Students will explore their cultural food stories through narrative writing in tandem with watching/discussing the docuseries “Taste the Nation” (access to Hulu will be needed for Jan/Feb). The class will then collaborate with local food entrepreneurs and chefs to learn/write about their food stories and uses these stories to innovate how to better connect the campus community to Akron’s diverse foodscape. This course may count towards the Complex System General Education tag. | [cld37@uakron.edu](mailto:cld37@uakron.edu)
