music minors;
- non-music majors who are members of University performing ensembles;
- pre-college students in the high school/college program of the School of Music; and,
- all others.

Students will not be eligible for applied music study if:

- they fail to pass the entrance audition;
- a particular instructor's studio is full;
- the quality of work demonstrated is judged unacceptable by the applied instructor; or
- faculty in the student's applied area conclude on the basis of a jury that a continuation of applied study is not merited.

Students in the studio are expected to exhibit a mature attitude and productive behavior.

Levels of Applied Music Study

The study of applied music is divided into five course levels. These conform to levels of proficiency and the requirements of the various degree programs. Entrance to applied music is by audition. Advancement in level is by promotional jury examination only.

MUSAP 000 Level for elective credit in non-music programs, pre-college adults, preparatory program enrollment, and for correcting deficiencies before permission is granted to enroll at the 100 level. Credits in applied music at this level cannot be counted toward any degree requirements in music.

Music majors may apply a maximum of eight credits from any of the following levels to their degree program. A maximum of 32 credits may be counted toward degree requirements.

MUSAP 100 - Freshman level
 MUSAP 200 - Sophomore level
 MUSAP 300 - Junior level
 MUSAP 400 - Senior level

Minimum Performance Levels Required by Degree Program

- **Bachelor of Arts** - Eight credits and completion of the 200 level in the primary applied performance area. No recital is required.
- **Bachelor of Music in Performance Major** — Thirty-two credits and completion of the 400 level in the primary applied performance area. A junior recital is required at the 300 level. A full senior recital is also required.
- **Bachelor of Music in Composition Major** — Sixteen credits and completion of the 200 level in the primary applied performance area. A full senior composition recital is required.
- **Bachelor of Music in Music Education** — Sixteen credits and completion of the 300 level in the primary applied performance area. A half senior recital is required.
- **Bachelor of Music in Jazz Studies** — Sixteen credits and completion of the 200 level in the primary applied performance area; additional completion of the 100 level in flute and clarinet for saxophone majors and the 200 level in classical guitar for electric guitar majors. A full senior recital is required.

Jury System in Applied Music

A promotional jury is the only way in which a student may advance from one course level to another. Each music major may take a promotional jury in his/her primary applied performance area once each year, after two semesters of study, and/or after the minimum number of credits is attained. However, a faculty member may require a student to take additional semesters of study prior to a promotional jury.

Each applied area is empowered to terminate applied study, and applied study will be terminated after three attempts at the same promotional jury level. A promotional jury may be used by a student studying applied music at the 000 level as an audition to the 100 level.

Applied Repertory of Study

Each applied music section (brass, composition, guitar, keyboard, percussion, piano, strings, voice, and woodwinds) has a published

repertory of study requirements for each of the course levels. These requirements are available from the Applied Area Coordinator, individual applied instructors, and the School of Music (<https://www.uakron.edu/music/>) office.

Studio Classes

Each music major is required to attend the weekly 50-minute class taught by his applied instructor. Attendance at studio class is part of the requirement for applied music study, and reflects in the student's grade in applied music. Performances in studio class are determined by the student's applied instructor.

Sectional Recitals

Each applied section holds a sectional recital each week. Attendance by students studying in the section is required. Performances in sectionals are determined by the student's applied instructor and area coordinator.

Applied Study for Non-music Majors

Non-music majors may enroll for applied music with the permission of the individual applied instructor or the area coordinator, whichever is appropriate to the area of study. Acceptance for studio study is based upon an audition, usually given the first week of classes. Only students who meet applied studio standards will be accepted for applied instruction. Non-music majors may be prohibited from enrolling in applied lessons if their instructor is not a full-time faculty member.

Recital Attendance Requirements

Bachelor of Music majors are required to enroll and receive credit for eight semesters of MUSIC:157 School of Music Performance Seminar. Bachelor of Arts music majors are required to enroll and receive credit for four semesters. MUSIC:157 School of Music Performance Seminar carries no academic credit and has no fee. Further information on the attendance requirement is available in the School of Music office.

Ensemble Requirement

Enrollment in all ensembles requires permission of the instructor.

Major Conducted Ensemble Requirement

Students who are music majors must enroll for eight semesters in a major conducted performance ensemble on their declared major instrument. Guitar and keyboard majors should refer to the Memo of Agreement for specific ensemble requirements. Auditions for membership are held each year and occasionally each semester. All music majors are required to enroll in the major conducted ensemble as assigned by faculty and appropriate to their primary performance area every fall and spring semester.

Students pursuing a Bachelor of Music major in Performance, Theory, Composition, and Music Education must complete a minimum of eight semesters. However, keyboard majors in Music Education may substitute one year of a major choral ensemble in place of a Keyboard Ensemble. Four semesters are required for Jazz Studies majors, music minors, and those pursuing the Bachelor of Arts degree in music. Students who do not complete degree requirements within eight semesters must continue to enroll in a major conducted ensemble each semester until all graduation requirements are met, except during the semester when student teaching.

Major conducted Ensembles include: Concert Choir, Guitar Ensemble, Keyboard Ensemble, Wind Symphony, Symphonic Band, Concert Band, and University Symphony Orchestra.

Non-major Conducted Ensemble Requirement

Non-major conducted ensembles may be taken in addition to, but not instead of, major conducted ensembles. Jazz Studies majors are required to complete eight credits in jazz ensembles in addition to four semesters of major conducted ensembles. Non-major conducted Ensembles include: the Akron Symphony Chorus, Brass Choir, Chamber Orchestra, Instrumental Ensembles, Jazz Ensemble, Jazz Lab Band, Marching Band, New Music Ensemble, Steel Drum Band, Blue and Gold Brass (Basketball Band), and Opera/Lyric Theatre.

Unconducted Ensembles

Unconducted ensembles may be taken in addition to, but not instead of, major conducted ensembles. Unconducted ensembles include: Brass Ensembles, Jazz Combos, Mixed Ensembles, Percussion Ensembles, String Ensembles, Vocal Ensembles, and Woodwind Ensembles.

Ensemble credit is repeatable.

Minimum Proficiency Requirements in Keyboard and Voice

All music majors must meet minimum proficiencies in keyboard and voice. Keyboard proficiency is met by successfully completing keyboard Harmony I and II and passing a final keyboard examination. Vocal proficiency is met by successfully completing required Theory and Musicianship courses.

Music - School of (MUSIC)

MUSIC:100 Fundamentals of Music (2 Credits)

Introduction of basic notation and development of functional music reading and keyboard skills. Conducted in electronic keyboard laboratory with computer-assisted instruction available. For non-music majors only, with little or no previous musical training. (Formerly 7500:100)

MUSIC:101 Introduction to Music Theory (2 Credits)

Prerequisite: Undergraduate Theory Placement Examination. Designed for prospective music major to correct deficiencies in theory background as determined through department placement testing. Includes classroom instruction and computer assisted instruction in basic notation, scales, meter, key signatures, ear training and basic familiarity with the keyboard. Credit not applicable toward music degree. (Formerly 7500:101)

MUSIC:102 Introduction to Music Education (2 Credits)

Prerequisites: MUSIC 121 and MUSIC 154. Overview of the music teaching profession and its processes. Screening of degree candidates is built into the course with clinical field experience. (Formerly 7500:102)

MUSIC:103 Trends in Jazz (2 Credits)

An overview of the first 100 years of jazz music with emphasis on major figures and styles central to the development of jazz. This course is specifically designed for the non-music major. (Formerly 7500:103)

MUSIC:104 Class Piano I (2 Credits)

Prerequisite: MUSIC 101. Designed for student with no previous keyboard experience to learn rudimentary keyboard skills such as playing scales, chords, arpeggios and melodic patterns as well as simple music. (Formerly 7500:104)

MUSIC:105 Class Piano II (2 Credits)

Prerequisite: MUSIC 104. Continuation of work begun in 104. (Formerly 7500:105)

MUSIC:106 Music Orientation (0 Credits)

Zero credit class designed to provide information and support for incoming music majors as they transition into the academic environment of the School of Music. (Formerly 7500:106)

MUSIC:107 Class Voice I (2 Credits)

Prerequisite: MUSIC 101. Minimum memorization and solo singing requirement: seven songs. Voice literature emphasis; folk songs, ballads, spirituals, sacred songs and easy art songs in English. (Formerly 7500:107)

MUSIC:108 Class Voice II (2 Credits)

Prerequisite: MUSIC 107. Minimum memorization and solo singing requirement: eight songs. Vocal literature emphasis: old Italian and English songs, art songs in English or foreign language if student is conversant with the language. (Formerly 7500:108)

MUSIC:110 Class Guitar (1 Credit)

Introduction to the guitar, its repertoire and techniques. Basic classical techniques and music reading, strums, finger-picking, accompaniment patterns, blues styles will be covered. (Formerly 7500:110)

MUSIC:121 Theory and Musicianship I (4 Credits)

Sequential, Prerequisite: Grade of C- or higher in MUSIC 101 or placement. Analysis, aural/oral skills; Diatonic pitch materials, three clefs; simple-compound meters, rhythmic divisions and subdivisions. (Formerly 7500:121)

MUSIC:122 Theory and Musicianship II (4 Credits)

Sequential, Prerequisite: Grade of C- or higher in MUSIC 121. Theory, analysis, aural/oral skills: Seventh chords, secondary function, four-part dictation; asymmetric meters, borrowed subdivision. (Formerly 7500:122)

MUSIC:141 Ear Training/Sight Reading I (1 Credit)

Prerequisite: Placement in Theory I. Corequisite: MUSIC 151. Major and minor keys; intervals, triads and inversions; diatonic progressions; three clefs; simple and compound meters; subdivision through sixteenth notes. (Formerly 7500:141)

MUSIC:142 Ear Training/Sight Reading II (1 Credit)

Prerequisites: MUSIC 141 and MUSIC 151. Corequisite: MUSIC 152. Seventh chords; melodic chromaticism; secondary function; four-part dictation; asymmetric meters; borrowed subdivision. (Formerly 7500:142)

MUSIC:151 Theory I (3 Credits)

Sequential, Prerequisite: Theory Placement Examination (with a score of 65% or higher) or the grade of C- or higher in MUSIC 101. Study/creative use of elements of music; investigation of music of major composers of classic/romantic eras; introduction to earlier musical practices and contemporary music. (Formerly 7500:151)

MUSIC:152 Theory II (3 Credits)

Sequential, Prerequisite: grade of C- or higher in MUSIC 151. Study/creative use of elements of music; investigation of music of major composers of classic/romantic eras; introduction to earlier musical practices and contemporary music. (Formerly 7500:152)

MUSIC:154 Music Literature I (2 Credits)

Sequential. Familiarization with large body of musical material from all branches of music writing; vocal, instrumental, symphonic and choral music literature. Special attention given to style, form and structural procedures of principal composers. (Formerly 7500:154)

Gen Ed: - Arts

MUSIC:155 Music Literature II (2 Credits)

Sequential. Familiarization with large body of musical material from all branches of music writing; vocal, instrumental, symphonic and choral music literature. Special attention given to style, form and structural procedures of principal composers. (Formerly 7500:155)

Gen Ed: - Domestic Diversity

MUSIC:157 School of Music Performance Seminar (0 Credits)

Required of all undergraduate music majors until minimum requirement (8 semesters) is met. Each performance area provides a forum for student and faculty members to provide lectures, recitals and opportunity for practice of various skills necessary for successful music performance. (Formerly 7500:157)

MUSIC:200 Seminar in Music (1-3 Credits)

Exploration of special topics in music for the non-music major (may be repeated for a total of 9 credits) (Formerly 7500:200)

MUSIC:201 Exploring Music: Bach to Rock (3 Credits)

This course provides non-music majors with the skills to evaluate a wide range of music. (Formerly 7500:201)

Ohio Transfer 36: Yes

Gen Ed: - Arts

MUSIC:210 Jazz Improvisation I (2 Credits)

Prerequisites: MUSIC 262 and permission of instructor. Study and application of principles of jazz improvisation as they relate the chord-scale structures, motif development and style. (Formerly 7500:210)

MUSIC:211 Jazz Improvisation II (2 Credits)

Prerequisite: MUSIC 210. Advanced study in principles of jazz composition. (Formerly 7500:211)

MUSIC:212 Music Industry: A Survey of Practices & Opportunities (2 Credits)

A study of current practices affecting the professional musician and a survey of career opportunities relating to the music industry. (Formerly 7500:212)

MUSIC:221 Theory and Musicianship III (4 Credits)

Sequential, Prerequisite: MUSIC 122. Theory, analysis, and aural/oral skills: Chromatic harmony, dictation of mixed and irregular meters, syncopation, dotted rhythms, and ties. (Formerly 7500:221)

MUSIC:222 Theory and Musicianship IV (4 Credits)

Sequential, Prerequisite: MUSIC 221. Theory, analysis, and aural/oral skills: Advanced chromaticism and rhythm, extended tonality, form, serial and non-serial atonality. (Formerly 7500:222)

MUSIC:241 Ear Training/Sight Reading III (1 Credit)

Prerequisites: MUSIC 142 and MUSIC 152. Corequisite: MUSIC 251. Modulation; chromatic harmony; mixed meters. (Formerly 7500:241)

MUSIC:242 Ear Training/Sight Reading IV (1 Credit)

Prerequisites: MUSIC 241 and MUSIC 251. Corequisite: MUSIC 252. Twentieth-century materials: modes; whole-tone and octatonic scales; secundal and quartal/quintal harmony; classical, jazz, and non-western examples; polyrhythm; total and atonal contexts. (Formerly 7500:242)

MUSIC:251 Theory III (3 Credits)

Sequential, Prerequisite: The grade of C- or higher in MUSIC 152. Renaissance vocal counterpoint; Baroque instrumental counterpoint; form and analysis of music of all eras. (Formerly 7500:251)

MUSIC:252 Theory IV (3 Credits)

Sequential, Prerequisite: The grade of C- (70%) or higher in MUSIC 251. Renaissance vocal counterpoint; Baroque instrumental counterpoint; form and analysis of music of all eras. (Formerly 7500:252)

MUSIC:259 Fretboard Harmony (2 Credits)

Prerequisite: MUSIC 261 or permission of instructor. Essentials of basic theory and harmony as applied to the guitar fretboard: accompaniment, improvisation, transposition, modulation, figures bass, sight reading. (Formerly 7500:259)

MUSIC:261 Keyboard Harmony I (2 Credits)

Sequential. Prerequisites: MUSIC 105 or equivalency and MUSIC 122. Essentials of basic theory and harmony practically applied at keyboard; accompaniment, improvisation, transposition, modulation and sight-reading. (Formerly 7500:261)

MUSIC:262 Keyboard Harmony II (2 Credits)

Sequential. Prerequisites: MUSIC 105 or equivalency and MUSIC 122. Essentials of basic theory and harmony practically applied at keyboard; accompaniment, improvisation, transposition, modulation and sight-reading. (Formerly 7500:262)

MUSIC:265 Diction for Singers I (2 Credits)

Sequential. Prerequisite: Permission. Study of diction of the four most used languages (Italian, German, French and English) in vocal performance and international phonetic alphabet. Designed for student who expects to function as vocal performers and/or choral and studio voice teachers. (Formerly 7500:265)

MUSIC:266 Diction for Singers II (2 Credits)

Sequential. Prerequisite: MUSIC 265. Study of diction of the four most used languages (Italian, German, French and English) in vocal performance and international phonetic alphabet. Designed for student who expects to function as vocal performers and/or choral and studio voice teachers. (Formerly 7500:266)

MUSIC:271 Piano Pedagogy & Literature I (2 Credits)

Prerequisite: Permission of instructor. Examination of musical content and pedagogical orientation of beginning piano material to include appropriate teaching works, methods and ensemble pieces from a variety of historical periods. (Formerly 7500:271)

MUSIC:272 Piano Pedagogy & Literature II (2 Credits)

Prerequisite: MUSAP 125 or permission of the instructor. A survey of piano literature at all levels of difficulty, with practical emphasis on its use for teaching. (Formerly 7500:272)

MUSIC:276 Trumpet & French Horn Methods (1 Credit)

Prerequisite: MUSIC 102. A comprehensive approach to the performance and pedagogy of the trumpet and French horn for the instrumental music education major in preparation for teaching music. (Formerly 7500:276)

MUSIC:277 Clarinet & Saxophone Methods (1 Credit)

Prerequisite: MUSIC 276. A comprehensive approach to the performance and pedagogy of the clarinet and saxophone for the instrumental music education major in preparation for teaching music. (Formerly 7500:277)

MUSIC:278 String Methods I (1 Credit)

Prerequisites: MUSIC 222, MUSIC 262, and MUSIC 277. Fundamentals of technique, tone production, methods, and materials pertaining to teaching violin and viola in the public schools. (Formerly 7500:254)

MUSIC:279 String Methods II (1 Credit)

Prerequisite: MUSIC 278. Continuation of the fundamentals of technique, tone production, methods, and materials pertaining to teaching violin, viola, cello and string bass in the public schools. (Formerly 7500:255)

MUSIC:289 Music Education Department Jury (0 Credits)

Prerequisites: Minimum cumulative GPA of 2.5, C or higher in all School of Music courses, and minimum 200 level in primary applied study area (MUSAP 2xx). Pre/Corequisite: MUSIC 222 and MUSIC 262. Sophomore exam for music education majors. (Formerly 7500:289)

MUSIC:298 Technologies of Music Education (2 Credits)

Prerequisite: MUSIC 102. Introductory hands-on experiences with a wide range of technology applications and strategies to integrate technology into the music curriculum. (Formerly 7500:298)

MUSIC:307 Techniques of Jazz Ensemble Performance & Direction (2 Credits)

Prerequisites: MUSIC 289 and MUSIC 345 or permission of instructor. Basic experiences relating to conducting, rehearsal techniques, improvisation, performance, repertoire and other matters related to organization and direction of stage bands. Required for instrumental majors. (Formerly 7500:307)

MUSIC:308 History & Literature of Jazz (3 Credits)

Prerequisite: Permission of instructor. Study of origins of jazz music, its development and influence on today's culture. Investigates evolution of musical instruments as they pertain to jazz music, the artists who perform on them, and their music through live and recorded listening experiences. (Formerly 7500:308)

MUSIC:309 Jazz Keyboard Techniques (2 Credits)

Prerequisite: MUSIC 262. Study of and familiarization with basic jazz keyboard techniques as they relate to contemporary jazz harmony and theory. (Formerly 7500:309)

MUSIC:310 Jazz Improvisation III (2 Credits)

Prerequisite: MUSIC 211. Advanced study in the principles of jazz improvisation. (Formerly 7500:310)

MUSIC:311 Jazz Improvisation IV (2 Credits)

Prerequisite: MUSIC 310. Advanced study in the principles of jazz improvisation. (Formerly 7500:311)

MUSIC:325 Research in Music (2 Credits)

Prerequisites: MUSIC 155, MUSIC 222, and MUSIC 262. Techniques of basic research methods; examination of selected music materials; field trips to specialized collections. (Formerly 7500:325)

MUSIC:339 Teaching General Music I (2 Credits)

Prerequisites: MUSIC 222, MUSIC 262, and MUSIC 289. Methods and materials for teaching general music in pre-K to 12th grade classrooms. (Formerly 7500:339)

MUSIC:340 Teaching General Music II (2 Credits)

Prerequisites: MUSIC 289, and MUSIC 339. Advanced methods and materials for teaching general music with emphasis on Orff, Kodaly and Dalcroze methodologies. (Formerly 7500:340)

MUSIC:342 Group Vocal Techniques for Choral Music Education (2 Credits)

Prerequisites: [MUSEN 120 or MUSEN 121], MUSAP 124, MUSIC 265, and MUSIC 298. Foundational concepts of group vocal techniques. Designed for choral educators to learn physiology of the voice, basics of vocal production, and applications for the Pre-K-12 choral classroom. (Formerly 7500:268)

MUSIC:345 Low Brass Methods (1 Credit)

Prerequisites: MUSIC 222, MUSIC 262, MUSIC 277, and MUSIC 289. A comprehensive approach to the pedagogy and performance of the low brass for the instrumental music education major in preparation for teaching music. (Formerly 7500:345)

MUSIC:346 Flute & Double Reed Methods (1 Credit)

Prerequisites: MUSIC 289, MUSIC 339, and MUSIC 345. A comprehensive approach to the pedagogy and performance of the flute and double reeds for the instrumental music education major in preparation for teaching music. (Formerly 7500:346)

MUSIC:348 Marching Band Organization & Techniques (1-2 Credits)

Prerequisite: MUSIC 289, two semesters MUSEN 126. A discussion of the marching band. Students learn to write complete half-time show, administer marching band program. Required for instrumental music education majors. (Formerly 7500:305)

MUSIC:351 Music History I (3 Credits)

Sequential. Prerequisites: MUSIC 122 and MUSIC 155. Development of music from ancient to modern times; scores, recordings and live performances as illustrative material. (Formerly 7500:351)

MUSIC:352 Music History II (3 Credits)

Sequential. Prerequisites: MUSIC 351. Development of music from ancient to modern times; scores, recordings and live performances as illustrative material. (Formerly 7500:352)

MUSIC:353 Electronic Music (3 Credits)

Theory of electronically generated sound and practice of electronic music composition. Emphasis is on understanding digital and analog synthesizers in a MIDI recording studio. (Formerly 7500:353)

MUSIC:361 Conducting (2 Credits)

Prerequisites: All Majors MUSIC 155, MUSIC 222, and MUSIC 262; Vocal MUSIC 289, MUSIC 351, or permission; Instrumental MUSIC 278, MUSIC 346, MUSIC 352, MUSIC 454 or permission. Study and practice of conducting techniques; patterns, fermatas, tempo and dynamic change, attacks and releases, score reading, aural skills. One hour lab required. (Formerly 7500:361)

MUSIC:363 Intermediate Conducting: Choral (2 Credits)

Prerequisite: MUSIC 361 or instructor permission. Introduction to choral conducting with emphasis on manual techniques, vocal skills, aural skills, and gaining conducting experience. (Formerly 7500:363)

MUSIC:366 Song Literature I (2 Credits)

Prerequisite: MUSIC 222 or permission. Systematic study of French and German song literature presented chronologically. Includes study of stylistic compositional characteristics and repertoire of major composers of song literature. (Formerly 7500:366)

MUSIC:367 Song Literature II (2 Credits)

Prerequisite: MUSIC 222 or permission. Systematic study of American, British and Italian song literature presented chronologically. Includes study of stylistic compositional characteristics and repertoire of major composers of song literature. (Formerly 7500:367)

MUSIC:368 Guitar Styles (2 Credits)

Prerequisite: 200 performance level or permission of instructor. Techniques involved in performing musical styles other than those in classical guitar. Included are plectrum styles such as bluegrass, country and rock, as well as flamenco, folk, popular and jazz. (Formerly 7500:368)

MUSIC:371 Analytical Techniques (2 Credits)

Prerequisite: MUSIC 222. Techniques for analysis of musical score from all eras of Western music history, with major emphasis on works of Baroque, Classical and Romantic periods. (Formerly 7500:371)

MUSIC:372 Post-Tonal Analytic Techniques (2 Credits)

Prerequisite: MUSIC 222. Techniques for the analysis of musical scores from the 20th and 21st Centuries. Required of a composition major. (Formerly 7500:372)

MUSIC:407 Jazz Arranging & Scoring (2 Credits)

Prerequisites: MUSIC 309 and MUSIC 454. Study of jazz instrumentation from small groups to large ensembles. (Formerly 7500:407)

MUSIC:430 Teaching and Literature: Brass Instruments (2 Credits)

Prerequisite: Permission of instructor. Research in current trends and issues in brass teaching techniques and appropriate literature. (Formerly 7500:415)

MUSIC:431 Teaching and Literature: Woodwind Instruments (2 Credits)

Prerequisite: Permission of instructor. Research in current trends and issues in woodwind teaching techniques and appropriate literature. (Formerly 7500:416)

MUSIC:432 Teaching & Literature: Percussion Instruments (2 Credits)

To train undergraduate and graduate percussion students in techniques of percussion education. Emphasis on research, literature, performance, and techniques from elementary through secondary levels. (Formerly 7500:432)

MUSIC:434 Teaching & Literature: String Instruments (2 Credits)

Prerequisite: Permission of instructor. In depth study of the four bowed string instruments, their teaching and close relationship. Despite obvious difference in physical application of cello and bass from violin and viola, methods of bowing, sound production and coloring are closely related. Application of the instruments to solo, chamber and orchestral playing. (Formerly 7500:434)

MUSIC:440 Percussion Methods (1 Credit)

Prerequisite: MUSIC 289. Pre/Corequisite: MUSIC 442. A comprehensive approach to the pedagogy and performance of the percussion instruments for the instrumental education major in preparation for teaching music. (Formerly 7500:458)

MUSIC:441 Junior High/Middle School Choral Methods (2 Credits)

Prerequisites: MUSIC 289 and MUSIC 339. Pre/Corequisite: MUSIC 361. Methods and materials for teaching choral music at the JH/MS level. Develops competencies in literature selection, rehearsal techniques and assessment of the adolescent voice. (Formerly 7500:341)

MUSIC:442 Instrumental Methods (2 Credits)

Prerequisite: MUSIC 289. Pre/Corequisite: MUSIC 361. Procedures for teaching instrumental music at all levels. Special emphasis will be placed on classroom management, recruitment, assessment, literature selection, scheduling, and rehearsal organization. Clinical and field experience. (Formerly 7500:442)

MUSIC:443 Instrumental Practicum (2 Credits)

Prerequisite: MUSIC 442. Procedures for teaching instrumental music at all levels. Special emphasis will be placed on classroom management, recruitment, assessment, literature selection, scheduling, and rehearsal organization. Clinical and field experience. (Formerly 7500:443)

MUSIC:444 Secondary Choral Music Methods/Materials (2 Credits)

Prerequisites: MUSIC 289, MUSIC 339, and MUSIC 361. Methods, techniques, and materials for teaching secondary choral music. Develops competencies in literature, selection, rehearsal techniques, and programming methodology. (Formerly 7500:344)

MUSIC:445 Equity and Excellence in Music Education (3 Credits)

Prerequisites: MUSIC 289 and MUSIC 442. Inquiry-based seminars and service learning field experiences for the music education major to develop competence implementing equity and excellence in a culturally pluralistic society. (Formerly 7500:315)

MUSIC:451 Introduction to Musicology (2 Credits)

Prerequisite: MUSIC 352. Comparative musicology; acoustics; psychology and physiology of music; aesthetics; theory of music theory; historical musicology. (Formerly 7500:451)

MUSIC:453 Music Software Survey and Use (2 Credits)

Prerequisite: MUSIC 122 or permission of instructor. A survey and evaluation of available software in the various forms of musical instruction. Students will design a course suitable for submission to a programmer. (Formerly 7500:453)

MUSIC:454 Orchestration (2 Credits)

Prerequisite: MUSIC 222. Theory of instrumentation ranging from small ensembles to full band and orchestras. (Formerly 7500:454)

MUSIC:455 Advanced Conducting: Instrumental (2 Credits)

Prerequisite: MUSIC 361 and MUSIC 442 or permission. Baton techniques and problems relating to practice, reading and preparation of scores; organization of ensembles; programming; conducting large instrumental ensembles. One hour lab required. (Formerly 7500:455)

MUSIC:456 Advanced Conducting: Choral (2 Credits)

Prerequisite: MUSIC 363. Conducting techniques to the choral ensemble, including leadership, error detection, tonal development, stylistic accuracy and analysis. One hour lab required. (Formerly 7500:456)

MUSIC:457 Senior Recital (0 Credits)

Permission of applied instructor is required for this course, which is taken only during the semester of the Senior Recital. (Formerly 7500:457)

MUSIC:465 Vocal Pedagogy (2 Credits)

Prerequisite: Junior or greater standing. In depth study of subjects dealing with teaching voice: physiology of the vocal instrument, principles governing vocal production and application of vocal pedagogy. (Formerly 7500:465)

MUSIC:467 Guitar Pedagogy (2 Credits)

Prerequisite: Permission of instructor. A systematic analysis of prevailing schools of guitar pedagogy. Sound production physiology, method books and special problems in teaching addressed. (Formerly 7500:467)

MUSIC:468 Guitar Arranging (2 Credits)

Prerequisite: Permission of instructor. After comparative analysis of selected examples, students make original solo guitar arrangements of works written for other solo instruments and ensembles. (Formerly 7500:468)

MUSIC:469 History & Literature: Guitar & Lute (2 Credits)

Prerequisite: Permission of instructor. Study of plucked, fretted, string instruments from the 14th Century to the present: construction, notation, literature and performance practices. Modern editions and recordings evaluated. (Formerly 7500:469)

MUSIC:471 Counterpoint (2 Credits)

Prerequisite: Permission of instructor. Designed to give student of theory-composition necessary knowledge and skills for understanding contrapuntal practices and procedures; emphasis on 20th-Century techniques. (Formerly 7500:471)

MUSIC:472 Advanced Orchestration (2 Credits)

Prerequisite: MUSIC 454. Study of techniques of orchestral style as found in major works from classical orchestra of Haydn and Mozart through modern orchestra of Stravinsky, Bartok, Berg and Schoenberg. (Formerly 7500:472)

MUSIC:490 Workshop in Music (1-3 Credits)

Prerequisite: Permission of instructor. Investigation of topics not offered in regular curriculum. Graduate student must fulfill additional requirements. (Formerly 7500:490)

MUSIC:492 Student Teaching Colloquium (3 Credits)

Prerequisite: Restricted to students enrolled in Student Teaching in Music. For music education majors; certification, contracts, benefits, job market prospects and student teaching experience sharing. (Formerly 7500:492)

Gen Ed: - Capstone

MUSIC:497 Independent Study in Music (1-2 Credits)

(May be repeated for a total of four credits) Prerequisites: A minimum academic standing of Senior, a Music major and permission of department head. Independent study under supervision of specially selected faculty members in subject area bearing on student's own goals. (Formerly 7500:497)

MUSIC:498 Senior Honors Project: Music (1-3 Credits)

(May be repeated for a total of six credits) Individually designed project demonstrating scholarship, analysis, advanced musicianship, research and/or creativity according to student interest. Restricted to University honors music student. (Formerly 7500:498)

Music Organizations (MUSEN)

MUSEN:101 University Symphony Youth Orchestra (1 Credit)

This ensemble is designed for the post-secondary student who wishes to participate in a select group performing orchestral literature. By audition only. (Formerly 7510:101)

MUSEN:102 Akron Symphony Chorus (1 Credit)

Open to University and community members by audition. Prospective members should contact School of Music two weeks before semester begins. Performs with Akron Symphony Orchestra. (Formerly 7510:102)

MUSEN:103 University Symphony: Orchestra (1 Credit)

Membership by audition. Organization devoted to study of orchestral literature. Full-length concerts as well as special University appearances. Major conducted ensemble. (Formerly 7510:103)

MUSEN:104 Wind Symphony (1 Credit)

Membership by audition. The Wind Symphony is the most select band at the University and performs the most demanding and challenging music available. Major conducted ensemble. (Formerly 7510:104)

MUSEN:105 Vocal Choral Ensemble (1 Credit)

Membership open to those enrolled in applied voice study. Coaching and rehearsal of solo and ensemble literature for voices from operatic, oratorio and lieder repertoires. (Formerly 7510:105)

MUSEN:106 Brass Ensemble (1 Credit)

Membership by audition. Study and performance of literature for brass ensemble from all periods of music history. Frequent public concerts. For advanced brass players. (Formerly 7510:106)

MUSEN:107 String Ensemble (1 Credit)

Membership by audition. In-depth study of performance of chamber music literature with special emphasis on string quartet and piano trio. (Formerly 7510:107)

MUSEN:108 Opera/Lyric Theater Workshop (1 Credit)

Membership by audition. Musical and dramatic group study of excerpts from operatic repertoire. Includes annual production of standard opera and/or contemporary chamber work with staging, costumes and scenery. (Formerly 7510:108)

MUSEN:109 Percussion Ensemble (1 Credit)

Membership by audition. Study and performance of literature for various percussion groups; develops skill in ensemble performance. (Formerly 7510:109)

MUSEN:110 Woodwind Ensemble (1 Credit)

Membership by audition. Study, reading, and performance of major orchestral and serenade repertoire for wind instruments. (Formerly 7510:110)

MUSEN:114 Keyboard Ensemble (1 Credit)

In-depth study of ensemble playing. Eight semesters required for Keyboard majors, six semesters for Keyboard Mus. Ed. majors, and each semester for keyboard scholarship recipients. (Formerly 7510:114)

MUSEN:115 Jazz Ensemble (1 Credit)

Membership by audition. Provides experience in jazz ensemble performance. Student is assumed to have knowledge of rudiments of music and some experience in jazz performance. (Formerly 7510:115)

MUSEN:116 Guitar Ensemble (1 Credit)

Membership by audition. Provides experience in conducted ensemble performance for guitarists. Major conducted ensemble. (Formerly 7510:116)

MUSEN:118 Small Ensemble-Mixed (1 Credit)

Chamber Ensemble, Baroque Ensemble and Contemporary Music Ensemble. Each is a group of diverse instruments which rehearses and performs a selected body of music. (Formerly 7510:118)

MUSEN:120 Concert Choir (1 Credit)

Membership by audition. Highly select mixed choir. Performs classical literature from all periods. Campus, regional, and tour performances. "Major conducted ensemble" for vocal majors. (Formerly 7510:120)

MUSEN:121 University Singers (1 Credit)

Membership by audition. Mixed ensemble devoted to performance of a wide variety of choral literature from classical to popular. "Major conducted ensemble" for vocal majors. (Formerly 7510:121)

MUSEN:125 Symphony Band (1 Credit)

Membership by audition. The Symphony Band is a select ensemble at the University and performs standard and contemporary repertoire for wind bands. Major conducted ensemble. (Formerly 7510:125)

MUSEN:126 Marching Band (1 Credit)

Enrollment is open to all members of the University student body. This organization is noted for its high energy performances at University football games. (Formerly 7510:126)

MUSEN:127 Blue & Gold Brass (1 Credit)

Membership by audition. The official band for Akron home men's basketball games. (Formerly 7510:127)

MUSEN:128 Concert Band (1 Credit)

Membership by audition. Open to all students regardless of academic major. The Concert Band performs standard and contemporary repertoire for wind bands. Major conducted ensemble. (Formerly 7510:128)

MUSEN:129 Blue & Gold Brass II (1 Credit)

Membership by audition. The official band for Akron home ladies basketball games. (Formerly 7510:129)

MUSEN:130 Summer Symphonic Band (1 Credit)

Membership open to UA students and community musicians. Enrollment in course required. Summer Symphonic Band performs standard repertoire for wind band. (Formerly 7510:130)

MUSEN:150 Chamber Choir (1 Credit)

Membership by audition. Premiere and flagship choral ensemble. Highest level of musicianship, vocal technique, and professionalism required. Performs classical literature of all periods and genres. (Formerly 7510:150)

MUSEN:421 Guitar Chamber Music (1 Credit)

Prerequisite: Open to all upper class instrumentalists and vocalists. Guitarists must have taken Guitar Ensemble, MUSEN 116. Study, coaching, and performance of major works for guitar with other instruments or voice. Major conducted ensemble for guitar majors. (Formerly 7510:421)

MUSEN:431 Summer Drum Corps Experience (1 Credit)

Prerequisite: Permission of instructor. Summer Drum Corps Experience provides one credit for participation in a Junior Level - Division I, II, or III Drum and Bugle Corps as part of the Drum Corps International Summer Music Games. (Formerly 7510:431)

Applied Music (MUSAP)

MUSAP:21 Percussion (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 21)

MUSAP:22 Classical Guitar (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 22)

MUSAP:23 Harp (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 23)

MUSAP:24 Voice (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 24)

MUSAP:25 Piano (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 25)

MUSAP:26 Organ (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 26)

MUSAP:27 Violin (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 27)

MUSAP:28 Viola (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. Prerequisite: Permission of applied instructor. For students whose performance skills are not sufficient for placement at the 100 level or for elective credit in non-music programs. No credit toward any major in music. A fee is charged in addition to regular tuition. (Formerly 7520: 28)

MUSAP:121 Percussion (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. The following courses are intended for a student majoring in one of the programs in the School of Music. Course levels correspond approximately to class standing (100 for freshman, 200 for sophomore, etc.) A student may progress up one level by successfully completing an applied music jury, usually offered in the spring semester. NOTE: No more than eight credits at the 100, 200 or 300 level may apply in music degree programs; no such limit exists for the 400 level. (Formerly 7520:121)

MUSAP:122 Classical Guitar (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. The following courses are intended for a student majoring in one of the programs in the School of Music. Course levels correspond approximately to class standing (100 for freshman, 200 for sophomore, etc.) A student may progress up one level by successfully completing an applied music jury, usually offered in the spring semester. NOTE: No more than eight credits at the 100, 200 or 300 level may apply in music degree programs; no such limit exists for the 400 level. (Formerly 7520:122)

Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. The following courses are intended for a student majoring in one of the programs in the School of Music. Course levels correspond approximately to class standing (100 for freshman, 200 for sophomore, etc.) A student may progress up one level by successfully completing an applied music jury, usually offered in the spring semester. NOTE: No more than eight credits at the 100, 200 or 300 level may apply in music degree programs; no such limit exists for the 400 level. (Formerly 7520:467)

MUSAP:468 Jazz Composition (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. The following courses are intended for a student majoring in one of the programs in the School of Music. Course levels correspond approximately to class standing (100 for freshman, 200 for sophomore, etc.) A student may progress up one level by successfully completing an applied music jury, usually offered in the spring semester. NOTE: No more than eight credits at the 100, 200 or 300 level may apply in music degree programs; no such limit exists for the 400 level. (Formerly 7520:468)

MUSAP:469 Jazz Vocal Styles (2-4 Credits)

Prerequisite: Placement audition in the School of Music. Individual instruction in vocal or instrumental performance. Two credits represent one half-hour lesson per week; four credits represent an hour lesson. Enrollment may be repeated each semester for credit. A fee is charged in addition to regular tuition. The following courses are intended for a student majoring in one of the programs in the School of Music. Course levels correspond approximately to class standing (100 for freshman, 200 for sophomore, etc.) A student may progress up one level by successfully completing an applied music jury, usually offered in the spring semester. NOTE: No more than eight credits at the 100, 200 or 300 level may apply in music degree programs; no such limit exists for the 400 level. (Formerly 7520:469)

Music Arts, Minor

Minor in Music - Arts (C50001M)

Program Contact

Dr. Marc Reed
Director
School of Music

330-972-5761

marcreed@uakron.edu

The following information has official approval of the **School of Music** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Music - Arts" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. In order to complete the Minor in Music, the student must successfully jury to the 200 level. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Music Education, Instrumental Band, BM

Bachelor of Music in Music Education, Instrumental Band (C50208BM)

More on the Music Education, Instrumental Band major (<https://www.uakron.edu/music/degrees/>)

This program of study is designed to offer students a professional degree in music education leading to initial state teaching licensure in the field of music. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. In addition to core music classes, students complete a sequential series of methods and pedagogy courses and professional education courses all leading to a culminating semester of student teaching. Completion of the degree also requires passing scores on a departmental barrier exam, state department of education music content exam, and the successful completion of a capstone assessment of teaching during the student teaching semester.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

Students who major in music education must pass a departmental barrier exam typically attempted at the end of the second year of study. Students must also meet admission requirements for the School of Education and be able to pass required criminal background checks in order to fulfill observation and field experience components of the degree.

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Music Education, Vocal & Keyboard, BM

Bachelor of Music in Music Education, Vocal & Keyboard (C50206BM)

More on the Music Education, Vocal & Keyboard major (<https://www.uakron.edu/music/degrees/>)

This program of study is designed to offer students a professional degree in music education leading to initial state teaching licensure in the field of music. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. In addition to core music classes, students complete a sequential series of methods and pedagogy courses and professional education courses all leading to a culminating semester of student teaching. Completion of the degree also requires passing scores on a departmental barrier exam, state department of education music content exam, and the successful completion of a capstone assessment of teaching during the student teaching semester.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

Students who major in music education must pass a departmental barrier exam typically attempted at the end of the second year of study. Students must also meet admission requirements for the School of Education and be able to pass required criminal background checks in order to fulfill observation and field experience components of the degree.

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

¹ Credits earned for MUSIC:101, 104, and 105 are not counted toward the degree program total; these classes are required or excused per entrance placement exam.

² Completion of both MUSIC:154 & 155 satisfies a General Education Arts requirement. Completion of MUSIC:155 also satisfies the requirement for a Domestic Diversity course.

³ A minimum of 40 upper-level (300/400) credits are necessary for completion of this degree. Credits from MUSIC::221, 222, 261, and 262 and any MUSEN:xxx ensembles taken as a Jr./Sr. (60+ accumulated credits) count toward satisfying this requirement.

Music, BA

Bachelor of Arts in Music (C50001BA)

More on the Music major (<https://www.uakron.edu/music/degrees/>)

The Bachelor of Arts in Music program of study is designed to offer students a broad-based liberal arts degree in music. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. The Bachelor of Arts program is intended as a cultural course or as a

preparation for graduate study but not as preparation for a performance or teaching career.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Music, Composition, BM

Bachelor of Music, Composition (C50003BM)

More on the Music, Composition major (<https://www.uakron.edu/music/degrees/>)

This program of study is designed to offer students a professional degree in music with an emphasis on the highest standards of musical composition. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. The Bachelor of Music program in Composition includes intensive private study in traditional and contemporary compositional techniques in preparation for varied careers involving the creation and production of original music or as preparation for further study at the graduate level.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

Before the start of the third year: (1) a portfolio of three substantial works in contrasting genres submitted to the composition faculty must meet an acceptable standard for the pursuit of an undergraduate degree in composition; (2) An average of B- or higher must be achieved in Theory and Musicianship I, II, III, and IV

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Music, Guitar Performance, BM Bachelor of Music, Guitar Performance (C50106BM)

More of the Music, Guitar Performance major (<https://www.uakron.edu/music/degrees/>)

This program of study is designed to offer students a professional degree in music. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. The Bachelor of Music program includes intensive private study in guitar performance in preparation for a performing or private teaching career or as preparation for further study at the graduate level.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Music, Piano Performance, BM

Bachelor of Music, Piano Performance (C50100BM)

More on the Music, Piano Performance major (<https://www.uakron.edu/music/degrees/>)

This program of study is designed to offer students a professional degree in music. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. The Bachelor of Music program includes intensive private study in piano performance in preparation for a

performing or private teaching career or as preparation for further study at the graduate level.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Music, Woodwind Performance, BM

Bachelor of Music, Woodwind Performance (C50103BM)

More on the Music, Woodwind Performance major (<https://www.uakron.edu/music/degrees/>)

This program of study is designed to offer students a professional degree in music. Core coursework includes classes in music theory and musicianship, music history, keyboard skills, applied lessons, and participation in major ensembles. The Bachelor of Music program includes intensive private study in woodwind performance in preparation for a performing or private teaching career or as preparation for further study at the graduate level.

Requirements for Admission

Students wishing to major in music must complete the standard undergraduate application for admission and return it to the Office of Admissions. A student cannot be formally admitted to the School of Music until admitted to the University.

To be accepted as a music major, both freshmen and transfer students must successfully complete an audition on their major applied instrument, complete The Undergraduate Placement Examination in Music Theory, and be evaluated in keyboard skills.

The following information has official approval of **The School of Music** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	34
	Music Core	32
	Applied Music and Performance Courses	41
	Additional Required Music Courses	12-13
	Music Electives	1
Total Hours		120-121

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>

¹ Students may repeat course MUSAP:125 Piano twice, for a total of 8 credits.

- Two credits represent one half-hour lesson per week.
- Four credits represent an hour lesson per week.
- Enrollment may be repeated each semester for credit.
- A fee is charged in addition to regular tuition.

Pan African Studies

The University of Akron's Pan African studies takes an interdisciplinary approach to understanding Afro-centric philosophy and world views. This approach encompasses analyzing African and African-American history from a social, psychological and cultural context. This approach provides students with a framework to compare and contrast the experiences of African and African American people past, present, and future and their contributions across academic disciplines and professions.

Students pursuing the Pan African Studies certificate should:

- Be fully admitted to the University of Akron as an undergraduate or post-baccalaureate student.
- Fill out the Pan African Studies Certificate Program Application (<https://www.uakron.edu/webforms/undergraduate-certificate-program-application/>)
- Turn in completed application to the Dr. Sheldon Wrice, Program Director.
- Complete a total of 15 credit hours (6 credit hours of required courses and 9 credit hours of elective courses).
- Pan African Studies, Certificate (p. 277)

Pan African Studies (PAFS)

PAFS:201 Introduction to Pan-African Studies (3 Credits)

Prerequisite: ENGL 112. An interdisciplinary study from an Afrocentric perspective of African and African diaspora experiences. The course will focus on central issues related to the discipline. (Formerly 3002:201)

Gen Ed: - Domestic Diversity

PAFS:252 The Black Experience 1619-1918 (3 Credits)

Prerequisite: ENGL 112. This course explores ideas, people and events which will allow the class to re-think their individual and collective beliefs regarding Africa, Africans, and African-Americans as well as Black people throughout the Diaspora. More specifically, the period of 1619 to 1918 examines the origins of African-Americans beginning with their unwilling departure from West Africa, slavery, abolition, the Civil War, emancipation, reconstruction, historical achievements and striving to achieve first class citizenship in America. (Formerly 3002:252)

Gen Ed: - Social Science; - Domestic Diversity

PAFS:253 The Black Experience 1918-Present (3 Credits)

Prerequisite: ENGL 112. This course explores ideas, people and events which will allow students to re-think their individual and collective beliefs about Africa, Africans and African-Americans as well as Black people throughout the Diaspora. More specifically, the period of 1918 to Present examines the experiences of African-Americans following the Reconstruction. Topics include, but are not limited to, separate but equal doctrine, the civil rights movement, Black nationalism, segregation, desegregation and integration as strategies to ameliorate discrimination and achieve equal opportunity. (Formerly 3002:253)

Gen Ed: - Social Science; - Domestic Diversity

PAFS:256 Diversity in American Society (3 Credits)

Prerequisite: ENGL 112. Survey course covering demographic, social, economic, political, and educational realities of diversity in 21st Century. Focus on diversity and unity, historical overview. (Formerly 3002:256)

Ohio Transfer 36: Yes

Gen Ed: - Social Science; - Domestic Diversity

PAFS:301 Civil Rights Movement in America: 1945-1974 (3 Credits)

Social and political actions, events and environment which produces civil rights movement in America. Legal, political and organizational strategies; philosophical arguments; prominent civil rights activists. (Formerly 3002:301)

PAFS:401 Seminar in Afro-American Studies (3 Credits)

Prerequisite: HIST 361. Exploration and intensive examination of variety of issues related to role and minority group relations which normally stand outside the compass of any one subject matter area. (Formerly 3002:401)

PAFS:405 African American Men's History and Studies (3 Credits)

This course will examine the experiences of the African American Men from a historical, socio-economic, philosophical, religious/spiritual, psychological standpoint. (Formerly 3002:405)

PAFS:410 African American Religious Experience (3 Credits)

This course explores the diversity of African American religious beliefs, experiences, and expressions from the colonial era to the present. (Formerly 3002:410)

PAFS:420 Special Topics in Afro-American Studies (1-3 Credits)

(May be repeated for a maximum of three semester credits). Prerequisite: Permission of instructor. (Formerly 3002:420)

PAFS:498 Independent Study: Pan-African (1-3 Credits)

(May be repeated for a maximum of three semester credits).

Prerequisites: PAFS 201 and [HIST 361 or HIST 362] and permission of director. Directed study in a special field of interest chosen by student in consultation with instructor. (Formerly 3002:498)

Pan African Studies, Certificate

Certificate in Pan African Studies (300002C)

As an interdisciplinary field, Pan-African Studies helps students to gain a better understanding of the African-American experience while providing comparable experiences of others who were a part of the African Diaspora. This certificate allows students to examine Pan-African experiences from a social, historical, psychological and cultural context.

Philosophy

The Value of Philosophy

Philosophy students acquire knowledge and skills that can apply to a wide range of fields. Among these are critical thinking and analytical reasoning skills, decision-making skills, the ability to communicate effectively and to make ethical judgements, and the ability to apply knowledge and skills to real-world settings. Philosophy places the greatest value on demonstrated proficiency that cuts across all majors. As a result, philosophy graduates achieve long-term career success.

Career Paths

Philosophy graduates often continue their education in graduate, law, or medical programs, or obtain positions in a wide variety of fields, including education, publishing, marketing, consulting, government, environmental management, public administration, foreign service, law and law enforcement, human resources, insurance, libraries, and religious or social service areas.

Admission

For students enrolled at the University of Akron and for students wishing to transfer directly to Buchtel College of Arts and Sciences from their institutions, the following criteria must be satisfied for admission to the Department of Philosophy.

- The student must be admissible to Buchtel College of Arts and Sciences

- A minimum grade point average of 2.00 must be met in all university work, including transfer credits
- A minimum grade point average of 2.00 must be met in all work in Philosophy, including university and transfer credits. Only credits earned at an accredited institution of post-secondary education, as recognized by The University of Akron, will be considered for transfer credit, and only those grades will be considered in the grade point average.

Philosophy Programs

- Artificial Intelligence, Certificate (p. 280)
- Bioethics, Minor (p. 281)
- Environmental Ethics, Certificate (p. 281)
- Environmental Ethics, Minor (p. 282)

- General Philosophy, Minor (p. 283)
- Law Enforcement Ethics, Certificate (p. 284)
- Philosophy of Religions, Minor (p. 284)
- Philosophy of Science and Religion, Minor (p. 285)
- Philosophy of Science, Minor (p. 286)
- Philosophy, BA (p. 287)
- Philosophy/JD Degree Accelerated, BA (p. 288)
- Pre-Law Philosophy, Minor (p. 289)

Interdisciplinary Programs

- Social Science, Divisional PPE Track, BA (p. 345)
- Social Sciences, Divisional PSP Track, BA (p. 346)

Philosophy (PHIL)

PHIL:101 Introduction to Philosophy (3 Credits)

Introduction to the methods of philosophy, important leading thinkers, and topics such as free will, consciousness, goodness, truth, and beauty. (Formerly 3600:101)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

PHIL:120 Introduction to Ethics (3 Credits)

Introduction to problems of moral conduct through readings from the tradition and class discussions; nature of "good," "right," "ought" and "freedom". (Formerly 3600:120)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

PHIL:125 Theory & Evidence (3 Credits)

An investigation of the concept of evidence and the criteria for the evaluation of theories in various areas of study, including natural sciences, social sciences, and philosophy. The role of scientific information in the formation and justification of value judgments. (Formerly 3600:125)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

PHIL:150 Critical Thinking (3 Credits)

Examination of good and bad reasoning patterns. Topics may include rational and persuasive arguments, deductive and inductive inference, causal and basic statistical inference, logical fallacies, and moral arguments. (Formerly 3600:150)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

PHIL:170 Introduction to Logic (3 Credits)

Introduction to logic and critical thinking. Includes such topics as meaning, informal fallacies, propositional logic, predicate and syllogistic logic and nature of induction. (Formerly 3600:170)

Ohio Transfer 36: Yes

Gen Ed: - Mathematics, Statistic, Logic

PHIL:200 Philosophy of World Religions (3 Credits)

A philosophical examination of the major religious traditions of the world including Christianity, Judaism, Islam, Buddhism, Hinduism, Taoism, tribal religions, and others. (Formerly 3600:200)

Gen Ed: - Global Diversity

PHIL:207 Food Ethics (3 Credits)

Considers ethical questions about food choices and policies, what individuals eat, and what actions society ought to take regarding food growth, processing, marketing, selling, and consumption. (Formerly 3600:207)

Gen Ed: - Complex Issues Facing Society

PHIL:210 Logic for Lawyers (3 Credits)

An introduction to applied deductive and inductive logic reasoning skills, concentrating on applications to reasoning in legal contexts, e.g., courtroom argumentation and jury deliberations. (Formerly 3600:210)

PHIL:211 History of Ancient Philosophy (3 Credits)

History and development of ancient Greek philosophy including Presocratics, Socrates, Plato, Aristotle, and Hellenistic philosophers. Readings of primary sources in translation. (Formerly 3600:211)

Ohio Transfer 36: Yes

Gen Ed: - Humanities

PHIL:241 Technology & Human Values (3 Credits)

Examines impact of scientific and technical change upon individuals and society and associated values. Topics include digital and work life, biomedical technologies and the environment. (Formerly 3600:241)

Gen Ed: - Complex Issues Facing Society

PHIL:312 History of Medieval Philosophy (3 Credits)

History of Western philosophy from end of Roman Empire to Renaissance. Major philosophers studied include St. Augustine, St. Anselm, Peter Abelard, St. Thomas Aquinas, Duns Scotus and William of Ockham. Readings from primary sources. (Formerly 3600:312)

PHIL:313 History of Modern Philosophy (3 Credits)

Analysis of major philosophical issues of 17th and 18th Centuries from Descartes through Kant. Readings of primary sources in translation. (Formerly 3600:313)

PHIL:323 Advanced Topics in Ethics (3 Credits)

(May be repeated with change of topic for a total of nine credits). An examination of selected topics in applied ethics and ethical theory, such as the ethics of cloning, evolutionary ethics, history of ethics and ethical issues from the Human Genome Project. Specific topics will be announced in the course schedule. (Formerly 3600:323)

PHIL:324 Social & Political Philosophy (3 Credits)

An examination of the normative justification of social and political institutions and practices. Analysis of concepts such as rights, justice, equality, and political obligation from historical as well as contemporary points of view. Application to particular social issues covered. (Formerly 3600:324)

PHIL:327 Law and Morality (3 Credits)

Nature of law examined from the perspective of the law's alleged obligation to be ethical and promote justice. (Formerly 3600:327)

PHIL:329 Philosophy of International Law (3 Credits)

Inquiry into the theories of utility of international law and the philosophical controversies surround them, e.g., international legal norms vs. international relations. (Formerly 3600:329)

PHIL:331 Philosophy of Religion (3 Credits)

Discussion and analysis of problems of theology, nature of religious experience, God's nature, existence, immortality, sin, faith, reason, holy revelation, and redemption. (Formerly 3600:331)

PHIL:333 Philosophy of Science and Religion (3 Credits)

Survey of conflict, independence, and integration models of science and religion. Topics include: origin and nature of the universe, life, mind, value, meaning, science, religion. (Formerly 3600:333)

PHIL:340 Eastern Philosophy (3 Credits)

Examination and evaluation of philosophical traditions from India, China and Japan, including Hinduism, Buddhism, Taoism and Confucianism. (Formerly 3600:340)

Gen Ed: - Global Diversity

PHIL:350 Philosophy of Art (3 Credits)

An examination of theories of the nature of art and the grounds of aesthetic evaluation. Analysis of such concepts as representation, form, content, expression, institution, convention, meaning and truth as they apply in the context of the arts. (Formerly 3600:350)

PHIL:361 Biomedical Ethics (3 Credits)

The identification, analysis and evaluation of ethical issues arising most critically in the biomedical setting, e.g., abortion, termination of treatment, definition of death, IVF, AIDS. (Formerly 3600:361)

Gen Ed: - Complex Issues Facing Society

PHIL:362 Business Ethics (3 Credits)

Basic moral theories, moral principles, and the decision-making process applied to issues in business. (Formerly 3600:362)

PHIL:363 Ethics of Policing (3 Credits)

Basic moral concepts and their application to the criminal justice system. Concerned with such issues as punishment, the use of force, and conflict resolution. (Formerly 3600:363)

PHIL:364 Digital Ethics (3 Credits)

A critical examination of ethical issues arising in connection with digital technology, e.g., data privacy and use, artificial intelligence, censorship, and social media. (Formerly 3600:364)

PHIL:365 Environmental Ethics (3 Credits)

Examination of the moral relationships among human beings, other species, and their shared environment. Ethical aspects of agriculture, global warming, extinction, and wilderness. (Formerly 3600:365)

Gen Ed: - Complex Issues Facing Society

PHIL:366 Engineering Ethics (3 Credits)

Addresses the specific ethical issues and problems that arise in the practice and study of engineering as a discipline. (Formerly 3600:366)

Gen Ed: - Complex Issues Facing Society

PHIL:371 Philosophy of Mind (3 Credits)

Nature of mind and the relationship between mind and body. Specific topics such as the limits of human reason, personal identity, the role of human thought in action and whether machines can think are also considered. (Formerly 3600:371)

PHIL:374 Symbolic Logic (3 Credits)

Systematic study of various forms of deduction. Techniques and topics include truth-functional analysis and quantification. (Formerly 3600:374)

PHIL:392 Internship in Philosophy (1-3 Credits)

Prerequisite: Minimum cumulative Grade Point Average of 2.7 or greater. Placement in appropriate public or private sector organization. Written assignments required. May repeat for maximum 6 credits. (Formerly 3600:392)

PHIL:411 Plato (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Detailed study of the origin and development of Plato's theory of forms and the related theories of knowledge, ethics and politics. (Formerly 3600:411)

PHIL:414 Aquinas (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. An in depth examination of the philosophy of St. Thomas Aquinas covering his contributions in metaphysics, epistemology, ethics, political theory, and philosophical theology. (Formerly 3600:414)

PHIL:415 Augustine (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. An in depth examination of the philosophy of St. Augustine covering his contributions in metaphysics, epistemology, ethics, political theory, and philosophical theology. (Formerly 3600:415)

PHIL:418 20th Century Analytic Philosophy (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Study of ideal and ordinary language movements in 20th century British and American philosophy. Deals with such figures as Russell, Carnap, Ayer, Moore, Wittgenstein, Ryle and Austen. (Formerly 3600:418)

PHIL:421 Philosophy of Law (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Identification and critical evaluation of classic and contemporary theories and assumptions of law, including legal reasoning, justice, natural law, punishment, etc. (Formerly 3600:421)

PHIL:424 Existentialism (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher, or permission of instructor. In-depth inquiry into the thought of Kierkegaard, Jaspers, Heidegger, Sartre, Tillich and other existentialists with their concern for the human condition. (Formerly 3600:424)

PHIL:426 Phenomenology (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher, or permission. Inquiry into methodology of Husserl and Heidegger and their influence upon Western European and American thought. (Formerly 3600:426)

PHIL:432 Aristotle (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Detailed study of Aristotle's metaphysics, philosophy of nature, philosophy of mankind and ethics. (Formerly 3600:432)

PHIL:434 Kant (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Study of Kantian system of thought and its relation to history of philosophy. Includes thorough investigation of one or more of Kant's philosophic works. (Formerly 3600:434)

PHIL:455 Philosophy of Feminism (3 Credits)

Prerequisite: One course in philosophy with a grade of C or better, or permission of instructor. Introduction to feminist critiques of, and alternatives to, traditional western philosophy, including topics in ethics, metaphysics, epistemology, and religion. (Formerly 3600:455)

Gen Ed: - Domestic Diversity

PHIL:456 Philosophy of Race & Ethnicity (3 Credits)

Prerequisite: One course in Philosophy with a grade of C or higher. This course explores the philosophical assumptions behind the concepts of race and ethnicity within the United States and their metaphysical, epistemological, and phenomenological legitimacy as well as the political effects of racial and ethnic identities and the social reality of racial and ethnic designations (including white, African-American, Latina/o, American Indian and Asian American). (Formerly 3600:456)

Gen Ed: - Domestic Diversity

PHIL:461 Neuroethics (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Discussion and evaluation of contemporary theories of moral agency arising from developments in neuroscience. (Formerly 3600:461)

PHIL:462 Theory of Knowledge (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Examination of nature of knowledge; theories of perception, conception and truth, problem of induction and relation of language to knowledge. (Formerly 3600:462)

PHIL:464 Philosophy of Science (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Nature of scientific inquiry, types of explanation, laws and causality, theoretical concepts and reality. Also considers critics of hypothetical-deductive view of science, e.g., Hanson and Kuhn. (Formerly 3600:464)

PHIL:471 Metaphysics (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of "C" or higher. Theories about ultimate nature and ultimate explanation of reality. Uses readings from classical and contemporary sources. (Formerly 3600:471)

PHIL:480 Seminar in Philosophy (3 Credits)

(May be repeated, for additional credit, with change of topic).

Prerequisite: Completion of one course in philosophy with a grade of C or higher. Varying philosophical topics not covered in regular course offerings. (Formerly 3600:480)

PHIL:481 Philosophy of Language (3 Credits)

Prerequisite: Completion of one course in philosophy with a grade of C or higher. An examination of contemporary debates in the philosophy of language and various influential views on meaning, reference, truth, and the content of belief. (Formerly 3600:481)

PHIL:490 Senior Honors Project in Philosophy (1-3 Credits)

Prerequisite: Senior standing in Honors Program or senior honors standing as Philosophy major, and permission of Philosophy Department Honors Preceptor. Research leading to completion of senior honors thesis involving original work under faculty supervision. A maximum of 3 credit hours can be applied towards a philosophy major or minor. (May be repeated for 1-3 credits for a maximum of 6 credits) (Formerly 3600:490)

PHIL:497 Individual Study in Philosophy (1-3 Credits)

(May be repeated for a total of six credits) Prerequisites: PHIL 101, PHIL 120, PHIL 170, PHIL 211, PHIL 312, and PHIL 313. Directed independent study of philosopher, philosophy or philosophical problem under guidance of selected faculty member. Subject matter determined by selected faculty member in consultation with student. Graduate credit requires significant additional work which may include additional research paper. (Formerly 3600:497)

Artificial Intelligence, Certificate

Certificate in Artificial Intelligence (360010C)

This certificate program offers coursework in philosophy intended to help those interested in artificial intelligence to better navigate philosophical issues associated with the topic. Believing that our industry is best served by having informed individuals, this certificate is designed for all students (non-degree-seeking or degree-seeking, no matter what their degree program) who have an interest in the ethics of artificial intelligence.

Program Contact

Dr. Christopher Buford

Undergraduate Advisor, Department of Philosophy

Bioethics, Minor

Minor in Bioethics (360002M)

The Bioethics Minor is designed for students to become familiar with the ethical issues surrounding medicine, health care, and other biomedical topics such as abortion, euthanasia, genetic testing, organ donation, scientific research, etc. Bioethics draws on perspectives from other disciplines, and so this program incorporates an interdisciplinary approach by allowing designated courses from other departments, such as Biology, Anthropology, Psychology, and Sociology, to count as partial credit towards the minor.

Ethics, Minor

Minor in Ethics (360007M)

The Ethics Minor is designed to familiarize students with moral decision-making, as it applies to all areas of life. Lives change, companies rise and fall based on the ethical decisions made every day, everywhere around the world. Thus, the Ethics Minor can give any student a solid foundation for making sound moral judgments that can be put to use in any profession, as well as in one's personal life.

Philosophy of Religions, Minor

Minor in Philosophy of Religions (360001M)

The Philosophy of Religions Minor allows students to reflect on their values and beliefs and to seek answers to questions on topics about

morality, truth, humanity, and God. Religion permeates many aspects of life, and so the interdisciplinary nature of this program allows students to incorporate designated courses from other disciplines, such as Classics, Anthropology, English, and History, to meet some of the requirements.

Philosophy of Science and Religion, Minor

Minor in Philosophy of Science and Religion (360003M)

The Philosophy of Science and Religion Minor allows students to reflect upon the coexistence of faith and reason/God and science by considering their relationship from both a theoretical and practical perspective.

These two, seemingly at odds, disciplines draw on aspects from the natural sciences, social sciences, and humanities, and so the program incorporates designated courses from these diverse areas to count as partial credit toward the minor.

Philosophy of Science, Minor Minor in Philosophy of Science (360005M)

The Philosophy of Science Minor allows students to study the foundations, methods, and implications of science, and connect them to varying scientific fields. In virtue of its interdisciplinary nature, this program allows designated courses from other disciplines to count as partial credit toward the minor.

Philosophy, BA

Bachelor of Arts in Philosophy (360000BA)

More on the Philosophy major (<https://www.uakron.edu/philosophy/academics/philosophy-ba-degree.dot>)

Philosophy students acquire knowledge and skills that can apply to a wide range of fields. Among these are critical thinking and analytical reasoning skills, decision-making skills, the ability to communicate effectively and to make ethical judgements, and the ability to apply knowledge and skills to real-world settings. Philosophy places the greatest value on demonstrated proficiency that cuts across all majors. As a result philosophy graduates achieve long-term career success.

Philosophy graduates often continue their education in graduate, law, or med programs, or obtain positions in wide variety of fields, including education, publishing, marketing, consulting, government, environmental management, public administration, foreign services, law and law enforcement, human resources, insurance, libraries, and religious or social service areas.

The following information has official approval of **The Department of Philosophy** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through College Credit Plus Program (CCP) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or grade in a CCP course. Students may also receive credit by examination or via placement tests, where appropriate.

Philosophy/JD Degree Accelerated, BA

Bachelor of Arts in Philosophy/Juris Doctor Degree Accelerated (360009BA)

More on the Philosophy Accelerated major (<https://www.uakron.edu/philosophy/academics/>)

This is an accelerated 3+3 BA/JD program that will allow eligible students to earn a Bachelor of Arts in Philosophy and a Juris Doctorate degree in six years (180 total credits). Admission as a freshman requires a high school GPA of 3.4 and an ACT of 25 or SAT of 1220. Maintaining eligibility to move on to the JD phase requires an undergraduate GPA of 3.4 by the mid-point of the junior year and taking the LSAT no later than the first semester of the junior year and achieving a score of at least 150.

Pre-Law Philosophy, Minor

Minor in Pre-Law Philosophy (360004M)

The Pre-Law Philosophy Minor prepares students interested in pursuing a career in law to hone their logic, reasoning, and analytic abilities – skills required for the study of law. And, since law permeates every aspect of our lives, the interdisciplinary nature of this program allows designated courses from a variety of disciplines across campus to count as partial credit toward the minor.

Physics

Physics is a natural science that seeks to understand matter and interactions in space and time. A good understanding of physics is essential for students who plan to contribute to our knowledge of the natural world and to the development of emerging technologies.

The Physics Department of the University of Akron consists of 5 full-time faculty members teaching a range of courses for students studying in other fields.

All of our faculty are active in research and try to involve students in research as soon as possible so they can gain valuable experience. Several of our faculty have joint appointments in Ph.D.-granting departments whose research interests overlap with ours. This offers considerable scope for interdisciplinary research.

- Physics, Minor (p. 295)

Physics (PHYS)

PHYS:130 Descriptive Astronomy (4 Credits)

Qualitative introduction to astronomy, intended primarily as a first science course for non-science majors. Includes laboratory and observational activities. (Formerly 3650:130)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

PHYS:133 Music, Sound & Physics (4 Credits)

Qualitative introduction to the physics of sound, its properties, perception and reproduction, including acoustical principles of musical instruments. Laboratory and observational activities included. (Formerly 3650:133)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

PHYS:137 Light (4 Credits)

Introductory, qualitative course dealing with the nature of light and the interaction of light with various materials to produce common visual effects. Laboratory activities provide experience in scientific investigation. (Formerly 3650:137)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

PHYS:150 Manufacturing Physics (4 Credits)

Prerequisite: Admission to the Manufacturing Engineering Technology program. Corequisite: MATH 154. Applications of physics to manufacturing including two dimensional motion, vectors, forces, statics, torque and simple electronic circuits. Laboratory. (Formerly 3650:150)

PHYS:160 Technical Physics: Mechanics (4 Credits)

Corequisite: MATH 154. Applications of mechanics which include one and two dimensional motion, vectors, forces, equilibrium, work, power, conservation of energy, rotational motion & torque. Laboratory (Formerly 3650:160)

Ohio Transfer 36: Yes

PHYS:161 Technical Physics: Mechanics I (2 Credits)

Corequisite: MATH 153. Principles of mechanics that include motion, vectors, forces, equilibrium; also significant figures and unit conversions. Laboratory. (Formerly 3650:161)

PHYS:162 Technical Physics: Mechanics II (2 Credits)

Prerequisites: MATH 153 and PHYS 161. Principles of mechanics that include work, power, conservation of energy, rotational motion, torque. Laboratory. (Formerly 3650:162)

PHYS:163 Technical Physics: Electricity & Magnetism (2 Credits)

Prerequisites: MATH 154 and PHYS 160 with a grade of C- or better in both. Principles and applications of electricity and magnetism. Electrostatics, DC circuits, magnetism, electromagnetism, and AC circuits. Laboratory. (Formerly 3650:163)

Ohio Transfer 36: Yes

PHYS:164 Technical Physics: Heat & Light (2 Credits)

Prerequisites: [PHYS 160 with a grade of C- or better] and MATH 154. Principles and applications of heat and light: heat energy, thermodynamics, electromagnetic waves, geometric and physical optics, introduction to quantum mechanics, and radiation. (Formerly 3650:164)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science

PHYS:261 Physics for Life Sciences I (4 Credits)

Prerequisites: high school algebra, trigonometry or placement test or appropriate AP score or MATH 154 or MATH 149 as corequisite. Introductory course for professional work in biology and health professions and services. Emphasizes life science applications. Mechanics: laws of motion, force, torque, work, energy, power; properties of matter: gases, liquids, solids, fluid mechanics. Includes laboratory activities. (Formerly 3650:261)

Gen Ed: - Natural Science w/LAB

PHYS:262 Physics for Life Sciences II (4 Credits)

Prerequisite: PHYS 160 or PHYS 261. Laws of thermodynamics, kinetic theory. Wave phenomena: sound, light, optics; electricity and magnetism; atomic and nuclear physics; radioactivity. Includes laboratory activities. (Formerly 3650:262)

Gen Ed: - Natural Science w/LAB

PHYS:267 Life Science Physics Computations I (1 Credit)

Corequisites: PHYS 261. Optional companion courses to PHYS 261 and PHYS 262 provides additional computational experience in applications of physics to life sciences, emphasizing use of algebra and trigonometry. Particularly recommended for student with modest mathematical preparation. (Formerly 3650:267)

PHYS:268 Life Science Physics Computations II (1 Credit)

Corequisites: PHYS 262. Optional companion courses to PHYS 261 and PHYS 262 provides additional computational experience in applications of physics to life sciences, emphasizing use of algebra and trigonometry. Particularly recommended for student with modest mathematical preparation. (Formerly 3650:268)

PHYS:291 Elementary Classical Physics I (4 Credits)

Prerequisite: Completion of MATH 221 with a grade of "C-" or better, or AP Calculus AB, or BC test score of 3 or better. Introductory physics for students of science and engineering. Classical kinematics and dynamics as related to contemporary physics. Oscillations, thermodynamics. Vectors and some calculus introduced as needed. Includes laboratory activities. (Formerly 3650:291)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

PHYS:292 Elementary Classical Physics II (4 Credits)

Prerequisite: PHYS 291. Fluid mechanics, mechanical and electromagnetic waves and wave phenomena, basic laws of electromagnetism, interference and diffraction, coherence, geometrical and physical optics. Includes laboratory activities. (Formerly 3650:292)

Ohio Transfer 36: Yes

Gen Ed: - Natural Science w/LAB

PHYS:293 Physics Computations I (1 Credit)

Corequisite: PHYS 291. Optional companion courses to PHYS 291 and PHYS 292 provides experience in problem solving, and elaborates application of calculus to simple physical phenomena. Particularly recommended for a freshman and for student with modest preparation in mathematics or physical sciences. (Formerly 3650:293)

PHYS:294 Physics Computations II (1 Credit)

Corequisite: PHYS 292. Optional companion courses to PHYS 291 and PHYS 292 provides experience in problem solving, and elaborates application of calculus to simple physical phenomena. Particularly recommended for a freshman and for student with modest preparation in mathematics or physical sciences. (Formerly 3650:294)

PHYS:301 Modern Physics (3 Credits)

Prerequisite: PHYS 292. Special relativity, introduction to quantum physics, hydrogen atom, atomic physics, selected applications of quantum physics. (Formerly 3650:301)

PHYS:322 Intermediate Laboratory I (3 Credits)

Prerequisites: [PHYS 262 and MATH 221] or PHYS 292. Modern physics experiments focusing on electronic phenomena such as: electron charge/mass ratio, semiconductor devices, superconductivity, and energy quantization. (Formerly 3650:322)

PHYS:323 Intermediate Laboratory II (3 Credits)

Prerequisites: [PHYS 262 and MATH 221] or PHYS 292. Contemporary experiments focusing on optical phenomena such as: interference, diffraction, holography, fiber optics, and spectroscopy. (Formerly 3650:323)

PHYS:340 Thermal Physics (3 Credits)

Prerequisite: PHYS 262 or PHYS 292. Basic principles of thermal and statistical physics. Ensembles, laws of thermodynamics, equilibrium, irreversibility, equipartition theorem, canonical distribution, Maxwell distribution, phase changes, cyclic processes, transport processes. (Formerly 3650:340)

PHYS:350 Modeling & Simulation (4 Credits)

Prerequisites: [PHYS 262 or PHYS 292] and MATH 221. Corequisite: MATH 222. Interdisciplinary course stressing modeling of natural phenomena using fundamental principles and their simulation. Topics may include oscillations and chaos, random systems, potentials and fields, wave phenomena. (Formerly 3650:350)

PHYS:399 Undergraduate Research (1-6 Credits)

(May be repeated) Prerequisite: Permission of instructor. Participation in current research project in department under supervision of faculty member. (Formerly 3650:399)

PHYS:401 Everyday Physics (4 Credits)

Prerequisite: Permission of instructor. College-level physics content for future teachers. Inquiry, discovery, activities, discussion, and experiential learning take place in a laboratory/embedded-lecture environment. (Formerly 3650:401)

PHYS:406 Elements of Optics (3 Credits)

Prerequisites: PHYS 292 and MATH 335. Selected topics in optics such as geometrical, wave (diffraction and interference, polarization, scattering etc.), and quantum optics (lasers); design of optical systems based on optical design platforms.

PHYS:431 Mechanics (3 Credits)

Prerequisites: PHYS 291 and MATH 335. Mechanics at an intermediate level. Newtonian mechanics, motion of a point particle, momentum and energy, oscillations, Lagrange's equations, central force problems, non-inertial frames, rotation of rigid bodies, coupled oscillators and normal modes. (Formerly 3650:431)

PHYS:432 Mechanics II (3 Credits)

Prerequisite: PHYS 431. Advanced mechanics at the senior or beginning graduate level, moving coordinate systems, mechanics of continuous media, Lagrange's equations, tensor algebra and stress analysis, rotation of rigid bodies, vibration theory. (Formerly 3650:432)

PHYS:436 Electromagnetism (3 Credits)

Prerequisites: PHYS 292 and MATH 335 or permission of instructor. Electricity and magnetism using vector calculus. Electrostatics and magnetostatics, electric and magnetic fields, dielectric and magnetic materials, electromagnetic induction, Maxwell's field equations in differential form, wave solutions. (Formerly 3650:436)

PHYS:437 Electromagnetism II (3 Credits)

Prerequisite: PHYS 436. Special relativity, four vectors, Maxwell's equations in covariant form; propagation, reflection and refraction of electromagnetic waves; multipole radiation. (Formerly 3650:437)

PHYS:441 Quantum Physics (3 Credits)

Prerequisites: PHYS 301 and MATH 335. Introduction to quantum theory, Schrödinger equation, observables, angular momentum, perturbation theory, variational principle, bound states, scattering theory, radiative interactions, spin, Pauli Exclusion Principle, applications of quantum mechanics to atomic, nuclear and solid state physics. (Formerly 3650:441)

PHYS:442 Quantum Physics II (3 Credits)

Prerequisite: PHYS 441. Applications of quantum mechanics to atomic, nuclear and solid state physics. Tunneling and alpha decay, periodic potential, hydrogen and helium atoms, interatomic forces, quantum statistics. (Formerly 3650:442)

PHYS:451 Advanced Laboratory (3 Credits)

Prerequisite: PHYS 323. Experimental techniques, applicable to research-type projects in contemporary physics. Advanced scanning probe techniques including atomic force microscopy, electrostatic nanolithography, radioactive spectroscopy, and lasers. (Formerly 3650:451)

PHYS:452 Advanced Laboratory II (3 Credits)

Prerequisite: PHYS 323 or permission of instructor. Experimental projects applicable to contemporary physics. Diode and dye lasers, NMR, SPM, chaos, electron tunneling and fiber optics. (Formerly 3650:452)

PHYS:470 Introduction to Solid-State Physics (3 Credits)

Prerequisite: PHYS 441. Account of basic physical processes occurring in solids, with emphasis on fundamental relation between these processes and periodicity of crystalline lattice. (Formerly 3650:470)

PHYS:481 Methods of Mathematical Physics (3 Credits)

Prerequisites: PHYS 292 and MATH 335. Survey of mathematical techniques useful in physics. Matrices, eigenvalues, vector analysis, ordinary and partial differential equations, Green's functions, complex variable theory, Fourier series, integral transforms. (Formerly 3650:481)

PHYS:482 Methods of Mathematical Physics II (3 Credits)

Prerequisites: PHYS 292, MATH 335 and senior or graduate standing in a physical science or engineering. Vectors, generalized coordinates, tensors, calculus of variations, vector spaces, linear transformations, matrices, eigenvalues, Hilbert space, boundary value problems, transcendental functions, complex variables, analytic functions, Green's functions, integral equations. (Formerly 3650:482)

PHYS:488 Selected Topics: Physics (1-4 Credits)

(May be repeated) Prerequisite: Permission. Consideration of selected topics, procedures, techniques, materials or apparatus of current interest in physics. (Formerly 3650:488)

PHYS:490 Workshop: Physics (1-4 Credits)

(May be repeated) Group studies of special topics in physics. May not be used to meet undergraduate or graduate major requirements in physics. May be used for elective credit only. (Formerly 3650:490)

PHYS:491 Capstone Project in Physics A (2 Credits)

Prerequisites: PHYS 301 and MATH 335 and permission. Proposal phase of a capstone research project in physics or a research topic relevant to physics, supervised by a faculty member of the department.

Gen Ed: - Capstone

PHYS:492 Capstone Project in Physics B (2-4 Credits)

Prerequisite: Permission. Pre/Corequisite: PHYS 491. Final phase of a capstone research project in physics or a research topic relevant to physics, supervised by a faculty member of the department. (Formerly 3650:492)

PHYS:497 Independent Study: Physics (1-4 Credits)

(May be repeated) Prerequisite: Permission. Further investigations of various selected topics in physics, under guidance of faculty member. (Formerly 3650:497)

PHYS:498 Physics Colloquium (1 Credit)

Lectures on current research topics in physics by invited speakers. May be repeated but only one credit counts toward the M.S. Degree. Offered on a credit/noncredit basis only. (Formerly 3650:498)

PHYS:501 Everyday Physics (4 Credits)

Prerequisite: Permission of instructor. College-level physics content for future teachers. Inquiry, discovery, activities, discussion, and experiential learning take place in a laboratory/embedded-lecture environment. (Formerly 3650:501)

PHYS:506 Elements of Optics (3 Credits)

Prerequisite: Permission of instructor. Selected topics in optics such as geometrical, wave (diffraction and interference, polarization, scattering etc.), and quantum optics (lasers); design of optical systems based on optical design platforms. (Formerly 3650:506)

PHYS:531 Mechanics (3 Credits)

Prerequisite: Permission of instructor. Mechanics at an intermediate level. Newtonian mechanics, motion of a point particle, momentum and energy, oscillations, Lagrange's equations, central force problems, non-inertial frames, rotation of rigid bodies, coupled oscillators and normal modes. (Formerly 3650:531)

PHYS:532 Mechanics II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Advanced mechanics at the senior or beginning graduate level, moving coordinate systems, mechanics of continuous media. Lagrange's equations, tensor algebra and stress analysis, rotation of rigid bodies, vibration theory. (Formerly 3650:532)

PHYS:536 Electromagnetism (3 Credits)

Prerequisite: Permission of instructor. Electricity and magnetism using vector calculus. Electrostatics and magnetostatics, electric and magnetic fields, dielectric and magnetic materials, electromagnetic induction, Maxwell's field equations in differential form, wave solutions. (Formerly 3650:536)

PHYS:537 Electromagnetism II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Special relativity, four vectors, Maxwell's equations in covariant form; propagation, reflection and refraction of electromagnetic waves; multipole radiation. (Formerly 3650:537)

PHYS:541 Quantum Physics (3 Credits)

Prerequisite: Permission of instructor. Introduction to quantum theory, Schrödinger equation, observables, angular momentum, perturbation theory, variational principle, bound states, scattering theory, radiative interactions, spin, Pauli Exclusion Principle, applications of quantum mechanics to atomic, nuclear and solid state physics. (Formerly 3650:541)

PHYS:542 Quantum Physics II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Applications of quantum mechanics to atomic, nuclear and solid state physics. Tunneling and alpha decay, periodic potential, Hydrogen and Helium atoms, interatomic forces, quantum statistics. (Formerly 3650:542)

PHYS:551 Advanced Laboratory (3 Credits)

Prerequisite: Permission of instructor. Experimental techniques, applicable to research-type projects in contemporary physics. Advanced scanning probe techniques including atomic force microscopy, electrostatic nanolithography, radioactive spectroscopy, and lasers. (Formerly 3650:551)

PHYS:552 Advanced Laboratory II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Experimental projects applicable to contemporary physics. Diode and dye lasers, laser feedback, chaos, NMR, electron tunneling, and fiber optics. (Formerly 3650:552)

PHYS:556 Techniques of Physics Instruction (0-1 Credits)

Teaching assistants are introduced to current research in learning physics, shown applications for their labroom, and trained in skills needed as a laboratory teaching assistant. (Formerly 3650:556)

PHYS:570 Introduction to Solid-State Physics (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Account of basic physical processes occurring in solids, with emphasis on fundamental relation between these processes and periodicity of crystalline lattice. (Formerly 3650:570)

PHYS:581 Methods of Mathematical Physics (3 Credits)

Prerequisite: Permission of instructor. Survey of mathematical techniques useful in physics. Matrices, eigenvalues, vector analysis, ordinary and partial differential equations, Green's functions, complex variable theory, Fourier series, integral transforms. (Formerly 3650:581)

PHYS:582 Methods of Mathematical Physics II (3 Credits)

Prerequisite: admission to Physics Master's program or permission. Vectors, generalized coordinates, tensors, calculus of variations, vector spaces, linear transformations, matrices, eigenvalues, Hilbert space, boundary value problems, transcendental functions, complex variables, analytic functions, Green's functions, integral equations. (Formerly 3650:582)

PHYS:588 Selected Topics: Physics (1-4 Credits)

(May be repeated) Prerequisite: Permission. Consideration of selected topics, procedures, techniques, materials or apparatus of current interest in physics. (Formerly 3650:588)

PHYS:590 Workshop: Physics (1-4 Credits)

(May be repeated.) Prerequisite: Permission. Further investigations of various selected topics in physics, under guidance of faculty member. (Formerly 3650:590)

PHYS:597 Independent Study: Physics (1-4 Credits)

(May be repeated.) Prerequisite: Permission. Further investigations of various selected topics in physics, under guidance of faculty member. (Formerly 3650:597)

PHYS:598 Physics Colloquium (1 Credit)

Lectures on current research topics in physics by invited speakers. May be repeated, but only one credit counts toward M.S. degree. Credit/Noncredit. (Formerly 3650:598)

PHYS:605 Computer Physics: Numerical Solutions to Physics Problems I (3 Credits)

Prerequisite: Permission. Review of FORTRAN and basic topics in computer science. Numerical solutions to physics problems, including Newton's and Schrodinger's equations. Treatment and reduction of experimental data, plotting, simulation. (Formerly 3650:605)

PHYS:606 Computer Physics: Numerical Solutions to Physics Problems II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Data reduction, Calcomp plotting, comparison of theoretical models with data, linear and non-linear least squares curve-fitting. May accommodate scientific problems of individual interest. (Formerly 3650:606)

PHYS:615 Electromagnetic Theory I (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Electrostatics and magnetostatics at advanced level for graduate students, boundary value problems, dielectrics, multipole expansions, time-varying fields, Maxwell's equations and electromagnetic waves, reflection, refraction, wave guides and cavities. (Formerly 3650:615)

PHYS:616 Electromagnetic Theory II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Scattering and diffraction, plasma physics, special theory of relativity, dynamics of relativistic particles in fields, collisions of charged particles, radiation from moving charges, bremsstrahlung, multipole fields. (Formerly 3650:616)

PHYS:625 Quantum Mechanics I (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Basic concepts of quantum mechanics, representation theory, particle in a central field, addition of angular momenta and spins, Clebsch-Gordon coefficients, perturbation theory, scattering, transition probabilities. (Formerly 3650:625)

PHYS:626 Quantum Mechanics II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Foundations of relativistic quantum mechanics. Klein-Gordon and Dirac equations, spin-zero and spin-1/2 particles in electromagnetic field, second quantization of bosons and fermions, superfluidity and super conductivity. (Formerly 3650:626)

PHYS:630 Advanced Laboratory Techniques of Materials Characterization (3 Credits)

Prerequisite: Admission to the physics master's program or permission. This course focuses on the characterization of thin films and surfaces of materials. Techniques include Atomic Force Microscopy, UV-visible, FTIR, Photoluminescence, and Electron Tunneling spectroscopies. (Formerly 3650:630)

PHYS:631 Quantum Mechanics of Molecules and Materials (3 Credits)

Prerequisite: Admission to the physics master's program or permission. An applied quantum mechanics course that is also relevant for engineers, materials scientist, and applied physicists. (Formerly 3650:631)

PHYS:632 Thermodynamics and Statistical Mechanics of Materials (3 Credits)

Prerequisite: Admission to the physics master's program or permission. Fundamental laws of thermodynamics and their applications to material systems; criteria for equilibrium; the statistical mechanics of solids. (Formerly 3650:632)

PHYS:641 Lagrangian Mechanics (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Principle of least action and Lagrangian equation of motion, conservation laws, integration of equation of motion, collisions, small oscillations, Hamilton's equations, canonical transformations. (Formerly 3650:641)

PHYS:661 Statistical Mechanics (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Fundamental principles of statistical mechanics, Gibbs, Fermi and Bose Statistics, solids, liquids, gases, phase equilibrium, chemical reactions. (Formerly 3650:661)

PHYS:662 Thermodynamics & Statistical Mechanics II (3 Credits)

See department for course description. (Formerly 3650:662)

PHYS:670 Biological Physics (3 Credits)

Prerequisite: Admission to the physics master's program or permission. Explores the physics of biological systems, especially on the molecular scale: structural properties and transport processes, self-assembly, and molecular motors. (Formerly 3650:670)

PHYS:671 Computational Materials Physics (3 Credits)

Prerequisites: Admission to the physics master's program or permission. Introduces current computational techniques including computer simulations to investigate structural and transport properties of condensed matter systems. (Formerly 3650:671)

PHYS:672 Nanomaterials (3 Credits)

Prerequisites: Admission to the physics master's program or permission. Structures and characterizations of nanomaterials. Physical properties of nanomaterials. Carbon based nanomaterials. Nanoscale device applications. (Formerly 3650:672)

PHYS:673 Advanced Condensed Matter Physics (3 Credits)

Prerequisite: Admission to the physics master's program or permission. Response of materials to external perturbations (e.g. electromagnetic radiation); elementary excitations; semiconductors; magnetism; superconductivity. (Formerly 3650:673)

PHYS:674 Physics of Photonics (3 Credits)

Prerequisites: Admission to the physics master's program or permission. This theoretical course focuses on understanding the physics of photonics and light-matter interactions, with potential applications to many interdisciplinary areas of science and technology. (Formerly 3650:674)

PHYS:685 Solid-State Physics I (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Theory of physics of crystalline solids. Properties of reciprocal lattice and Bloch's theorem. Lattice dynamics and specific heat. Electron states; cellular method, tight-binding method, Green's function method. (Formerly 3650:685)

PHYS:686 Solid-State Physics II (3 Credits)

Prerequisite: Admission to Physics Master's program or permission. Orthogonalized plane and pseudo potentials. Electron-electron interaction; screening by impurities. Friedel sum rule and plasma oscillations. Dynamics of electrons, transport properties and Fermi surface. (Formerly 3650:686)

PHYS:689 Special Problems in Theoretical Physics (1-4 Credits)

(May be repeated.) Prerequisite: Permission. Intended to facilitate expansion of particular areas of interest in theoretical physics, by consultation with faculty member and independent study beyond available course work. (Formerly 3650:689)

PHYS:691 Seminar in Theoretical Physics (1-3 Credits)

(May be repeated.) Prerequisite: Permission. (Formerly 3650:691)

PHYS:697 Graduate Research in Physics (1-5 Credits)

Prerequisite: Permission. Candidates for M.S. degree may obtain up to five credits for faculty supervised research projects. Grades and credit received at completion of such projects. (Formerly 3650:697)

PHYS:698 Special Topics in Physics (1-4 Credits)

Prerequisite: Permission. Enables student who needs information in special areas, in which no formal course is offered, to acquire knowledge in these areas. (Formerly 3650:698)

PHYS:699 Master's Thesis (1 Credit)

Prerequisite: Permission. With approval of department, one credit may be earned by candidate for M.S. degree upon satisfactory completion of a master's thesis. (Formerly 3650:699)

PHYS:710 Surface Physics (3 Credits)

Prerequisite: PHYS 470. An interdisciplinary course stressing the fundamentals and applications of physics at surfaces, including corrosion, catalysis, adhesion, and tribology. (Formerly 3650:710)

PHYS:769 Critical Phenomena & Phase Transitions (3 Credits)

Prerequisites: PHYS 625, PHYS 641, and PHYS 661. Modern theory of critical phenomena. Landau theory. Spin systems, binary mixtures, polymers and liquid crystals. Multicomponent systems. Multicritical points. Renormalization. Epsilon-expansions of critical exponents. (Formerly 3650:769)

PHYS:879 Doctoral Research (1-15 Credits)

(May be repeated.) Prerequisite: Approval of the Student Advisory Committee for Ph.D. research in physics, physical chemistry, polymer science, applied mathematics or electrical engineering. Original research by a Ph.D. candidate in various disciplines under the guidance of physics faculty. (Formerly 3650:879)

Physics, Minor

Minor in Physics (365000M)

Physics provides the foundation for a broad range of technical fields. The Minor in Physics is designed for majors in science, engineering, mathematics, and education who have an interest in physics beyond the introductory level. This minor includes a set of classes that will deepen your understanding of fundamental principles and introduce you to new concepts that lie at the heart of emerging technologies.

The following information has official approval of the **Department of Physics** and **The Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Physics" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Summary

Code	Title	Hours
Required Courses		15
Electives		7
Total Hours		22

Required Courses

Code	Title	Hours
PHYS:291	Elementary Classical Physics I	4
PHYS:292	Elementary Classical Physics II	4
PHYS:301	Modern Physics	3
MATH:222	Analytic Geometry-Calculus II	4
Total Hours		15

Electives

Code	Title	Hours
Select 7 credits of approved 300/400 level physical sciences electives ¹		7
Total Hours		7

¹ At least 6 credits must be Physics (PHYS) courses

Political Science

Successful graduates of this program go on to graduate or law school, manage campaigns, run for office, work in state and local government or for various federal government agencies, including the U.S. Marshall's

Office, U.S. State Department, Federal Bureau of Investigation, Environmental Protection Agency, and Amnesty International.

Statement of Policies – Admission

For students enrolled at The University of Akron and for students wishing to transfer directly to Buchtel College of Arts and Sciences from other institutions, the following criteria must be satisfied for admission to the Department of Political Science:

- The student must be admissible to Buchtel College of Arts and Sciences
- A minimum grade point average of 2.20 must be met in all university work, including transfer credits
- A minimum grade point average of 2.20 must be met in all work in Political Science, including university and transfer credits. Only credits earned at an accredited institution of post-secondary education, as recognized by The University of Akron, will be considered for transfer credit, and only those grades will be considered in the grade point average.

Retention

Students in the Political Science programs must maintain a minimum grade point average of 2.20 overall and a minimum of 2.20 grade point average in Political Science courses (including transfer credit) in order to remain in the program. A student who fails to maintain the 2.20 cumulative average (including transfer credit) will be placed on academic probation. Failure to raise the average after one semester will result in dismissal from the program. The student may not apply for readmission for at least one semester.

- American Politics, Minor (p. 299)
- Applied Politics, Certificate (p. 299)
- Comparative Politics, Minor (p. 300)
- Criminal Justice, Minor (p. 300)
- Political Science, BA (p. 301)
- Political Science, Intelligence and National Security Studies, BA (p. 302)
- Political Science/JD Degree Accelerated, BA (p. 304)
- Pre-Law, Minor (p. 306)
- Security Studies, Minor (p. 306)

Political Science (POLIT)

POLIT:100 Government & Politics in the United States (3 Credits)

Examination of American political system with emphasis on fundamental principles, ideas, institutions and processes of modern government.

Lecture and discussion sections (day classes only). (Formerly 3700:100)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

POLIT:150 World Politics & Government (3 Credits)

Introduction to international politics and an examination of the governments and foreign policies of selected states from a comparative perspective. (Formerly 3700:150)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

POLIT:203 Introduction to Political Thought (3 Credits)

Survey of major ideas and concepts of Western political theory from pre-Socrates through period of Enlightenment. (Formerly 3700:303)

POLIT:210 State & Local Government & Politics (3 Credits)

Examination of institutions, processes and intergovernmental relations at state and local levels. (Formerly 3700:210)

POLIT:300 Comparative Politics (3 Credits)

Introduction to comparative political analysis; description of political systems of Great Britain, France, Germany and Soviet Union; contrast between democracy and totalitarianism. (Formerly 3700:300)

Gen Ed: - Global Diversity

POLIT:301 Introduction to Political Research (3 Credits)

Introduction to the research process in political science through an introduction to the logic of social science inquiry and contemporary techniques of analysis. (Formerly 3700:301)

POLIT:302 American Political Ideas (3 Credits)

Study of major thinkers and writers of American political thought. (Formerly 3700:302)

POLIT:304 Modern Political Thought (3 Credits)

Examination of central concepts of political thought from 19th Century to present. Modern liberalism, communism, fascism and totalitarianism emphasized. (Formerly 3700:304)

POLIT:310 International Politics & Institutions (3 Credits)

Relations among nations examined in political context. (Formerly 3700:310)

POLIT:311 Developing States in World Politics (3 Credits)

Examines how developing states are conditioned by the global system and how they attempt to modify it. (Formerly 3700:311)

POLIT:313 International Law (3 Credits)

Prerequisite: POLIT 150 or POLIT 310. This course explores law at the international level and will focus on diplomacy, treaties, covenants, laws of war, and the legal role of international organizations. (Formerly 3700:313)

POLIT:321 European Politics (3 Credits)

Description and analysis of government and politics of France, Germany, Italy, the United Kingdom, and Russia, with appropriate references to the European Union. (Formerly 3700:321)

POLIT:326 Politics of Developing Nations (3 Credits)

General introduction to concepts and theories of political development and political institutions, elite-recruitment and political processes of selected emerging nations. (Formerly 3700:326)

POLIT:328 American Foreign Policy Process (3 Credits)

Examination of American foreign policy-making process; public opinion and other limitations on policy; specific contemporary problems in selected foreign policy areas. (Formerly 3700:328)

POLIT:333 Social Entrepreneurship (3 Credits)

Scholarly analysis of successful social and political entrepreneur's efforts to address real world problems and an interdisciplinary analysis of the strategies and skills they deploy. (Formerly 3700:333)

POLIT:334 Law, Mediation, and Violence (3 Credits)

A critical analysis of the practical challenges central to learning to better prevent, resolve, or reduce the harms associated with conflict. (Formerly 3700:334)

POLIT:335 Law & Society (3 Credits)

This course will examine how law constructs and constrains political conflict, and how legal institutions mediate, reinforce, and challenge existing power relationships. (Formerly 3700:335)

POLIT:337 Terrorism: Perpetrators, Politics and Response (3 Credits)

Survey of terrorist organizations, political implications of terrorism, and governmental response to terrorism. (Formerly 3700:337)

POLIT:339 Terrorism and the Constitution (3 Credits)

Primary goals include learning about the balance courts try to strike in safeguarding public safety and respect for personal freedom in a constitutional republic. (Formerly 3700:339)

POLIT:341 The American Congress (3 Credits)

Examination of structure and function of Congress, with comparative materials on legislative process on all levels. Presidential and congressional conflict examined. (Formerly 3700:341)

POLIT:345 World Politics in Film (3 Credits)

This course examines the political meaning and content of films. Themes investigated include war, the nuclear age and its consequences, postindustrial society, the future, and unemployment. (Formerly 3700:345)

POLIT:346 American Politics in Film (3 Credits)

Examines the portrayal and representation of American politics through cinema. Emphasis on the positive and negative roles that movies play in educating the public. (Formerly 3700:346)

POLIT:350 The American Presidency (3 Credits)

The presidency as focal point of politics, policy and leadership in American political system. (Formerly 3700:350)

POLIT:351 Inside the White House (3 Credits)

The course looks behind the curtain at the inner-workings of the White House. Topics include: physical structure of the White House, travel, protection, and staff. (Formerly 3700:351)

POLIT:353 Future International Threats (3 Credits)

A study of future threats through the use of scenario construction and future projections. (Formerly 3700:353)

POLIT:360 The Judicial Process (3 Credits)

Role of police, lawyers, courts and judges in context of American political process. Structure and process of judicial policy making and limitations on judicial power. (Formerly 3700:360)

POLIT:361 Politics of the Criminal Justice System (3 Credits)

Examines the impact of the political process and political institutions on criminal law and policy. (Formerly 3700:361)

POLIT:363 Crime, Punishment, Politics: A Comparative Perspective (3 Credits)

Comparative study of the structures, practices, power relationships, and politics in various criminal justice systems. (Formerly 3700:363)

POLIT:370 Public Administration: Concepts & Practices (3 Credits)

Examines current administrative theories and their application in public bureaucracies. Emphasis is placed on practices to improve the quality of public sector administration. (Formerly 3700:370)

POLIT:375 Women in Politics (3 Credits)

Course examines the past, present, and future role of women in politics. (Formerly 3700:375)

POLIT:381 State Politics (3 Credits)

Analysis of the state political process in terms of its capacity to deal with a wide range of socioeconomic problems. Special emphasis on legislators, administrators, parties and interest groups. (Formerly 3700:381)

POLIT:391 Honors in Political Science (3 Credits)

Prerequisites: at least 17 credits and a 3.25 average in political science and permission of adviser. (Formerly 3700:391)

POLIT:392 Selected Topics in Political Science (1-3 Credits)

(May be repeated, but no more than three credits can be applied to major in political science) Topics of substantial current importance, specialized topics within political science or experimental courses. (Formerly 3700:392)

POLIT:395 Internship in Government & Politics (2-9 Credits)

(May be taken twice for a total of nine hours. No more than four credits may be applied toward major in political science.) Prerequisite: Completion of 3 courses with a 2.20 GPA in political science. Supervised individual placement with political office holders, party groups, governmental agencies, law firms and other organizations providing professional-level work. (Formerly 3700:395)

POLIT:397 Independent Study: Political Science (1-4 Credits)

(May be repeated for a total of four credits) Prerequisites: Minimum academic standing of a Senior and a 3.00 GPA. (Formerly 3700:397)

POLIT:400 Political Extremism & Violence (3 Credits)

This course examines the causes and consequences of political extremism and political violence in democracies and failed democracies. (Formerly 3700:400)

POLIT:401 Advanced Topics in Research Methods (3-6 Credits)

Prerequisite: POLIT 301 or SOCIO 301. Special advanced topics of interest in research methods. This course can be taken twice if topics are different, for six credits total. (Formerly 3700:401)

POLIT:402 Politics and the Media (3 Credits)

Examination of relationships between the press, the news media and political decision makers. (Formerly 3700:402)

POLIT:403 Media, Crime and Public Opinion (3 Credits)

Examines the social construction of crime in mass media and how it impacts public, including fear of crime, beliefs about crime causation, and crime policy. (Formerly 3700:403)

POLIT:405 Politics in the Middle East (3 Credits)

The rise of the state system in the Middle East after World War I; an analysis of the socio-cultural, ideological forces influencing the political behavior of the people of the Middle East. In-depth study of selected political systems. (Formerly 3700:405)

POLIT:406 Comparative Constitutional Law (3 Credits)

This course will explore the essential principles and theories of law and constitutionalism and then apply them, comparatively, to several different constitutional traditions from various regions of the world. (Formerly 3700:406)

POLIT:410 International Security Policy (3 Credits)

Prerequisite: POLIT 310 or HIST 461. Introduction to political uses of military forces. Major focus on methodological, conceptual, and ethical dilemmas confronted in developing and implementing security policy. (Formerly 3700:410)

POLIT:413 Global Public Health Threats (3 Credits)

An introduction to comparative global biological and public health security policy. Topics include: infectious disease outbreaks, bioterrorism, and potential "nano-terrorism." (Formerly 3700:413)

POLIT:414 Wealth and Power Among Nations (3 Credits)

Studies relationship between politics and economy; mesh theoretical perspectives with exploration of key empirical issues. Topics: trade, relations, unions, finance, development, aid, sanctions. (Formerly 3700:414)

POLIT:417 Environmental Security and Climate Politics (3 Credits)

The course examines the relationship between the politics of climate change and environmental security. Students will examine a wide range of environmental security issues and will assess the effectiveness of efforts to resolve these issues. (Formerly 3700:417)

POLIT:418 Weapons of Mass Destruction (3 Credits)

An exploration of the development and proliferation of weapons of mass destruction and their use and potential use by nation states, extremist groups, and/or wayward individuals. Weapons categories explored include: biological, chemical, nuclear, radiological, cyber, and future threats. (Formerly 3700:418)

POLIT:419 Homeland Security Policy and Process (3 Credits)

The course will explore the concept of homeland security, the complexity of homeland security and disaster policy in a federal system, threats to homeland security, and the challenges to effective homeland security and disaster policy in the United States. (Formerly 3700:419)

POLIT:422 Understanding Racial and Gender Conflicts (3 Credits)

This is the core course the Certificates in Racial and Gender Conflict, providing students with an opportunity to intensively examine racial and gender conflict. (Formerly 3700:422)

POLIT:427 Campaign Battleground (3 Credits)

This course will provide a general framework with which to understand presidential, congressional, state, and local elections from the perspective of campaign professional and political observers. The course will follow campaigns in real time, investigating the strategy, tactics, and conduct of major party candidates and campaigns. It will also examine coverage of national, state, and local races by the media as well as analyze current polling. The course will include guest speakers including academics, campaign professionals, public officials, and journalists. (Formerly 3700:427)

POLIT:428 Ohio Politics (3 Credits)

Prerequisite: POLIT 100. This course focuses on factors that make Ohio economically competitive. Material focuses on recent election results, public opinion polling and influence of socioeconomic factors. (Formerly 3700:428)

POLIT:437 Government Versus Organized Crime (3 Credits)

The course gives a history of organized crime and the government's responses to fight it. Newly emerging international crime groups are also discussed. (Formerly 3700:437)

POLIT:440 Survey Research Methods (3 Credits)

Prerequisite: POLIT 100. Study of survey research methods as applied to the analysis of public opinion, political behavior, and public policy formation. (Formerly 3700:440)

POLIT:441 The Policy Process (3 Credits)

Prerequisites: Eight credits in political science. Intensive study of policy-making process, emphasizing roles of various participants in executive and legislative branches as well as private individuals and groups. (Formerly 3700:441)

POLIT:442 Methods of Policy Analysis (3 Credits)

Prerequisite: POLIT 301. Examines variety of methods available for analyzing public policies. Techniques of cost benefit analysis, evaluation research quasi-experimentation are covered as well as consideration of ethical questions in policy analysis, the practical problems facing policy analysts. (Formerly 3700:442)

POLIT:443 Political Scandals & Corruption (3 Credits)

This course will provide information on major political scandals, including media coverage, public opinion, the role of special prosecutors, and the impacts of scandals. (Formerly 3700:443)

POLIT:445 Al Qaeda and ISIS (3 Credits)

This course explores the causes and consequences of Al Qaeda and ISIS ideologies and tactics around the world. (Formerly 3700:445)

POLIT:446 National Security Intelligence (3 Credits)

The aim of this course is to familiarize students with the politics and policy of national security intelligence in the US. (Formerly 3700:446)

POLIT:447 Counterterrorism (3 Credits)

The course introduces students to the federal national security agencies, polices, politics, and methods of containing and defeating terrorism abroad and within the United States. (Formerly 3700:447)

POLIT:448 Intelligence Analysis (3 Credits)

This course is intended to for students who seek a career in the field of government or private sector intelligence or who just have an interest in how intelligence analysis is done. (Formerly 3700:448)

POLIT:450 Administering Prisons, Probation, and Parole (3 Credits)

Prerequisite: POLIT 100. Analysis of the administrative, electoral, and community conflicts central to understanding, resolving, and preventing these conflicts in a correctional environment. (Formerly 3700:450)

POLIT:461 The Supreme Court & Constitutional Law (3 Credits)

Prerequisite: POLIT 100. Interpretation of the Constitution by the Supreme Court with emphasis on federal judicial, legislative and executive power; separation of powers; and federalism. (Formerly 3700:461)

POLIT:462 The Supreme Court & Civil Liberties (3 Credits)

Prerequisite: POLIT 100. Interpretation of the Constitution by the Supreme Court with emphasis on freedom of speech and press, freedom of religion, criminal rights and right to privacy. (Formerly 3700:462)

POLIT:463 Human Rights in World Politics (3 Credits)

An introduction to human rights from a comparative perspective; topics include: definition and development of human rights with attention paid to government interaction and wartime. (Formerly 3700:463)

POLIT:470 Fundamentals of Political Strategy (3 Credits)

Explore theoretical concepts, practical applications, roles, and best practices as it relates to political campaign management. Develop critical thinking skills to assess, analyze, act and communicate in situations throughout the election cycle, including message development and delivery, target audiences and voter contact and engagement. Consider real-life and rhetorical situations and hear from campaign professionals equipped to share first-hand perspectives on the operations and infrastructure of political campaigns. (Formerly 3700:470)

POLIT:471 Fundamentals of Electoral Messaging (3 Credits)

Explore theoretical concepts, practical applications, roles, and best practices as it relates to political campaign and electoral communication. Develop skills to plan, produce and execute strategic political messages including campaign addresses, press releases and media advisories, constituent, volunteer, and donor communications, and video releases while considering candidate and opposition research, fact sheets, time and budgetary constraints, polling and targeting data, and candidate preferences. (Formerly 3700:471)

POLIT:472 Campaign Finance, Fundraising, and Budgeting (3 Credits)

This course examines the most controversial aspect of applied politics: the role and influence of money. Topics include: the sources of political money, how it is raised and spent, the impact of money on the political process, the rules that govern political finance, and proposals for campaign finance reform. (Formerly 3700:472)

POLIT:473 Voter Contact & Elections (3 Credits)

Theoretical and practical approaches to communication in all types of campaigns. (Formerly 3700:473)

POLIT:474 Political Opinion, Behavior & Electoral Politics (3 Credits)

Prerequisite: POLIT 100 or POLIT 301. Advanced analysis of psychological, cultural, and group processes of opinion formation and change. Attention given to the effect of opinion change on electoral outcomes. (Formerly 3700:474)

POLIT:475 American Interest Groups (3 Credits)

Prerequisite: Completion of six or more political science credits. Reading and research on the development, structure and function of interest groups in the United States. (Formerly 3700:475)

POLIT:476 American Political Parties (3 Credits)

Prerequisites: Completion of six or more political science credits. Reading and research on the development, structure and function of parties in the United States. (Formerly 3700:476)

POLIT:477 Government Relations and Lobbying (3 Credits)

This course examines government relations, lobbying, and advocacy through participating in hands-on applied projects, meeting with elected officials and government relations professionals, and preparing students for the wide range of career options available to government relations professionals. (Formerly 3700:477)

POLIT:478 Fundamentals of the Digital Campaign (3 Credits)

This course will examine the evolution of digital campaigning, explore the pillars of effective digital strategy, and analyze the role digital strategy plays from communications to fundraising to field and everything in between. It will look at the rise of digital platforms, strengths and weaknesses of them, how to best leverage them in a well-rounded digital program, along with security and disinformation tactics to navigate. Students will learn how to effectively research, craft, deploy, and execute an effective digital plan that can serve as the connective tissue of any winning campaign. (Formerly 3700:478)

POLIT:480 Policy Problems in Political Science (3 Credits)

Intensive study of selected problems in public policy. (Formerly 3700:480)

POLIT:481 The Challenges of Police Work (3 Credits)

Prerequisite: POLIT 100. Analysis of the neighborhood, bureaucratic, electoral, and operational conflicts central to police work, with a focus on efforts and obstacles to improving police work. (Formerly 3700:481)

POLIT:482 Criminal Justice Topic: Current Issues (3 Credits)

(May be repeated for a maximum of six credits) Prerequisite: POLIT 100. Critical analysis of current issues relating to political science and criminal justice. No more than three credits can be applied to the major. (Formerly 3700:482)

POLIT:483 Constitutional Problems in Criminal Justice (3 Credits)

Prerequisite: POLIT 100. Analyzes Supreme Court policy-making regarding problems of criminal justice, including search and seizure, self-incrimination, right to counsel, jury selection, and post-appeal prisoner rights. (Formerly 3700:483)

POLIT:492 Selected Topics in Political Science (3 Credits)

Topics of substantial current importance or specialized topics within political science (May be repeated for a total of 6 credits). (Formerly 3700:492)

POLIT:497 Senior Honors Project in Political Science (1-3 Credits)

(May be repeated for a total of six credits) Prerequisites: senior standing in Honors Program and permission. Open only to a political science major in Honors Program. Independent study leading to completion of senior honors thesis or other original work. (Formerly 3700:497)

American Politics, Minor

Minor in American Politics (370003M)

Program Contact

Dr. Nancy Marion
 Professor, Political Science
 330-972-5551
 nmarion@uakron.edu

The following information has official approval of the **Department of Political Science** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in American Politics" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. At least 9 credits must be at the 300/400 level. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Applied Politics, Certificate

Certificate in Applied Politics (370005C)

The Ray C. Bliss Institute and the Department of Political Science have combined to offer a Certificate Program in Applied Politics for undergraduate students. The Certificate Program in Applied Politics offers course work in the history, organization, and management of campaigns intended to influence the outcome of political decisions. Working from a set of core courses, students are allowed to concentrate in the area of applied politics of greatest interest—campaigns, communications, lobbying, political parties, etc. Believing that democracy is best served by having active and informed citizens, the certificate is designed for all students, no matter what their degree program as long as they have an interest in practical politics.

Program Contact

Dr. David Cohen
 Professor, Political Science
 330-972-6045
 dbcohen@uakron.edu (nmarion@uakron.edu)

The following information has official approval of the **Department of Political Science** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Certificate in Applied Politics" and must be completed with a minimum grade point average of 2.0 overall for the certificate to be noted on the student's record. Students must maintain at least a B average in their coursework for the certificate. Political Science majors will, upon completion of the program, be awarded a B.A. or B.S. degree in Political Science with a Certificate in Applied Politics. Majors in other disciplines will have the Certificate noted on their permanent record.

Political Science, BA Bachelor of Arts in Political Science (370000BA)

More on the Political Science major (<https://www.uakron.edu/polisci/academics/undergraduate/>)

Successful graduates of this program go on to graduate or law school, manage campaigns, run for office, work in state and local government or for various federal government agencies, including the U.S. Marshall's Office, U.S. State Department, Federal Bureau of Investigation, Environmental Protection Agency, and Amnesty International.

Statement of Policies – Admission

For students enrolled at The University of Akron and for students wishing to transfer directly to Buchtel College of Arts and Sciences from other institutions, the following criteria must be satisfied for admission to the Department of Political Science:

- The student must be admissible to Buchtel College of Arts and Sciences
- A minimum grade point average of 2.20 must be met in all university work, including transfer credits
- A minimum grade point average of 2.20 must be met in all work in Political Science, including university and transfer credits. Only credits earned at an accredited institution of post-secondary education, as recognized by The University of Akron, will be considered for transfer credit, and only those grades will be considered in the grade point average.

Retention

Students in the Political Science programs must maintain a minimum grade point average of 2.20 overall and a minimum of 2.20 grade point average in Political Science courses (including transfer credit) in order to remain in the program. A student who fails to maintain the 2.20 cumulative average (including transfer credit) will be placed on academic probation. Failure to raise the average after one semester will result in dismissal from the program. The student may not apply for readmission for at least one semester.

The following information has official approval of **The Department of Political Science** and **The Buchtel College of Arts & Sciences**, but is

intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Political Science/JD Degree Accelerated, BA

Bachelor of Arts in Political Science/Juris Doctor Degree Accelerated (370017BA)

More on the Political Science Accelerated major (<https://www.uakron.edu/law/curriculum/three-plus-three/>)

For undergraduates in select programs, you can earn your bachelor's and law degrees in six years instead of seven. To complete law school, you typically need four years to complete a bachelor's degree and three years to complete a law degree (juris doctor degree).

Akron Law's new 3 + 3 Program allows eligible undergraduate students participating in partner programs to apply to Akron Law in their junior year of college.

Students admitted under the program fulfill their senior year of undergraduate credits through the successful completion of their first-year law school courses (<https://www.uakron.edu/law/curriculum/jd.dot>), allowing them to graduate with both a bachelor's and law degree in just six years, saving a year of tuition and related costs, and they begin their legal careers a year ahead of time.

Applicants

Pursuant to Akron Law's 3 + 3 policy, an applicant must be in his or her junior year and participating in a partner program. Applicants must also meet his or her undergraduate institution's criteria for eligibility.

Typically, you must have a 3.4 grade point average and 150 LSAT score to qualify for admission. However, this might vary depending on your program. Each undergraduate institution determines which majors and programs are eligible for participation.

Application requirements

In addition to being an eligible junior in a partner program, applicants must take the Law School Admissions Test (LSAT), complete the law school application, and submit a certification of eligibility from the partner program. Applicants can request the certification form from the contact person at their institution as listed above. 3 + 3 candidates are considered alongside Akron Law's regular pool of applicants.

Applicants to the 3 + 3 program are encouraged to take the LSAT in October or December of their junior year in college and apply in January after their fall grades are available. However, later applications, including those from June LSAT-takers, will also be considered.

The following information has official approval of **The Department of Political Science, The School of Law and The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	College of Arts & Sciences Requirements	14
	Political Science Core	27-33
	Additional Credits for Graduation *	13-7
Total Hours		90

* Bachelor's degrees require a minimum of 120 credit hours for graduation. Students admitted to University of Akron School of Law will receive BA in Political Science after completing 30 credits during the first year of law school.

Note: A GPA of 3.4 overall is needed to complete the degree along with a minimum Political Science GPA of a 2.2

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:135	Mathematics for Everyday Life	
	or STAT:250 Statistics for Everyday Life	
	or STAT:260 Basic Statistics	
	or STAT:261 Introductory Statistics I	
	or STAT:262 Introductory Statistics II

Security Studies, Minor

Minor in Security Studies (370008M)

This minor will introduce students to the field of homeland and national security studies and is intended for students who are interested in a profession which focuses on managing international and domestic security threats. The minor will help prepare students for a career in intelligence, the military, homeland security, national security, international diplomacy, private intelligence, private security, and others.

Requirements for Admission

In order for a student to receive the Homeland and National Security Studies minor, they must complete the following course requirements, sign a contract with the department, and apply for the minor prior to Commencement.

Psychology

Psychology majors learn about human and animal behavior, and are prepared for diverse careers in health, business, industry, and research. The Department of Psychology offers an extensive and varied curriculum coupled with an active faculty and student-driven research program that develops the analytical and problem-solving skills desired by employers and graduate programs. In addition there is a Field Experience program that introduces students to field work in local agencies. The academic background and applied experiences provided by the major enable students to seek regional postgraduate employment and successfully compete for graduate school opportunities leading to advanced degrees.

- Psychology, BA (p. 309)
- Psychology, Minor (p. 311)

Psychology (PSYC)

PSYC:100 Introduction to Psychology (3 Credits)

Introduction to scientific study of behavior, survey of physiological basis of behavior, sensation and perception, development, learning and cognition, personality, social interaction and other selected topics. (Formerly 3750:100)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

PSYC:105 Professional & Career Issues in Psychology (1 Credit)

Corequisite: PSYC:100. An overview of the field of psychology including educational requirements, career opportunities and professional issues for students considering a psychology major. (Formerly 3750:105)

PSYC:110 Quantitative Methods in Psychology (4 Credits)

Pre/Corequisite: PSYC 100. Presentation of data, descriptive statistics, correlation, hypothesis testing and introduction to statistical methodologies in psychology, including computer applications. (Formerly 3750:110)

PSYC:220 Introduction to Experimental Psychology (4 Credits)

Prerequisites: PSYC 100 and PSYC 110. Lectures and laboratory experience in the scientific bases of psychology such as experimental design, methods and apparatus, collection and analysis of data and interpretation of results. (Formerly 3750:220)

PSYC:230 Developmental Psychology (4 Credits)

Prerequisite: PSYC 100. Determinants and nature of behavioral change from conception to death. (Formerly 3750:230)

PSYC:250 Psychology of Diversity (4 Credits)

Prerequisite: PSYC 100. Psychology of Diversity encompasses macro-level issues and micro-level experiences. To live effectively in the emerging global community, one must be able to understand the diversity among human beings and relate effectively to non-majority group members. Issues of diversity are not only individual and personal, but also collective and social. (Formerly 3750:250)

Gen Ed: - Domestic Diversity

PSYC:320 Biopsychology (4 Credits)

Prerequisite: PSYC 100. Relationship between behavior and its biological/physiological foundations including brain structure and function, sensation, behavior genetics, learning and memory, and other topics. (Formerly 3750:320)

PSYC:330 Emotion Across the Lifespan (4 Credits)

Prerequisites: PSYC 100 and PSYC 230. We read and discuss primary writings on theoretical and empirical research in emotional development in adulthood. Topics include emotion perception and emotion regulation. (Formerly 3750:330)

PSYC:335 Dynamics of Personality (4 Credits)

Prerequisite: PSYC 100. An overview of theory and research involving the development, maintenance and assessment of personality and individual differences. (Formerly 3750:335)

PSYC:340 Social Psychology (4 Credits)

Prerequisite: PSYC 100. The examination of an individual's response to social environment and social interaction processes. Social perception, attitude formation and change, affiliation and attraction, altruism, group processes and nonverbal behavior. (Formerly 3750:340)

PSYC:345 Cognitive Processes (4 Credits)

Prerequisite: PSYC 100. Survey of the basic phenomena, concepts and theories in the areas of human perception, learning, memory and cognition. (Formerly 3750:345)

PSYC:380 Industrial/Organizational Psychology (4 Credits)

Prerequisite: PSYC 100. Survey of the application of psychology to the workplace including an emphasis on organizational (e.g., motivation) and personnel issues (e.g., selection). (Formerly 3750:380)

PSYC:400 Personality (4 Credits)

Prerequisites: PSYC 100 and PSYC 335. Consideration of current conceptualizations of the normal personality with emphasis on methods of measurement, experimental findings and research techniques. (Formerly 3750:400)

PSYC:405 Sensation & Perception (4 Credits)

Prerequisite: PSYC 100. Reviews the basic psychological and neural components of sensation and perception involving visual, auditory, cutaneous, and chemical sensory systems. (Formerly 3750:405)

PSYC:410 Psychological Tests & Measurements (4 Credits)

Prerequisites: PSYC 100 and PSYC 110. Consideration of the nature, construction and use of tests and measurements in industry, government and education. Includes aptitude and achievement tests, rating scales, attitude and opinion analysis. (Formerly 3750:410)

PSYC:415 Cognitive Neuroscience (4 Credits)

Prerequisite: PSYC 100. A review of neuroimaging studies addressing contemporary themes in human behavior, including consciousness, learning and memory, neuropathology, and emotion. (Formerly 3750:415)

PSYC:420 Abnormal Psychology (4 Credits)

Prerequisite: PSYC 100. Survey of syndromes, etiology, diagnoses and treatments of major psychological conditions ranging from transient maladjustments to psychoses. (Formerly 3750:424)

PSYC:424 Myths of Sexuality (4 Credits)

Prerequisites: 45 credit hours, PSYC 100, and PSYC 250. The Myths of Sexuality is a brief introduction into the psychology of human sexuality, as well as a more critical exploration of the contemporary issues in sexuality today, including but not limited to gender identity, queer studies, and the psychology behind the sex industry. (Formerly 3750:424)

PSYC:425 Psychology of Hate (4 Credits)

Prerequisites: Junior or higher standing and PSYC 100. The primary objective of this course is to understand the psychology behind hate. Topics include racism, sexism, heterosexism, religious intolerance, classism and ageism. (Formerly 3750:425)
Gen Ed: - Complex Issues Facing Society

PSYC:430 Psychological Disorders of Children (4 Credits)

Prerequisites: PSYC 100 and PSYC 230. Survey of syndromes, etiologies and treatments of behavioral disorders in children from the standpoint of developmental psychology. Behavioral data and treatment approaches emphasized. (Formerly 3750:430)

PSYC:435 Cross-Cultural Psychology (4 Credits)

Prerequisites: PSYC 100. Influence of culture and ethnicity upon development of individual psychological processes including functioning, identity, social motives, sex roles and values. (Formerly 3750:435)
Gen Ed: - Domestic Diversity

PSYC:440 Personnel Psychology & the Law (4 Credits)

Prerequisite: PSYC 380 or MGMT 201. The implications of equal employment law on the practice of personnel psychology. (Formerly 3750:440)

PSYC:441 Clinical & Counseling Psychology I (4 Credits)

Prerequisites: PSYC 100 and PSYC 335. Overview of the fields of clinical and counseling psychology with a major focus on psychotherapeutic approaches, including cultural considerations, legal/ethical issues, and outcome research. (Formerly 3750:441)

PSYC:442 Clinical & Counseling Psychology II (4 Credits)

Prerequisite: PSYC 441. Overview of individual counseling and psychotherapy, group counseling, personality and ability testing, marriage and family counseling, hypnosis, sex therapy, psychopharmacology and related specialties. Specific topics in clinical and counseling practice including professional trends, ethics, various therapeutic and diagnostic procedures, and specialty areas. (Formerly 3750:442)

PSYC:443 Human Resource Management (4 Credits)

Prerequisites: PSYC 100 and PSYC 380. The application of psychological theory to the effective management of human resources in an organization, including recruitment, selection, training and retention of personnel. (Formerly 3750:443)

PSYC:444 Organizational Theory (4 Credits)

Prerequisites: PSYC 100 and PSYC 380. The application of psychological theory to macro-level processes in organizations including leadership, motivation, task performance, organizational theories and development. (Formerly 3750:444)

PSYC:445 Psychology of Small Group Behavior (4 Credits)

Prerequisite: PSYC 100. Intensive investigation of factors affecting behavior and performance in small groups including effects of personality, social structures, task, situational and social-cognitive variables. (Formerly 3750:445)

PSYC:450 Cognitive Development (4 Credits)

Prerequisites: PSYC 100 and PSYC 345. Theory and research on life-span changes in cognitive processes including concept formation/categorization, information processing and Piagetian assessment tasks. (Formerly 3750:450)

PSYC:460 History of Psychology (3 Credits)

Prerequisite: PSYC 100. Psychology in pre-scientific period and details of developmental or systematic viewpoints in 19th and 20th Centuries. (Formerly 3750:460)

PSYC:474 Psychology of Women (4 Credits)

Prerequisite: PSYC 100 or WMST 200. Reviews theory and research in the psychology of women and gender and encourages students to use these in their everyday lives. (Formerly 3750:474)

Gen Ed: - Domestic Diversity

PSYC:475 Psychology of Adulthood & Aging (4 Credits)

Prerequisites: PSYC 100 and PSYC 230. Psychological aspects of human development from adolescence to older adulthood including age-related changes in socialization, personality, intelligence, sensation, perception, learning, memory and clinical applications. (Formerly 3750:475)

PSYC:480 Special Topics in Psychology (1-4 Credits)

Prerequisites: PSYC 100 and junior or higher standing. Comprehensive survey of contemporary status of specialized topics and issues in psychology. Emphasis on original source materials, critical analysis and synthesis of empirical and theoretical aspects. (Formerly 3750:480)

PSYC:488 Honors Project in Psychology (4 Credits)

Prerequisites: Psychology major and departmental permission, and PSYC 100, PSYC 105, PSYC 110, PSYC 220, and [PSYC 320 or PSYC 335 or PSYC 340 or PSYC 345]. Selection of research topic, review of relevant literature, research design, and proposal. (Formerly 3750:488)

PSYC:489 Honors Project in Psychology (4 Credits)

Prerequisites: Psychology major and departmental permission, and PSYC 100, PSYC 105, PSYC 110, PSYC 220, and [PSYC 320 or PSYC 335 or PSYC 340 or PSYC 345]. Data collection, analysis, and preparation of the final research report in journal style. (Formerly 3750:489)

PSYC:495 Field Experience in Psychology (1-4 Credits)

(May be repeated to a maximum of 6 credits). Prerequisites: PSYC 100, PSYC 105, PSYC 110 and eight additional credits in psychology. On-site supervised individual placements in appropriate settings. The academic component of the experience will be under the supervisor of a selected faculty member. (Formerly 3750:495)

PSYC:497 Independent Reading/Research in Psychology (1-3 Credits)

(May be repeated to a maximum of 6 credits). Prerequisites: PSYC 100, PSYC 105, PSYC 110, PSYC 220 and four additional credits in psychology. Independent reading and/or research in an area of psychology under the supervision and evaluation of a selected faculty member. (Formerly 3750:497)

PSYC:498 Honors Research in Psychology (1-3 Credits)

Prerequisites: Psychology major and approval of honors advisor. Individual research with a faculty advisor leading to the completion of a research project satisfying departmental and university requirements. (Formerly 3750:498)

Psychology, BA

Bachelor of Arts in Psychology (375000BA)

More on the Psychology major (<https://www.uakron.edu/psychology/academics/undergraduate/>)

The discipline of Psychology, with its rich history and extensive tradition in the study of human and animal behavior, continues to prepare students for diverse careers in health, business, industry, and research. The University of Akron Department of Psychology offers an extensive and varied curriculum coupled with an active faculty and student-driven research program that develops analytical and problem-solving skills desired by employers and graduate programs. Furthermore, our focus on diversity and cultural competence in our undergraduate curriculum

both enhances the educational experiences of our undergraduates while preparing them for local, national, and global work environments. The academic background and applied experiences via hands-on research opportunities with our faculty enable students to seek postgraduate employment and successfully compete for graduate school opportunities leading to advanced degrees (M.A./M.S., PhD) in various psychology sub-specialties (e.g., clinical; counseling; experimental; gerontology; developmental; industrial/organizational; school).

Requirements for Admission

Must earn a 2.0 cumulative GPA

Must earn a 2.0 major GPA

Must earn 30 credits

Must complete general education: Mathematics, Statistics, and Logic requirement

Must complete general education: Writing requirement part one

Must complete general education: Writing requirement part two

The following information has official approval of **The Department of Psychology** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Sociology

Mission and Vision: The Department of Sociology is committed to providing students with the tools to engage, and the skills to solve, real-world problems (e.g., health/well-being, environmental and social justice, inequalities). Our graduates have strong analytic and communication skills, can think critically and act creatively to address social problems. By ensuring that all students apply their learning through hands-on research projects and internships, we graduate informed students who are prepared to work in areas designed to address systemic problems facing our local, regional and global communities.

A BA degree in Sociology enables students to develop a deep understanding of the social world and how it operates as well as how personal issues and public concerns interconnect. In addition, a sociology degree develops students' research knowledge and skills in ways that enable graduates to confidently apply the critical thinking, analytical, and communication skills that are crucial for success in today's ever-changing world.

Earning a BA in sociology offers students wide flexibility in terms of career choices. Graduates apply their knowledge and skills within such areas as medical and health services, recreation, business, law and law enforcement, urban planning, social policy, and social services. Sociology students are also prepared for graduate and professional school programs in areas such as law, medicine, health professions, public policy, business, sociology, social work, and other social sciences.

Statement of policies - Admission

For students enrolled at the University of Akron and for students wishing to transfer directly to Buchtel College of Arts and Sciences from their institutions, the following criteria must be satisfied for admission to the Department of Sociology:

- The student must be admissible to Buchtel College of Arts and Sciences
- A minimum grade point average of 2.0 must be met in all university work, including transfer credits until 30 UA credits are earned. Only credits earned at an accredited institution of postsecondary education, as recognized by The University of Akron, will be considered for transfer credit, and only those grades will be considered in the grade point average.

Graduation

A Sociology major must earn a cumulative 2.0 grade point average in Sociology and overall to graduate with such a declared major.

- Conflict Transformation & Social Entrepreneurship, Certificate (p. 314)
- Research Methods for the Social Sciences, Certificate (p. 315)
- Sociology, BA (p. 316)
- Sociology, Minor (p. 318)

Sociology (SOCIO)

SOCIO:100 Introduction to Sociology (3 Credits)

Basic terminology, concepts, and approaches in sociology, including an introduction to the analysis of social groups. Students will learn how to apply sociological concepts to the understanding of social justice, the social determinants of health and well-being, and socio-behavioral research among others. (Formerly 3850:100)

Ohio Transfer 36: Yes

Gen Ed: - Social Science; - Domestic Diversity

SOCIO:200 Social Justice (3 Credits)

This course explores sociological approaches to the pursuit and achievement of social justice. Our focus will be on identifying social injustice from a socio-structural perspective and understanding the processes and approaches associated with achieving social justice. We will focus on organized efforts in such areas as criminal justice reform, gender equity, and environmental activism. (Formerly 3850:200)

Gen Ed: - Domestic Diversity

SOCIO:243 Contemporary Global Issues (3 Credits)

Multidisciplinary approach to global social problems. Examines cultural, political, and economic issues in developed and developing nations. Emphasizes technology's impact and global interrelationships. (Formerly 3850:243)

Ohio Transfer 36: Yes

Gen Ed: - Social Science; - Global Diversity

SOCIO:301 Social Research Design (3 Credits)

Prerequisites: SOCIO 100 and 3 credits of Mathematics (MATH) or Statistics (STAT) courses. The basis of this course is learning to apply course material to improve thinking, problem-solving, and decisions in conducting research design and data gathering techniques. Required of all majors. (Formerly 3850:301)

SOCIO:302 Data Analysis (3 Credits)

Prerequisites: Completion of [POLIT 301 or SOCIO 301], and SOCIO 100, and 3 credits of Mathematics (MATH) or Statistics (STAT) courses. Essential objectives of this course are developing expression skills in writing and learning fundamental principles in statistics. Other key topics include quantitative techniques and application to sociological data. Required of all majors. (Formerly 3850:302)

SOCIO:310 Social Problems (3 Credits)

Prerequisite SOCIO 100 or permission. Study of selected contemporary problems in society; application of sociological theory and research to understand the social construction of and response to these problems. (Formerly 3850:310)

SOCIO:315 Sociological Social Psychology (3 Credits)

Prerequisite: SOCIO 100. The reciprocal influence of individuals and groups. How interpersonal processes produce and affect group structure. How groups affect the development and behavior of the social person. (Formerly 3850:315)

SOCIO:320 Social Inequalities (3 Credits)

Prerequisite: SOCIO 100 or permission. This course covers local, regional, national, and global dimensions of social inequalities to better understand our social world. Structural and interactionist approaches to relations of power in society frame the course. Students will learn tools to better understand and address inequality. Required of all majors. (Formerly 3850:320)

Gen Ed: - Complex Issues Facing Society

SOCIO:321 Population, Environment, and Health (3 Credits)

Prerequisite: SOCIO 100 or permission. An introduction to world and national population trends and characteristics and their relationship to health and the environment. Topics include social demographic causes and consequences of fertility, mortality, morbidity, and migration. Other topics include population change, the nexus between population and the environment, climate change, and also public health. (Formerly 3850:321)

Gen Ed: - Global Diversity

SOCIO:324 Social Movements (3 Credits)

Prerequisite: SOCIO 100 or permission. Social movements as distinguished from other forms of collective behavior; analysis of social situations which produce social movements; focus on development of social movements and their role in social change. Lecture. (Formerly 3850:324)

SOCIO:325 Sociology of Women in Global Society (3 Credits)

Prerequisite: SOCIO 100 or permission. Examination of research and theories pertaining to women's status in global society, including economic conditions, the relationship between structure and experience, and global/local linkages. Includes a broader discussion of facets of gender(s) and sexualities in global perspective. (Formerly 3850:325)

SOCIO:330 Criminology (3 Credits)

Prerequisite: SOCIO 100 or permission. Major focus on forms, trends, and patterns of crime; the interrelationships and analysis of criminal justice systems and society; the study of social and behavioral causes of crime and consequences of crime for individuals and communities. (Formerly 3850:330)

SOCIO:336 Sociology of Work & Occupations (3 Credits)

Prerequisite: SOCIO 100 or permission. Survey of theory and empirical research in areas such as the structure of occupations and professions, occupational attainment, work force characteristics, work values and orientations, the nature of work. Lecture. (Formerly 3850:336)

SOCIO:340 The Family (3 Credits)

Prerequisite: SOCIO 100 or permission. Analysis of family as a social system; historical, comparative and contemporary sociological approaches examined in relation to family structure and functions. Lecture. (Formerly 3850:340)

SOCIO:341 Political Sociology (3 Credits)

Prerequisite: SOCIO 100 or permission. Survey of theory and empirical research dealing with relationship between political phenomena and the larger network of social processes in human societies. Lecture. (Formerly 3850:341)

SOCIO:342 Sociology of Health & Illness (3 Credits)

Prerequisite: SOCIO 100 or permission. General survey of sociological perspectives, concepts and research on health, illness and health-care delivery systems. Lecture. (Formerly 3850:342)

Gen Ed: - Complex Issues Facing Society

SOCIO:343 Sociology of Aging (3 Credits)

Prerequisite: SOCIO 100 or permission. The Sociology of Aging course enables students to understand the impacts of social power, social structure, and social interaction on aging individuals. It considers complexities built into institutions that impact current issues in aging. It explains the interaction among social, biological and psychological aging and approaches to aging. Basic terms and theories used in social gerontology are defined. (Formerly 3850:343)

SOCIO:350 Drugs in Society (3 Credits)

Prerequisite: SOCIO 100 or permission. Examination of drugs and their use from a sociological perspective. Emphasis on social correlates of drug use, societal responses, health, crime, treatment, and prevention strategies. (Formerly 3850:350)

SOCIO:360 Social Effects of Crime in the Media (3 Credits)

Prerequisite: SOCIO 100. Sociological examination of the consequences of images of crime in the media. Focus on issues of stereotypes and discrimination by race, sex and class. (Formerly 3850:360)

SOCIO:365 Special Topics in Sociology (1-3 Credits)

(May be repeated) Prerequisite: Permission. Special topics of interest to sociology major and non-major not covered in regular course offerings. (Formerly 3850:365)

SOCIO:397 Sociological Readings & Research (1-3 Credits)

Prerequisite: Permission. Individual study of problem area of specific interest to individual student under guidance of department member. Preparation of a research paper. (Formerly 3850:397)

SOCIO:401 Advanced Topics in Research Methods (3-6 Credits)

Prerequisites: POLIT 301 or SOCIO 301. Special topics of interest in advanced methods not covered in regular course offerings. (Formerly 3850:401)

SOCIO:410 Social Structures & Personality (3 Credits)

Prerequisite: SOCIO 100 or permission. Interrelationships between position in society, personality characteristics. Personality treated as both result and determinant of social structure and process. Lecture. (Formerly 3850:410)

SOCIO:411 Social Interaction (3 Credits)

Prerequisite: SOCIO 100 or permission. Intensive study of advanced theory and research in social psychology, particularly how social interaction and self-conception affect one another. Lecture. (Formerly 3850:411)

SOCIO:412 Socialization: Child to Adult (3 Credits)

Prerequisite: SOCIO 100 or permission. Theoretical and empirical analysis of process by which infant, child, adolescent and adult learn social and cultural requirements necessary to function in new roles, changing roles and society in general. (Formerly 3850:412)

SOCIO:415 Women in Prison (3 Credits)

Prerequisite: SOCIO 100 or permission of instructor. In depth examination of women's experiences in prison. Includes processes involved in the movement into prison, experiences while in institutions, and transitioning out of prison. (Formerly 3850:415)

SOCIO:416 Women and Crime (3 Credits)

Prerequisite: SOCIO 100 or permission. An overview of women's experiences with crime, including women as offenders, victims, and workers in the criminal justice system. (Formerly 3850:416)

SOCIO:421 Race & Ethnic Relations (3 Credits)

Prerequisite: SOCIO 100 or permission. Analysis of structure and dynamics of race and ethnic relations from a variety of perspectives emphasizing both historical and contemporary issues. Lecture. (Formerly 3850:421)

SOCIO:425 Sociology of Urban Life (3 Credits)

Prerequisite: SOCIO 100 or permission. Emergence and development of urban society. Examination of urban social structure from neighborhood to metropolis, the problems and prospects. Emphasis on various life styles of urban subcultures. Lecture/discussion. (Formerly 3850:425)

SOCIO:428 Victim in Society (3 Credits)

Prerequisite: SOCIO 100 or permission. Study of the nature, causes, and consequences of victimization with special focus on crime victimization. (Formerly 3850:428)

SOCIO:430 Juvenile Delinquency (3 Credits)

Prerequisite: SOCIO 100 or permission. Analysis of social structure and process from which delinquency develops. Emphasis on current and past research. Lecture/discussion. (Formerly 3850:430)

SOCIO:431 Theories and Practices of Correctional Systems (3 Credits)

Prerequisite: SOCIO 100 or permission. Study of theories, past and current research, and practices of institutional and community corrections systems. The history and philosophies/goals of corrections will be reviewed in relation to changing social contexts and how these shifts have impacted the operation of correctional systems. (Formerly 3850:431)

SOCIO:433 Sociology of Deviant Behavior (3 Credits)

Prerequisites: SOCIO 100 or permission. Survey of theories of deviant behavior and relevant empirical research. Special emphasis is given to interaction processes and social control. (Formerly 3850:433)

Gen Ed: - Complex Issues Facing Society

SOCIO:435 Sociology of Love (3 Credits)

Prerequisite: SOCIO 100 or permission. Study of the relation of love to the social order. Coverage includes diverse types, such as romantic, familial, religious, and altruistic love. (Formerly 3850:435)

SOCIO:441 Sociology of Law (3 Credits)

Prerequisite: SOCIO 100 or permission of department. Social origins and consequences of law and legal processes. Emphasis on uses of law, social change and aspects of legal professions. (Formerly 3850:441)

SOCIO:447 Sociology of Gender, Sex, and Sexualities (3 Credits)

Prerequisite: SOCIO 100 or permission. The social, cultural, and historical construction of gender and sexuality; gender and sexuality as mechanisms of stratification; and the intersection of gender, race, class, and nation. (Formerly 3850:447)

SOCIO:450 Sociology of Mental Illness (3 Credits)

Prerequisite: SOCIO 100 or permission. The social history of the mental hospital, theories and epidemiology of mental illness, community-based treatment models, the organization of mental health services, the role of personal social networks and mutual support groups. (Formerly 3850:450)

SOCIO:455 Family Violence (3 Credits)

Prerequisite: SOCIO 100. Family violence with a focus on child abuse, courtship violence, spouse/partner abuse, and elder abuse. Theories, methodologies, and strategies to end family violence are explored. (Formerly 3850:455)

SOCIO:460 Sociological Theory (3 Credits)

Prerequisite: SOCIO 100 or permission. An overview and examination of theoretical issues in sociology through the study of both classical and contemporary theoretical work. (Formerly 3850:460)

SOCIO:470 Research Methods for the Social Sciences Pro-seminar (3 Credits)

Prerequisite: Completion of required coursework for the Research Methods Certificate Program or Permission of Instructor. Application of qualitative and/or quantitative research methods and analysis, and preparation of a scholarly research paper for presentation and/or publication. Seminar. (Formerly 3850:470)

SOCIO:490 Organizations, Community, and Social Action (3 Credits)

Survey of organizational and community issues that affect the achievement of shared goals. Emphasis on the evidence-based approaches at both the organizational and community levels. (Formerly 3850:490)

SOCIO:495 Field Internship (2-4 Credits)

Prerequisites: Permission of a faculty supervisor and a minimum of 64 hours of undergraduate coursework of which 12 hours must be in sociology. Placement in community organization for supervised experience related to degree requirements. Student must submit an application to the intern coordinator during semester prior to enrollment. (Formerly 3850:495)

SOCIO:496 Senior Honors Project (1-3 Credits)

(May be repeated for a total of six credits) Prerequisites: Enrollment in Honors College, Senior standing, and major in sociology. Thesis or original creative work appropriate to student's area of interest. Requirements and evaluation of project determined by departmental honors preceptor and student's honors project adviser. (Formerly 3850:496)

Conflict Transformation & Social Entrepreneurship, Certificate

Certificate in Conflict Transformation & Social Entrepreneurship (370016C)

This uniquely interdisciplinary, free-standing certificate offers students an opportunity to acquire leadership skills and tools designed to enable the identification of social conflict, navigate and transform conflict into workable solutions, and work toward social justice, inclusion, and equality in the workplace and beyond. The multidisciplinary social-entrepreneurial skills students will learn through this certificate will prepare students for a style of leadership that brings people together from different disciplines and backgrounds in order to develop solutions to challenging conflicts that arise in our personal lives and in our professional lives in the local, regional, national, and global level.

Requirements for Admission

Students will be required to apply for the Certificate via an online application and upload a statement of interest. Students must be in good standing with the university and have a GPA of 3.0 to be eligible for the Certificate. Second-semester freshmen through senior status will be eligible to apply. Students pursuing any major are eligible for the certificate.

- Students can apply the methods course taken in their major discipline to the certificate or choose to take a course in another discipline. Students choosing a course in another discipline should be advised that there may be prerequisites for the class in that department.
- Students must select a research based topic.
- SOCIO:470 Research Methods for the Social Sciences Pro-seminar will be the final course for students completing the Certificate program in Research Methods. Students will demonstrate their ability to apply the research methods they have learned from conceptualization, design, data collection, analysis, and interpretation. The seminar will be offered in Sociology and Anthropology on a rotating basis.

Sociology, BA

Bachelor of Arts in Sociology (385000BA)

More on the Sociology major (<https://www.uakron.edu/sociology/degrees/>)

Department of Sociology Mission and Vision Statement: The Department of Sociology provides all students with the tools to engage, and the skills to solve, real-world problems including issues of health and well-being, social justice, and inequalities. We collaborate across campus and with community members and organizations to develop students with strong analytic and communication skills who can think critically and act creatively to address social problems. By ensuring that all students apply their learning through hands-on research projects and a range of experiential learning opportunities, we graduate informed students who are prepared to work in areas designed to address systemic problems facing our local, regional, and global communities and organizations.

Requirements for Admission

For students enrolled at the University of Akron and for students wishing to transfer directly to Buchtel College of Arts and Sciences from their institutions, the following criteria must be satisfied for admission to the Department of Sociology:

- The student must be admissible to Buchtel College of Arts and Sciences
- A minimum grade point average of 2.0 must be met in all university work, including transfer credits. Only credits earned at an accredited

institution of postsecondary education, as recognized by The University of Akron, will be considered for transfer credit, and only those grades will be considered in the grade point average.

Graduation

A Sociology major must earn a cumulative 2.0 grade point average in Sociology and overall to graduate with such a declared major.

The following information has official approval of **The Department of Sociology** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

¹ If 495/496 is completed, students have the option to complete 401 as an elective for any concentration.

- ² Students can complete their choice of any combination of 300-400 level courses within Sociology to fulfill the General concentration.
- ³ Students have the option to complete one (3-4 credit hours) course from the department-approved, interdisciplinary list to complement 9 hours of sociology coursework from this list for Social Justice.
- ⁴ Students have the option to complete one (3-4 credit hours) course from the department-approved, interdisciplinary list to complement 9 hours of sociology coursework from this list for Health & Society.
- ⁵ One course on this list may be used to complete either the Social Justice or Health & Society concentration.
- ⁶ One course on this list may be used to complete the social justice concentration.
- ⁷ One course on this list may be used to complete the Health & Society concentration.

Recommended Sequence

1st Year		
Fall Semester		Hours
SOCIO:100	Introduction to Sociology (Fulfills Domestic Diversity)	3

Statistics

The BS Statistics program prepares students to enter the workforce or pursue graduate studies. Students learn how to use numerical information to solve problems in a wide variety of fields, ranging from business and industry to medical research.

In addition to providing students with a solid background in Statistics, the Actuarial Science option prepares students for careers in the actuarial field.

- Applied Statistics, Minor (p. 321)
- Statistics, Actuarial Science, BS (p. 321)
- Statistics, BS (p. 323)
- Statistics, Data Science, BS (p. 325)
- Statistics, Minor (p. 327)

Statistics (STAT)

STAT:250 Statistics for Everyday Life (4 Credits)

Prerequisite: DEVP 50 or placement test. Conceptual approach to the basic ideas and reasoning of statistics. Topics include descriptive statistics, probability (uncertainty), statistical inference (estimation and hypothesis testing). Computer applications laboratory. (Formerly 3470:250)

Ohio Transfer 36: Yes

Gen Ed: - Mathematics, Statistic, Logic

STAT:260 Basic Statistics (3 Credits)

Prerequisite: placement test. Applied approach to data description and statistical inference (hypothesis testing, estimation). Analysis of ratios, rates, and proportions. Computer applications. Laboratory. (Formerly 3470:260)

Ohio Transfer 36: Yes

Gen Ed: - Mathematics, Statistic, Logic

STAT:261 Introductory Statistics I (2 Credits)

Prerequisite: placement test. Descriptive statistics, tabular and graphical data displays; probability, probability distributions. Introduction to statistical inference (hypothesis testing, estimation); one-sample parametric and nonparametric methods. Computer applications. (Formerly 3470:261)

Ohio Transfer 36: Yes

Gen Ed: - Mathematics, Statistic, Logic

STAT:262 Introductory Statistics II (2 Credits)

Prerequisite: STAT 261 or equivalent. Parametric and nonparametric methods of statistical inference for paired data and two-sample problems; one-way ANOVA, simple linear regression and correlation. Computer applications. (Formerly 3470:262)

Ohio Transfer 36: Yes

Gen Ed: - Mathematics, Statistic, Logic

STAT:289 Selected Topics in Statistics (1-3 Credits)

Prerequisite: Permission. Selected topics of interest in statistics. (Formerly 3470:289)

STAT:360 Statistical Investigations (3 Credits)

Prerequisites: STAT 250 or STAT 260 or STAT 262. This course provides practical statistical methods beyond the introductory course. The topics include design of experiments, data analysis, multiple regression and modern software use. (Formerly 3470:360)

STAT:401 Probability and Statistics for Engineers (2 Credits)

Prerequisite: MATH 221. Introduction to probability, statistics, random variables, data descriptions, statistical inference, confidence intervals, hypothesis testing, design of experiments, and applications of statistics to engineering. (Formerly 3470:401)

STAT:450 Probability (3 Credits)

Prerequisite: MATH 221. Introduction to probability, random variables and probability distributions, expected value, sums of random variables, Markov processes. (Formerly 3470:450)

STAT:451 Theoretical Statistics I (3 Credits)

Prerequisite: MATH 223. Sequential (part 1 of 2). Appropriate background is three semesters of calculus or equivalent. Elementary combinatorial probability theory, probability distributions (discrete and continuous), expectation and variance, bivariate and multivariate distributions, distributions of functions of random variables. (Formerly 3470:451)

STAT:452 Theoretical Statistics II (3 Credits)

Prerequisite: STAT 451. Sequential (2nd of 2 parts). Sampling distributions, point estimation and properties of point estimators, sufficiency, Rao-Blackwell method and MVUE, methods of obtaining point estimators, interval estimation, hypothesis testing, Neyman-Pearson theory of optimal tests (Formerly 3470:452)

STAT:461 Applied Statistics (4 Credits)

Prerequisite: MATH 221. Applications of statistical theory to natural and physical sciences and engineering, including probability distributions, interval estimation, hypotheses testing (parametric and nonparametric), and simple linear regression and correlation. (Formerly 3470:461)

STAT:462 Applied Regression and ANOVA (4 Credits)

Prerequisite: STAT 262 or STAT 461. Applications of the techniques of regression and multifactor analysis of variance. (Formerly 3470:462)

STAT:465 Design of Sample Surveys (3 Credits)

Prerequisite: STAT 262 or STAT 461 or equivalent. Design and analysis of frequently used sample survey techniques. (Formerly 3470:465)

STAT:466 Applied Nonparametric Statistical Methods (3 Credits)

Prerequisites: [STAT 261 and STAT 262] or STAT 461. This course introduces the basic tasks of inferential statistics (estimation, hypothesis testing, regression, analysis of variance) in situations where the usual assumption of the data following a parametric distribution cannot be justified or verified. Topics include the one-sample location problem, the two-sample location problem, the two-sample dispersion problem, the case with 3 or more populations – one-way layout, the case with 3 or more populations – two-way layout, binary data and success probabilities, regression and correlation. (Formerly 3470:466)

STAT:469 Reliability Models (3 Credits)

Prerequisite: STAT 461. Selected topics in reliability modeling including parametric and nonparametric models, competing modes of failure, censored data and accelerated life models. (Formerly 3470:469)

STAT:470 Biostatistics and Epidemiology (3 Credits)

Prerequisite: STAT 261 and STAT 262 or STAT 461, or equivalent. Biostatistics and Epidemiological methods for biological and medical studies, including ANOVA, analysis of repeated measures, disease-related measures, log-linear models, and clinical trials. (Formerly 3470:470)

STAT:471 Introduction to Actuarial Science (3 Credits)

Prerequisite: MATH 221 or equivalent. Pre/Corequisite: MATH 222 or equivalent. Interest theory and financial mathematics used in actuarial science. Topics include value of money, annuities, loans, bonds, cash flows and immunization, interest rate swaps. (Formerly 3470:471)

STAT:472 Actuarial Models (3 Credits)

Prerequisite: STAT 451. Study of severity, frequency and aggregate models used in actuarial applications. Calibration and evaluation. credibility procedures, fundamental principles of pricing in short-term insurance coverage. (Formerly 3470:472)

STAT:473 Survival Analysis (3 Credits)

Prerequisite: STAT 262 or STAT 461. Basic concepts in survival analysis, censoring and data truncation, estimation of survival models, nonparametric hazard and survival function estimation, comparing survival times between groups. (Formerly 3470:473)

STAT:475 Foundations of Statistical Quality Control (3 Credits)

Prerequisite: STAT 461 or equivalent. Course provides a solid foundation in the theory and applications of statistical techniques widely used in industry. (Formerly 3470:475)

STAT:476 Bayesian Statistics (3 Credits)

Prerequisite: STAT 262 or STAT 461 or equivalent. Basic concepts in Bayesian theory, sampling methods, MCMC, and hierarchical modeling. Computer applications of Bayesian statistics to natural; and physical; sciences and engineering. (Formerly 3470:476)

STAT:477 Time Series Analysis (3 Credits)

Prerequisite: STAT 262, STAT 450, STAT 451, or STAT 461. Stationarity. ARIMA modeling with seasonality. Parameter estimation, model diagnostics and forecasting. Regression with autocorrelated errors. Cointegration and multivariate ARMA models. Heteroscedasticity and long-memory models (Formerly 3470:477)

STAT:480 Statistical Data Management (3 Credits)

Prerequisite: STAT 262 or STAT 461. Students learn data organization and structures, design of statistical data bases, statistical software analysis, importing and exporting data between software, and missing data analysis. (Formerly 3470:480)

STAT:483 Advanced Statistical Computing (3 Credits)

Prerequisite: STAT 262 or STAT 461 or equivalent. Topics include data management, random number generation, resampling methods, numerical optimization, Markov Chain Monte Carlo, smoothing methods, data mining: clustering and classification. (Formerly 3470:483)

STAT:484 Introduction to Machine Learning (3 Credits)

Prerequisite: STAT 262 or STAT 461 or equivalent. Methodologies for statistical learning, including generalized logistic regression, ridge regression, neural networks, support vector machines, principal components analysis, and K-means and hierarchical clustering (Formerly 3470:484)

STAT:485 Applied Analytics-Decision Trees (3 Credits)

Prerequisite: STAT 262 or STAT 461. Selected topics in predictive modeling using CHAID, Classification and Regression Trees, Logistic Regression and Neural Networks (Formerly 3470:485)

STAT:486 Spatial-temporal Statistics (3 Credits)

Prerequisite: STAT 262 or STAT 461 or equivalent. Basic concepts of geostatistics, point pattern, area unit. Spatial-temporal modeling in high dimensional data. Computer applications to natural and physical sciences and engineering. (Formerly 3470:486)

STAT:489 Topics in Statistics (1-3 Credits)

(May be repeated for a total of six credits) Prerequisite: Permission. Selected topics in advanced statistics, including quality control, reliability, sampling techniques, decision theory, advanced inference, stochastic processes and others. (Formerly 3470:489)

STAT:491 Workshop in Statistics (1-3 Credits)

(May be repeated with change of topic) Group studies of special topics in statistics. May not be used to meet undergraduate or graduate major requirements in mathematics and statistics. May be used for elective credit only. (Formerly 3470:491)

STAT:494 High-Dimensional High-Throughput Data Analysis (3 Credits)

Prerequisites: STAT 462 and STAT 480, or permission or instructor. This course provides exposure to a variety of advanced statistical methods (beyond the ones taught in our undergraduate curriculum) for handling the challenges of high-dimensional high-throughput data, along with their software implementation and applications. Topics include multiple hypothesis testing and multiplicity adjustment, curse of dimensionality, sparsity, high-dimensional data visualization, dimension reduction methods, model selection and estimator selection, machine learning methods, and aggregation of estimators and classifiers. (Formerly 3470:494)

STAT:495 Statistical Consulting (1-3 Credits)

Prerequisite: STAT 462 or STAT 480 or permission. Students will learn about various aspects of statistical consulting and will work on current projects of the Center for Statistical Consulting. May be repeated for a total of 4 credits. (Formerly 3470:495)

STAT:496 Advanced Statistical Methods for Modern Data Analysis (3 Credits)

Prerequisites: STAT 462 and STAT 480, or permission of instructor. This course provides exposure to a variety of advanced statistical methods (beyond the ones taught in our undergraduate curriculum) for handling the challenges of modern-day data analysis, along with their software implementation and applications. Topics include distribution-free statistical methods, modern regression methods (robust, penalized, nonparametric), generalized linear models, random effects models, generalized linear mixed models, generalized additive models, some machine learning methods, some data mining methods, and an introduction to biostatistics. (Formerly 3470:496)

STAT:497 Individual Reading: Statistics (1-2 Credits)

(May be repeated for a total of four credits) Prerequisites: senior standing and permission. Directed studies in statistics designed as introduction to research problems under guidance of selected faculty member. (Formerly 3470:497)

STAT:498 Senior Honors Project (2-3 Credits)

Prerequisite: STAT 489 (honors) and senior in the Honors Program. Directed study for a senior student in the University Honors Program who has completed STAT 489 (honors). An introduction to research problems in Statistics under the guidance of selected faculty. (Formerly 3470:498)

Applied Statistics, Minor

Minor in Applied Statistics (347002M)

The Minor in Applied Statistics provides non-Statistics majors with an opportunity to gain practical data science skills that are useful in both employment settings and graduate programs.

The following information has official approval of the **Department of Statistics** and the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this minor is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Minor in Applied Statistics" and must be completed with a minimum grade point average of 2.0 overall for the minor to be noted on the student's record. Please refer to the University Requirements for Minor Areas of Study (p. 678) for specific graduation information regarding minors.

Summary

Code	Title	Hours

Statistics, Actuarial Science, BS Bachelor of Science in Statistics, Actuarial Science (347003BS)

More on the Statistics, Actuarial Science major (<https://www.uakron.edu/statistics/academics/academics-UG.dot>)

In addition to providing students with a solid background in Statistics, the Actuarial Science option prepares students for careers in the actuarial field.

The following information has official approval of **The Department of Statistics** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	College of Arts & Sciences Requirements	8
	Statistics Core	36-34
	Actuarial Science Requirement	21-24

Statistics Elective	3
Additional Credits for Graduation *	16-15
Total Hours	120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Note: A 2.0 cumulative GPA in all statistics is required for graduation.

Note: 14 credits in the major must be completed at The University of Akron

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity		
Domestic Diversity		
Global Diversity		
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		36

College of Arts & Sciences Requirements

Code	Title	Hours
Degree requirements for this Bachelor of Science in Arts & Sciences include the demonstration of ability to use another language by completion of the first year of a foreign language.		
<i>1 Year Language Proficiency</i>		8
101 Beginning I		
102 Beginning II		
SLPA:222	Survey of Deaf Culture in America (American Sign Language option only)	
Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:		
Upper-level (300/400) courses both in and outside of the student's major;		
or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops		

Statistics Core

Code	Title	Hours

Statistics, Data Science, BS

Bachelor of Science in Statistics, Data Science (347004BS)

More on the Statistics, Data Science major (<https://www.uakron.edu/statistics/academics/academics-UG.dot>)

The Data Science track is designed to provide students with skills needed to work with the "big data" problems that arise in business and industry, government, and medical research.

The following information has official approval of **The Department of Statistics** and **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	College of Arts & Sciences Requirements	8
	Statistics Core	36
	Data Science Requirements	12
	Statistics Elective	6
	Additional Credits for Graduation *	22
	Total Hours	120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Note: A 2.0 cumulative GPA in all statistics is required for graduation.

Note: 14 credits in the major must be completed at The University of Akron

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		

Academic Foundations		12
	<i>Mathematics, Statistics and Logic: 3 credit hours</i>	
	<i>Speaking: 3 credit hours</i>	
	<i>Writing: 6 credit hours</i>	
Breadth of Knowledge		22
	<i>Arts/Humanities: 9 credit hours</i>	
	<i>Natural Sciences: 7 credit hours</i>	
	<i>Social Sciences: 6 credit hours</i>	
Diversity		
	Domestic Diversity	
	Global Diversity	
Integrated and Applied Learning		2
	<i>Select one class from one of the following subcategories:</i>	
	Complex Issues Facing Society	
	Capstone	

Review the General Education Requirements page for detailed course listings.

Total Hours 36

College of Arts & Sciences Requirements

Code **Title** **Hours**

Degree requirements for this Bachelor of Science in Arts & Sciences include the demonstration of ability to use another language by completion of the first year of a foreign language.

1 Year Language Proficiency 8

101 Beginning I

102 Beginning II

SLPA:222 Survey of Deaf Culture in America (American Sign Language option only)

Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:

Upper-level (300/400) courses both in and outside of the student's major;

or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops

Women's Studies

About Women's Studies

The Women's Studies Program at the University of Akron engages students in critical inquiry on women's oppression in the U.S and globally; the socially constructed nature of gender and sexuality; the intersection of women's oppression with race, ethnicity, class, sexuality, and other forms of inequality; and importantly, histories and modes of feminist resistance. Through a wide variety of classes, Women's Studies encourages students to debate assumptions, explore divergent viewpoints, and investigate the social, economic, and cultural practices that have shaped the lives of women around the world.

With an emphasis on critical thinking, the program integrates intellectual scholarship and research to explore how women have been represented in literature, history, society, sociology, and the media. The course, Introduction to Women's Studies, leads students in studies on systemic privilege/oppression, media and gender, sexuality, family studies, reproductive justice, work, gender violence, social policy, and feminist resistance. This course provides a foundation upon which to build a deeper knowledge of issues surrounding feminism, gender, and sexuality. Other courses in the Women's Studies Program, as well as cross listed classes in Anthropology, English, Family and Consumer Sciences, History, Philosophy, Psychology, and Sociology, provide an eye opening and often life-altering college curriculum that prepares students to challenge power disparities found in society's most powerful institutions—family, church, academia, media, business, and government—and to work for a world founded on equality and dignity for all.

- Women's Studies, Certificate (p. 328)
- Women's Studies, Minor (p. 329)

Women's Studies (WMST)

WMST:100 Social & Cultural Diversity in the United States (3 Credits)
 See department for course description. (Formerly 3001:100)

WMST:110 Multicultural Sensitivity Training (1 Credit)
 See department for course description. (Formerly 3001:110)

WMST:200 Introduction to Women's Studies (3 Credits)

Introduction to the interdisciplinary program in Women's Studies. Explores current scholarship in women's issues and experiences from perspectives of psychology, history, sociology, anthropology, and literary criticism. Feminist orientation and methodology. (Formerly 3001:200)
Gen Ed: - Domestic Diversity

WMST:450 Gender and Popular Culture (3 Credits)

This course is designed to critically and analytically examine different forms of popular culture from a gendered perspective. While many view media products as simple entertainment they can provide an invaluable and unique tool in examining how societies construct gender roles and the biases that exist just below the surface of most diversionary products of our society. Mass produced material and popular culture shape our society's understanding of masculinity and femininity in modern America. By engaging with a variety of pop culture texts we can shed new light on society's gender roles and the assumptions that we make regarding how those roles are created, perpetuated, and can be changed. This class will be an interdisciplinary examination of gender themes in American popular culture and will teach students to examine the messages encoded in film, television, literature, comic books, video games, and sports.

Gen Ed: - Complex Issues Facing Society

WMST:480 Feminist Theory (3 Credits)

Prerequisite: WMST 200. A summary of feminist theory to familiarize students with the main currents in contemporary feminist theory and the origins and evolution of that thought. (Formerly 3001:480)

WMST:485 Special Topics in Women's Studies (1-3 Credits)

Special topics and current issues in Women's Studies. Covers content not currently addressed in other courses. Fosters a critical approach to knowledge about women. (May not be repeated) (Formerly 3001:485)

WMST:489 Internship in Women's Studies (1-4 Credits)

Prerequisites: WMST 200 and permission of Director of Women's Studies. This class provides supervised experience and on-the-job training in an organization, agency, corporation or group dealing with women's issues. (Formerly 3001:489)

WMST:490 Women's Studies Lecture Series (1-3 Credits)

Various topics focused on women. Themes and course materials vary each semester. Lecture and discussion. (Formerly 3001:490)

WMST:493 Individual Studies on Women (1-3 Credits)

Prerequisites: WMST 200 and permission of Director of Women's Studies. Directed study of selected topics related to women. Projects are chosen by student in consultation with instructor. (Formerly 3001:493)

WMST:499 Seminar in Women's Studies (1 Credit)

See department for course description. (Formerly 3001:499)

Women's Studies, Certificate

Certificate in Women's Studies (300110C)

Interdisciplinary and personalized, the Women's Studies certificate fosters a critical approach to knowledge about women; at the core of its intellectual agenda is diversity. By focusing on cultural practices that have largely excluded and devalued differences in gender, sexual orientation, ethnicity, race, and class, Women's Studies prepares students to appreciate and act in a pluralistic world. The Women's Studies certificate integrates scholarship and research on women and gender from different disciplinary traditions. Students are challenged to debate assumptions, explore divergent viewpoints, and critically examine society's most powerful institutions - family, religion, education, business,

and government. The Women's Studies Program helps students to evaluate what they have been taught and, most importantly, it empowers them to work for social justice after their education. Students may enroll in any Women's Studies courses and/or make an appointment with the director to discuss a plan of study. Students need not be enrolled in the certificate program to take Women's Studies courses. This certificate may be earned independently of a degree.

Applied Political Communication, Certificate

Certificate in Applied Political Communication (370019C)

Applied political communication encompasses the interaction of political figures, political interests, governmental institutions, media, and the public in their efforts to persuade and influence political power and public policy outcomes. This certificate's interdisciplinary nature applies the fundamentals of public communication and political science to meet the specific needs and goals of political campaigns and advocacy organizations. Topics covered include campaign leadership strategies, audience analysis pertaining to specific publics, crisis communication, effective strategic messaging campaigns targeting publics through traditional communication channels, digital communication assets, and social media platforms. The certificate is designed for students seeking preparation for careers as legislative aides, political consultants, campaign managers, social media or digital strategists, political journalists, government press secretaries, lobbyists, or aides in public affairs organizations.

Requirements for Admission

This certificate program is open to all students who have been admitted to undergraduate study at the University of Akron.

Program Information

The Associate of Art degree cultivates in students the habit of life-long learning through a diverse curriculum and teaches students to think critically and creatively about their perceptions of ideas, events and people. This degree is designed to position the student for successful employment, career advancement or more focused study at the baccalaureate level.

Career Information

There are many careers a student can pursue with an Associate of Arts degree. For additional information please visit the Bureau of Labor Statistics at www.bls.gov (<http://www.bls.gov/>) or visit the UA Career Center.

Bachelor Degree Program

Students earning an Associate of Arts can "step up" to many degrees offered at The University of Akron. Meet with your academic advisor to discuss all the options.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor. Transfer students should consult their Advisor to identify courses that are equivalent.

¹ 23-24 elective credits are required. You may choose any electives, but they should be in some logical sequence that leads towards an upper college degree program.

² A minimum of 36 hours of General Education courses are required to complete this degree. The requirements specified total 34 credits. It is recommended that students take a Global Diversity, Domestic Diversity or Complex Issues Facing Society course to fulfill the additional credit hours.

³ Seven hours of science are required. A majors-track course in the natural sciences can substitute for a General Education Natural Science course.

Policy Alert: By the end of your first 48 credit hours attempted, you must have completed your *required* General Education English, Mathematics, and Communications (Speech) requirements.

Arts, Communication Option, AA

Associate of Arts, Communication Option (202001AA)

Contact Information

Dr. Katie Cerrone
Program Coordinator
Leigh Hall 412
330-972-2574
kc24@uakron.edu

Program Information

The Associate of Arts degree cultivates in students the habit of life-long learning through a diverse curriculum and teaches students to think critically and creatively about their perceptions of ideas, events and people. This degree is designed to position the student for successful employment, career advancement or more focused study in Communication at the baccalaureate level.

Career Information

There are many careers a student can pursue with an Associate of Arts degree. For additional information please visit the Bureau of Labor Statistics at www.bls.gov (<https://nam03.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.bls.gov%2F&data=02%7C01%7Csjj%40uakron.edu%7C3d9c4bf7309a42537fee08d7e83f4e0f%7Ce8575dedd7f94ecea4aa0b32991aedd%7C0%7C0%7C637233230913435252&sdata=wdFJD1DvDDyen2jDZ8tptMsjr2An05%2FxFWF1A%3D&reserved=0>) or visit the UA Career Center.

Bachelor Degree Program

Students earning an Associate of Arts - Communication Option can "step up" to the Bachelor of Arts in Communication or other degrees offered at

The University of Akron. Meet with your academic advisor to discuss all the options.

The following information has official approval of the **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor. Transfer students should consult their Advisor to identify courses that are equivalent.

¹ A grade of C or better is required in order to graduate

² You must complete 32 credit hours in your first year to meet the prerequisite for HIST:210 Humanities in the Western Tradition from Ancient Times to 1500 and HIST:221 Humanities in the World since 1300

³ Seven hours of science are required. A majors-track course in the natural sciences from the Ohio Transfer Module can substitute for a General Education Natural Science course

⁴ This is a core course for a Communication Bachelor's Degree

⁵ SLPA:101 American Sign Language I may be taken in place of Beginning Language I.

⁶ Students who do not wish to participate in a co-curricular activity may instead take one additional 3 credit elective from the list of Communication Elective Courses.

⁷ It is recommended that a student choose one Art or Humanities course that also satisfies the Global Diversity requirement.

⁸ This course meets both General Education and Communications degree requirements.

⁹ This degree requires that you take a minimum 36 credit hours of General Education courses.

- ¹ A grade of C or better is required in order to graduate
- ³ Seven hours of science are required. A majors-track course in the natural sciences from the Ohio Transfer Module can substitute for a General Education Natural Science course
- ⁴ Communication Elective Courses (choose 3): You are allowed to take any 3 courses listed below but it is strongly recommended that you choose courses from the same area. Only 200 level courses are required to complete the degree. However, 300 level courses may be used for electives if you choose to take them.
- ⁶ SLPA:101 American Sign Language I may be taken in place of Beginning Language I.

- ⁷ It is recommended that a student choose one Art or Humanities course that also satisfies the Global Diversity requirement.
- ⁸ This course meets both General Education and Communications degree requirements.

Gerontology, Certificate Certificate in Gerontology (300006C)

This certificate program is a special course of study in gerontology that complements undergraduate degree programs in various departments and colleges throughout the University. Individuals who already hold an undergraduate degree may also pursue the certificate. The program represents a concentration involving current knowledge and research in gerontology. It adds another dimension to the knowledge and skills a student is able to offer in the many professions that are becoming specialized in research and service to adults and older adults. This course of study coordinates multi-disciplinary training of personnel in adult development and aging and helps to meet the critical shortage of trained individuals in the field of gerontology. Students also engage in interprofessional education, learning alongside students from different disciplines, which helps prepare students for employment in our increasingly team-based workforce.

Requirements for Admission

To participate in the program, a student must:

- Obtain admittance to The University of Akron as an undergraduate or post-baccalaureate student.
- Submit an application to the program countersigned by the student's major academic advisor.
- Participate in an interview with a designated faculty member of the Institute for Life-Span Development and Gerontology.
- Consult with the Director or designated faculty member to formulate a program of study.
- Complete and submit the BCAS Add Program form.
- Receive written notification of admission from the Director of the Institute for Life-Span Development and Gerontology.

Program Contact

Jennifer Stanley, Ph.D.
Director, Institute for Lifespan
Development & Gerontology
Associate Professor, Psychology
330-972-8376
jstanley@uakron.edu

The following information has official approval of the **Buchtel College of Arts & Sciences**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Certificate in Gerontology" and must be completed with a minimum grade point average of 2.0 overall for the certificate to be noted on the student's record. To participate in the program, a student must participate in an interview, receive written notification of admission, and consult with the Director or a designated faculty member of the Institute for Lifespan Development and Gerontology to formulate a program of study.

Summary

- ¹ In the absence of the prerequisites for PSYC:475 Psychology of Adulthood & Aging, SOCIO:343 Sociology of Aging, HCM:480 Introduction to Health-Care Management, the student in this certificate may request permission of the instructor to waive the prerequisite.
- ² ILSD:495 Practicum in Life-Span Development & Gerontology and SOCIO:365 Special Topics in Sociology are typically offered for 3 credits.
- ³ ILSD:485 Special Topics in Life-Span Development & Gerontology courses are typically offered for 3 credits.
- ⁴ Students may also use Independent Study to fulfill elective requirement. In special cases, more than one course in a major department may be used with permission.

Global Studies, BA

Bachelor of Arts in Global Studies (300106BA)

Global Studies is an multidisciplinary major within the College of Arts and Sciences that includes the humanities, social sciences, languages, and the natural sciences and prepares students to understand and appreciate the interconnected and interdependent nature of the local, national, and international communities that they will enter after graduation

by developing a global mindset in relation to the academic, cultural, linguistic, and professional dimensions of a global environment.

Total Hours 36

College of Arts & Sciences Requirements

Code **Title** **Hours**

Degree requirements in Arts & Sciences include the demonstration of ability to use another language by completion of the second year of a foreign language.

Foreign Language 14

101 Beginning I

102 Beginning II

201 Intermediate I

202 Intermediate II

SLPA:222 Survey of Deaf Culture in America (American Sign Language option only)

Students must also complete a minimum of 40 credits (excluding workshops) consisting of either:

Upper-level (300/400) courses both in and outside of the student's major;

or other courses outside the major department approved by the student's major department chair (permission should be obtained prior to enrollment); these may not include workshops

Mindset Courses

Code **Title** **Hours**

Students must include at least three different disciplines from among these options. At least three credits must be at the 300 level 12

POLIT:150 World Politics & Government

ANTH:251 Human Diversity

ENGL:389 Special Topics: Literature & Language

GEOG:250 World Regional Geography

GEOG:275 Geography of Cultural Diversity

HIST:221 Humanities in the World since 1300

PHIL:200 Philosophy of World Religions

HIST:351 Global History: Encounters and Conflicts

PHIL:329 Philosophy of International Law

SOCIO:321 Population, Environment, and Health

COMM:325 Intercultural Communication

Total Hours 12

Language Courses

Code **Title** **Hours**

Students must choose at least nine credits at or above the 300 level in the same modern international language. 9

Education Abroad

Code **Title** **Hours**

Students will participate in an education-abroad opportunity of at least one semester (or its equivalent) in length and which include courses and course credit that may be applied in fulfillment of appropriate Elective Categories and/or Language requirements, provided that they are transferable and meet with the approval of the program director.

Experiential Courses

Code **Title** **Hours**

If they are unable to participate in a study-abroad experience, some students may be allowed to fulfill that requirement and earn credit from a university-approved community-based experience that includes global content and related opportunities at the discretion of the program director. That credit may be applied toward the fulfillment of elective credit for this program, provided that it is consistent with one of the Elective Categories.

Internship

Code **Title** **Hours**

An internship may be used for Elective credit (the number of credits is flexible, though often 3 credits are earned) at the discretion of the program director, provided that its focus and activity is primarily related to a global theme and it conforms to one of the Elective Categories. Examples of internships can include service at institutions such as the Woodrow Wilson International Center for Scholars, the Council on Foreign Relations, the World Health Organization, an embassy or consulate, or a legislative committee dedicated to international activity and affairs.

Elective Categories and Courses

Code **Title** **Hours**

Students must choose their electives from within one of the following Concentrations and those courses must include at least two different disciplines. At least nine credits must be at the 300 level or higher and at least an additional three credits must be at the 400 level. 18

¹ ENGL:111 and ENGL:112 are the recommended classes to meet the General Education Writing Requirement
² Mindset course - Students must include at least three different disciplines from the Mindset Courses options; at least 3 hours at the 300 level.

³ Students must choose 18cr of electives from within one of the following concentrations:
 • Global Health
 • Global Justice and Inequality
 • Communities, Conflict, and Human Flourishing
 • Border Crossings and Migration
 • Environment, Energy, and Innovation
 • Global Human Origins
 • Security and Diplomacy

Elective courses must include at least two different disciplines. At least 9cr must be at the 300 level or higher and at least an additional 3cr must be at the 400 level. See list of concentration electives below.

⁴ Degree requirements in Arts & Sciences include a minimum of 40 credits of 300/400 level courses (excluding workshops) consisting of either:
 • Upper level (300/400) courses both in and outside the student's major
 • Any courses outside the major department as specified in and approved by the student's major department chair (permission should be obtained prior to enrollment) except workshops
 • If requirement has been satisfied by previous coursework, credits should still be filled as general electives.

Humanities Divisional, BA Bachelor of Arts, Humanities Divisional (390001BA)

This divisional major is appropriate for those desiring a Liberal Arts degree with a general emphasis in the humanities. The humanities division consists of the Departments of English, Modern Languages and Philosophy. These disciplines and the disciplines of History and the creative and dramatic arts (Art, Music, Theatre Arts) are included in a prescribed manner in this divisional degree.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be

earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program (CCP) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Total Hours 15

¹ Students must demonstrate competency in Spanish or Portuguese by completion of a minimum of 3 credits in Spanish or Portuguese at the 4th semester (202) or above at The University of Akron or the equivalent at another accredited institution. Students must consult the program director to plan a course of study.

² Students must select the topic Latin America.

Multidisciplinary Studies, BAT

Bachelor of Arts in Multidisciplinary Studies (300105BAT)

The Multidisciplinary Studies program is a self-designed major, allowing the student to examine traditional disciplines from diverse points of view and to plan a program of study targeted to his/her specific needs and interests. This program also serves students who desire to bring closure to their education when they have accumulated hours in varied areas without clear progress to a specific major or those who have divergent interests that cannot be accommodated in a traditional degree program.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide.

Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Multidisciplinary Studies Tracks		
Select one of the following tracks:		54
<i>Track 1¹</i>		
Primary area of focus		
Select 21 hours in one BCAS program area		
Secondary area of focus		
Select 15 to 18 hours in another area (may be a mixed or non-BCAS area)		
Tertiary area of focus		
Select 15 to 18 hours in another area (may be a mixed area)		
<i>Track 2²</i>		
Primary area of focus		
Select 30 hours in one BCAS program area		
Secondary area of focus		
Select 24 hours in another area (may be a mixed or non-BCAS area)		
Total Hours		54

¹ A minimum of 9 upper level (300/400) credit hours are required in two of the three concentration areas. Two of the three concentration areas (including the primary area) must be within the Buchtel College of Arts and Sciences.

² A minimum of 9 upper level (300/400) credit hours are required in each concentration area.

Note: This is an individually designed degree and may be done only with approval of the BCAS Dean who oversees it.

Science, AS

Associate of Science (202005AS)

Contact Information

Dr. Katie Cerrone
Program Coordinator
Leigh Hall 412
330-972-2574
kc24@uakron.edu

Program Information

The Associate of Science degree teaches students to think critically and creatively about their perceptions of ideas, events and people. This degree is for students who would like to pursue a science based degree. Core curriculum emphasizes mathematics and science, but also includes English, history, and social studies, while learning fundamental skills in analysis, research, composition and reading comprehension. This is a science intensive degree designed to position the student for successful employment, career advancement, or more focused study in STEM (science and health science, technology, engineering, mathematics) fields at the baccalaureate level.

Upon completion of the Associate of Science degree, students should demonstrate:

- the ability to make qualitative and quantitative judgments
- the ability to utilize critical thinking and analytical skills
- the ability to communicate in a clear, concise, and authentic manner
- a knowledge of science, technology, and mathematics and their effects on human activities

Career Information

There are many careers a student can pursue with an Associate of Science degree. For additional information please visit the Bureau of Labor Statistics at www.bls.gov (<http://www.bls.gov>) or visit the UA Career Center.

Bachelor Degree Program

Students earning an Associate of Science can "step up" to many degrees offered at The University of Akron. Meet with your academic advisor to discuss all the options.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Transfer students should consult their Advisor to identify courses that are equivalent.

Policy Alert: By the end of your first 48 credit hours attempted, you must have completed your *required* General Education English, Mathematics, and Communications (Speech) requirements.

Science, Construction Management Option, AS

Associate of Science, Construction Management Option, (202006ZAS)

The Associate of Science (Construction Management option) is an online degree offered through collaboration between the Department of Civil Engineering in the College of Engineering and Polymer Science and the Buchtel College of Arts and Sciences. The Associate of Science degree teaches students to think critically and creatively about their perceptions of ideas, events and people. The Construction Management option curriculum prepares students for careers in the construction industry as field supervisors, foremen, project management assistants, field technicians, quality control inspectors and other related first-line supervisory positions.

Requirements for Admission

Students who need developmental (non-college-credit-bearing) courses to prepare for their academic work at UA are placed in a pre-admission status for this program. They can take coursework towards the degree while in a pre-admission status when they meet course prerequisites, and they are fully admitted to the program when their developmental courses are successfully completed.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Transfer students should consult their Advisor to identify courses that are equivalent.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	38
	Construction Management Core	22
Total Hours		60

General Education

The Associate of Science requires a minimum of 36 credits of general education coursework. When a specific course is shown here, it is a program-specific requirement for the Construction Management option.

Code	Title	Hours
MATH:152 & MATH:153	Technical Mathematics II and Technical Mathematics III ¹	4
MATH:154	Technical Algebra and Trigonometry 2 ²	3

COET:371	Green & Sustainable Building Practices	3
Total Hours		22

¹ Meets General Education Mathematics, Statistics, and Logic Requirement. If a student places higher in math, the mathematics course they are placed in can substitute. If the requirement is met with a three-credit mathematics class, the student will need an additional one credit to meet the minimum credits for the degree.

MATH:145 Algebra for Calculus is an acceptable replacement for the combination of MATH:152 Technical Mathematics II and MATH:153 Technical Mathematics III.

² While not needed to meet the Mathematics, Statistics, and Logic Requirement, MATH:154 Technical Algebra and Trigonometry 2 is required by this program, and brings the number of credits of general education above the minimum of 36 credits required. If a student places higher in mathematics, a different general education class may be substituted.

MATH:149 Precalculus Mathematics is an acceptable substitute for MATH:154 Technical Algebra and Trigonometry 2.

³ Together, ENGL:111 English Composition I and ENGL:222 Technical Report Writing meet the General Education Writing Requirement for the Associate of Science degree program.

⁴ The General Education Natural Science Requirement requires seven credit hours and must include a lab. GEOL:135 Geology of Energy Resources counts towards the Natural Science Requirement. At least one remaining course must be a Natural Science w/LAB course.

Recommended Sequence

¹ 9 credits can be taken in either Philosophy, Sociology, or Psychology.

Social Sciences, Divisional, BA Bachelor of Arts in Social Sciences (390003BA)

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

kherold@uakron.edu

Program Information

The A.T.S. degree is designed to create an individualized, technical associate program using planned or previously earned technical coursework. There are two types of A.T.S. degrees, Type A and Type B.

The Type A ATS degree is a coherent combination of technical courses selectively drawn from two or more programs currently offered by the University of Akron to serve a career objective which would not be adequately addressed by one of those existing programs. Students are building their program primarily from University of Akron courses and generally have not earned credit as specified in the Ohio Career-Technical Credit Transfer (CT)². Students may plan a course of study by working with the ATS degree coordinator to create a planned course of study consisting of 30 technical credits by selecting available technical courses from at least two areas. When combined, these courses must be aligned to meet a clearly identifiable career objective. Additionally, the career objective must be distinct from any other technical programs offered at the University of Akron. Transfer courses received may also be applicable to the career objective. Use of transfer credit would depend on appropriateness to the career objective. General education courses fulfill the remaining credits and meet the associate degree requirements.

The Type B ATS degree enables students to combine certifications (state, national, vendor), earned through an educational entity or a place of employment, along with general education courses to meet the associate degree requirements.

For information about the one-year Associate of Technical Studies degree, contact Kelly Herold, Director of Educational Outreach.

The following information has official approval of the **The Buchtel College of Arts and Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family,*

course drops/withdrawals, successfully passing courses, prerequisites, among others. The transfer process is completed through an appointment with your academic advisor.

Transfer students should consult their Advisor to identify courses that are equivalent.

Total University of Akron Credits = 30 minimum

Block Credits = minimum of 8 up to 30³

Electives = minimum of 9 up to 31 credits

Total Credits for Degree = 60 minimum

Policy Alert: By the end of your first 48 credit hours attempted, you must have completed your required General Education English, Mathematics, and Communications (Speech) requirements.

College of Business

Effective Instruction

The College of Business emphasizes effective teaching and participatory learning as the primary means to educate and prepare future business leaders. Faculty members are strongly committed to being involved with and accessible to Business students. The College attempts to provide relatively small class sections throughout the curriculum.

Effective teaching and participatory learning includes challenging our students through a variety of teaching methods. The College relies upon the case method, seminar presentation, skills performance methods (oral

and written), discussion method, and experiential learning in addition to traditional lectures in the classroom. Relevant learning experiences, such as internships and co-ops, are also important components of the Business curriculum. These methods are used to:

- involve students actively in their own education by requiring preparation and engagement;
- instill in students the ability to educate themselves as a life-long habit; and
- prepare students to more effectively and quickly bridge the gap to competent business leadership.

Business students receive a well-rounded business education. Students acquire integrated business knowledge the following set of robust business skills:

- Quantitative
- Analytical
- Collaboration and teamwork
- Written communication and presentation
- Problem solving

Business faculty are especially focused on preparing students to be data savvy and well-versed in business analytics.

Exposure to business practitioners - in and out of the classroom - assists in achieving these goals. The College of Business introduces students to an understanding of professionalism, public service responsibilities and the role of business in society. This requires that students develop a respect for learning and a preference for solutions that advance the public good. Further, the College emphasizes creativity, open-mindedness, ethical behavior, and diverse cultural perspectives.

Since the College's inception, equal emphasis has been placed on broad basic theoretical principles and immediate applied practices within the curriculum. Classroom knowledge is supplemented with a strong professional development program, contact with business practitioners, the College's excellent tradition of vibrant student organizations, and invited speaker programs, to help students engage with the business community.

Please visit the College of Business (<https://www.uakron.edu/cba/>) for more information.

College Requirements

Requirements for Admission

To be admitted to a major in The College of Business, students must have completed the courses listed below and have an overall grade-point average of 2.5 or higher.

Code	Title	Hours
ENGL:111 & ENGL:112	English Composition I and English Composition II	6
COMM:105 or COMM:106	Introduction to Public Speaking Effective Oral Communication	3
ECON:200 or ECON:201	Principles of Microeconomics Principles of Macroeconomics	3
MATH:145 or MATH:210	Algebra for Calculus Calculus with Business Applications	4

Select one of the following:

ACCT:201	Accounting Principles I
ACCT:250	Spreadsheet Modeling & Decision Analysis
ENTRE:201	Introduction to Entrepreneurship
BLAW:220	Legal & Social Environment of Business
MKTG:205	Marketing Principles

Other Admissions

Students accepted into the University Honors College as business majors are automatically admitted to a major in the College of Business. Incoming first-year students with appropriate credentials may be admitted directly to a major in the College upon application to the University.

First-year students who begin study in another major at the University, and would have met the requirements to be directly admitted to a major in the College of Business, from high school, have until the last day of instruction in the first semester of their first year to be admitted to the major based upon the high school credentials. After this time, students can be admitted to the College of Business based upon the above requirements.

Transfer Student Admission

Transfer students from accredited two-year and four-year colleges are welcome. Students from outside the University must meet the same grade-point average, credit hours and coursework standards of University of Akron students. Transfer students who have not met the above coursework and academic performance standards will be admitted as pre-major to the College until all admission requirements are met.

Transfer/Transient Course Work

Some courses taken out of the University may be accepted in lieu of college requirements. The College will consider transfer/transient coursework from regionally accredited community colleges and other AACSB accredited institutions in accordance with the State of Ohio transfer policies and requirements laid out in this Bulletin. Courses will be evaluated based on content, complexity, grading standards and an earned grade of "C" or higher.

If transferring from another regionally accredited community college, it is anticipated that students will have devoted the major share of their academic effort to the completion of basic requirements in the general education and pre-business areas. The College will evaluate courses from regionally accredited non-AACSB accredited colleges for course-to-course transfer/transient substitution for College of Business 100 and 200 level courses only.

Continuation of the Baccalaureate Program

A Business student shall be subject to academic probation if the accumulated grade-point average for all courses is less than 2.0. College of Business students who are on academic probation for two consecutive semesters will be considered for academic dismissal. Probation and dismissal are decided by the Dean of the College in accordance with policies laid out in this Bulletin. Students on academic probation are required to meet with their College of Business academic advisor in order to make changes to the academic schedule as well as to participate in requirements for students on academic probation throughout the year.

Degrees

The College of Business offers the following baccalaureate degrees: the Bachelor of Science in Accountancy, the Bachelor of Business

Administration, the Bachelor of Arts in Economics, and the Bachelor of Science in Sport Analytics.

Second Majors, Minors and Certificates

To earn a second major or minor within the College of Business, students must take at least 9 credit hours not already counting towards the primary major.

To earn a certificate, students must take at least 6 credit hours not already counting towards the primary major.

Graduation Requirements

To graduate from the College of Business, students must earn the following grade point averages:

- 2.3 cumulative GPA
- 2.0 GPA in all Business and Economics courses
- 2.0 GPA in all Major required courses
- 2.0 GPA in College of Business Integrated Core courses

Integrated Core Curriculum

The Integrated Core Curriculum is made of 45 credits and serves as the foundation of the business curriculum. The purpose of the Integrated Core Curriculum is to provide a basic understanding of the business disciplines, to contribute to a student's choice of major, and to fulfill prerequisites for courses in the major. See an advisor for more information on the core curriculum and related requirements.

The following learning goals form the foundation of the learning activities that occur within the Integrated Core Curriculum:

- a. Demonstrate integrated business knowledge (accounting, business finance, marketing, business law, supply chain and operations management, management principles, business statistics and analytics, spreadsheet modeling, international business, and strategic management)
- b. Analyze data using quantitative techniques
- c. Be informed decision makers
- d. Develop leadership and collaboration competencies
- e. Use writing and oral communication skills to persuade and to mobilize action
- f. Demonstrate a global perspective and cross-cultural awareness
- g. Recognize and understand how to address ethical concerns

The Integrated Core Curriculum consists of 15 courses arranged in sequential order on which to build a foundation.

Contact the College of Business

To declare a major, minor or certificate in the College of Business, meet with an academic advisor in the College of Business. Please visit the College of Business advising website to schedule an appointment with an advisor.

Accountancy

The George W. Daverio School of Accountancy prepares students to become competent and responsible accounting professionals and business leaders. Accounting is essential for planning, decision-making, control and performance evaluation in all types of organizations, including business, government and non-profit entities. Accounting also supports the need for accountability and transparency in every organization, regardless of size, complexity or location. Government and regulatory organizations (e.g. the Internal Revenue Service and the Securities & Exchange Commission) rely heavily on accountants to support compliance with various laws and regulations. A need for accounting exists whether an organization is small or large, global or domestic, for-profit or not-for-profit, listed or not listed on a stock exchange. Thus, an accounting major offers a wide range of opportunities for future success as a professional.

Students who major in accounting at The University of Akron are generally recruited for professional careers in financial reporting, cost management and control, financial management, financial analysis, internal auditing, external auditing, taxation, information systems audit and control, financial forensics and consultancy. Organizations that recruit accounting majors include public accounting firms, major corporations, small and medium-sized enterprises, government agencies and non-profit organizations. There are exceptional opportunities for professional advancement regardless of career path and the type of institution a graduate may choose.

Professional certification is vital for accounting professionals. We recommend the Certified Public Accountant (CPA) credential for all of our graduates. Ohio law requires 150 semester credit hours of college-level education as a requirement for the CPA certification. We strongly encourage our students to pursue the Accelerated BS/MS Accounting or the Accelerated BS/Master of Taxation program as a path to obtain the 150 credits needed for the CPA certification.

CPA certification is needed for successful careers in public accounting; it is also highly valuable for careers in corporations, government agencies and other organizations. In addition to the CPA, other certifications that students may pursue include Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Information Systems Auditor (CISA) and Certified Fraud Examiner (CFE).

- Accounting, BS (p. 354)

Accountancy (ACCT)

ACCT:200 Accounting Principles for Non-business Majors (3 Credits)

Prerequisite: Minimum of 24 credit hours. Introduction to accounting principles including accounting for revenues, expenses, assets, liabilities, equity, accounting standards and financial statements. This course is designed for non-business majors. It does not count toward the required courses for business or accounting majors; College of Business students cannot earn credit for ACCT 200 Accounting Principles for Non-Business Majors. (Formerly 6200:200)

ACCT:201 Accounting Principles I (3 Credits)

Prerequisite: 24 hours of college credit. Introduction to accounting principles including accounting for revenues, expenses, assets, liabilities, equity, accounting standards and financial statements. (Formerly 6200:201)

ACCT:202 Accounting Principles II (3 Credits)

Prerequisite: ACCT 201. Information needs of management. Analysis of cash flow and financial statements. Study of product costing systems; standard costs; planning, budgeting, and control systems; overhead cost allocation; cost-volume-profit analysis; relevant costing; and capital budgeting. (Formerly 6200:202)

ACCT:250 Spreadsheet Modeling & Decision Analysis (3 Credits)

Prerequisite: Completion of 24 credit hours at The University of Akron. In-depth study of spreadsheet applications and databases to support decision-making and problem-solving in business and accounting. (Formerly 6200:250)

ACCT:290 Specialized Study (1-3 Credits)

Prerequisite: Grade of C or better in ACCT 201. Opportunity to study a specialized area in accounting at the sophomore or junior level (may be repeated with change of subject). (Formerly 6200:290)

ACCT:301 Cost Management and Control (3 Credits)

Prerequisites: [ECON 200 or ECON 244], grades of not less than "C" in ACCT 201, ACCT 202, and ACCT 250, and admission to a major in the College of Business Administration. Product cost accumulation, cost management strategies, performance evaluation, and application of cost in business decisions. (Formerly 6200:301)

ACCT:305 Cooperative Education in Accounting (0 Credits)

Prerequisites: ACCT 201, ACCT 202, ACCT 250. Approved work experience in accounting and taxation. Performance evaluation and written report required. (Formerly 6200:305)

ACCT:316 Financial Applications Development (3 Credits)

Prerequisite: ACCT 201, ISM 315. Analysis, design and development of financial and control applications. Integration of intelligent agents into financial information systems for risk assessment, control, and assurance of businesses processes. (Formerly 6200:316)

ACCT:320 Accounting Systems and Internal Control (3 Credits)

Prerequisites: A grade of not less than "C" in ACCT 201 and ACCT 250, and admission to a major in the College of Business Administration. Covers analysis design, implementation, governance and evaluation of accounting systems; business process modeling and accounting transaction cycles; and internal control. (Formerly 6200:320)

ACCT:321 Financial Reporting and Analysis I (3 Credits)

Prerequisite: Admission to a major in the College of Business Administration, a grade of not less than a "C" for accounting majors in ACCT 201 or permission. Financial reporting and analysis of cash, receivables, inventories, property, plant and equipment, intangibles and liabilities. Covers U.S. GAAP, IFRS, SEC reporting, and corporate financial reporting policy. Emphasizes professional accounting research. (Formerly 6200:321)

ACCT:322 Financial Reporting and Analysis II (3 Credits)

Prerequisite: Admission to a major in the College of Business Administration and a grade of not less than a "C" in ACCT 321 or permission. Financial reporting and analysis of owners' equity, investments, revenue recognition, tax allocations, pensions, leases, accounting changes, cash flows, segments, and interim periods. Covers U.S. GAAP, IFRS, SEC reporting, and corporate financial reporting policy. Emphasizes professional accounting research. (Formerly 6200:322)

ACCT:330 Contemporary Federal Taxation (3 Credits)

Prerequisites: Admission to a major in the College of Business and ACCT 201 with a grade of C or better. Pre/Corequisite: ACCT 321 or admission to the Financial Planning major. Examines current federal tax practices with an emphasis on individual taxes. (Formerly 6200:330)

ACCT:405 Experiential Learning in Accounting (3 Credits)

Corequisite: ACCT 305. Approved experiential learning in accounting. Instructor approval required. (Formerly 6200:405)

ACCT:408 International Financial Reporting & Analysis (3 Credits)

Prerequisites: Admission to a major in the College of Business Administration, a grade of not less than a "C" in ACCT 201 and ACCT 202, and [an international business major (INTB) or ACCT 321]. Covers international accounting standards, analysis of foreign financial statements, international tax issues, accounting for foreign currency, transfer pricing and international auditing standards. (Formerly 6200:408)

ACCT:410 Taxation for Financial Planning (3 Credits)

Provides students preparing for careers in financial planning with the necessary knowledge of federal tax law as applied to individuals and businesses. Not to be used as an accounting elective. (Formerly 6200:410)

ACCT:420 Advanced Financial Reporting and Analysis (3 Credits)

Prerequisite: Admission to a major in the College of Business Administration and ACCT 322. Examination of accounting theory and financial reporting practices for business combinations, partnerships, foreign operations, nonprofit entities and consolidated statements. Covers U.S. GAAP, IFRS, SEC reporting, and corporate financial reporting policy. Emphasizes professional accounting research. (Formerly 6200:420)

ACCT:424 Business Law (3 Credits)

Prerequisite: Completion of 64 credits. Understand business law and concepts dealing with the legal environment of business and their applications, including: business ethics, the American legal system, tort law, contracts, secured transactions, bankruptcy, real property, business entities, environmental law, antitrust. (Formerly 6200:424)

ACCT:431 Business Entity Taxation (3 Credits)

Prerequisites: ACCT 330 and admission to a major in the College of Business Administration. Federal income tax law related to partnerships, corporations, trusts and estates; also includes an overview of federal estate and gift tax law. (Formerly 6200:431)

ACCT:440 Assurance Services and Professional Responsibilities (3 Credits)

Prerequisites: ACCT 320, ACCT 322, ACCT 330, and admission to a major in the College of Business Administration. Examines assurance services including external auditing and professional responsibilities. Focuses on standards, professional ethics and independence requirements, and procedures used in conducting assurance services. (Formerly 6200:440)

ACCT:441 Information Systems Audit & Control (3 Credits)

Prerequisites: Admission to a major in the College of Business Administration, ACCT 440 and ACCT 454 or permission. Learn the fundamental concepts and practices of information systems audit control. Use of contemporary control frameworks, objectives and standards to discuss integrity, control, governance, assurance and effectiveness of financial information systems. (Formerly 6200:441)

ACCT:450 Advanced Applied Analytics & Decision Analysis (3 Credits)

Prerequisites: Admission to a major in the College of Business, ACCT 201, and ACCT 250, or equivalents. Study advanced topics in data analytics and decision analysis in the context of accounting and business. Topics may include advanced Excel techniques, PowerBI, and other applied analytics software. (Formerly 6200:450)

ACCT:454 Information Systems Security (3 Credits)

Prerequisites: [ACCT 320 or ISM 310] and admission to a major in the College of Business Administration. Focus on information systems risk and security in distributed business environments; develop policies, practices and systems for security of computers and data in business with emphasis on financial information systems. (Formerly 6200:454)

ACCT:460 Advanced Managerial Accounting (3 Credits)

Prerequisites: Admission to a major in the College of Business Administration, ACCT 301, ACCT 320, and [SCM 330 or SCM 333]. The use of financial and non-financial information in decision making, performance evaluation of business units, strategy and governance, and management control. (Formerly 6200:460)

ACCT:470 Governmental Accounting (3 Credits)

Prerequisites: ACCT 321 or equivalent. Theory and procedures involved in application of fund accounting, budgetary control, appropriations and various accounting systems to governmental units, educational, medical and other non-profit institutions. Covers financial reporting for government and not for profit entities and GASB standards. (Formerly 6200:470)

ACCT:475 Experiential Learning in Tax (3 Credits)

Prerequisite: ACCT 330 or equivalent with grade of C- or better or permission of the instructor. Students focus on the application of tax law to specific transactions. Students learn to communicate with low-income and nonresident alien clients and work to achieve the best tax outcome when preparing tax returns. Students learn to use tax software and learn to review their own work prior to submitting to the professor for review. (Formerly 6200:475)

ACCT:490 Special Topics in Accounting (1-3 Credits)

Prerequisite: Permission of instructor. Opportunity to study special topics and current issues in accounting. May be repeated with a change of subject. (Formerly 6200:490)

Accounting, BS

Bachelor of Science in Accounting (620000BS)

More on the Accounting major (<https://www.uakron.edu/cba/undergraduate/majors/accounting.dot>)

The George W. Daverio School of Accountancy prepares students to become competent and responsible accounting professionals and business leaders. Accounting is essential for planning, decision-making, control and performance evaluation in all types of organizations, including business, government and non-profit entities. An accounting major offers a wide range of opportunities for future success as a professional. Professional certification is vital for accounting professionals. The School of Accountancy's undergraduate accounting degree prepares you to pursue certifications such as certified public accountant (CPA), certified management accountant (CMA), certified internal auditor, and certified information systems auditor.

Requirements for Admission

- 2.5 average cumulative
- English Composition I and II (ENGL:111 & ENGL:112)
- Speech requirement (COMM:105 or COMM:106)
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210)

- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201)
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)
 - Introduction to Entrepreneurship (ENTRE:201)
 - Legal & Social Environment of Business (BLAW:220)
 - Marketing Principles (MKTG:205)

The following information has official approval of **The George W. Daverio School of Accountancy** and **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program (CCP) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	35
	Additional Business Requirements	4
	College of Business Core	42
	Accounting Required Courses	27
	Accounting Electives	9
	Free Elective	3
	Total Hours	120

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking or COMM:10 Effective Oral Communication	
<i>Writing: 6 credit hours</i>		
ENGL:111	English Composition I	
ENGL:112	English Composition II	
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
ECON:200	Principles of Microeconomics	
SOCIO:100	Introduction to Sociology	
Diversity		
Domestic Diversity		
SOCIO:100	Introduction to Sociology	
Global Diversity		
Integrated and Applied Learning		
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		34

Additional Business Requirements

Code	Title	Hours
General Education Mathematics Requirement		
MATH:145	Algebra for Calculus ¹	4
Required Business Courses		
BUSN:110	College of Business Success Seminar ²	
BUSN:111	Professional Development Seminar	
Recommended Business Courses		
BUSN:200	Personal Leadership Skills	
Total Hours		4

¹ MATH:145 Algebra for Calculus needs to be completed with a C- or better.

² Only required for new first-year students. Transfer students are excluded from this requirement.

College of Business Core ¹

Code	Title	Hours
ECON:201 or ECON:244	Principles of Macroeconomics ² Introduction to Economic Analysis	3
BUSN:230	Business Communication	3
ACCT:201	Accounting Principles I ³	3
ACCT:202	Accounting Principles II ³	3
ACCT:250	Spreadsheet Modeling & Decision Analysis ³	3
ACCT:424	Business Law	3
FIN:301	Principles of Finance	3

ACCT:450	Advanced Applied Analytics & Decision Analysis	3
Total Hours		27

¹ Accounting majors must complete with a grade of C or better.

Accounting Electives

Code	Title	Hours
Select three of the following:		9
ACCT:454	Information Systems Security	
ACCT:408	International Financial Reporting & Analysis	
ACCT:441	Information Systems Audit & Control	
ACCT:460	Advanced Managerial Accounting	
ACCT:470	Governmental Accounting	
ACCT:490	Special Topics in Accounting	
ACCT:475	Experiential Learning in Tax	

Code	Title	Hours
ACCT:405	Experiential Learning in Accounting ¹	3
Total Hours		9

¹ Eligibility for ACCT:405

- Admitted to CBA and minimum 3.0 cumulative GPA
- Completed or enrolled in ACCT:320 and ACCT:321
- Grade of B or better in ACCT:201 and ACCT:202
- Requires ACCT:305 as a corequisite (0 credits)

Free Elective

Code	Title	Hours
	Free Elective ¹	3
Total Hours		3

¹ Students may take any course offered at The University of Akron to fulfill the 120 credit hour requirement.

Graduation Requirements – Review DPR for Status

- 120 Credit Hours
- College of Business Residency = Last 15 credits earned in The College of Business
- UA Residency = Students must complete their final 30 credits in residence at The University of Akron
- At least 50% of the business core and major course requirements must be earned at The University of Akron
- Overall GPA = 2.3
- Major GPA = 2.0
- Business & Economics GPA = 2.0
- Business Core Classes GPA = 2.0

Recommended Sequence

1st Year		Hours
Fall Semester		
ENGL:111	English Composition I	3
COMM:105 or COMM:106	Introduction to Public Speaking or Effective Oral Communication	3

Total Hours 122-124

⁵ Students may choose their electives from the following list (9 credits total):

- ACCT:454 Information Systems Security (3 credits)
- ACCT:408 International Financial Reporting & Analysis (3 credits)
- ACCT:441 Information Systems Audit & Control (3 credits)
- ACCT:460 Advanced Managerial Accounting (3 credits)
- ACCT:470 Governmental Accounting (3 credits)
- ACCT:490 Special Topics in Accounting (3 credits)
- ACCT:405 Experiential Learning in Accounting (3 credits)

⁶ Students may complete any course at the University of Akron to satisfy this requirement.

Economics

Economics is the study of choice in a world with scarce resources. Students majoring in economics develop their analytical and problem-solving skills while exploring theories of economic systems and their application to a large number of fields. These fields range from finance and international trade to poverty reduction and environmental problems.

The BA program has core courses in theory and in quantitative and computer methods as well as a number of economics electives. If they wish, students can choose field electives relating to career tracks: business, banking and international economics, public policy or graduate school. In one of their final field courses, students develop and carry out a senior project that shows their ability to apply what they have learned, both analytically and quantitatively. For potential employers, it provides an important demonstration of what an economics graduate can do.

Graduates are employed in both the private and public sectors in a wide range of careers. For example they can be found as financial analysts, management trainees, human resource managers, city and state economists, bank examiners or health care administrators. An economics degree is an excellent background for entrance into professional programs such as law or the MBA. A joint major is a very useful option for students studying in other fields.

The BBA in Business Data Analytics degree is designed to meet the growing demand for professionals who can gather, sort and interpret large amounts of data to help businesses solve problems and operate more effectively.

This STEM-designated program combines coursework in business, economics and data analytics to provide students the knowledge, skills and hands-on experience needed to develop data-driven solutions in finance, insurance and other industries.

- Business Data Analytics, BBA (p. 361)
- Business Data Analytics, Certificate (p. 364)
- Business Data Analytics, Minor (p. 364)
- Economics, BA (p. 365)
- Economics, Minor (p. 367)
- Economics/JD Accelerated, BA (p. 368)

⁴ Must have a C or higher in this course.

Economics (ECON)

ECON:100 Introduction to Economics (3 Credits)

May not be substituted for ECON 200, ECON 201, or ECON 244. Economics primarily concerned in a broad social science context. Adequate amount of basic theory introduced. Cannot be used to satisfy major or minor requirements in economics. (Formerly 3250:100)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

ECON:200 Principles of Microeconomics (3 Credits)

No credit if ECON 244 already taken. Analysis of behavior of the firm and household, and their impact on resource allocation, output and market price. (Formerly 3250:200)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

ECON:201 Principles of Macroeconomics (3 Credits)

Prerequisite: ECON 200. No credit if ECON 244 already taken. Study of the economic factors which affect the price level, national income, employment, economic growth. (Formerly 3250:201)

ECON:226 Computer Skills for Economic Analysis (3 Credits)

Prerequisites: ECON 100 or ECON 200 or ECON 244. Application of word processing, spreadsheets, presentation packages, SAS, the Internet, library resources, and other computer tools in communicating economic analysis. (Formerly 3250:226)

ECON:230 Economics of Social Policy Issues (3 Credits)

Prerequisite: ECON 100, or ECON 200 and ECON 201, or ECON 244 or permission of the instructor. Investigation of selected labor and social policy issues. Examples include health care, economic demography, anti-poverty programs, immigration, discrimination, and the impact of unemployment and inflation. (Formerly 3250:230)

ECON:244 Introduction to Economic Analysis (3 Credits)

This course is not open to students in the College of Business. No credit to a student who has completed ECON 200 and ECON 201. Recommended for engineering and mathematical science majors. Intensive introduction to analysis of modern industrial society and formulation of economic policy. Structure of economic theory and its relation to economic reality. (Formerly 3250:244)

Ohio Transfer 36: Yes

Gen Ed: - Social Science

ECON:310 Managerial Economics (3 Credits)

Prerequisites: ECON 200 or ECON 244. Application of economic analysis to management problems; the organization of enterprises and the allocation of their resources; decision making under uncertainty; strategic behavior. (Formerly 3250:310)

ECON:325 Applied Econometrics I (3 Credits)

Prerequisites: [STAT 261 and STAT 262] or STAT 401 or STAT 461 or MGMT 304. Students learn SAS coding and the foundations of data science. Course covers multiple regression estimation and inference analysis and concludes with a research paper. (Formerly 3250:325)

ECON:326 Applied Econometrics II (3 Credits)

Prerequisite: ECON 325. Violations of the classical assumptions of the regression model and corrections are explored along with regression analysis of time series data. Culminates with a research paper. (Formerly 3250:326)

ECON:330 Labor Problems (3 Credits)

Prerequisites: [ECON 200, or ECON 201, or ECON 244]. Labor economics, principles and public policy. Study of structure of labor market and impact unions have on labor management relations. (Formerly 3250:330)

ECON:333 Labor Economics (3 Credits)

Prerequisite: ECON 200 or ECON 244. Theoretical tools used in analysis of problems of labor in any modern economic system. Emphasis given to examination of determinants of demand for and supply of labor. (Formerly 3250:333)

ECON:350 Women and the Economy (3 Credits)

Prerequisite: ECON 100 or ECON 200 or ECON 244 or permission of the department. An economic analysis of the role gender plays in decisions (family formation, fertility, childcare, work) and outcomes (the gender wage gap, economic development). (Formerly 3250:350)

ECON:360 Industrial Organization & Public Policy (3 Credits)

Prerequisites: ECON 200 or ECON 244. Role of industrial structure and firm conduct in performance of industry and way in which antitrust policy is designed to provide remedies where performance is unsatisfactory. (Formerly 3250:360)

ECON:380 Money & Banking (3 Credits)

Prerequisite: ECON 201. Institutions of money, banking and credit, monetary expansion and contraction, public policies affecting this process, development of our money and banking system. (Formerly 3250:380)

ECON:385 Economics of Natural Resources & the Environment (3 Credits)

Prerequisites: [ECON 100 or ECON 200 or ECON 244] or permission. Introduction to economic analysis of use of natural resources and economics of environment. Problems of water and air pollution, natural environments, natural resource scarcity, conservation, economic growth. (Formerly 3250:385)

Gen Ed: - Complex Issues Facing Society

ECON:400 Intermediate Macroeconomics (3 Credits)

Prerequisites: ECON 201 and [MATH 145 or higher math]. Changes in national income, production, employment, price levels, long-range economic growth, short-term fluctuations of economic activity. (Formerly 3250:400)

ECON:405 Economics of the Public Sector (3 Credits)

Prerequisites: [ECON 200 and ECON 201] or ECON 244. Considers nature and scope of government activity, rationale for government intervention, problems of public choice, taxation and revenue-raising, cost-benefit analysis, program development and evaluation. (Formerly 3250:405)

ECON:406 State & Local Public Finance (3 Credits)

Prerequisite: ECON 410; recommended: ECON 405. Examines economic rationale and problems for provision of goods and services by different governmental units. Considers alternative revenue sources and special topics. (Formerly 3250:406)

ECON:410 Intermediate Microeconomics (3 Credits)

Prerequisites: [ECON 200 or ECON 244] and [MATH 145 or higher math]. Advanced analysis of consumer demand, production costs, market structures, determinants of factor income. (Formerly 3250:410)

ECON:415 Cost-Benefit Analysis (3 Credits)

Prerequisites: [ECON 200 and ECON 201] or ECON 244. Introduction to tool for public project evaluation. Includes development of analytical framework and methods of determining benefits and costs over time. Stresses application of techniques. (Formerly 3250:415)

ECON:423 Applied Game Theory (3 Credits)

Prerequisite: ECON 200. Application of the basic concepts of game theory (analysis of strategic behavior) to relevant economics issues including bargaining, cartels, voting, conflict resolution and non-competitive pricing. (Formerly 3250:423)

ECON:426 Applied Econometrics (3 Credits)

Prerequisites: STAT 261, STAT 262, and [(ECON 200 and ECON 201) or ECON 244]. Application of regression analysis to economic and social sciences data. Discusses typical problems from applied research, including estimation technique, hypothesis testing, and modeling framework. (Formerly 3250:426)

ECON:427 Economic Forecasting (3 Credits)

Prerequisites: [(STAT 261 and STAT 262) or STAT 401 or STAT 461 or MGMT 304] and [(ECON 200 and ECON 201) or ECON 244]. Methods for building, identifying, fitting and checking dynamic economic models and use of these models for forecasting. Emphasis on application of available computer software systems. (Formerly 3250:427)

ECON:430 Labor Market and Social Policy (3 Credits)

Prerequisite: [ECON 200 and ECON 201] or ECON 244 or permission of instructor. Intensive study of current labor and social policy issues (e.g., discrimination, poverty, migration, education, demographic and labor market changes, impact of international trade on employment). (Formerly 3250:430)

Gen Ed: - Complex Issues Facing Society

ECON:432 Economics & Practice of Collective Bargaining (3 Credits)

Prerequisite: ECON 200 or ECON 244. Principles and organization of collective bargaining, collective bargaining agreements, issues presented in labor disputes and settlements, union status and security, wage scales, technological change, production standards, etc. (Formerly 3250:432)

ECON:434 Labor Market Analysis and Evaluation (3 Credits)

Prerequisites: A minimum of 12 credits of 300- or 400-level economics coursework that includes ECON 325, ECON 326 and ECON 410. Applied labor market research using specialized techniques. Employment, health, education, and other current policy issues and programs analyzed and evaluated. Original research project required. (Formerly 3250:434)

ECON:436 Health Economics (3 Credits)

Prerequisites: ECON 100 or ECON 200 or ECON 244 or permission of instructor. Economic analysis of health care. Stresses health policy issues, includes study of demand and supply of medical services and insurance, analysis of health care industries. (Formerly 3250:436)

ECON:438 Economics of Sports (3 Credits)

Prerequisites: ECON 100 or ECON 200 or ECON 244 or permission of instructor. Sports franchises as profit maximizing firms; costs and benefits of a franchise to a city; labor markets in professional sports; the economics of college sports. (Formerly 3250:438)

ECON:440 Special Topics in Economics (3 Credits)

Prerequisite: [ECON 200 and ECON 201] or ECON 244 or permission of department. Opportunity to study special topics and current issues in economics. (Formerly 3250:440)

ECON:460 Economics of Developing Countries (3 Credits)

Prerequisites: [ECON 200 and ECON 201] or ECON 244. Basic problems in economic development. Theories of economic development, issues of political economy and institutions. Topics include poverty, population, migration, employment, finance, international trade and environment. (Formerly 3250:460)

Gen Ed: - Global Diversity

ECON:461 Principles of International Economics (3 Credits)

Prerequisites: [ECON 200 and ECON 201] or ECON 244, or permission of the Economics department. International trade and foreign exchange, policies of free and controlled trade, international monetary problems. (Formerly 3250:461)

ECON:475 Development of Economic Thought (3 Credits)

Prerequisites: [ECON 200 and ECON 201] or ECON 244, or permission of the Economics department. Evolution of theory and method, relation of ideas of economists contemporary to conditions. (Formerly 3250:475)

ECON:481 Monetary & Banking Policy (3 Credits)

Prerequisites: ECON 380, ECON 400; or permission of the Economics department. Control over currency and credit, policies of control by central banks and governments, United States Treasury and Federal Reserve System. (Formerly 3250:481)

ECON:487 Urban Economics:Theory & Policy (3 Credits)

Prerequisites: [ECON 200 and ECON 201] or ECON 244, or permission of instructor. Analysis of urban issues from an economic perspective. Emphasis on urban growth, land-use patterns, housing, income distribution, poverty and urban fiscal policy. (Formerly 3250:487)

Gen Ed: - Domestic Diversity

ECON:490 Individual Study in Economics (1-3 Credits)

(May be repeated for a total of six credits) Prerequisite: Permission of instructor. Independent study in economics under supervision and evaluation of selected faculty member. (Formerly 3250:490)

ECON:491 Workshop: Economics (1-3 Credits)

(May be repeated) Prerequisite: Permission of the Economics department. Group studies of special topics in economics. May not be used to meet undergraduate or graduate major requirements in economics. May be used for elective credit only. (Formerly 3250:491)

ECON:495 Internship in Economics (1-3 Credits)

Prerequisites: ECON 200, ECON 201 and at least three additional courses in economics at the 300- or 400-level. Supervised placement in appropriate position in public or private sector organizations. Reports and written assignments required. (Formerly 3250:495)

ECON:496 Senior Project in Economics (2 Credits)

Prerequisites: ECON 400, ECON 410, ECON 426. Corequisites: ECON 405 or ECON 423 or ECON 430 or ECON 460 or ECON 461 or ECON 475 or ECON 481 or ECON 487. Taken concurrently with or following a 400-level field Economics course. Involves independent out-of-class work on a project designed in consultation with the designated 400-level course instructor. (Formerly 3250:496)

ECON:497 Honors Project in Economics (1-3 Credits)

(May be repeated for a total of six credits) Prerequisite: Senior standing in Honors College. Individual senior honors thesis on a creative project relevant to economics, approved and supervised by faculty member of the department. (Formerly 3250:497)

ECON:506 State & Local Public Finance (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Examines economic rationale and problems for provision of goods and services by different governmental units. Considers alternative revenue sources and special topics. (Formerly 3250:506)

ECON:515 Cost-Benefit Analysis (3 Credits)

Prerequisites: Admission to the master's program in Economics or permission. Introduction to tool for public project evaluation. Includes development of analytical framework and methods of determining benefits and costs over time. Stresses application of techniques. (Formerly 3250:515)

ECON:523 Applied Game Theory (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Application of the basic concepts of game theory (analysis of strategic behavior) to relevant economics issues including bargaining, cartels, voting, conflict resolution and non-competitive pricing. (Formerly 3250:523)

ECON:527 Economic Forecasting (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Study of methods for building, identifying, fitting and checking dynamic economic models and use of these models for forecasting. Emphasis is on the application of available computer software systems. (Formerly 3250:527)

ECON:530 Labor Market and Social Policy (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Intensive study of current labor and social policy issues (e.g., discrimination, poverty, migration, education, demographic and labor market changes, impact of international trade on employment). (Formerly 3250:530)

ECON:536 Health Economics (3 Credits)

Prerequisite: Permission of instructor. Economic analysis of health care. Stresses health policy issues, includes study of demand and supply of medical services and insurance, analysis of health care industries. (Formerly 3250:536)

ECON:538 Economics of Sports (3 Credits)

Prerequisite: Permission of instructor. Sports franchises as profit maximizing firms; costs and benefits of a franchise to a city; labor markets in professional sports; the economics of college sports. (Formerly 3250:538)

ECON:540 Special Topics in Economics (3 Credits)

Prerequisite: Permission. Opportunity to study special topics and current issues in economics. (Formerly 3250:540)

ECON:560 Economics of Developing Countries (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Basic problems of economic development. Theories of economic development, issues of political economy and institutions. Topics include poverty, population, migration, employment, finance, international trade, environment. (Formerly 3250:560)

ECON:561 Principles of International Economics (3 Credits)

Prerequisite: Admission to master's program in Economics or permission. International trade and foreign exchange, policies of free and controlled trade, international monetary problems. (Formerly 3250:561)

ECON:575 Development of Economic Thought (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Evolution of theory and method, relation of ideas of economists contemporary to conditions. (Formerly 3250:575)

ECON:581 Monetary & Banking Policy (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Control over currency and credit, policies of control by central banks and governments, United States Treasury and Federal Reserve System. (Formerly 3250:581)

ECON:587 Urban Economics: Theory & Policy (3 Credits)

Prerequisite: Admission to the master's program in Economics or permission. Analysis of urban issues from an economic perspective. Emphasis on urban growth, land-use patterns, housing, income distribution, poverty and urban fiscal policy. (Formerly 3250:587)

ECON:591 Workshop in Economics (1-3 Credits)

(May be repeated) Group studies of special topics in economics. May not be used to meet undergraduate or graduate major requirements in economics. May be used for elective credit only. (Formerly 3250:591)

ECON:600 Foundations of Economic Analysis (3 Credits)

Prerequisite: graduate standing. Determination of national income, employment and price level; aggregate consumption, investment and asset holding; decision problems faced by household and firm. Partial equilibrium and analysis of competition and monopoly and general equilibrium analysis. May not be substituted for 602, 603, 611, or applied toward the 30 graduate credits required for M.A. in economics. (Formerly 3250:600)

ECON:601 Economic Decision Making for Business (3 Credits)

Prerequisite: Graduate standing or permission of department. An application of microeconomic analysis to solving business problems and a macroeconomic perspective on national output, unemployment, and inflation. (Formerly 3250:601)

ECON:602 Macroeconomic Analysis I (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Construction of static macroeconomic models. Analysis predominantly in terms of comparative statistics with only relatively brief mention of dynamic models. (Formerly 3250:602)

ECON:606 Economics of the Public Sector (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Examination of public sector economies emphasizes public revenues, public expenditures. Develops objectives of taxation, welfare aspects of the public sector, theory of public goods. Considers specific taxes, cost-benefit analysis, expenditures analysis, fiscal federalism. (Formerly 3250:606)

ECON:610 Framework of Economic Analysis (3 Credits)

Prerequisite: graduate standing. Development of theoretical and analytical framework for decision making. Discussion of applications of the framework to situations concerning demand, cost, supply, production, price, employment and wage. (Formerly 3250:610)

ECON:611 Microeconomic Theory I (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Modern theory of consumer behavior and of the firm. Determination of market prices. Optimization models, establishment of criteria for productive, allocative and distributive efficiency. (Formerly 3250:611)

ECON:615 Industrial Organization (3 Credits)

Prerequisite: ECON 611 or permission. Examines link between market structure, firm conduct and economic performance. Measurement and effects of monopoly power, industrial concentration and changes. (Formerly 3250:615)

ECON:617 Economics of Regulation (3 Credits)

Prerequisite: ECON 615 or permission of instructor. Examines rationale, methods and success of government regulation of public utility, transportation and communications industries. (Formerly 3250:617)

ECON:620 Application of Mathematical Models to Economics (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Review of selected topics of differential and integral calculus and their application to economic analysis. Theory of optimization in production and consumption; static macroeconomic models. Analysis of growth and stability. (Formerly 3250:620)

ECON:621 Application of Linear Models in Economic Analysis (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Review of selected topics of linear algebra application to economic theory. Static open and closed input-output tables, dynamic models, consumption technology and theory of demands, linear programming, general equilibrium analysis. (Formerly 3250:621)

ECON:626 Applied Econometrics I (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Students will learn statistical methods and standard econometric tools by reading and conducting empirical research requiring problem articulation, data assembly and appropriate model specification. (Formerly 3250:626)

ECON:627 Applied Econometrics II (3 Credits)

Prerequisite: ECON 626 or equivalent. Students will learn advanced econometric topics, continuing to build on modeling, interpretation, and evaluation skills through economic problems, culminating in an empirical research paper. (Formerly 3250:627)

ECON:628 Seminar in Research Methods (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. A seminar in the research use of applied mathematical economics or econometrics. Emphasis is on individual development of a theoretical proposition or research statement, its empirical examination and policy implications. (Formerly 3250:628)

ECON:633 Theory of Wages & Employment (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Analytical approach to integration of economic theory with observed labor market phenomena. Discussion of wage and employment theories, effects of unions, collective bargaining theories and effects of government regulation. (Formerly 3250:633)

ECON:640 Special Topics in Economics (3 Credits)

Prerequisite: Admission to the Master's Program in economics or permission of department. Opportunity to study special topics and current issues in economics at an advanced level. Repeatable with permission of instructor. (Formerly 3250:640)

ECON:664 Seminar on Economic Growth & Development (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Review of main theories of economic growth since age of classical economics. Problems in development of emerging countries. Discussion of aggregative macro-models of capital formation, investment, technology and external trade. (Formerly 3250:664)

ECON:666 Seminar on Regional Economic Analysis & Development (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Study of a particular national or international regional development. Any one or a combination of following regions may be considered: Middle East, North Africa, areas within Latin America, Southern Europe, Southeast Asia or Eastern Europe. (Formerly 3250:666)

ECON:670 International Monetary Economics (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. International financial relations. Foreign exchange market and exchange rate adjustments. Balance of payments adjustment policies. International monetary system. (Formerly 3250:670)

ECON:671 International Trade (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Traditional trade theory. Recent developments in trade theory, policy implications in trade relations among developed and developing economics. (Formerly 3250:671)

ECON:683 Monetary Economics (3 Credits)

Prerequisite: Admission to the master's program in economics or permission of the department. Intensive study of important areas of monetary theory. Emphasis on integration of money and value theory among other areas, plus some pressing policy issues. (Formerly 3250:683)

ECON:695 Graduate Internship in Economics (1-3 Credits)

Prerequisites: Eighteen credit hours of economics graduate courses. Career application of student's graduate coursework. Supervisor reports and assignments required. May be repeated for a maximum of three credits. (Formerly 3250:695)

ECON:697 Reading in Advanced Economics (1-4 Credits)

(A maximum of six credits may be applied toward the master's degree in economics.) Prerequisite: Admission to the master's program in economics or permission of the department. Intensive investigation of selected problem area in advanced economics under supervision of instructor. Since the subject matter is decided upon in each case, the course may be taken repeatedly for credit. (Formerly 3250:697)

ECON:698 Reading in Advanced Economics (1-4 Credits)

(A maximum of six credits may be applied toward the master's degree in economics.) Prerequisite: Admission to the master's program in economics or permission of the department. Intensive investigation of selected problem area in advanced economics under supervision of instructor. Since the subject matter is decided upon in each case, the course may be taken repeatedly for credit. (Formerly 3250:698)

ECON:699 Master's Thesis (3 Credits)

(May be repeated for a total of six credits) (Formerly 3250:699)

Business Data Analytics, BBA

Bachelor of Business Administration in Business Data Analytics (325005BBA)

More on the Business Data Analytics major (<https://www.uakron.edu/data-analytics/>)

The BBA Business Data Analytics major prepares students to answer important questions that arise in decision making in business and the public sector that can be informed by economics and analyzed using data. Core competencies include critical thinking skills, data acquisition skills, data analysis techniques, the application of economic theory to analyze economic data, communication skills, and proficiency in the use of data analytic computer software used in the workplace. Students gain experience in applying economic theory in a wide variety of settings and round out that training with a cognate set of data analytic coursework from the College of Business and elsewhere. After completing the program students can expect job opportunities as an analyst in a wide variety of fields including general business, banking, financial services, federal, state and local government, consulting, and not-for-profit organizations

College of Business room 260

The following information has official approval of **The Department of Economics** and **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established

at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652)	36
	Additional Business Requirements	3-4
	College of Business Core	42
	Business Data Analytics Requirements	33-34
	Additional Credits for Graduation *	6-4
Total Hours		120

* Bachelor's degrees require a minimum of 120 credit hours for graduation.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:210	Calculus with Business Applications ¹	
	or MATH:221 Analytic Geometry-Calculus I	
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking	
	or COMM:106 Effective Oral Communication	
<i>Writing: 6 credit hours</i>		
ENGL:111	English Composition I	
ENGL:112	English Composition II	
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
ANTH:251	Human Diversity	
ECON:200	Principles of Microeconomics	
Diversity		
Domestic Diversity		
ECON:487	Urban Economics: Theory & Policy	
Global Diversity		
ECON:460	Economics of Developing Countries	
Integrated and Applied Learning		2

Select one class from one of the following subcategories:

Complex Issues Facing Society	
ECON:385	Economics of Natural Resources & the Environment
Capstone	
Review the General Education Requirements page for detailed course listings.	

Total Hours **36**

Business Data Analytics, Certificate Certificate in Business Data Analytics (325005C)

The certificate in Business Data Analytics allows a student to develop fundamental competencies in data sourcing, data acquisition, data organization, data analysis, data applications, and data analytic software such as SAS and R.

This certificate program requires a total of 12-15 credits and is designed for motivated students who have an interest in learning the fundamentals of econometrics, forecasting and other data analytics applications.

Requirements for Admission

Students need to meet with an advisor in the College of Business to declare this certificate. No specific requirements needed. However, all certificate rules of the College of Business apply towards this Business Data Analytics certificate.

College of Business Undergraduate Programs

The following information has official approval of the **Department of Economics** and the **College of Business**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

College of Business Policies for Certificates:

- Complete all certificate requirements prior to graduation.
- Earn a 2.0 GPA in all certificate coursework.
- Maintain a cumulative 2.0 GPA in all undergraduate coursework.
- Complete all prerequisites for each course.
- Courses may not be taken as pass/fail.
- Complete at least 6 additional credits not needed for any other major, minor, or certificate.
- Earn at least 9 credits at The University of Akron in the College of Business.
- Declare the certificate in the Business Undergraduate Advising Office, College of Business room 260.

Business Data Analytics, Minor Minor in Business Data Analytics (325005M)

The 18-credit Minor in Business Data Analytics is designed for students who want to complement their current major with a skill set that includes data sourcing and acquisition, application of economic theory and statistical techniques to analyze business data, and proficiency in data analytic software packages used in the workplace. A Minor in Business Data Analytics will complement a students' current major and enhance their resume when they enter the job market which has a high demand for professionals who can gather, sort, and interpret data to help businesses solve problems and operate more effectively. A wide variety of data analytic electives from different fields can be selected in consultation with your academic advisor to meet your specific program needs and to differentiate your resume from others upon graduation. This Minor in Business Data Analytics can be paired with majors such as Accounting, Finance, Marketing, Sport Business, Applied Mathematics, Statistics, and various engineering fields.

Requirements for Admission

Students need to meet with an advisor in the College of Business to declare this minor. No specific requirements needed.

MKTG:375	Marketing & Sales Analytics	
Total Hours		9-6

¹ Relevant electives outside of the College of Business are accepted as a substitute if approved by the Economics Department.

² At least 3 credits beyond the required economics classes have to be at ECON:3xx level and above. All students are encouraged to consult with their academic advisor about the best choice of coursework.

Economics, BA

Bachelor of Arts in Economics (325000BA)

More on the Economics major (<https://www.uakron.edu/economics/>)

The BA in economics is a classic liberal arts degree. It trains students in economic theory along with data analytic and critical thinking skills required to investigate real world economic problems. Hands-on application of these tools in the classroom is stressed throughout the curriculum, culminating with the senior “capstone” research project. Graduates can apply these skills in the workplace in a wide variety of settings - in both the private and public sectors - to improve outcomes through better decision making. The degree can also be a stepping stone for graduate studies in a wide variety of areas including further study in economics and other business-related disciplines, law, and public policy.

You will earn a degree from a globally recognized business school where the programs are taught by an accomplished and dedicated faculty and are supported by a network of business executives. You can major in a wide variety of interesting disciplines that are attractive to prospective employers. As a graduate, you will have leadership and collaboration competencies and be a data savvy, globally aware, enterprise thinker.

Requirements for Admission

To be admitted to the major in the College of Business, students must have:

- Cumulative overall grade-point average of 2.5 or higher
- English Composition I and II (ENGL:111 & ENGL:112)
- Speech requirement (COMM:105 or COMM:106)
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210)
- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201)
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)
 - Introduction to Entrepreneurship (ENTRE:201)
 - Legal & Social Environment of Business (BLAW:220)
 - Marketing Principles (MKTG:205)

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Upper Level Elective Notes

- Upper level electives cannot be fulfilled with upper level economics coursework.
- Students may use a second major to satisfy the minor elective requirement of this major.
- Electives used for a minor or second major may count towards upper level electives (300/400).
- Suggested minors for a student include Finance, Risk Management & Insurance, International Business, Marketing, Supply Chain Management, Applied Mathematics, Modern Language, Philosophy, Political Science, Psychology, Sociology, and Applied Statistics.
- General electives can be any course not already required by your major and upper-level (300/400) elective can be any course in or outside your major, excluding general education courses and workshops.
- Students who wish to follow a particular career-oriented track in their economic electives can do so from the following: Business Career Track, Banking & International Track, Public Policy Track, & Graduate School Track. *Note that choosing a track is **not** required.*
 - Graduate School Track relates to professional degrees such as Law, MBA, or Public Policy as well as Economics.
 - Those wishing to become professional economists through graduate work in economics (MA or Ph.D.) are encouraged to take more Calculus (e.g., MATH:221, MATH:222, MATH:223) and further mathematics (e.g., MATH:312).

Economics, Minor Minor in Economics (325000M)

The economics minor is an 18-credit program with sufficient flexibility to complement any major at UA. Students are trained in basic economic theory along with critical thinking skills required to investigate real world economic problems. A wide variety of electives can be selected in consultation with your academic advisor to meet your specific program needs and to differentiate your resume from others to employers upon graduation. The minor in economics is typically paired with business majors such as finance and accounting, applied mathematics, education, and political science.

Economics/JD Accelerated, BA Bachelor of Arts in Economics/Juris Doctor Degree Accelerated (325006BA)

Students admitted under the program fulfill their senior year of undergraduate credits through the successful completion of their first-year law school courses, allowing them to graduate with both a bachelor's and law degree in just six years, saving a year of tuition and related costs, and they begin their legal careers a year ahead of time.

Students admitted to University of Akron School of Law will receive a BA in Economics after completing at least 29 credits during the first year of Law School.

Requirements for Admission

Admission to Major

To be admitted to the major in the College of Business, students must have:

- Cumulative overall grade-point average of 2.5 or higher;
- English Composition I and II (ENGL:111 & ENGL:112);
- Speech requirement (COMM:105 or COMM:106);
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210);
- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201); and
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)

- Introduction to Entrepreneurship (ENTRE:201)
- Legal & Social Environment of Business (BLAW:220)
- Marketing Principles (MKTG:205)

Admission to Law School

Applicants who have completed at least 91 credits toward a bachelor's degree may be automatically admitted to Akron Law if they:

- are in good academic, financial and disciplinary standing at their undergraduate institution;
- satisfy the character and fitness standards required of all students admitted to Akron Law;
- have an Law School Admissions Test (LSAT) score that is at or above the 25th percentile of the previous year's entering class (currently 151); and
- have an undergraduate grade point average at or above the median of the previous Akron Law entering class (currently 3.45).

Degree Information

- 120 total credits
- at least 90 undergraduate credits
- at least 29 Law School credits
- Overall GPA = 3.4
- Economics GPA = 2.0

The following information has official approval of **The Department of Economics, The School of Law and The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Entrepreneurship

- Entrepreneurship, Certificate (p. 370)
- Entrepreneurship, Minor (p. 371)

Entrepreneurship (ENTRE)

ENTRE:201 Introduction to Entrepreneurship (3 Credits)

Students are exposed to different skills, mindsets, attitudes, and processes valuable for entrepreneurs and startups. This includes opportunity identification, innovative problem solving, design thinking, and the role of entrepreneurial habits and creativity. Open to all university students. (Formerly 6300:201)

ENTRE:301 New Venture Creation (3 Credits)

Prerequisite: ENTRE 201 or by permission of instructor. Students work on the development of a business plan based on their chosen career path in the field of entrepreneurship (starting or buying a small business, working for a fast growth business or corporation, new product, family business, or franchising). Open to all university students. (Formerly 6300:301)

ENTRE:360 Entrepreneurial Field Project (3 Credits)

Prerequisites: ENTRE 201 or permission of the instructor. A practical field experience where students work in a consulting role on an actual entrepreneurial project involving a small business development center, a small business incubator, or an existing small business. (Formerly 6300:360)

ENTRE:410 Selected Topics in Entrepreneurship (1-3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college, upper-college or graduate standing, and [MGMT 201 or HRM 600] or equivalent. Facilitates comparative international study of entrepreneurship, introduction of entrepreneurship to large organizations, or application of student's entrepreneurial skills. Six hour limit. (Formerly 6500:410)

ENTRE:450 Business Plan Development (3 Credits)

Prerequisite: ENTRE 301. Students will work independently, with mentoring from the instructor, on an entrepreneurial project. Students will gain hands-on experience in developing a business plan for starting, acquiring, or expanding a business. (Formerly 6300:450)

Entrepreneurship, Certificate

Certificate in Entrepreneurship (630000C)

The 12 credit Certificate in Entrepreneurship program, which is open to all university students, allows students to learn different aspects of entrepreneurship (for example, starting a business, buying a business

or franchise, running a family business, corporate entrepreneurship or working for a small business) from faculty who have been successful entrepreneurs. The innovative program allows students to interact with entrepreneurs from the business community through guest speaking engagements, field trips, internships, and small business consulting projects.

The following information has official approval of the **College of Business**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

College of Business Policies for Certificates:

- Complete all certificate requirements prior to graduation.
- Earn a 2.0 GPA in all certificate coursework.
- Maintain a cumulative 2.0 GPA in all undergraduate coursework.
- Complete all prerequisites for each course.
- Courses may not be taken as pass/fail.
- Complete at least 6 additional credits not needed for any other major, minor, or certificate.
- Earn at least 9 credits at The University of Akron in the College of Business.
- Declare the certificate in the Business Undergraduate Advising Office, College of Business room 260.

¹ Students admitted to the College of Engineering with 48 credit hours completed are not required to take ACCT:250 as a prerequisite. MATH:145 Algebra for Calculus (or higher level courses MATH:149 Precalculus Mathematics, MATH:215 Concepts of Calculus or MATH:221 Analytic Geometry-Calculus I) is a required pre-requisite for this course. If MATH:145 has not already been taken, please consult with your academic advisor regarding placement into this course. If students do not place into MATH:145, they may be required to take additional courses in the Math sequence in order to take MATH:145. Statistics courses such as STAT:250 Statistics for Everyday Life and STAT:260 Basic Statistics are not appropriate substitutions or prerequisites for MATH:145. For more information on UA's placement testing services, please call 330.972.6511, email testing@uakron.edu or visit Schrank Hall North room 153.

² Must be admitted to 4 year degree granting major.

³ May repeat the i-Corps option up to three times

Finance

The primary mission of the Department of Finance is to provide a quality education to students that will prepare them for leadership positions within the finance profession in business. Students acquire financial knowledge and skills that can be applied in a variety of environments.

UA's four-year finance degree provides students with the opportunity to acquire general business and financial problem-solving skills – with a concentrated study in Financial Management, Financial Planning, or Risk Management and Insurance (RMI).

Graduates in finance develop the skills to: Succeed in financial management of both businesses and not-for-profit organizations; Make effective decisions regarding financial analysis, cash management, raising capital, funding new products, and mergers and acquisitions; Advise people in planning their personal finances to enhance their standard of living during their working years and in retirement; and Identify, analyze, and manage financial and operational risks that are inherent in both personal and business settings.

Financial Management develops students' ability to apply the principle of finance to management of a firm. While the curriculum focuses on

the corporation, the skills acquired apply to any organization requiring financial management. Career opportunities include: Chief financial officers; Bank loan officers, credit managers, operations managers and financial analysts; Corporate credit managers; and Participants in all phases of mergers and acquisitions

Financial Planners do what many people don't like doing for themselves: Figure out how to manage their money. By meeting with clients and then helping them determine budgeting plans, investing decisions, insurance needs and other financial to-do's, financial planners get clients on track and help them stay focused on meeting their financial goals. This major qualifies students to sit for the Certified Financial Planner™(CFP®) Exam. Career opportunities include: Financial Planner; Paraplanner; Customer Service Associate; Wealth Management; and Portfolio Manager

RMI prepares students to identify, analyze and manage financial and operational risks that are inherent in both personal and business settings. They study property, liability, health and life insurance, employee benefit programs and government insurance programs. The RMI industry is dynamic and changing rapidly and employment opportunities are high. Careers in this field encompass three broad categories: corporate risk management, corporate insurance professional and insurance sales. Career opportunities include: Loss control specialist/underwriter; Risk analyst/auditor; Claims adjuster/manager; Agency sales/service; and Bank compliance officer.

Finance (FIN)

FIN:300 Introduction to Finance (3 Credits)

Prerequisites: MATH 145 and [ECON 200 or ECON 244]. Studies the sources and uses of funds for business. Students cannot get credit for this class and FIN 301. (For non-College of Business students). (Formerly 6400:300)

FIN:301 Principles of Finance (3 Credits)

Prerequisites: [ECON 200 or ECON 244], [MATH 145 with a grade of C- or better or higher math], ACCT 201, and completion of one of the following: ACCT 250, admittance to the College of Engineering with 48 credit hours completed, or admittance to the Actuarial Sciences program with 48 credit hours completed. An overview of the financial system and the major decision areas of the financial manager such as capital budgeting, financing, and working capital management. (Formerly 6400:301)

FIN:302 Intermediate Corporate Finance (3 Credits)

Prerequisite: FIN 301 with a grade of C or better. This second course in corporate finance builds upon FIN 301 to provide students with an analytic foundation for careers in business. (Formerly 6400:302)

FIN:338 Financial Markets & Institutions (3 Credits)

Prerequisite: FIN 300 or FIN 301 with a grade of C- or better. Studies the flows of funds. Analyzes major financial intermediaries. Money and capital markets reviewed with emphasis on interest rates and their impact upon administration of specific financial intermediaries. (Formerly 6400:338)

FIN:341 Contemporary Investments (3 Credits)

Prerequisite: FIN 300 or FIN 301. Fundamentals of investing for the individual investor. Students cannot get credit for this class and FIN 343. (For non-College of Business Administration students.) (Formerly 6400:341)

FIN:343 Investments (3 Credits)

Prerequisites: [FIN 300 or FIN 301 with a grade of C- or better] and [STAT 262, STAT 461, or MGMT 304]. Range of security investment media explored, alternative investment programs considered and role of securities markets through which goals can be achieved studied. (Formerly 6400:343)

FIN:390 Real Estate Principles: Value Approach (3 Credits)

A study of real estate: the profession, the process, and the product. Emphasis is on real estate as a product and the valuation process. The measurement of value requires tool abilities in accounting, statistics and finance. (Formerly 6400:390)

FIN:402 Income Property Appraisal (3 Credits)

Prerequisites: at a minimum must have been admitted to a major in a four-year degree granting college, FIN 301, or permission of instructor. Advanced course in real property appraisal and valuation. Techniques and concepts will be covered along with the theory underlying such techniques. (Formerly 6400:402)

FIN:403 Real Estate Finance (3 Credits)

Prerequisites: at a minimum must have been admitted to a major in a four-year degree granting college, and FIN 301. Advanced course in real estate covering financing of and investment in real property. Included are investment techniques, methods, institutions, instruments, valuation, appraisal and policy issues. (Formerly 6400:403)

FIN:436 Commercial Bank Management (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, ACCT 250, [FIN 300 or FIN 301], and FIN 338. Study of administrative policy determination and decision making within the commercial bank. Analysis of policy making in areas of liquidity, loan and security investment and sources of funds. (Formerly 6400:436)

FIN:437 International Business Finance (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, and [FIN 300 or FIN 301] with a grade of C- or better. Theory and practice of financial wealth maximization in the international business enterprise. (Formerly 6400:437)

FIN:438 International Banking (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college and [ECON 461 or FIN 437]. Examination of recent trends in the expansion of international banking activities and associated revenue maximizing strategies. (Formerly 6400:438)

FIN:448 Advanced Portfolio Management (3 Credits)

Prerequisites: FIN 343 and [ECON 325 or MGMT 305]. Advanced Portfolio Management is a semester long case course. The case is the management of the UA Student-Managed Investment Fund. This course's primary activity will be the active management of the Fund. Current and selected topics relating to investments and financial markets will be discussed as needed in the rapidly changing world economy. The course will give the student practical experience in portfolio construction, management and evaluation by managing real money on a real time basis. (Formerly 6400:448)

FIN:473 Financial Statement Analysis (3 Credits)

Prerequisites: Admitted to a major in a four-year degree granting college, [FIN 301 with a grade of C- or better and ACCT 321], or FIN 302. Analysis and interpretation of the financial position and performance of the business firm from the perspective of the credit and financial analyst. Emphasizes mechanics and art of financial analysis. (Formerly 6400:473)

FIN:485 Financial Strategy (3 Credits)

Prerequisites: FIN 302 with grade of C or better and admission to a major in a four-year degree granting college. Pre/Corequisite: FIN 473. Case study based course with applications of financial management theories and tools to make decisions in capital budgeting, capital structure, and working capital management. (Formerly 6400:485)

FIN:489 Advanced Financial Analytics (3 Credits)

Prerequisites: Admitted to a major in a four-year degree granting college, senior standing, [FIN 302 with a grade of C or better], FIN 338, FIN 343 and [MGMT 305 or ECON 325]. Capstone course with analysis of financial models using advanced spreadsheet techniques. Models from personal finance, corporate finance and investments are incorporated, with applications in financial planning, forecasting, portfolio theory and security valuation, option valuation, capital investment and cost of capital. (Formerly 6400:489)

FIN:490 Selected Topics in Finance (1-3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, ACCT 250, and FIN 301. Provides opportunity for study of special topics not covered in current finance courses. (Formerly 6400:490)

FIN:492 Internship in Financial Management (3 Credits)

Prerequisite: Permission of designated faculty member. On the job experience with public or private sector organizations in the financial services field. Individual assignments are approved and supervised by the designated member of the faculty in the student's major field. Periodic reports and term papers required. (Formerly 6400:492)

FIN:495 Research Project in Finance (1-3 Credits)

Prerequisites: FIN 302, FIN 338, FIN 343 and admission to a major in a 4-year degree granting college. Pre/Corequisite: FPL 411 or RMI 414 or RMI 415 or FPL 417 or RMI 418 or FPL 432 or FIN 436 or FIN 437 or FIN 438 or FIN 448 or RMI 461 or FIN 473 or FIN 485 or FIN 489. Taken concurrently with or following a 400-level field Finance course. Involves independent out-of-class work on a project designed in consultation with the designated 400-level course instructor. (Formerly 6400:495)

FIN:499 Independent Study: Finance (1-3 Credits)

Prerequisite: Permission of department head. Provides means for individualized in-depth study of finance problem or problems from which student can derive significant benefit. (Formerly 6400:499)

Financial Planning (FPL)

FPL:200 Foundations of Personal Finance (3 Credits)

Explores application of finance concepts in personal finance with emphasis on the personal financial planning process. (Formerly 6400:200)

FPL:332 Foundations of Financial Planning (3 Credits)

Prerequisite: [FIN 300 or FIN 301] with a grade of C or better. Introduction to financial planning, including goal setting, cash management, credit, housing, education planning, and selected professional issues. (Formerly 6400:332)

FPL:411 Estate and Financial Planning (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, [FIN 300 or FIN 301] with a minimum grade of C- or better, or permission of Finance Department Chair. Pre/Corequisite: ACCT 330. Application of estate planning methodologies and policies to financial planning. (Formerly 6400:411)

FPL:417 Retirement Planning (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, and [FIN 300 or FIN 301] with a grade of C- or better, or permission of the instructor. An in-depth examination of retirement and estate planning objectives, methods, and strategies including the study of employee benefits plans, public and private pension funds, and lifetime strategies for maximization of estate assets. (Formerly 6400:417)

FPL:432 Financial Planning Capstone (3 Credits)

Prerequisites: Must have been admitted to a major in a four-year degree granting college, ACCT 330, [ACCT 410 or FPL 411], FPL 417, [FPL 332 with a grade of C or better], and [FIN 341 or FIN 343]. Pre/Corequisite: RMI 415 and RMI 414. Explores financial planning function, including contact, data acquisition, plan development and implementation; addressing planning techniques and financial planning ethical issues. (Formerly 6400:432)

FPL:493 Internship in Financial Planning (3 Credits)

Prerequisite: Permission of designated faculty member. On the job experience with public or private sector organizations in the financial services field. Individual assignments are approved and supervised by the designated member of the faculty in the student's major field. Periodic reports and term papers required. (Formerly 6400:493)

Business Law (BLAW)

BLAW:220 Legal & Social Environment of Business (3 Credits)

Prerequisite: A minimum academic standing of a Sophomore or greater. Explores the legal and social environment in which modern business must function. The legal system, public and private law, and contemporary social and ethical issues are addressed. (Formerly 6400:220)

BLAW:321 Business Law I (3 Credits)

Prerequisite: completion of 64 credits. Discussions designed to develop legal reasoning within substantive areas of contractual obligation, agency relationships, partnerships, corporations, accountant's legal responsibility, federal securities regulation and antitrust law. (Formerly 6400:321)

BLAW:322 Business Law II (3 Credits)

Prerequisites: BLAW 321 and completion of 60 credits. Applications of Uniform Commercial Code in sales, commercial paper and secured transactions. Additional discussions include property, wills, estates, trusts, bailments, insurance, suretyship, bankruptcy, and labor law. (Formerly 6400:322)

BLAW:323 International Business Law (3 Credits)

The law and international commercial transactions. Among the subjects covered are sovereignty; treaties; agreements; antitrust practices; property rights; international arbitration. (Formerly 6400:323)

BLAW:424 Legal Concepts of Real Estate (3 Credits)

Prerequisite: at a minimum must have been admitted to a major in a four-year degree granting college. Study of concepts of law governing the many interests in real estate including acquisition, encumbrance, transfer, rights and obligations of parties, and the various state and federal regulations. The legal concepts of the business of real estate are likewise examined. Emphasis is on a managerial approach utilizing the case method. (Formerly 6400:424)

Risk Management and Insurance (RMI)

RMI:414 Risk Management: Property and Casualty (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, [FIN 300 or FIN 301] with a grade of C- or better, or permission of instructor. Addresses tools for managing risk, legal concepts of insurance contracts, personal insurance and commercial property and casualty insurance policies as well as other risk issues. (Formerly 6400:414)

RMI:415 Risk Management: Life and Health Insurance (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, and [FIN 300 or FIN 301] with a grade of C- or better. Concepts of life and health insurance and risk management are addressed. (Formerly 6400:415)

RMI:418 Insurance Operations (3 Credits)

Prerequisite: RMI 414 or RMI 415 or permission. This course provides a detailed examination of the composition, financial structure, and operation of the property-casualty insurance industry. (Formerly 6400:418)

RMI:460 Risk and Insurance Analytics (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, and [MGMT 305 or ECON 325]. Pre/Corequisites: RMI 414, RMI 415 and RMI 418. The primary objective of this course is to provide an introduction to risk and insurance analytics and the application of analysis techniques to insurance underwriting, fraud detection and risk management. Topics to be covered include: 1. An overview of the application of analytics to risk management and insurance 2. Basic Data Modeling Concepts 3. Traditional Analysis Techniques 4. Modern Analysis Techniques 5. Application to Underwriting 6. Application to Claims 7. Application to Risk Management (Formerly 6400:460)

RMI:461 Enterprise Risk Management (3 Credits)

Prerequisites: Admission to a major in a four-year degree granting college, RMI 414, RMI 415, and RMI 418. Explores risk issues at the firm level with emphasis upon identification and management of risk to enhance firm value. (Formerly 6400:461)

RMI:494 Internship in Risk Management and Insurance (3 Credits)

Prerequisite: Permission of designated faculty member. On the job experience with public or private sector organizations in the financial services field. Individual assignments are approved and supervised by the designated member of the faculty in the student's major field. Periodic reports and term papers required. (Formerly 6400:494)

Finance, Minor

Minor in Finance (640000M)

Today's business environment requires increasingly efficient management of a firm's assets and the financial implications of the different assets. The 18-credit Finance minor will help students use established financial principles to meet organizations' or individuals' financial goals. This minor complements several majors, such as

Marketing Management, Information Systems, Sales Management, and others.

College of Business Undergraduate Programs

Financial Management, BBA Bachelor of Business Administration in Financial Management (640004BBA)

More on the Financial Management major (<https://www.uakron.edu/cba/undergraduate/majors/corporate-finance.dot>)

The Financial Management major prepares students to use established financial principles to meet organizations' financial goals. Students learn how to effectively manage a firm's assets by taking required finance and accounting courses, and electives to allow further study in such areas as firm asset management, investment management, and capital budgeting.

Requirements for Admission

- 2.5 average cumulative
- English Composition I and II (ENGL:111 & ENGL:112)
- Speech requirement (COMM:105 or COMM:106)
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210)
- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201)
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)
 - Introduction to Entrepreneurship (ENTRE:201)
 - Legal & Social Environment of Business (BLAW:220)
 - Marketing Principles (MKTG:205)

College of Business room 260

The following information has official approval of **The Department of Finance** and **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied

course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

The following information has official approval of **The Department of Finance** and **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

General Business

The general Business Administration majors and minors are designed to enrich a student's academic and professional experience.

The Business Administration major is intended to offer a comprehensive approach across the 4 primary areas of business including Accounting, Finance, Management and Marketing. Students who intend to pursue careers in small business management, whether by creating or acquiring

a business, or perhaps taking over a family business enterprise, may find the flexibility of this degree program best for them. Other students with more full-time professional experience may also prefer the broader course selection available in this degree program.

The Business Administration major requires students to complete the College of Business core curriculum and 27 credit hours from specified courses. Students in this major must also complete an approved College of Business minor.

The General Business Administration minors are designed for students in a major outside of the College of Business to enrich their academic experience and increase their potential career opportunities. Due to prerequisites, students should allow two years to complete a minor in the College of Business. Some courses include MATH:145 Algebra for Calculus as a prerequisite.

The Undecided Business major is designed for students in the College of Business who are uncertain about which major in the College of Business to declare. Ideally, students should select a major by the start of their Sophomore year of college.

To declare a major or minor, please make an appointment with a College of Business Academic Advisor by calling 330.972.7042 or scheduling an appointment online at <https://www.uakron.edu/business/advising> (<https://www.uakron.edu/business/advising/>).

Business (BUSN)

BUSN:100 Career Planning in Business Administration (1 Credit)

Examines the academic, professional, and personal skills required for a successful business career. Develops student career plan. Provides exposure to the variety of career opportunities available in public and private sector organizations. (Formerly 6100:100)

BUSN:101 Business Issues in a Connected World (3 Credits)

An introductory course that examines the 'forces' that are changing how business will be conducted in the 21st century, the 'factors' that determine the success of firms and the impact of both on individuals as consumers and professionals. (Formerly 6100:101)

BUSN:110 College of Business Success Seminar (1-3 Credits)

This course is designed to help new College of Business students transition from high school or work to the college environment and begin the career development process. (Formerly 6100:110)

BUSN:111 Professional Development Seminar (1 Credit)

This course introduces students to College of Business (CoB) Professional Development resources and prepares students to be career ready and connected. The course is heavily oriented towards experiential learning. Topics include: Preparing for internships and co-ops; Understanding tools to assist students in the job search process such as Handshake, LinkedIn and Suitable; Exploring career options; Participating in experiential events as it relates to professional development and involvement. (Formerly 6100:111)

BUSN:200 Personal Leadership Skills (1 Credit)

An introductory course that will expose students to leadership theory and practice in organizations. Students will have an opportunity to self-reflect and investigate leadership styles, ethical issues and influence methods. (Formerly 6100:200)

BUSN:230 Business Communication (3 Credits)

Prerequisites: ENGL 111, ENGL 112 and [COMM 105 or COMM 106 or COMM 263]. Students will obtain the knowledge and ability use writing and oral communication skills in a professional environment to effectively persuade others and to mobilize action among various organizational stakeholders. (Formerly 6100:230)

BUSN:301 Cooperative Education (0 Credits)

(May be repeated) For cooperative education students only. Work experience in business, industry, or governmental agency. Comprehensive performance evaluation and written report required. (Formerly 6000:301)

BUSN:350 Special Topics in Business (1-3 Credits)

Opportunity to study special topics and current issues in business. May be repeated with a change of subject. (Formerly 6100:350)

BUSN:495 Internship in Business Administration (3 Credits)

Prerequisite: Permission of designated faculty member. On-the-job experience with public or private sector organizations in the student's major field of study. Individual assignments are approved and supervised by the designated member of the faculty in the student's major field. Periodic reports and term papers are required. (Formerly 6100:495)

BUSN:497 Honors Project in Business Administration (1-3 Credits)

Prerequisite: Junior standing in Honors Program. Individual directed research relevant to the student's major. Group integrated symposium or an individualized study format available. May be repeated for a total of six credits. (Formerly 6100:497)

BUSN:499 Independent Study in Business Administration (3 Credits)

Prerequisite: Permission of designated faculty member. Provides a means for individualized study of a problem(s) or issue in the student's major field of study. (Formerly 6100:499)

Business Administration for Non-Majors, Minor

Minor in Business Administration for Non-Business Majors (602000M)

The 18-credit Business Administration Minor for Non-Business Majors is a way for a student in any major to gain a practical understanding of business.

To declare the minor, meet with an academic advisor in the College of Business. Please visit the College of Business advising website to schedule an appointment with an advisor.

Business Administration, BBA

Bachelor of Business Administration (602000BBA)

More on the Business Administration major (<https://www.uakron.edu/cba/undergraduate/majors/business-administration.dot>)

You will earn a degree from a globally recognized business school where the programs are taught by an accomplished and dedicated faculty and are supported by a network of business executives. You can major in a wide variety of interesting disciplines that are attractive to prospective employers. As a graduate, you will have leadership and collaboration competencies and be a data savvy, globally aware, enterprise thinker. This degree is a Bachelor of Business Administration with a major in Business Administration.

The Business Administration major is intended to offer a comprehensive approach across the 4 primary areas of business including Accounting, Finance, Management, and Marketing. Students who intend to pursue careers in small business management, whether by creating or acquiring a business, or perhaps taking over a family business enterprise, may find the flexibility of this degree program best for them. Other students with more full-time professional experience may also prefer the broader course selection available in this degree program.

The Business Administration major requires students to complete the College of Business core curriculum and 27 credit hours from specified courses. Students in this major must also complete an approved College of Business minor. Please meet with a College of Business advisor for more information about degree requirements and options for minors.

College of Business Undergraduate Programs

<http://www.uakron.edu/business/advising> (<http://www.uakron.edu/business/advising/>)

businessadvising@uakron.edu
College of Business room 260

The following information has official approval of **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	29
	Additional Business Requirements	4
	College of Business Core	42
	Business Administration Requirements	45
	Total Hours	120

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:145	Algebra for Calculus	
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking	
	or COMM:106 Effective Oral Communication	
<i>Writing: 6 credit hours</i>

Business Essentials for Engineering Majors, Minor

Minor in Business Essentials for Engineering Majors (602002M)

The 18-credit Business Minor for Engineering Majors is designed to help prepare students in the College of Engineering to interact with general managers in their engineering careers, as well as to pursue advanced study in business or engineering management.

Students with an engineering major or engineering technology major are eligible to pursue this minor. To declare the minor, meet with an academic advisor in the College of Business. Please visit the College of Business advising website to schedule an appointment with an advisor.

¹ MATH:145 Algebra for Calculus (or higher level courses MATH:149 Precalculus Mathematics, MATH:215 Concepts of Calculus or MATH:221 Analytic Geometry-Calculus I) is a required prerequisite for this course. If MATH:145 has not already been taken, please consult with your academic advisor regarding placement into this course. If students do not place into MATH:145, they may be required to take additional courses in the Math sequence in order to take MATH:145. Statistics courses such as STAT:250 and STAT:260 are not appropriate substitutions or a prerequisites for MATH:145. For more information on UA's placement testing services, please call 330.972.6511, email testing@uakron.edu or visit Schrank Hall North room 153.

Business Law/JD Degree Accelerated, BBA

Bachelor of Business Administration in Business Law/JD Degree Accelerated, BBA (602003BS)

Undergraduate business students can earn their BBA and JD in six years instead of seven. To complete law school, you typically need four years to complete a bachelor's degree and three years to complete a law degree (juris doctor degree).

Akron Law's new 3 + 3 Program allows eligible undergraduate students participating in partner programs to apply to Akron Law in their junior year of college.

Students admitted under the program fulfill their senior year of undergraduate credits through the successful completion of their first-year law school courses (<https://www.uakron.edu/law/curriculum/jd.dot>), allowing them to graduate with both a bachelor's and law degree in just six years, saving a year of tuition and related costs, and they begin their legal careers a year ahead of time.

Requirements for Admission

Pursuant to Akron Law's 3 + 3 policy, an applicant must be in his or her junior year and participating in a partner program. Applicants must also meet his or her undergraduate institution's criteria for eligibility.

Typically, you must have a 3.4 grade point average and 150 LSAT score to qualify for admission. However, this might vary depending on your program. Each undergraduate institution determines which majors and programs are eligible for participation.

Business Undecided, BBA

Business Undecided Major (601000BBA)

You will earn a degree from a globally recognized business school where the programs are taught by an accomplished and dedicated faculty and are supported by a network of business executives. You can major in a wide variety of interesting disciplines that are attractive to prospective employers. As a graduate, you will have leadership and collaboration competencies and be a data savvy, globally aware, enterprise thinker.

The Business Undecided major is designed for students who would like to study business, but are still exploring their options for majors within business. Students should declare their major prior to earning 32 credit hours. Students cannot earn a Business Undecided BBA major. After earning 60 credit hours, students must speak with an academic advisor in the College of Business prior to being able to enroll in future courses.

Requirements for Admission

- 2.5 average cumulative
- English Composition I and II (ENGL:111 & ENGL:112)
- Speech requirement (COMM:105 or COMM:106)
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210)
- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201)
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)
 - Introduction to Entrepreneurship (ENTRE:201)
 - Legal & Social Environment of Business (BLAW:220)
 - Marketing Principles (MKTG:205)

² Students majoring in Accountancy are required to take ACCT:424 Business Law instead of BLAW:220 Legal & Social Environment of Business.

³ Students majoring in Finance are strongly recommended to take ECON:325 Applied Econometrics I instead of MGMT:305 Business Analytics.

⁴ Accounting majors must complete with a grade of C or better.

⁵ Students cannot get credit for both ECON:201 and ECON:244.

Business Undecided Courses

Students should declare a major by 32 credit hours

Code	Title	Hours
If you choose:		
	Business Administration (with approved minor)	27
	Accounting	33
	Finance	33
	International Business (with approved minor)	38+
	Management	30-37
	Marketing	31

Once you decide on a major, please meet with a College of Business advisor located in College of Business room 260.

International Business

Rapid globalization of business creates new challenges and opportunities for businesses, large and small. Our curriculum is designed to prepare students to effectively understand and manage the complexity that globalization brings. Special emphasis is placed on the process of foreign market entry.

Students take the traditional business core classes in accounting, finance, management, marketing and technology, and then go on to take specialized classes in **Foreign Market Entry, International Finance, and International Management**.

Notable highlights include a study abroad program, proficiency in a foreign language and an **18 credit minor specialization**. The areas that can be used for the minor include: in the **College of Business** – Marketing, Economics, Entrepreneurship, Finance, Financial Planning, Human Resource Management, Management Information Systems, Supply Chain/Operations Management and Sales Management; in the **College**

of Arts & Sciences – English, Mathematics/Applied Mathematics and General Philosophy.

All International Business majors must also participate in an approved study abroad program which includes the completion of INTB:406 International Business Study Abroad. To satisfy the study abroad program, foreign students must choose a country other than their home country.

To receive a Bachelor in Business Administration degree with a **major in International Business**, each student must successfully complete the

- General Education program requirements,
- College of Business Core Classes
- Required courses within the International Business major,
- Foreign Language Sequence (11 credits)
- Specialization in a minor (18 credits)
- Participate in a study abroad program.

- International Business, BBA (p. 395)
- International Business, Certificate (p. 397)
- International Business, Minor (p. 398)

International Business (INTB)

INTB:205 International Business (3 Credits)

A basic course in international business which focuses on global diversity, cultural and economic differences, and related current events. The course emphasizes that students should respect, appreciate, and understand multiple, diverse positions as they enhance their knowledge of global diversity, understanding global relationships, and practice critical thinking on international current events and challenges. (Formerly 6800:205)

INTB:220 Global Culture and Business Field Experience (1-3 Credits)

Prerequisite: Sophomore or greater standing. Students travel on faculty led trips and study international business practices. Global business practices are examined and aspects of local culture are explored. (Formerly 6100:220)

INTB:406 International Business Study Abroad (0-3 Credits)

Prerequisite: Must have been admitted to a major in a four-year degree granting college. Approved travel and study to a foreign country per the requirements of the International Business major. (Formerly 6800:406)

INTB:421 Foreign Market Entry (3 Credits)

Prerequisites: Must have been admitted to a major in a four-year degree granting college and INTB 205. A study of the business processes and procedures associated with successful foreign market entry. International Business practices around the world related to successful and unsuccessful entry are compared and contrasted. Letters of Credit, Import/Export Documentation and Global Shipping Standards are examined. (Formerly 6800:421)

INTB:422 Foreign Market Distance Analysis (3 Credits)

Prerequisites: Must have been admitted to a major in a four-year degree granting college, INTB 205, and INTB 406. The cultural, administrative, geographic, and economic difference between home and host countries can dramatically impact the success of foreign market entry by the home country. Students will learn how to successfully identify and respond to these differences. (Formerly 6800:422)

INTB:492 Internship in International Business (3 Credits)

Prerequisite: Permission of department chair. On-the-job experience with public or private sector organizations in the field of marketing. On-the-job learning objectives are established by the sponsoring organization and approved by the department chair. Field experiences are augmented by a weekly diary and a term paper, which are supervised and evaluated by the department chair. (Formerly 6800:492)

INTB:496 Special Topics: International Business (1-3 Credits)

(May be repeated for a total of three credits) Prerequisite: Permission of instructor. Provides the opportunity to study special topics and current issues in international business. Note: Other international business courses are offered under departmental course numbers. They are ACCT 408, BLAW 323, FIN 481, MGMT 457, and MGMT 459 (Formerly 6800:496)

INTB:498 International Business Experiential Learning (3 Credits)

Prerequisites: Must have been admitted to a major in a four year degree granting college and junior or greater standing. Serving as an alternative to a study abroad experience, this course seeks to have students emerge as civically-engaged, adaptable global leaders, ready to join in the enterprise of building strong and sustainable organizations by promoting hands-on, problem-centered learning. Students will apply critical reasoning skills to contemporary issues facing firms and organizations in the dynamic global environment. Students will be required to consider the many factors impacting business today, including economic, governmental, competitive, legal and cultural forces, as they develop strategic responses to the challenges facing a given firm or organization. (Formerly 6800:498)

International Business, BBA

Bachelor of Business Administration in International Business (680002BBA)

More on the International Business major (<https://www.uakron.edu/cba/undergraduate/majors/international-business.dot>)

To prepare students for the international global marketplace, students will take the general business core classes, and also classes in international business across a wide range of disciplines including international economics, management, finance, and business law. Students have an international business capstone requirement, in which students are required to either travel abroad, have an international business internship or a take an international experiential learning course. In addition students will select one of three tracks for their area of concentration: Supply Chain Operations, Marketing or Financial Management which will lead students to obtain a required second major in one of these areas which are highly valued in global business.

As a graduate with a major in International Business with Supply Chain, Marketing, or Finance as your second major, you will have a multidisciplinary and diverse perspective to be a data savvy, globally aware, and enterprise strategic thinker. You will also be supported by accomplished and dedicated faculty, and a strong network of global business executives.

Admission Requirements

- 2.5 average cumulative
- ENGL:111 English Composition I & ENGL:112 English Composition II
- Speech requirement (COMM:105 Introduction to Public Speaking or COMM:105 Introduction to Public Speaking)

- MATH:145 Algebra for Calculus or MATH:210 Calculus with Business Applications
- ECON:200 Principles of Microeconomics or ECON:201 Principles of Macroeconomics
- One of the following courses:
 - ACCT:201 Accounting Principles I
 - ACCT:250 Spreadsheet Modeling & Decision Analysis
 - ENTRE:201 Introduction to Entrepreneurship
 - BLAW:220 Legal & Social Environment of Business
 - MKTG:205 Marketing Principles

College of Business room 260

The following information has official approval of **The Department of Marketing** and **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program ([CCP](#)) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	29
	Additional Business Requirements	4
	College of Business Core	42
	International Business Requirements	45-57
Total Hours		120-132

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

Recommended General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Students are not required to enroll in the specific courses listed below. However, to facilitate successful degree completion, the academic department strongly encourages completion of the following recommendations.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
MATH:145	Algebra for Calculus	
<i>Speaking: 3 credit hours</i>		
COMM:105	Introduction to Public Speaking	
or COMM:106	Effective Oral Communication	
<i>Writing: 6 credit hours</i>

*Students should work with their Academic Advisor to determine how they can use their General Education Tag courses to reduce the amount of overall credits

*Students in Marketing will need 7 additional credits; Students in Financial Management will need 3 additional credits.

International Business, Certificate Certificate in International Business (680000C)

The wave of rapid change in the physical, political, economic, and cultural landscapes around the world is creating new opportunities and challenges for businesses and individuals that need to be managed effectively. The interdisciplinary 12-credit International Business (IB) Certificate is for students who are not enrolled in the College of Business. It provides students with an opportunity to better understand the global business environment, and teaches students how to respond to the forces that shape this environment.

International Business, Minor Minor in International Business (680000M)

The rapid globalization of business is creating dynamic changes in the business environment. As a result, significant opportunities for graduates with academic backgrounds in international business are available. The 18-19 credit International Business minor provides students with a basic understanding of international business and its environments and is a useful complement for many majors. The University of Akron has exchange agreements with leading universities throughout the world, enabling students to study and gain valuable business experience in such locales as the United Kingdom, France, Germany, Denmark, Japan and the Netherlands.

Globalization and international business have become the norm in today's world. Many businesses are involved in international business either directly or indirectly. Globalization has created significant opportunities for graduates with an academic background in international business. This minor provides students with a basic understanding of international business and its environments and is a useful complement for many majors.

This minor is best suited for College of Business majors, but may be taken by all students. Non-Business majors are encouraged to consider the International Business Certificate. The rapid globalization of business is creating dynamic changes in the business environment. This unprecedented wave of change creates new opportunities and challenges that must be managed effectively. The IB minor is designed to prepare graduates to manage the change and complexity that globalization brings with it.

Special emphasis is placed on the process of foreign market entry.

Management

The Department of Management provides opportunities for students to prepare for three different majors: Human Resources Management, Supply Chain/Operations Management and Information Systems Management. Each major provides a solid foundation of general management skills needed by organizations today. Businesses, as well as non-profit institutions, face complex environments with multiple challenges and opportunities. The Department of Management faculty members interact regularly with business leaders to ensure that our students are prepared with the cutting-edge knowledge and skills required to obtain the best jobs.

The Human Resource Management major prepares students for jobs as Human Resource Management (HRM) professionals, as well as general managers. It is generally the people with talent that make one organization more successful than another. HRM professionals are the keys to the acquisition and use of talent in organizations to support strategy. HRM professionals oversee the recruitment, hiring, training and compensation of employees. They also design systems for performance management, guide labor relations, ensure legal compliance and monitor employee safety.

The Supply Chain/Operations Management major is central for the success of almost every business. Supply Chain/Operations deals with getting the right product, to the right place, at the right time, in the right condition, at the right price. It is a growing interdisciplinary field that involves building relationships with organizations around the world. Professionals in this area must understand procurement and sourcing, inventory control, logistics and transportation, import and export

management, manufacturing and service operations, and negotiation and customer satisfaction skills. This major prepares students to be professionals in the broad supply chain field.

The Information Systems Management major prepares students to be business professionals that direct the technology-related activities of organizations. Graduates understand how to design and access computer systems in order to ensure good business decisions. Information Systems (IS) professionals work with executives to define, plan and achieve the technical goals of the company. IS professionals understand databases, networks, data analytics and system analysis. Students graduate from this program with the combination of technical and business expertise that organizations need for success.

A graduate with a degree in a management discipline will have many employment opportunities with firms in staff, supervisory and other professional positions. In addition, the graduate has the fundamental preparations to undertake advanced studies leading to a graduate degree.

Management (MGMT)

MGMT:201 Management: Principles & Concepts (3 Credits)

Prerequisites: 32 completed credit hours. An interdisciplinary approach to the study of the basic principles of general management theory and practice. (Formerly 6500:301)

MGMT:202 Introduction to Sport Business (3 Credits)

This course will introduce students to sport business through the lens of the multi-faceted sport industry. Students will gain exposure to and discuss careers in sport business as well as develop foundational professional skills in the areas of organization, communication, and problem solving.

MGMT:254 Global Experience (1-3 Credits)

Prerequisite: 28 credit hours completed. Provides an opportunity for students to learn from faculty expertise in the context of a foreign country. International management practices are examined and aspects of local culture are studied. (Formerly 6500:254)

MGMT:302 Organizational Behavior & Leadership Skills (3 Credits)

Prerequisite: MGMT 201. Investigation of applications of behavioral and social sciences as they relate to individual, group behavior in organizations. (Formerly 6500:302)

MGMT:304 Business Statistics (3 Credits)

Prerequisites: [(MATH 145 with a grade of C- or better or higher math) and ACCT 250] or admission to the College of Engineering with 48 credit hours completed. Introduces statistical methods to support quantitative decision analysis for solving business problems. Includes probability, sampling, estimation, hypothesis testing, analysis of variance. Utilizes case studies. (Formerly 6500:304)

MGMT:305 Business Analytics (3 Credits)

Prerequisites: MGMT 304. Studies core statistical techniques; data retrieval, analysis and mining; and decision modeling to effectively persuade in the project-oriented world of data-driven decisions. (Formerly 6500:305)

MGMT:307 Strategic Leadership in Sport Business (3 Credits)

Prerequisite: MGMT:201. This course has been designed for students to explore the intersection between individual, dyadic, group, and organizational leadership in the context of sport business. Topics including emotional intelligence, organizational culture, strategy, and diversity leadership will be explored from both theoretical and practical points of view in the pursuit of developing an understanding of effective leadership styles and practices. Case studies and other applied examples will supplement classroom learning to provide insight into strategic leadership as the principal driver of organizational performance in the sport industry.

MGMT:370 Financial Issues in Sport (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college and FIN 301. This course will address ownership structures, venue financing, franchise valuation, risk, taxes, sport investment, labor and media contracts and budgeting. Students will also explore the body of knowledge associated with pursuing a career in sport business. (Formerly 6500:370)

MGMT:380 Global Esports Business Management (3 Credits)

This class will prepare students with the knowledge base necessary to understand up-to-date information about the global esports ecosystem and discuss career opportunities available for students. Also this course will seek to explore, acquire, and discuss knowledge within the theoretical and applied management strategies in esports ecosystem. Students will also be required to complete various tasks, both in and out of the classroom, that are relevant esports. (Formerly 6500:380)

MGMT:400 Esports Event Management (3 Credits)

Prerequisite: Admission to a major in a four-year degree granting college. This course is designed to provide the students with solid fundamental information on what students need to do to be a successful event manager in the esports industry. Students will discuss various ways that organizations plan, develop, and manage various esports events. Students will have opportunities to volunteer for University of Akron esports program throughout the semester. (Formerly 6500:400)

MGMT:404 Current Topics in Sport Business (3 Credits)

Prerequisites: Junior or greater standing and must be admitted to a major in a four-year degree granting college. This course will focus on the evolution of sport in the 21st century. Topics may include the professionalization of college athletics, technological advances in sport, athlete branding, the use of advanced metrics in performance projections, customer/ fan engagement, the role of social media in sport consumption, diversity, and sport and society. (Formerly 6500:404)

MGMT:422 Applied Sales in Sport (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college, BUSN 230, and MKTG 205. This course will provide students with a variety of learning experiences related to the theory and examination of sales in sport. Specifically, this course empowers students to gain real-world experience in the business-to-consumer sales process while working on a real-world project with a sport organization partner. (Formerly 6500:422)

MGMT:457 International Management (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, upper level standing and MGMT 201 or equivalent. Management practices and techniques of international business organizations. Focus on structure and processes of resource allocation, design and technology, and the impact of culture. (Formerly 6500:457)

MGMT:459 Selected Topics: International Management (1-3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, upper level standing, MGMT 201 or equivalent, and MGMT 457. Selected topics in international management focus on historical or contemporary managerial, production and organizational issues. Includes international simulation game. Six hour limit. (Formerly 6500:459)

MGMT:460 Special Topics in Management (3 Credits)

Prerequisite: Must be admitted to a major in a 4-year degree granting college. Exploration of advanced topics of interest both to the student and professor. Many special applications, case studies, outside speakers, projects in conjunction with local industries. (Formerly 6500:460)

MGMT:470 Sport Business Consulting Project (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college. Students develop skills in navigating and managing team dynamics while addressing complex issues specific to a unique sport organization. (Formerly 6500:470)

MGMT:471 Internship in Sport Business/Analytics (3 Credits)

Prerequisite: Must be admitted to a 4-year degree granting major and permission of department chair. Internship experience with sport organization focused in the area(s) of sport business/analytics. Student learning objectives and goals are established by the sponsoring organization and approved by the department chair. The student learning experience is assessed through scheduled updates, a final paper, and presentation, which are supervised and evaluated by the department chair.

MGMT:477 Management Simulation (1 Credit)

Prerequisite: MGMT 201. Simulation of management practices through computerized game or experiential exercise. (Formerly 6500:477)

MGMT:490 Strategic Management (3 Credits)

Prerequisites: Admission to a major in the College of Business, 97 credits in which 15 crd hrs, or half of major credits must be completed, BUSN 230, ACCT 201, ACCT 202, ACCT 250, [BLAW 220 or BLAW 321 or ACCT 424], FIN 301, MGMT 201, MGMT 304, [MGMT 305 or ECON 325], SCM 330, MKTG 205, and INTB 205. Capstone course. Integrates the core business disciplines (accounting, economics, finance, management, marketing) through the use of case analysis. Objective and strategy formulation from an administrative viewpoint and international dimension. Emphasis on oral and written communications. (Formerly 6500:490)

MGMT:491 Workshop in Management (1-3 Credits)

Prerequisite: Must be admitted to a major in a 4-year degree granting college. (May be repeated with permission of instructor or department)
Group studies of special topics in management. May not be used to meet undergraduate major requirements in management. May be used for elective credits only. (Formerly 6500:491)

Information Systems Management (ISM)**ISM:201 Introduction to E-Business (3 Credits)**

Prerequisite: 24 credits. Provides a broad overview of e-business strategies, products and technologies. Discusses transformation of marketing, production and other business functions; and related legal, political, ethical and cultural issues. (Formerly 6100:201)

ISM:310 Business Information Systems (3 Credits)

Prerequisites: Completion of 48 credit hours and [ACCT 250 or admission to the Computer Science major]. Provides a technical and organizational foundation for understanding the use and importance of information systems and information technology in today's business environment. (Formerly 6500:310)

ISM:315 Applications Development for Business Processes (3 Credits)

Prerequisites: ACCT 250 and 48 completed hours. Analysis and automation of business operations and processes. Development of applications based on a simulated enterprise-wide database. (Formerly 6500:315)

ISM:324 Database Management for Information Systems (3 Credits)

Prerequisites: [ACCT 250 and 48 completed hours] or [admission to the College of Engineering and Polymer Science with 48 credit hours completed]. An introduction to database design and management, including data modeling, relational theory, Structured Query Language, and database applications, development, using database management systems. (Formerly 6500:324)

ISM:325 Systems, Analysis, & Design (3 Credits)

Prerequisites: ISM 315. An introduction to the techniques of business modeling, systems design, and implementation, including the application of software engineering tools in support of modeling and code generation. (Formerly 6500:325)

ISM:420 Data Networks and Security (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college, ISM 310, and upper level standing. Principles of the design and management of data networks for business communications. (Formerly 6500:420)

ISM:425 Decision Support with Data Warehousing & Data Mining (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, ISM 324, and MGMT 305. Examines managerial and technical aspects of business decision-making based on the use of data warehouses, on-line analytical processing (OLAP) and data mining. (Formerly 6500:425)

ISM:426 E-Business Application Development (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, ACCT 250, and upper level standing. Students will gain an understanding of issues and skills related to web application design and development. (Formerly 6500:426)

ISM:427 Systems Integration (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college and ISM 315. The course provides an understanding of issues and underlying application integration. Topics include coverage of middleware technologies, B2B standards and XML. (Formerly 6500:427)

ISM:428 Systems Development Project (3 Credits)

Prerequisites: ISM 324 and ISM 325. Pre/Corequisite: ISM 427. Implementing business objects and use cases in projects. Object persistence, object collaboration, and controller and UI designs are discussed. (Formerly 6500:428)

ISM:488 Internship in Information Systems (3 Credits)

Prerequisite: Permission of department chair or designated faculty member. On the job experience with public or private sector organizations. (Formerly 6500:488)

Supply Chain and Operations Management (SCM)**SCM:330 Principles of Supply Chain and Operations Management (3 Credits)**

Prerequisite: Completion of 32 credit hours. An overview of the terminology, fundamental concepts and scope of responsibility encountered in the fields of supply chain and operations management. (Formerly 6500:330)

SCM:333 Supply Chain and Operations Analysis (3 Credits)

Prerequisites: MGMT 304 and SCM 330. Application of quantitative models in the analysis and design of systems in the supply chain and in manufacturing and service operations environments. (Formerly 6500:333)

SCM:334 Service Operations Management (3 Credits)

Prerequisite: SCM 330. An overview of the fundamental terminology, principles, concepts and problem solving methods encountered in the contemporary field of service operations management. (Formerly 6500:334)

SCM:390 Supply Chain Modeling and Decision Making (3 Credits)

Prerequisites: [ACCT 250 or admission to the College of Engineering with 48 credit hours completed], MGMT 304, and SCM 330. Spreadsheet based, example-driven approach to develop models and methodologies for supply chain analysis and decision making. (Formerly 6500:390)

SCM:421 Operations Research (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college and SCM 330. Examines the use of operations research techniques in managerial decision-making processes; constrained linear optimization, non-linear optimization, network analysis, queuing theory, simulation. (Formerly 6500:421)

SCM:433 Supply Chain Logistics Planning (3 Credits)

Prerequisites: Admission to a major in a 4-year degree granting college and SCM 330. Emphasizes the importance of planning in the development of the domestic and global supply chain logistics system that includes transportation, inventory, warehousing and procurement. (Formerly 6500:433)

SCM:434 Production Planning & Control (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, upper level standing, and SCM 333. Coverage of materials management, production planning, scheduling and control. Integrates material from previous courses, provides overall framework including use of computer and quantitative methods. (Formerly 6500:434)

SCM:435 Quality Management & Control (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, upper level standing, and SCM 330. Emphasis on statistical techniques essential to controlling product quality for both measurement and attribute data. Includes control chart methods and acceptance sampling plans. (Formerly 6500:435)

SCM:475 Supply Chain Operations Strategy (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, MGMT 302, ISM 310, SCM 333, and SCM 390. Pre/Corequisites: SCM 433 and SCM 476. Capstone course integrating supply chain concepts to solve real world supply chain problems primarily using a case study approach. (Formerly 6500:475)

SCM:476 Supply Chain Sourcing (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college and SCM 330. Introduces the student to fundamental sourcing concepts as well as the scope of responsibility and critical roles of the sourcing function within the principal organization in a supply chain network. (Formerly 6500:476)

SCM:479 Operations Simulation (1 Credit)

Prerequisites: Must be admitted to a major in a 4-year degree granting college and SCM 333. Simulation of operations management practices through computerized or experiential exercises. (Formerly 6500:479)

SCM:486 Internship in Supply Chain/Ops (3 Credits)

Prerequisite: Permission of department chair or designated faculty member. On the job experiences with public or private sector organizations. (Formerly 6500:486)

Human Resource Management (HRM)

HRM:341 Human Resource Management (3 Credits)

Prerequisite: 48 completed credit hours. Principles, policies, and practices in administering functions of recruiting, selecting, training, compensating, and appraising human resources of organizations. (Formerly 6500:341)

HRM:342 Employee and Labor Relations (3 Credits)

Prerequisite: 64 completed credit hours. Pre/Corequisite: HRM 341. Analysis of management, union and employee objectives, attitudes and strategy, as they affect conduct of business and economy. Stress placed on group assigned readings and reports. (Formerly 6500:342)

HRM:350 Fundamentals of Enterprise Resource Planning (3 Credits)

Prerequisites: ACCT 250 and 48 completed credit hours. The enterprise wide process of decreasing operating costs, rationalizing the supply chain, improving management control, and decreasing cycle time by implementing ERP based solutions (Formerly 6500:350)

HRM:441 Training and Development (3 Credits)

Prerequisites: Admission to a major in a 4-year degree granting college and HRM 341. Comprehensive study of employee training and development methods and practices including performance analysis, design, development, implementation and evaluation (Formerly 6500:441)

HRM:442 Compensation Management and Reward Systems (3 Credits)

Prerequisites: Admission to a major in a 4-year degree granting college, junior standing and HRM 341. This course focuses on the development, implementation, and assessment of a business firm's compensation and reward system. (Formerly 6500:442)

HRM:443 Human Resources Selection & Staffing (3 Credits)

Prerequisites: Upper level standing, admission to a major in a 4-year degree granting college, and HRM 341. Advanced study of selection and staffing within business organizations. Emphasis on current research and practice. Activities include projects, case studies, interaction with human resource professionals. (Formerly 6500:443)

HRM:458 Special Topics in Managerial Arbitration, Mediation & Conciliation (1-3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, upper level or graduate standing and [MGMT 321 or HRM 600 or equivalent]. Study of the various methods and mechanisms by which management can understand and deal with internal and external conflict. Six hour limit. (Formerly 6500:458)

HRM:471 Management Consulting Project (3 Credits)

Prerequisites: Admitted to the Human Resources Management major, MGMT 302, ISM 310, HRM 342, HRM 442, and HRM 443. Students develop skills in field-based management problem solving, project management, and requirements analysis under conditions of uncertainty in a collaborative interdisciplinary team environment. (Formerly 6500:471)

HRM:478 Human Resource Simulation (1 Credit)

Prerequisite: HRM 341. Simulation of human resource practices through computerized or experiential exercises. (Formerly 6500:478)

HRM:487 Internship in Human Resources (3 Credits)

Prerequisite: Permission of department chair or designated faculty member. On the job experiences with public or private sector organizations. (Formerly 6500:487)

Health Care Management (HCM)

HCM:480 Introduction to Health-Care Management (3 Credits)

Prerequisites: Must be admitted to a 4-year degree granting college and hold at minimum a junior standing or higher (Students who are required to take MGMT 201 or have completed MGMT 201 or equivalent are ineligible to take this course for credit). Introductory course for health professionals covering principles and concepts of management applied to health services organizations. For those registered for graduate credit, a major paper is required. (Formerly 6500:480)

HCM:482 Health Services Operations Management (3 Credits)

Prerequisites: Must be admitted to a major in a 4-year degree granting college, [upper level standing and MGMT 201 or HCM 480 or equivalents], or [graduate standing and HCM 681 or equivalent]. (Students who have completed SCM 330 are ineligible to take this course for credit). Application of production and operations management concepts and techniques in health services organizations. (Formerly 6500:482)

HCM:485 Special Topics: Health Services Administration (1-3 Credits)

Prerequisite: Must be admitted to a major in a 4-year degree granting college. Special topics in health services administration (e.g., management) focusing on historical and/or contemporary managerial organizational and/or policy/strategy issues as related to health-care organizations and health-care systems. Separate topics may be repeated for a maximum of six credits. For those registered for graduate credit, a major research paper is required. (Formerly 6500:485)

Business Management, BBA

Bachelor of Business Administration in Business Management (650204ZBBA)

You will earn a degree from a globally recognized business school where the programs are taught by an accomplished and dedicated faculty and are supported by a network of business executives. As a graduate, you will have leadership and collaboration competencies and be a data savvy, globally aware, enterprise thinker.

Requirements for Admission

- 2.5 average cumulative
- English Composition I and II (ENGL:111 AND ENGL:112)
- Speech requirement (COMM:105 OR COMM:106)
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210)
- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201)
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)
 - Introduction to Entrepreneurship (ENTRE:201)
 - Legal & Social Environment of Business (BLAW:220)
 - Marketing Principles (MKTG:205)

Human Resource Management, Minor Minor in Human Resource Management (650005M)

Managing human resource (HR) functions has evolved to become a key to an organization's management process. It is widely recognized that a well-functioning HR group significantly contributes to an organization's bottom-line and overall success. The 18-credit Human Resource Management (HRM) minor focuses on the systems and programs that effectively manage an organization's employees.

Human resource management (HRM) includes the set of tasks directed at effectively managing an organization's human resources. HRM professionals create and oversee the talent management systems related to compensation, benefits, career development, training, staffing and other functions. The overall objective of HRM practitioners is to structure staffing systems to recruit and retain the best talent by making an organization an employer of choice.

Human Resource Management will prepare you to pursue an exciting career as an HR professional.

Information Systems, BBA

Bachelor of Business Administration in Information Systems (650004BBA)

More on the Information Systems major (<https://www.uakron.edu/cba/undergraduate/majors/information-systems.dot>)

You will earn a degree from a globally recognized business school where the programs are taught by an accomplished and dedicated faculty and are supported by a network of business executives. You can major in a wide variety of interesting disciplines that are attractive to prospective employers. As a graduate, you will have leadership and collaboration competencies and be a data savvy, globally aware, enterprise thinker.

Requirements for Admission

- 2.5 average cumulative
- English Composition I and II (ENGL:111 & ENGL:112)

- Speech requirement (COMM:105 or COMM:106)
- College Algebra (MATH:145) or Calculus with Business Applications (MATH:210)
- Principles of Microeconomics (ECON:200) or Principles of Macroeconomics (ECON:201)
- One of the following courses:
 - Accounting Principles I (ACCT:201)
 - Spreadsheet Modeling & Decision Analysis (ACCT:250)
 - Introduction to Entrepreneurship (ENTRE:201)
 - Legal & Social Environment of Business (BLAW:220)
 - Marketing Principles (MKTG:205)

The following information has official approval of **The Department of Management** and **The College of Business Administration**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program (CCP) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Sport Business, BBA

Bachelor of Business Administration in Sport Business (650110BBA)

The BBA in Sport Business degree prepares students to answer important questions that arise in sport business. Core competencies include critical thinking and communication skills as well as a broad understanding of business administration-related coursework as it relates to the sport industry. Students gain experience in applying business concepts in sport-specific settings which culminates with a consulting project. Upon completion of the program, students can expect job opportunities in varying roles in professional, intercollegiate, and community sport organizations.

¹ Admission to a major in a four-year degree granting college, and SCM:330. Students not in a four-year degree granting major may petition to the College of Business Advising Office to take the course without the prerequisites.

Supply Chain Management, Minor Minor in Supply Chain Management (650203M)

Supply Chain Management is the coordination and integration of the activities that procure materials and services, transform them into intermediate and final products, and deliver them to the customer. It involves the management of:

- the flow of materials and products;
- the flow of money;
- the flow of information;
- relationships among the organizations comprising the supply chain.

The overall goal of supply chain/operations management is to impact the organization's bottom-line in a positive way while delivering the best services to customers at the lowest possible cost.

The 18-credit Supply Chain/Operations Management Minor helps students begin to understand the is the coordination and integration of the activities that procure materials and services, transform them into intermediate and final products, and deliver them to the customer – processes at the heart of the discipline. The overall goal of supply chain/operations management is to impact an organization's bottom-line in a positive way while delivering the best services to customers at the lowest possible cost.

College of Business room 260

The following information has official approval of **The Department of Management** and **The College of Business**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Three year accelerated option: for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus Program \(CCP\)](#) courses. Credits for qualifying AP scores or [CCP](#) courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

Marketing

Marketing is about the creation of value

Ultimately, great marketing is about creating customer commitment to the products, services, causes or ideas that one produces. The discipline is built on learning the core practices associated with bringing a product, service, or idea to market including product design and development, distribution, promotion and pricing. It also focuses on how to keep products competitive through market research, branding, customer service, innovation and promotion, including digital, social media and traditional advertising. A well developed marketing strategy, which puts the customer first, will improve any organization, including for profit firms, not-for-profit organizations and government agencies.

Individuals with a marketing degree, may become marketing managers responsible for all marketing related activities of the firm. Still others may specialize in one specific area such as sales, digital marketing, advertising and promotion, brand management, product development,

marketing research & analytics, customer relationship management, or media management.

Focus on Experiential Learning

Through strong connections with alumni, advisory board members and local businesses, students are provided experiential learning that will allow them to "hit the ground running". This may include developing and analyzing a customer survey, conducting a focus group on a new product, running an eye tracking study to determine the best promotion campaign or designing a social media campaign, to introduce a new product. Students are given multiple classroom opportunities to help solve real marketing issues. Thus students are exposed to both theory and practice through courses that focus on "what to do," and "how to do it". The program also includes a semester long senior capstone experience with a firm, and internships and professionally taught specialty courses on state-of-the-art marketing practices taught by local experts.

State of the Art Facilities

The Marketing Department has state of the art facilities through the Suarez Behavioral Research Laboratory, Fisher Institute for Professional Selling (p. 693) and the Gary and Karen Taylor Institute for Direct Marketing (p. 693). These facilities provide students opportunities for putting into practice their classroom learning. For example, sales students practice and receive feedback through video taping of sales role plays and sales negotiations, while marketing research classes utilize the focus group facilities, eye tracking equipment and survey software in the computer laboratories to conduct marketing research.

Requirements

Students must meet all requirements of:

- General Education Program
- College of Business Core Program
- Foundation courses within the Marketing program
- Professional experiences component of the program
- All other requirements of the major

Students may also pursue a dual major or a minor. By adding a limited number of credit hours, students could for example, pursue a double major in sales and marketing, or add a minor in international business.

Check with your College of Business advisor to determine the specific requirements for the double major or minor of your choice.

- Health Care Selling, Certificate (p. 423)
- Marketing, BBA (p. 424)
- Marketing, Minor (p. 426)
- Professional Selling for Engineering Majors, Certificate (p. 427)
- Professional Selling, Certificate (p. 427)
- Professional Selling, Minor (p. 428)
- Sales Management, BBA (p. 429)

Marketing (MKTG)

MKTG:205 Marketing Principles (3 Credits)

Prerequisite: 24 hours of college credit. Pre/Corequisite: ECON 200 or ECON 244. A general survey of marketing activities including analysis of markets, competition, consumer behavior, information systems, and the assessment of product, price, distribution, and promotion strategies. (Formerly 6600:205)

MKTG:335 Marketing Research (3 Credits)

Prerequisites: MGMT 304 and [MKTG 205 with a grade of C or better]. Student will gain hands-on experience in the understanding and use of appropriate tools and techniques for conducting, analyzing and presenting information to assist in marketing strategy. Tools used include focus groups, survey construction, and biometric studies. Includes problem definition and solution focused approaches to marketing research decisions. (Formerly 6600:335)

MKTG:336 Marketing Research Lab (1 Credit)

Prerequisites: MGMT 304 and MKTG 205. Corequisite: MKTG 335. Students will gain hands-on experience in the understanding and use of appropriate tools and techniques for analyzing and presenting information derived from marketing databases. Includes problem definition and solution approach to marketing research decisions. (Formerly 6600:336)

MKTG:355 Consumer Behavior (3 Credits)

Prerequisites: [MKTG 205 or COMM 133] with a grade of C or better. Interdisciplinary approach to the analysis of the nature of consumer buying behavior. Economical, social, and psychological influences on consumers' decision-making processes are examined. (Formerly 6600:355)

MKTG:375 Marketing & Sales Analytics (3 Credits)

Prerequisite: MKTG 335. Develop the skills to provide clients with actionable marketing intelligence gleaned from the customer, sales force, channel, promotion and competitor databases that are now pervasive in the business world. (Formerly 6600:375)

MKTG:385 Data Visualization (1 Credit)

Prerequisites: ACCT 250, MGMT 304 and admission to a 4 year degree granting program. This course introduces data literacy and will be focused on the use of data visualization tools. You will learn the nature of data across different domains and the concepts and skills of data visualization by understanding, questioning and problematizing how data are generated, analyzed, and used. You will also learn how to visualize your own data, interpret the findings and tell a story with data in a compelling fashion for decision making.

MKTG:432 Integrated Marketing Communications (3 Credits)

Prerequisites: Must be admitted to a 4 year major, MKTG 205 with a grade of C or better, and MKTG 355. This course stresses the need for marketers to create consistent coordinated communication programs using all elements of the promotion mix including advertising, public relations, sales promotion, social media and personal selling. (Formerly 6600:432)

MKTG:434 Digital Marketing (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college, MKTG 205, and MKTG 432. Focuses on the planning and execution of the promotion mix in the digital environment through online and mobile advertising, sales promotion, social media, blogging, website design and SEO. (Formerly 6600:434)

MKTG:440 Brand Management (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college, [MKTG 205 or COMM 133 with a grade of C or better], and MKTG 355. This course studies the process of building and evolving successful brands. It focuses on brand equity development by creating a distinct brand identity, impeccable brand integrity and emotional resonance. It also emphasizes brand evolution through incremental and radical innovation. (Formerly 6600:440)

MKTG:446 Social Media Marketing (3 Credits)

Prerequisites: Must be admitted to a four-years degree granting college, MKTG 205, and MKTG 355. Examines strategies used for marketing within social media. Topics include analytics and tactics to design, manage and optimize consumer engagement and commerce. (Formerly 6600:446)

MKTG:460 B2B Marketing (3 Credits)

Prerequisites: Must be admitted to a four year degree granting program, and [MKTG 205 or COMM 133] with a grade of C or better. This course provides a thorough grounding in industrial and business-to-business marketing. While many of the concepts are similar to those used in consumer marketing, there are major differences. This course will explore both the similarities and the differences. (Formerly 6600:460)

MKTG:486 Internship in Marketing (3 Credits)

Prerequisites: Must be admitted to a 4-year degree granting major and permission of department chair. On-the-job experience with public or private sector organizations in the field of marketing. On-the-job learning objectives are established by the sponsoring organization and approved by the department chair. Field experiences are augmented by a weekly diary, two reflection papers, and an oral presentation of their experiences, which are supervised and evaluated by the department chair. (Formerly 6600:486)

MKTG:488 Internship in Integrated Marketing Communications (3 Credits)

Prerequisite: Permission of department chair. On the job experience with public or private sector organizations in the field of marketing. On the job learning objectives are established by the sponsoring organization and approved by the department chair. Field experiences are augmented by the weekly diary and term paper, which are supervised and evaluated by the department chair. (Formerly 6600:488)

MKTG:491 Professional Workshops in Marketing (1-3 Credits)

Prerequisites: Sophomore status and be admitted to a 4 year degree granting college. Special topics in marketing taught primarily by professionals with the objective of adding depth and an applied perspective to marketing concepts, issues, software & databases, problem solving and career planning. Special emphasis is given to timely issues and new technologies required by the rapidly changing marketplace. (May be repeated for up to six credits.) (Formerly 6600:491)

MKTG:494 Professional Insights: Marketing Management (1 Credit)

Prerequisites: Junior status and be admitted into a four year degree granting college. Marketing Management is designed to link marketing management majors' academic learning to professional practice. Guest speakers, recognized experts in their field, share important lessons in marketing management and challenge students to address key issues in their profession. (Formerly 6600:494)

MKTG:495 Professional Insights: IMC (1 Credit)

Prerequisites: Junior status and be admitted into a four year degree granting program. IMC is designed to link Integrated Marketing Communication majors' academic learning to professional practice. Guest speakers, recognized experts in their field, share important lessons in IMC and challenge students to address key issues in their profession. (Formerly 6600:495)

MKTG:496 Special Topics: Marketing (1-3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college and MKTG 205. (May be repeated for a total of three credits) Provides an opportunity to examine special topics and/or current issues in the fields of marketing, sales retailing or advertising. (Formerly 6600:496)

MKTG:499 Marketing Capstone Project (3 Credits)

Prerequisites: Admission to the Marketing or Sales Management program, SALES 275, MKTG 335, MKTG 355, and MKTG 375. The class works with a client to assist them in solving a specific marketing issue (product, price, distribution and promotion) and develop complementary integrated marketing communication and sales force plans. Student teams will conduct secondary and primary research to develop and make marketing and sales management strategic recommendations. (Formerly 6600:499)

Sales (SALES)**SALES:275 Professional Selling (3 Credits)**

Builds communication skills while learning about buyer needs, persuasion and social influence, prospecting, making sales presentations, persuading, overcoming sales resistance, closing sales and building relationships. (Formerly 6600:275)

SALES:475 Business Negotiations (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college, 25 credits, and SALES 275. Examines business negotiation principles and practices, and builds skills in the process of negotiating business agreements within a global environment. (Formerly 6600:475)

SALES:478 Advanced Professional Selling (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college and SALES 275. Broadens students understanding of the sales process looking at complex sales and solutions selling. Intense lab work focusing on communication skills, asking the right questions to fully understand needs, helping client turn implicit needs into explicit needs, conducting B2B and complex negotiations, and understanding how to create win-win solutions. (Formerly 6600:478)

SALES:480 Sales Management (3 Credits)

Prerequisites: Must be admitted to a major in a four-year degree granting college and [COMM 101 or MKTG 205]. Develops analytical and managerial skills through case studies and other learning activities relating to the organization, selection, training, motivation, and control of a domestic or global sales force. (Formerly 6600:480)

SALES:487 Internship in Sales Management (3 Credits)

Prerequisite: Permission of department chair. On-the-job experience with public or private sector organizations in the field of marketing. On-the-job learning objectives are established by the sponsoring organization and approved by the department chair. Field experiences are augmented by a weekly diary and a term paper, which are supervised and evaluated by the department chair. (Formerly 6600:487)

SALES:493 Professional Insights: Sales Management (1 Credit)

Prerequisites: Junior standing or higher and admission into a 4 year degree program. Sales Management is designed to link sales management majors' academic learning to professional practice. Guest speakers, recognized experts in their field, share important lessons in professional selling and sales management and challenge students to address key issues in their profession as preparation for an internship and career. (Formerly 6600:493)

Health Care Selling, Certificate

Certificate in Health Care Selling (660108C)

The 15-credit Certificate in Health Care Selling program provides students an opportunity to develop and document an understanding of selling within the health care industry, an important industry that

accounts for approximately 12 percent of U.S. economic activity. This certificate is ideally suited for students in **Allied Health Administration**, those in Exercise and Nutrition Science, Nursing, or any other allied health area. This certificate will prepare those interested in pursuing careers in selling pharmaceutical, medical supplies and home health care equipment, or those interested in pursuing administrative roles in which they would be selling other health care products and services.

Sales Management, BBA

Bachelor of Business Administration in Sales Management (660101BBA)

More on the Sales Management major (<https://www.uakron.edu/cba/undergraduate/majors/sales.dot>)

The University of Akron's Sales Management Program, established in 1994, is the 2nd oldest such program in the United States. The [placement rate of our sales students is nearly 100%](#), with some of the highest starting salaries among business graduates. Graduates are working in diverse sectors including medical device sales, insurance sales, financial services, consumer packaged goods market, industrial equipment, software sales and services, and technical sales. Sales Management Careers are a high growth area both nationally and within the State of Ohio (<http://omj.ohio.gov/OMJResources/State-BachOpenings.stm>). Experts estimate that sales professionals account for 10 percent of U.S. employment, with a projected annual growth of 9%.

With one of the largest collegiate sales training facilities in the country, our sales management program has been recognized nationally and is accredited through the University Sales Center Alliance (<https://www.universitiesalescenteralliance.org/>), a consortium connecting sales faculty to share best practices and expertise. We also offer a minor in Professional Selling and certificate programs in Professional Selling, Sales for Engineering students, and Health Care Selling.

The Sales Program is supported by The Fisher Institute for Professional Selling (p. 693), which houses our nine state-of-the-art sales training lab rooms, permitting students to augment traditional learning approaches with extensive sales and negotiation role playing and feedback. Additional support is offered through our Fisher Executive Advisory Board, giving students excellent access to professional networking, mentoring, internships and career opportunities.

College of Engineering and Polymer Science

The College of Engineering and Polymer Science (CEPS) provides educational opportunities at both the undergraduate and graduate levels for students who wish to pursue careers in engineering, engineering technology, computing, and polymer science. Faculty perform research with the purpose of contributing new knowledge to the fields encompassed by engineering principles. Professional service is in concert with the objectives of the University.

The College's co-operative education program, one of the oldest in the nation, enables student engineers to integrate classroom learning with on-the-job experience while they earn their degrees. Students can alternate semesters of paid employment in their major fields of interest with semesters on campus after they have completed five semesters of study.

College Admission Requirements

All students who meet the minimum requirements for admittance (<https://www.uakron.edu/admissions/undergraduate/who-are-you/new-freshman/requirements/>) into The University of Akron and intend to pursue a major offered by the College are accepted into the College to work towards the major. Program-specific requirements must be met before taking upper-level coursework for the major; these requirements are based on successful completion of early foundational courses for the major, and are set to ensure that a student is well prepared for success in the major. Some programs require that students achieve certain minimum GPAs, minimum grades in foundational courses, or other early milestones before taking upper-level coursework.

Academic Standing in the College of Engineering and Polymer Science

A student's term GPA, cumulative GPA, and progress toward degree determine whether a student is in good academic standing in the College.

Evaluation of status is updated at the end-of-term. Students not in good academic standing in the College may be on placed on probation or suspension, or dismissed from the College of Engineering and Polymer Science. Specific details on the process are found at College of Engineering and Polymer Science Academic discipline (probation, suspension, and dismissal) policy (<https://www.uakron.edu/engineering/docs/College%20of%20Engineering%20Academic%20Probation%20and%20Dismissal%20Fall%202018.pdf>).

Students are also subject to University of Akron probation and dismissal policies (p. 673).

Students on College and / or UA academic probation may not register for classes without first consulting their College academic advisor to agree and document an approved group of courses. Students on academic

probation, suspension, or dismissal have enrollment holds placed on their account to prevent registration until they have worked with their advisor.

Requirements for Graduation

- Compliance with University requirements (p. 677)
- Completion of all degree requirements for the specific program, including completion of the appropriate list of courses, completion of a required minimum number of credits, and achievement of required minimum GPAs (both overall and program-specific).
- Recommendation of the student's department

Accreditation in the College of Engineering and Polymer Science

Engineering is a profession in which knowledge of mathematics and natural sciences, gained by study, experience, and practice, is applied, with judgment, to develop ways to economically utilize the materials and forces of nature for the benefit of mankind. Entrance to the engineering profession is normally through a university undergraduate program in one of the disciplines of engineering and engineering technology.

Accreditation ensures that the graduates of our programs have a solid educational foundation and are ready to enter the profession. More on the importance of accreditation in engineering can be found here (<http://www.abet.org/accreditation/what-is-accreditation/why-abet-accreditation-matters/>).

Engineering

The College is home to eight undergraduate Bachelor of Science programs accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>): Aerospace Systems Engineering, Biomedical Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Corrosion Engineering, Electrical Engineering, and Mechanical Engineering.

Engineering Technology

The College is home to three undergraduate Bachelor of Science programs accredited by the Engineering Technology Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>): Construction Engineering Technology, Electrical and Electronic Engineering Technology, and Mechanical Engineering Technology.

Surveying and Mapping

The College's Associate of Applied Science in Land Surveying and Bachelor of Science in Surveying and Mapping programs are accredited by the Applied and Natural Science Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

Cooperative Education

The cooperative education program provides for a coordinated sequence of alternating periods of classroom instruction and employment during a five-year program. Students in many of the Engineering and Polymer Science's undergraduate programs may pursue their degree with the cooperative education option, for a nominal five years of study, or without cooperative education, for a nominal four years of study. The exception is Aerospace Systems Engineering; in this program, cooperative education is required.

The cooperative education program simultaneously provides for the development of fundamental principles in the classroom and for their application in practice. The student has the opportunity to find the type

of work and organization in which the student can best apply individual ability. The student gains an appreciation of the problems of labor and management by first-hand experience. The student develops mature judgment by coping with everyday problems. The employer of a co-op student has the ability to train and select a student whose abilities and aptitudes can be adapted to the needs of technical staff requirements.

While a student is at work, all rules and regulations prescribed by the employer must be obeyed. In addition, the student is subject to all current labor laws and conditions. The student is considered a full-time student by the University while on industrial assignments.

The University does not guarantee employment, but makes every effort to place a student in the best learning situation that is consistent with the acquisition of sound professional experience.

Department of Biomedical Engineering

Cooperative Education, College of Engineering and Polymer Science Certificate in Cooperative Education, College of Engineering and Polymer Science (40001C)

The College of Engineering and Polymer Science's cooperative education program, one of the oldest in the nation, enables students in qualifying majors offered by the College to integrate classroom learning with on-the-job experience while they earn their degrees. Students enrolled in this certificate program can alternate semesters of paid employment in their major fields of interest with semesters of study towards their Bachelor of Science degree.

Students must earn this certificate at the same time as a Bachelor of Science degree offered by the College of Engineering and Polymer Science. Students are eligible to start the required cooperative education

work terms when they have successfully completed the first half of the junior year core classes required for their program.

The following information has official approval of the **College of Engineering and Polymer Science**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

Required Courses

Code	Title	Hours
GNEN:301	Cooperative Education Work Period	0
GNEN:302	Cooperative Education Work Period	0
GNEN:403	Cooperative Education Work Period	0

Biomedical Engineering

The Department of Biomedical Engineering (<https://www.uakron.edu/engineering/BME/>) offers an undergraduate program leading to the Bachelor of Science in Biomedical Engineering. The department also offers graduate programs leading to a Master of Science in Biomedical Engineering, and an interdisciplinary Doctor of Philosophy in Engineering.

Information specific to the available program options in biomedical engineering is available:

- Biomedical Engineering, BSBE (p. 436)

Biomedical Engineering is a highly interdisciplinary field of engineering which combines a fundamental understanding of engineering principles with an appreciation of the life sciences. Biomedical Engineers are prepared to solve problems in the health care industry and interact equally with other engineers and health care professionals. Students are prepared to embark on careers in research, design and development of medical devices, instrumentation, analysis tools, clinical evaluation methods, systems and processes, and other forms of medical technology.

The development of an in-depth understanding of the fundamentals of engineering is essential and therefore a degree in Biomedical Engineering focuses first on core engineering coursework, followed by advanced applications specific to the field of Biomedical Engineering. To maintain a core understanding of engineering, the program is divided into three tracks: Biomechanics; Instrumentation, Signals and Imaging; and Biomaterials and Tissue Engineering.

Students in the Department of Biomedical Engineering receive individual advising in their areas of interest. Graduates of the program will be prepared to apply their knowledge of engineering and medicine to design, test and evaluate systems or system components to be used in the health care industry, to design and develop research projects, including the analysis and interpretation of data and the dissemination of results, and to participate in other biomedical engineering problem solving activities. Graduates will also be well prepared to enter graduate study in Biomedical Engineering, Medical School or other professional professionals.

The Biomedical Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org/>). The Biomedical Engineering program identifies program educational objectives that describe what their graduates are expected to attain within a few years of graduation. Accordingly, the educational objectives

of the Biomedical Engineering program are to educate biomedical engineers who can:

- be viewed as technically competent at the interface between engineering and medicine as evidenced by:
 - creative and innovative problem solving
 - performance as a contributing team member
 - ethical and professional actions
 - an ability to interface with diverse constituencies
 - a knowledge of intellectual property and federal regulations
- exhibit continual professional development by attendance at conferences, workshops and enrollment in course work at the post baccalaureate level
- exhibit continual professional service as evidenced by:
 - active participation in professional societies
 - service as a mentor
- advance on their chosen career path

The Department of Biomedical Engineering has established the following student outcomes to be achieved by the time of graduation:

- (1) an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
 - (2) an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
 - (3) an ability to communicate effectively with a range of audiences
 - (4) an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
 - (5) an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
 - (6) an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
 - (7) an ability to acquire and apply new knowledge as needed, using appropriate learning strategies
- (A) Applying principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations) and statistics
 - (B) Solving bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems
 - (C) Analyzing, modeling, designing, and realizing bio/biomedical engineering devices, systems, components, or processes
 - (D) Making measurements on and interpreting data from living systems

Biomedical Engineering (BMEN)

BMEN:100 Introduction to Biomedical Engineering (1 Credit)

Introduction to Biomedical Engineering and resources available on campus for academic and career success. (Formerly 4800:100)

BMEN:101 Tools for Biomedical Engineering (2 Credits)

Pre/Corequisite: MATH 221 or appropriate AP score for Calculus placement. Introduction to logic and problem solving using the Matlab environment; engineering drawing and graphics using Solidworks with specifics emphasis on biomedical engineering problems. (Formerly 4800:101)

BMEN:111 Introduction to Biomedical Engineering Design (3 Credits)

Prerequisite: BMEN 101. Prerequisite or Corequisite: MATH 222. Introduction to the interdisciplinary nature of Biomedical Engineering research and design through the use of lectures, discussions, homework and design projects. (Formerly 4800:111)

BMEN:201 Biomedical Engineering Sophomore Seminar (1 Credit)

Prerequisites: BMEN 101 and sophomore or greater standing. A seminar format to allow students to learn about current research and careers in Biomedical Engineering. Topics in technical communications will also be covered. (Formerly 4800:201)

BMEN:220 Biomedical Computing (3 Credits)

Prerequisites: MATH 223, BMEN 101 and admission to an engineering major within the College of Engineering and Polymer Science. Corequisite: MATH 335. Programming in Matlab environment to solve engineering problems using built-in and user-defined functions and various modules including signal processing and image processing. Concepts will be illustrated using relevant biomedical engineering examples. (Formerly 4800:220)

BMEN:291 Biomedical Engineering Design Principles I (1 Credit)

Prerequisite: BMEN 101. Corequisite: MATH 222. Introduction to basic BME design principles including: the engineering design process and additive manufacturing for devices. (Formerly 4800:291)

BMEN:292 Biomedical Engineering Design Principles II (1 Credit)

Prerequisite: BMEN 101. Corequisite: MATH 335. Introduction to basic BME design principles including: the engineering design process, medical device regulations/standards and subtractive manufacturing for devices. (Formerly 4800:292)

BMEN:300 Biomaterials (3 Credits)

Prerequisite: Admission to an engineering major within the College of Engineering and Polymer Science. Properties of materials used in medicine and their interaction with biological materials will be discussed. Biocompatibility issues and materials properties and characterization will also be discussed. (Formerly 4800:300)

BMEN:305 Introduction to Biophysical Measurements (4 Credits)

Prerequisites: BMEN 101 and [ELEN 231 or ELEN 307] and admission to an engineering major within the College of Engineering and Polymer Science. Corequisite: BIOL 202. Biomedical Engineering involves measurement of Physiological processes in living organisms. An understanding of the variety of instruments used and the limitations are introduced. (Formerly 4800:305)

BMEN:307 Bioelectronics Lab (1 Credit)

Prerequisite: Admission to Biomedical Engineering. Pre/Corequisite: ELEN 307. Introduction to circuit principles as applied to biomedical instrumentation including: components, measurement instrumentation, power supplies, and prototype boards. Students will design, build, and troubleshoot basic biomedical circuits, take measurements, and analyze the outputs. (Formerly 4800:307)

BMEN:310 Modeling & Simulation of Biomedical Systems (3 Credits)

Prerequisites: MATH 335, BMEN 220, and admission to an engineering major within the College of Engineering and Polymer Science. Modeling and simulation of physiological systems. (Formerly 4800:310)

BMEN:315 Biomechanics & Biomaterials Lab (2 Credits)

Prerequisite: Admission to Biomedical Engineering. Pre/Corequisites: BMEN 300 and BMEN 365. Laboratory experience that applies concepts and practices in biomechanics and biomaterials. (Formerly 4800:315)

BMEN:325 Design of Medical Devices (3 Credits)

Prerequisites: Junior/senior standing in the College of Engineering and Polymer Science or the College of Arts and Sciences. Design of Medical Devices, design criteria, human factors, patient care and monitoring devices, surgical devices, bench testing and legal liability. (Formerly 4800:325)

BMEN:360 Biofluid Mechanics (3 Credits)

Prerequisites: MATH 335, CHEM 153, PHYS 292, and MECE 203. Introduction to the fundamentals of fluid mechanics and their application to biological, cardiovascular, respiratory and other biofluid systems. (Formerly 4800:360)

BMEN:362 Transport Fundamentals for Biomedical Engineering (3 Credits)

Prerequisite: MATH 335, MECE 203 and admission to an engineering major within the College of Engineering and Polymer Science. Introductory topics in fluid, heat, and mass transfer including both integral and differential analysis as it applies to biological and biomedical systems. (Formerly 4800:362)

BMEN:365 Mechanics for Biological Systems (3 Credits)

Prerequisites: Admission to Biomedical Engineering and CIVE 201. This course addresses biomechanics, with an emphasis on reviews of statics and introduction to strength of materials that are relevant to biological systems. This course will give you the opportunity to understand how mechanical engineering principles are applied to physiology and physiopathology (medical problems). (Formerly 4800:365)

BMEN:370 Biomechanics of Human Movement (3 Credits)

Prerequisites: BIOL 202 and MECE 203. The application of engineering mechanics and anatomy to study and analyze human movement. Lectures and in-class labs will introduce students to experimental and theoretical techniques. (Formerly 4800:370)

BMEN:391 Biomedical Engineering Regulatory Process (1 Credit)

Prerequisites: Admission to Biomedical Engineering and BMEN 291. Pre/Corequisite: BMEN 292. Basic BME design principles including medical device regulations and standards, FDA regulatory processes, and clinical trials. (Formerly 4800:391)

BMEN:392 BME Design Project Needs Analysis (1 Credit)

Prerequisites: Admission to Biomedical Engineering and BMEN 391. Establish problem statement/clinical need, research project, and develop proposal and timeline for project. (Formerly 4800:392)

BMEN:420 Biomedical Signal & Image Processing (3 Credits)

Prerequisites: CPEN 220 and admission to an engineering major within the College of Engineering and Polymer Science. Corequisite: BMEN 305. Introduction to the basic problems associated with biological signal and image processing applications, and appropriate approaches to dealing with them. (Formerly 4800:420)

BMEN:422 Physiological Control Systems (3 Credits)

Prerequisites: BIOL 202, MATH 335. The basic techniques employed in control theory, systems analysis and model identification as they apply to physiological systems. (Formerly 4800:422)

BMEN:430 Design of Medical Imaging Systems (3 Credits)

Prerequisites: BIOL 200, PHYS 292, ELEN 340, ELEN 353, BMEN 305 and admission to an engineering major within the College of Engineering and Polymer Science or permission of instructor. Physical principles and engineering design of medical imaging systems, with emphasis on digital radiography, computed tomography, nuclear medicine, ultrasound and magnetic resonance. (Formerly 4800:430)

BMEN:435 Image Science (3 Credits)

Prerequisites: BIOL 200, PHYS 292, ELEN 340 or by permission of instructor. Principles of image science, image performance parameters and image assessment techniques of medical imaging systems, with emphasis on digital radiography, tomographic imaging, ultrasound and magnetic resonance. (Formerly 4800:435)

BMEN:437 Physics of Medical Imaging (3 Credits)

Prerequisites: BIOL 200, PHYS 292, ELEN 353, BMEN 305. Physical principles of medical imaging modalities with emphasis on the properties, generation mechanisms and interaction of radiation with matter, physics of the image formation and optimization. (Formerly 4800:437)

BMEN:440 Advanced Biomaterials (3 Credits)

Prerequisites: BMEN 300 and admission to an engineering major within the College of Engineering and Polymer Science. The interactions between biomaterials and medical devices will be analyzed with respect to their potential fractionation of biological mechanisms. (Formerly 4800:440)

BMEN:445 Experimental Techniques in Biomaterials Tissue Engineering (3 Credits)

Prerequisite: BMEN 440. Laboratory experience that applies engineering concepts and practices to the analysis of biomaterials and tissue engineering. (Formerly 4800:445)

BMEN:450 Tissue Engineering (3 Credits)

Prerequisites: BMEN 300, BMEN 365, BMEN 362, and [BMEN 360 or CHEE 321]. This course will explore topics to successfully design tissue engineered devices. For advanced engineering students with a background in materials, mechanics, and transport phenomena. (Formerly 4800:450)

BMEN:455 Biotransport (3 Credits)

Prerequisites: BIOL 202, BMEN 220, and [BMEN 362 or CHEE 321]. With the foundations of fluid, heat and mass transfer established, this course focuses on specific biological examples of transport phenomena. (Formerly 4800:455)

BMEN:460 Experimental Techniques in Biomechanics (3 Credits)

Prerequisites: BMEN 362, BMEN 365 and admission to an engineering major within the College of Engineering and Polymer Science. Principles of testing and measuring devices commonly used for biomechanics studies. Laboratories for demonstration and hands-on experience. (Formerly 4800:460)

BMEN:464 Microfluidics for Biomedical Engineering (3 Credits)

Prerequisites: BMEN 362 or CHEE 321 or BMEN 360. This course will discuss fundamental principles of single and two phase flow of biofluids in microfluidic devices, and present the applications of lab-on-a-chip systems in BME. (Formerly 4800:464)

BMEN:470 Human Factors Engineering (3 Credits)

Prerequisite: Admission to an engineering major within the College of Engineering and Polymer Science. Reliability and human error, human capabilities and limitations, crew protection, display systems, controls and controlling actions, interface design principles, risk management, Safety and accident prevention. (Formerly 4800:470)

BMEN:485 Special Topics in Biomedical Engineering (1-3 Credits)

Prerequisite: Permission of advisor. Directed individual or group research or study in the student's field of interest. Topic subject to approval of advisor. (Formerly 4800:485)

BMEN:491 Biomedical Engineering Design I (2 Credits)

Prerequisites: [BMEN 111 or BMEN 392], BMEN 220, and [(ELEN 307 and BMEN 300 and BMEN 362 and BMEN 365) or (ELEN 340 and ELEN 360 and MECE 203 and BMEN 310)] and admission to an engineering major within the College of Engineering and Polymer Science. Pre/Corequisite: BMEN 305. The design process will be presented utilizing case studies and detailed biomedical engineering design projects. (Formerly 4800:491)
Gen Ed: - Capstone

BMEN:492 Biomedical Engineering Design II (2 Credits)

Prerequisites: BMEN 491 and admission to an engineering major within the College of Engineering and Polymer Science. The design process will be continued utilizing case studies and detailed biomedical engineering design projects. (Formerly 4800:492)

BMEN:498 Introduction to BME Research (2 Credits)

Prerequisites: Permission of instructor. Directed individual or group study in research in biomedical engineering. Course is credit/no credit. May not be repeated. (Formerly 4800:498)

BMEN:499 BME Research Project (1-3 Credits)

Prerequisites: BMEN 498, permission of instructor. Directed individual or group study in research in biomedical engineering. May be repeated. (Formerly 4800:499)

Biomedical Engineering, BSBE

Bachelor of Science in Biomedical Engineering (480001BS)

Biomedical Engineering is a highly interdisciplinary field of engineering which combines a fundamental understanding of engineering principles with an appreciation of the life sciences. Biomedical Engineers are prepared to solve problems in the health care industry and interact equally with other engineers and health care professionals. Students are prepared to embark on careers in research, design and development of medical devices, instrumentation, analysis tools, clinical evaluation methods, systems and processes, and other forms of medical technology.

The development of an in-depth understanding of the fundamentals of engineering is essential and therefore a degree in Biomedical Engineering focuses first on core engineering coursework, followed by advanced applications specific to the field of Biomedical Engineering. To maintain a core understanding of engineering, the program is divided into three tracks: Biomechanics; Instrumentation, Signals and Imaging; and Biomaterials and Tissue Engineering.

Students in the Department of Biomedical Engineering receive individual advising in their areas of interest. Graduates of the program will be prepared to apply their knowledge of engineering and medicine to design, test and evaluate systems or system components to be used in the health care industry, to design and develop research projects, including the analysis and interpretation of data and the dissemination of results, and to participate in other biomedical engineering problem solving activities. Graduates will also be well prepared to enter graduate study in Biomedical Engineering, Medical School or other professional professionals.

The Biomedical Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org/>).

The Biomedical Engineering program identifies program educational objectives that describe what their graduates are expected to attain within a few years of graduation. Accordingly, the educational objectives of the Biomedical Engineering program are to educate biomedical engineers who can:

- be viewed as technically competent at the interface between engineering and medicine as evidenced by:
 - creative and innovative problem solving
 - performance as a contributing team member
 - ethical and professional actions
 - an ability to interface with diverse constituencies
 - a knowledge of intellectual property and federal regulations
- exhibit continual professional development by attendance at conferences, workshops and enrollment in course work at the post baccalaureate level
- exhibit continual professional service as evidenced by:
 - active participation in professional societies
 - service as a mentor
- advance on their chosen career path

The Department of Biomedical Engineering has established the following student outcomes to be achieved by the time of graduation:

- (1) an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
 - (2) an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
 - (3) an ability to communicate effectively with a range of audiences
 - (4) an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
 - (5) an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
 - (6) an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
 - (7) an ability to acquire and apply new knowledge as needed, using appropriate learning strategies
- (A) Applying principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations) and statistics
- (B) Solving bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems
- (C) Analyzing, modeling, designing, and realizing bio/biomedical engineering devices, systems, components, or processes

- (D) Making measurements on and interpreting data from living systems

Requirements for Admission

All students who meet the minimum requirements for admittance into The University of Akron and intend to major in engineering or engineering technology are accepted into the College of Engineering and Polymer Science and welcome to begin study towards their intended major. Students must show success in key classes early in the program curriculum before they gain approval to take classes in the third year of the curriculum and beyond.

Cooperative Education

The Bachelor of Science in Biomedical Engineering can be combined with the Cooperative Education, College of Engineering and Polymer Science (p. 433) certificate, for a nominal five-year plan of study that includes four total years of coursework and one full year of relevant work experience. Alternatively, the Bachelor of Science in Biomedical Engineering can be earned without the certificate, with a nominal four-year plan of study.

The following information has official approval of the **Department of Biomedical Engineering** and **The College of Engineering and Polymer Science**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (DPR) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

Requirements Summary

Code	Title	Hours
	General Education Requirements (p. 652) *	21
	Math, Chemistry, and Physics	32
	Statistics	4
	Biology	12
	Ethics	3
	Engineering Core	9
	Biomedical Engineering	34
	Technical Electives	15
	Total Hours	130

* Several courses required for the major also satisfy General Education requirements. The University minimum of 36 credits are required for General Education and credit for these courses will apply to multiple requirements.

General Education Courses

Code	Title	Hours
Students pursuing a bachelor's degree must complete the following General Education coursework. Diversity courses may also fulfill major or Breadth of Knowledge requirements. Integrated and Applied Learning courses may also fulfill requirements in the major.		
Academic Foundations		12
<i>Mathematics, Statistics and Logic: 3 credit hours</i>		
<i>Speaking: 3 credit hours</i>		
<i>Writing: 6 credit hours</i>		
Breadth of Knowledge		22
<i>Arts/Humanities: 9 credit hours</i>		
<i>Natural Sciences: 7 credit hours</i>		
<i>Social Sciences: 6 credit hours</i>		
Diversity		
Domestic Diversity		
Global Diversity		
Integrated and Applied Learning		2
<i>Select one class from one of the following subcategories:</i>		
Complex Issues Facing Society		
Capstone		
<i>Review the General Education Requirements page for detailed course listings.</i>		
Total Hours		36

General Education

Several courses required for the major also satisfy General Education requirements. The University minimum of 34 credits are required for General Education and credit for these courses will apply to both.

Math, Chemistry, and Physics

Code	Title	Hours
CHEM:151	Principles of Chemistry I	3
CHEM:152	Principles of Chemistry I Laboratory	1
CHEM:153	Principles of Chemistry II	3
CHEM:154	Qualitative Analysis	2
MATH:221	Analytic Geometry-Calculus I	4
MATH:222	Analytic Geometry-Calculus II	4
MATH:223	Analytic Geometry-Calculus III	4
MATH:335	Introduction to Ordinary Differential Equations	3
PHYS:291	Elementary Classical Physics I	4
PHYS:292	Elementary Classical Physics II	4
Total Hours		32

Statistics

Code	Title	Hours
STAT:461	Applied Statistics	4
Total Hours		4

Biology

Code	Title	Hours
BIOL:111	Principles of Biology I	4
BIOL:200	Human Anatomy & Physiology I	3
BIOL:201	Human Anatomy & Physiology Laboratory I	1
BIOL:202	Human Anatomy & Physiology II	3
BIOL:203	Human Anatomy & Physiology Laboratory II	1
Total Hours		12

Ethics

Code	Title	Hours
PHIL:120	Introduction to Ethics ¹	3
or PHIL:361	Biomedical Ethics	
Total Hours		3

¹ Students should be aware that PHIL:120 can be used towards the Humanities requirement for General Education; students choosing to take PHIL:361 may need additional Humanities credits.

Engineering Core

Code	Title	Hours
CIVE:201	Statics	3
ELEN:307	Basic Electrical Engineering	4
MECE:305	Thermal Science	2-3
or MECE:300	Thermodynamics I	
Total Hours		9-10

Biomedical Engineering

Code	Title	Hours
BMEN:100	Introduction to Biomedical Engineering	1
BMEN:101	Tools for Biomedical Engineering	2
BMEN:201	Biomedical Engineering Sophomore Seminar	1
BMEN:220	Biomedical Computing	3
BMEN:291	Biomedical Engineering Design Principles I	1
BMEN:292	Biomedical Engineering Design Principles II	1
BMEN:300	Biomaterials	3
BMEN:305	Introduction to Biophysical Measurements	4
BMEN:307	Bioelectronics Lab	1
BMEN:310	Modeling & Simulation of Biomedical Systems	3
BMEN:315	Biomechanics & Biomaterials Lab	2
BMEN:362	Transport Fundamentals for Biomedical Engineering	3
BMEN:365	Mechanics for Biological Systems	3
BMEN:391	Biomedical Engineering Regulatory Process	1
BMEN:392	BME Design Project Needs Analysis	1
BMEN:491	Biomedical Engineering Design I	2
BMEN:492	Biomedical Engineering Design II	2
Total Hours		34

BME Technical Electives

Code	Title	Hours
Biomedical Electives		6
6 credits of Biomedical Engineering at the 300-400 level		
Non Biomedical Electives		6
6 credits of Engineering, Math, Biology, Chemistry or Physics at the 300-400 level		
Engineering Electives		3
3 credits of Engineering at the 200-400 level		
Total Hours		15

Biomedical Engineering electives provide the opportunity for students to personalize their degree based on their interests within biomedical engineering.

Recommended Schedule with Cooperative Education

This plan of study shows the recommended schedule for students who are also earning the "Cooperative Education, College of Engineering and Polymer Science" certificate. Together, the Bachelor of Science and certificate require a five-year plan of study. The program recommends that students earn this certificate.

1st Year

Fall Semester		Hours
BMEN:100	Introduction to Biomedical Engineering	1
CHEM:151	Principles of Chemistry I ¹	3
CHEM:152	Principles of Chemistry I Laboratory	1
BIOL:111	Principles of Biology I	4
ENGL:111	English Composition I ¹	3
MATH:221	Analytic Geometry-Calculus I ¹	4
Hours		16

Spring Semester

BMEN:101	Tools for Biomedical Engineering	2
